1) Overall lending includes all credits given to Norwegian customers by domestic commercial and savings banks, state banks, insurance companies, finance companies, bonds, commercial paper and foreign institutions

2) The development in market share of lending should be seen in light of increasing volumes of other credit instruments. The market shares of domestic corporate deposit decreased over the last 12 months partly due to large clients using their liquidity for prepayments on loans.

3) Domestic savings and commercial banks

Changes in group structure

Sale of Elcon Finans AS

In the first quarter of 2004, DnB NOR Bank ASA entered into an agreement with Santander Consumer Finance on the sale of Elcon for a total of NOK 3 600 million. The sale provided a gain of NOK 977 million recorded in the first-quarter accounts. A concession for implementing the transaction was granted on 2 July 2004, and the sales price and financing items were settled in early August.

Section 2, Financial results DnB NOR Group, presents restated figures for the past five quarters, excluding profit and loss and balance sheet items relating to Elcon from the group accounts.

Sale of Gjensidige NOR Fondsforsikring AS

In May 2004, DnB NOR ASA signed an agreement with Forsikringsselskabet Danica on the sale of Gjensidige NOR Fondsforsikring AS. Danica is a subsidiary of Danske Bank. A concession for implementing the transaction was granted on 2 July 2004, and the sale was finalised in early August. The sale provided a gain of NOK 35 million in the third quarter accounts.

Sale of Postbanken Eiendomsmegling AS

In June 2004, DnB NOR Bank ASA signed an agreement with Terra-Gruppen AS on the sale of the real estate brokerages Postbanken Eiendomsmegling AS and Aktiv Eiendomsmegling AS. The agreement was approved by the board of directors in Terra-Gruppen in August. The actual takeover will not take place until 3 January 2005. As DnB NOR will carry the risk for and maintain control over operations up till this date, the companies' profits for 2004 will be recorded in the accounts of the DnB NOR Group in the usual manner.

Operations sold in connection with the merger – discontinuing operations

In the accounts for DnB NOR Group, operations in the companies required to be sold are included (see above). To facilitate analysis of operations in DnB NOR after the sales mentioned above, separate accounts for total operations in these companies have been prepared.

Operations in these companies will be included in DnB NOR's accounts until a binding sales agreement has been concluded and all substantial risk has been transferred to the purchaser. The accounts of the companies to be sold are shown below as they have been included in the DnB NOR Group's accounts. In section 3 Business areas, these companies are shown separately under the caption "Discontinuing operations". The accounts presented in section 3 are restated according to the Group's current principles for the distribution of costs and allocation of capital to the business areas. Operations in the 53 branch offices DnB NOR is required to sell are included in the business area accounts as the sale refers only to premises and equipment.

2) The number of full-time positions was reduced by 441 through the sale of Elcon on 30 March 2004, while the sale of Gjensidige NOR Fondsforsikring resulted in staff cuts of eight full-time positions in the second quarter of 2004. On the other hand, 209 full-time positions from the former jointly controlled companies Gjensidige NOR Driftspartner and Gjensidige NOR Markedsstøtte were transferred to the Group as from 1 January 2004. The net effect of these changes is a reduction of 240 full-time positions. In the third quarter of 2004 Life Insurance and Pensions established 22 full-time positions with support functions for employees taken over from Gjensidige NOR Forsikring.

Unspecified provisions in the DnB NOR Group ³⁾				3 501
Elements in the calculation as from 31 Dec. 2003:				
Provisions for probable, unidentified losses ⁴⁾	1 592	1 563	1 634	
+ Provisions for risk margins in the ordinary portfolio	1 730	1 661	1 731	
+ Supplementary provisions due to uncertainty in estimates	212	310	349	
Unspecified loan-loss provisions in the accounts	3 534	3 534	3 714	3 501

1) Pro forma excluding Elcon

2) Includes NOK 204 million in unspecified provisions from Nordlandsbanken and NOK 5 million in unspecified provisions on a portfolio of loans acquired from Gjensidige NOR Spareforsikring

3) As reported in the accounts of DnB and Gjensidige NOR respectively

4) The calculation of provisions for probable, unidentified losses is based on DnB NOR's risk management system and the division of the loan portfolio into risk categories. As from 31 December 2003 the division into risk categories is based on intervals of normalised losses only, while for previous periods the high-risk categories also included commitments with low normalised losses in cases where the loss ratio was low but combined with a high probability of default.

1) Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.

2) Calculations of capital adequacy include a total of NOK 717 million in subordinated loan capital in life insurance operations and associated companies, in addition to subordinated loan capital in the Group's balance sheet.

3) Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Group's accounts as a different consolidation method ("pro rata consolidation") is used in calculating capital adequacy.

All figures are presented in accordance with rules prevailing at the time in question.

Taxes

The DnB NOR Group's tax charge for the third quarter of 2004 was NOK 675 million, based on an anticipated average tax rate of 27 per cent of pre-tax operating profits.

Section 3

DnB NOR Group and business areas

Group strategy

Strategic platform

During the first months of 2004 more than 500 people throughout the Group were involved in a process to review the strategic platform for DnB NOR. This platform gives guidance with respect to the choice of activities, development of corporate culture and primary objectives within the Group. The strategic platform, which was approved by the Board of Directors in March 2004, provides a foundation for business areas and support and staff units in preparing their own plans for generating **growth and profitability**.

Strategic position

DnB NOR is Norway's leading financial services group, and the Group's strong position among customers in Norway represents a basis for future operations. The business idea indicates priorities:

**"A local presence and a full range of services are our strengths.
DnB NOR will be the customers' best partner and will meet their needs for financial solutions throughout Norway and in selected areas in the international arena"**

- The Group's relationships with individuals and companies in Norway are at the heart of its business and are the basis for profitable growth. We will generate added value for customers on the basis of long-term relationships based on trust. Local presence and sound solutions to the customers' financial needs, individual treatment via efficient distribution solutions and our role as their mainstay at home and abroad will contribute to this
- DnB NOR offers competitive products from the entire range of financial services and is a leading producer in strategic product areas
- DnB NOR is international customers' preferred partner in Norway
- In the international arena the Group will focus on areas in which it has a competitive edge thanks to the competence it has gained from its Norwegian operations

Common values and corporate culture

A common culture and view of leadership will be crucial to our success in creating a new way to run DnB NOR which differentiates us from other financial institutions. Our common values, **Team spirit**, **Simplicity** and **Value creation**, will guide our conduct both within the Group in developing a corporate culture and outside the Group in the way we meet the customers. A set of common characteristics distinctive to our organisation have been developed on the basis of these values.

"How we do it in DnB NOR" embodies these characteristics, which will be implemented in all units throughout the Group.

Strategic goals

The strategic platform defines our strategic goals relative to different stakeholders; customers, employees, investors and citizens. We want DnB NOR to be **the first choice** for customers looking for products or services geared to their financial needs at any time; for employees who want a demanding and varied workplace, for investors who are looking for long-term value creation and for citizens who want a financial institution that demonstrates corporate social responsibility. Fulfilment of the strategic goals will strengthen DnB NOR's position and will be closely followed up by management and the Board of Directors.

Financial targets

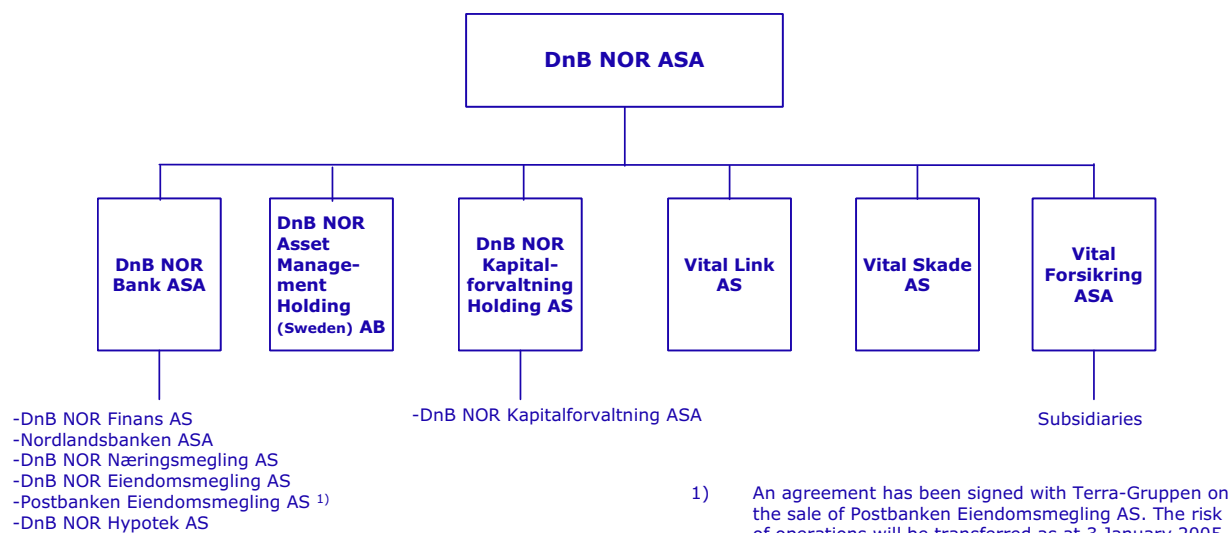

In accordance with the strategic goals, DnB NOR's financial targets aim to create shareholder value through a return on equity and appreciation of the share price which are competitive in a Nordic context. This can be expressed through the following targets:

- Return on equity should be in excess of 15 per cent after tax, but before goodwill amortisation
- Cost-income-ratio should be lower than 50 per cent after tax, but before goodwill amortisation
- The core capital ratio should be approximately 7 per cent
- DnB NOR envisages that roughly half the Group's profits should be distributed as dividends, provided that capital adequacy remains at a satisfactory level
- Rating for ordinary long-term debt should be maintained at an Aa level

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB NOR Group are organised in separate limited companies under the holding company DnB NOR ASA. Banking activities are organised in DnB NOR Bank ASA, while asset management activities are organised in two companies: DnB NOR Kapitalforvaltning Holding AS and DnB NOR Asset Management Holding (Sweden) AB. Life insurance activities in the form of traditional life and pension products are carried out by Vital Forsikring ASA, while unit linked products are offered through Vital Link AS. Vital Skade AS offers non-life insurance as part of a total product package for retail and corporate clients and operates as an agent for foreign insurance underwriters. The chart below shows the legal structure of the DnB NOR Group at end-September 2004.

DnB NOR Group - legal structure at end-September 2004

Group business structure

The activities of DnB NOR are organised into five operational business areas and four staff and support units. As independent profit centres, the business areas carry responsibility for customer segments served by the Group, as well as the products offered. The operational structure of DnB NOR deviates from its legal structure as activities in subsidiaries fall in under the business area relevant to the company's operations.

The business areas carry responsibility for specific customer segments and key distribution channels, including sales of customer products, marketing, customer service, distribution and risk assessment in addition to product development, production and product pricing. The business areas are also responsible for the most business-critical support functions and have the opportunity to influence other staff and support units in the Group.

Cooperation between the business areas is an important element in DnB NOR's strategy. A wide range of products, services and distribution channels enables the Group to offer customer solutions across business areas.

Financial targets

Differentiated financial requirements have been set for the business areas, which in combination will help the DnB NOR Group reach its financial targets.

Return on equity is the key ratio for the business areas, representing each area's profits after taxes relative to financial capital requirements. The need for financial capital is based on the risk involved in operations in accordance with DnB NOR's risk management model. In addition, differentiated financial and non-financial targets have been set for the business areas.

Internal pricing

DnB NOR's financial management model and operational organisation entail the sale of products and services between the business areas in the Group. The pricing of such intra-group transactions is regulated by internal agreements generally based on market terms.

Services provided by staff and support units will as far as possible be scaled and priced according to use. Joint expenses incurred by group staff units and other group expenditures that cannot be debited according to use, are charged to the business areas' accounts on the basis of special distribution formulas. Goodwill amortisation and costs relating to the Group's equity transactions, including strategic investments, are not charged to the business areas. Nor are the business areas charged with direct shareholder-related expenses and costs concerning the Group's governing bodies.

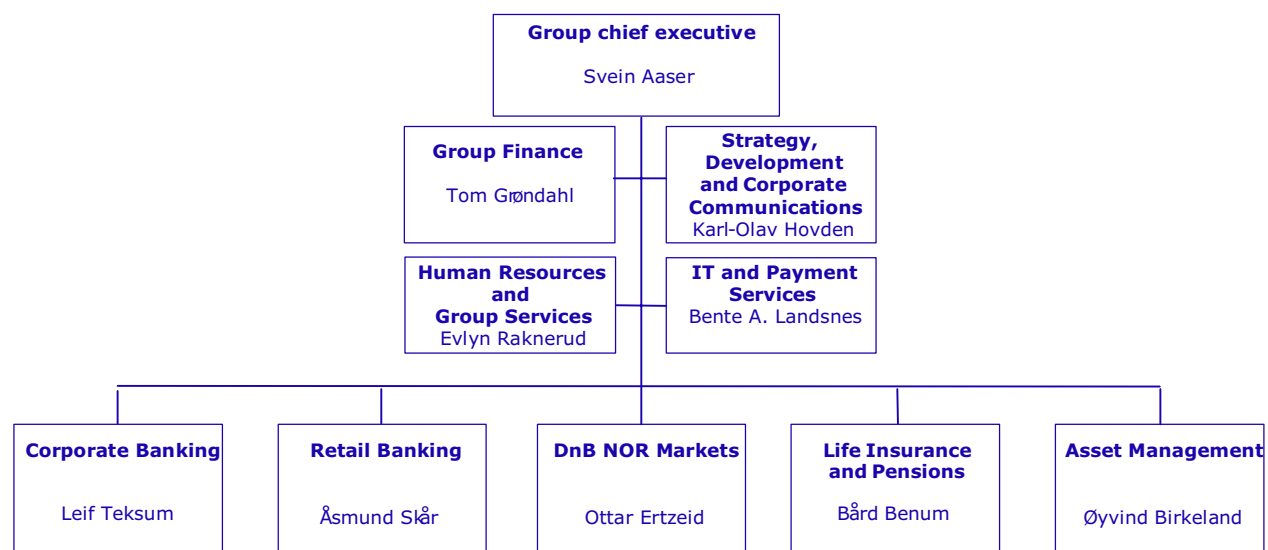

Certain customers and transactions of major importance require extensive cooperation within the Group. To stimulate such cooperation, net income relating to some of these transactions is recorded in the accounts of all relevant business areas. This refers primarily to income from customer trading in Markets. In the first nine months of 2004, such income totalled NOK 447 million. Double entries are eliminated in the group accounts. The effect of internal transactions between the Group's trading portfolio and banking portfolio are, however, not eliminated.

Sale of companies

In accordance with the terms of the authorities' concession for the merger, the DnB NOR Group was required to sell certain legal entities. This applied to Elcon Finans, Postbanken Eiendomsmegling, Aktiv Eiendomsmegling and Gjensidige NOR Fondsforsikring. All of these companies were sold or sales arranged during the first nine months of 2004.

The description of the business areas, including financial information, has been prepared as though these companies are no longer part of the Group. In the accounts for the business areas, pro forma accounts for the companies are combined under the item "Discontinuing operations".

The terms of the merger also require the sale of a total of 53 banking outlets. These sales have not been taken into consideration in the description and accounts of the business areas.

- 2) Includes IT and Payment Services, Human Resources, Group Services and Treasury. Some synergies have an overall impact and apply to all business areas. Such synergies are not allocated to specific units.
- 3) The effect is calculated on the assumption that 35 per cent of cost savings are reflected in profits to the owner.

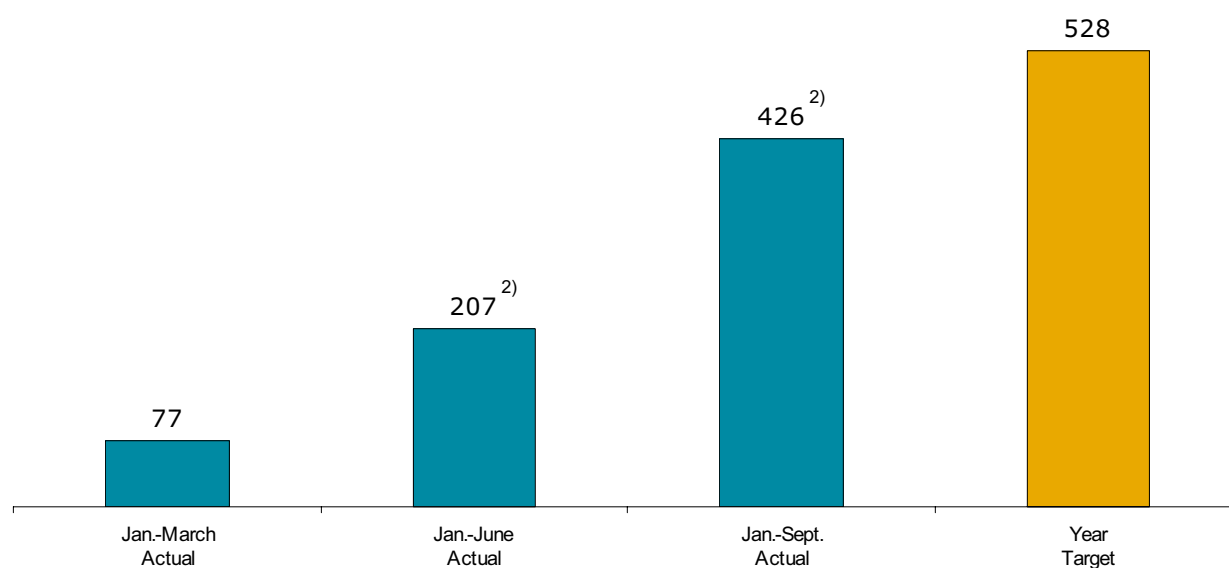

DnB NOR's cost synergy targets ¹⁾

Amounts in NOK million

- 1) Cost synergy targets are calculated on the basis of ordinary operating expenses in 2003 adjusted for 1 per cent rise in costs.

(Pro forma accounting figures prior to 31 December 2003)

Cost synergies in 2004 ¹⁾**Accumulated cost synergies per quarter ²⁾**

- Profit and loss effect 2003: NOK 93 million
- Profit and loss effect 2004: NOK 426 million

Amounts in NOK million

1) Cost synergy targets are calculated on the basis of ordinary operating expenses in 2003 adjusted for a 1 per cent rise in costs.

2) Profit and loss effects. The synergy effects and the target relating to Vital have been calculated on the assumption that 35 per cent of the cost savings are reflected in profits to the owner.

Business areas

Operating results and key financial data for main business areas

The business area accounts are based on internal management reporting to the Board of Directors and the group chief executive. In the first three quarters of 2004, the allocation of certain items between the business areas was reassessed. Figures for 2003 have been adjusted correspondingly.

(Pro forma accounting figures prior to 31 December 2003)

- 1) The DnB NOR Group's income, expenses and balance sheet volumes are allocated to the business areas. In the table above some of the income generated in DnB NOR Markets related to foreign exchange/treasury instruments, sales of securities in the primary market, as well as custodial services, is also included in the net other operating income of Retail Banking and Corporate Banking. The elimination of these double entries are included in the "Other operations" line.

The line "Other operations" can be split into the following components:

The Group Centre comprises Human Resources and Group Services, Group Staff, IT and Payment Services, Strategy, Development and Corporate Communications, investments in IT infrastructure and shareholder-related expenses. The Group Centre also holds the part of the Group's equity which is not allocated to the business areas.

Goodwill related to mergers and acquisitions initiated by the Group is not allocated to the business areas. Goodwill related to the merger between Gjensidige NOR and DnB totalled NOK 1 717 million, of which NOK 188 million referred to Elcon Finans. The remaining goodwill will generally be amortised over twenty years starting in January 2003. Goodwill related to Cresco will be amortised over eight years. After the sale of Elcon Finans annual goodwill amortisation related to the merger will amount to NOK 112 million. Goodwill related to the acquisition of Nordlandsbanken amounted to NOK 531 million and is amortised over ten years starting in January 2003. Goodwill related to the acquisition of Skandia Asset Management amounted to SEK 3 402 million and is amortised over twenty years starting in January 2002. Goodwill in Vital is amortised by NOK 25 million each quarter, ending in 2005. The amortisation of Postbanken's fair value adjustments amounts to NOK 10 million per quarter, with the major items ending in 2004. In connection with the merger between Gjensidige and Union Bank of Norway in the second quarter of 1999, goodwill totalling NOK 849 million was capitalised with an amortisation period of between five and eight years. In 2001, goodwill in the Gjensidige NOR companies totalling NOK 383 million was recorded in the balance sheet. The remaining goodwill as at 31 December 2003 was NOK 341 million, with annual amortisation of NOK 180 million.

- 2) Discontinuing operations include Elcon Finans, Postbanken Eiendomsmegling and Gjensidige NOR Fondsforsikring. On 30 March 2004, Elcon Finans was sold to Santander Consumer Finance. The company's first-quarter income and expenses are included in the table above. The sale provided a gain of NOK 977 million. Gjensidige NOR Fondsforsikring was sold to Forsikringsselskabet Danica in May 2004. The sale provided a gain of NOK 35 million in the third quarter accounts. An agreement has been signed with Terra-Gruppen AS on the sale of the real estate brokerages Postbanken Eiendomsmegling and Aktiv Eiendomsmegling AS. See chapter 1.
- 3) The figures include the average capital requirement for the period. The allocation of capital is based on DnB NOR's internal management model, which includes credit, market, insurance, liquidity and operational risk for each business area. In addition, capital is maintained to comply with statutory requirements, cover uncertainty in risk estimates and serve as a buffer to meet future needs.
- 4) BIS capital is estimated at 7 per cent of average risk-weighted volume for the business areas.
- 5) The line "other operations" includes assets managed by Asset Management on behalf of Life Insurance and Pensions, representing NOK 138.5 billion in the first three quarters of 2004 and NOK 117.4 billion in the first three quarters of 2003.
- 6) Calculations of return on equity are based on profits after taxes and allocated equity capital. The Group's return figures are profit after goodwill amortisation divided by average equity. The expected tax rate for the DnB NOR Group is 27 per cent. A 28 per cent tax rate is used for Corporate Banking, Retail Banking, DnB NOR Markets and Asset Management. The tax rate used for Life Insurance and Pensions is 15 per cent, which represents the expected tax rate.
- 7) Calculations of return on equity are based on profits after taxes and BIS capital. The expected tax rate for the DnB NOR Group is 27 per cent. A 28 per cent tax rate is used for Corporate Banking, Retail Banking, DnB NOR Markets and Asset Management. The tax rate used for Life Insurance and Pensions is 15 per cent, which represents the expected tax rate.
- 8) Restated according to new definitions.
- 9) 209 full-time positions in the former jointly controlled companies Gjensidige NOR Driftspartner and Gjensidige NOR Markedsstøtte are included as from 1 January 2004.

Corporate Banking

Corporate Banking serves the entire corporate market ranging from small and medium-sized (SME) to large companies, including the public sector and international corporates. DnB NOR holds a strong position in all segments of the domestic corporate market, and is one of the world's leading shipping banks. Market activities are organised in five divisions and two subsidiaries: DnB NOR Finans and Nordlandsbanken. The business area is headed by Leif Teksum, group executive vice president.

DnB NOR Corporate Banking aims to be the customer's best financial partner, meeting their needs for financial solutions throughout Norway and in selected sectors of the Nordic and international markets.

The domestic market is the prime target for market activities and growth. Corporate Banking also offers international services to shipping and energy clients around the globe. Further international expansion is planned within shipping, energy and certain other sectors where competitive advantages and a substantial knowledge base provide growth potential.

Comments to the financial performance for the first three quarters of 2004

- The results reflected low interest rates and negative credit growth in the overall domestic market. However, due to better risk-adjusted pricing, margins and ordinary net interest income showed substantial improvement compared with the first three quarters of 2003
- The average combined spreads was 2.21 per cent in the third quarter of 2004 compared with 2.16 per cent in the corresponding period in 2003
- Adjusted for exchange rate movements, there was a decrease of 1.5 per cent in loans and guarantees from September 2003 to September 2004
- In cooperation with DnB NOR Markets, a total of NOK 57 billion in syndicated credits was arranged for customers. Furthermore, NOK 64 billion in commercial paper and bonds were issued during the first nine months of 2004
- The average lending to customers declined by NOK 4.6 billion from the third quarter of 2003 to the third quarter of 2004. The average deposits were up NOK 6.5 billion from the third quarter of 2003 to the third quarter of 2004
- New provisions on loans and guarantees totalled NOK 784 million. Reversals on provisions totalled NOK 759 million, and recoveries amounted to NOK 77 million.
- Net other operating income was down 4.9 per cent from the first nine months of 2003. There was a positive trend in income from payments and cash handling services and in profits from associated companies and syndicated loans. Net income from leasing and factoring improved substantially. However, income growth from these areas was outweighed by reduced gains on foreign exchange, interest rate instruments and corporate finance

Customers and market development

- In the market for large Norwegian corporates DnB NOR is the leading Norwegian financial institution, offering services in New York, London, Singapore, Shanghai, Copenhagen, Stockholm, Hamburg and Helsinki in addition to the domestic market
- The bank maintained its position in the Norwegian SME market in the first nine months of 2003 acquiring 5 800 new customers, of which many were young companies. Through a wide distribution network, DnB NOR offers the customers local and regional expertise as well as national sector analysis and a broad product range
- Nordlandsbanken has enhanced DnB NOR's position in the northernmost parts of Norway. The subsidiary serves the county of Nordland and operates under the brand name Nordlandsbanken
- DnB NOR is committed to maintaining and further enhancing a strong local presence. Local management and employees have extensive pertinent expertise and are authorised to grant credits that meet the requirements of the SME segment as well as most of the larger companies
- At end-September 2004, more than 13 900 of DnB NOR's SME customers used at least one of the Group's customised service offerings
- More than 61 000 customers make use of DnB NOR's extensive range of Internet services and Internet-based financial products
- The merger has broadened the product range and increased the potential for cross selling and product penetration in the SME market in general, especially in the former Gjensidige NOR portfolio

1) Overall lending includes all credits extended to Norwegian customers by domestic commercial and savings banks, state banks, insurance companies, finance companies and foreign institutions, as well as bonds, commercial paper

2) Domestic savings and commercial banks

Source: Norges Bank, DnB NOR

- Credit growth in the domestic market moved from negative to positive during the third quarter. DnB NOR's market share in the domestic market was slightly reduced over the last twelve months. The development in market share of lending should be seen in light of increasing volumes of other credit instruments
- The market share of domestic corporate deposits decreased over the last twelve months partly due to large clients using their liquidity for prepayments on loans. The loss of market share also reflects the positive funding situation for DnB NOR

Development in risk classification ¹⁾

1) Based on DnB NOR's risk classification system where 1 represents the lowest risk and 10 the highest risk. The volume represents the expected outstanding amount in the event of default.

Organisation and distribution

Corporate Banking is organised in six divisions:

- Large Corporates Divisions 1 and 2 serve large Norwegian corporates, the public sector, international companies that do business in Norway, international customers in the oil and energy sectors as well as financial institutions
- The Shipping Division serves Norwegian and international shipping, offshore and maritime logistics companies
- Regional Division East and Regional Division Coast each serve businesses in two different segments based on geographical location:
 - Large companies with a turnover above NOK 40 million
 - Small and medium-sized enterprises with a turnover of up to NOK 40 million
- The Business Support Division in Corporate Banking consists of customer support, credit and collateral administration, marketing and internet development departments

Products

Corporate Banking offers customers a broad range of financial services, including lending, bond issues, syndicated loans, deposits, cash management, FX/treasury products, corporate finance and acquisition finance, either directly or in cooperation with DnB NOR Markets.

Through DnB NOR Markets Inc. in the US, DnB NOR offers investment banking services, including mergers and acquisitions and advisory services, to international clients, particularly in the shipping and energy sectors.

Employees

- One of Corporate Banking's competitive advantages in the domestic market is the considerable expertise of the employees with regard to local business, credit risk, customer needs and product offerings. The merger has expanded the Group's competence base and Corporate Banking is committed to its continuous development. Active knowledge management has top priority and particular emphasis has been placed on systematic specialised training in credit rating and risk and profitability analyses. Corporate Banking believes that active knowledge management will help underpin the growth strategy
- The integration of the two financial services groups is ahead of schedule in Corporate Banking
- At end-September 2004, the business area had a staff of 1 837 full-time positions, with 1 698 in Norway, of which 486 in subsidiaries, as well as 139 full-time positions in international units
- Incentive structures and balanced scorecards are tailored to the goals of the different divisions. In order to maximise performance and attract the best account managers, remuneration varies from division to division and in accordance with market rates

Cooperation with other group entities

Through extensive cooperation with other business areas and support functions in the Group, particularly within corporate finance and FX and interest rate instruments, corporate customers are offered a broad range of financial services and life insurance and pension products.

Business profile

- Serving more than 85 000 businesses divided into two segments:
 - Large companies with a turnover above NOK 40 million
 - Small and medium-sized enterprises with a turnover of up to NOK 40 million
- Service is provided by a broad regional network, as well as via telephone and the Internet

The priorities of clients served by these two divisions when choosing their bankers is local presence combined with the expertise of a major bank. DnB NOR has financial services centres throughout Norway that offer a broad range of products and services and have considerable know-how that is pertinent for the customers. DnB NOR has a sound platform for strengthening its position as the preferred provider of financial products and services for this customer segment

Business profile

- Corporate Banking in Nordlandsbanken serves corporates and the public sector in the county of Nordland, where the company holds a leading position in the corporate segment
- Nordlandsbanken aims to be the preferred financial partner among corporates in Nordland by meeting their needs for financial solutions through local expertise and as a part of a large national financial institution
- Lending volume to the corporate sector has been stable during 2004

DnB NOR Finans

- DnB NOR Finans is one of the leading finance companies in Norway, offering car financing to retail customers, as well as factoring, leasing and various other forms of financing and related services to the corporate and public sectors
- DnB NOR Finans has 14 sales offices in Norway and representation in Denmark, and cooperates closely with the bank's branch network and distribution channels
- Lending volumes increased by 7.5 per cent from the first nine months of 2003 to the corresponding period of 2004. Average net lending to customers totalled NOK 17.5 billion in September 2004

Retail Banking

Retail Banking, serving private customers and small companies under the brand names DnB NOR, Postbanken, Cresco and Nordlandsbanken, is Norway's largest retail bank. The business area is headed by Åsmund Skår, group executive vice president.

The business area aims to maintain its leading market position and stand out as the customer's best financial partner. The greatest challenge during the integration phase is to build customer confidence and strengthen customer relationships and the Group's competitiveness, while at the same time realising the synergies which underpin the DnB NOR merger.

During the first quarter of 2004, Den norske Bank and Gjensidige NOR Sparebank merged. In April 2004, the moving of 53 branches into joint premises was decided. The integration process is on schedule, and Retail Banking is ahead of target figures for the planned realisation of synergies. The first new branch with the DnB NOR profile opened on 1 June, and at the end of the third quarter another 16 branches with the DnB NOR profile have been opened.

- Satisfactory profits – return on equity 30.7 per cent
- Cost income ratio improved to 65.7 per cent
- Higher net interest income, mainly due to increased lending volume
- Stable lending and deposit spreads last quarter. Lending spreads represented 1.7 percentage points and deposit spreads 0.8 percentage points on average
- Net other operating income increased by 8 per cent due to higher income from payment services and commission income from the sale of mutual funds and insurance products
- Lending increased by 16 per cent, referring primarily to well-secured housing loans
- Deposits increased by 3 per cent
- Expenses decreased by 6 per cent through restructuring and streamlining measures
- Loan losses remained at a low level and were mainly related to consumer finance
- The volume of non-performing and doubtful commitments was at a satisfactory level

Organisation and distribution

Through Norway's largest distribution network, Retail Banking offers a wide range of financial products and services. Production, staff and support functions are largely centralised in cost-efficient joint units. The major distribution channels are:

- DnB NOR, Postbanken and Nordlandsbanken's branch offices
- The postal network
- Internet and telephone
- Investment Advisory Services

Retail Banking has a long-term cooperation agreement with Gjensidige NOR Forsikring, which among other things allows the bank to offer its customers simple non-life insurance products.

The cooperation with 16 regional savings banks involves the provision of technological solutions and distribution of the Group's products.

DnB NOR and Norway Post have a master agreement relating to the distribution of financial services through the postal network, which will remain in effect until 31 December 2005. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network.

- Postbanken and Norway Post have established joint service solutions provided through 1 196 in-store postal outlets, where customers can carry out everyday banking transactions in their local stores
- 6.3 million payment transactions were carried out through these channels during the first three quarters of 2004 vs. 8.6 million transactions for the full year 2003

New products

- 660 000 customers have agreed to receive notices such as account statements via e-mail
- Around 300 000 customers subscribe to Postbanken's loyalty programme Postbanken Leve, offering customers a range of basic banking services at favourable terms
- During 2004 joint Internet solutions will be developed for DnB NOR
- Harmonisation of the product range in the merged units has been a high priority during the last three months

Employees

- The number of full-time positions within Retail Banking totalled 4 383 at the end of September 2004. The integration plans include on a reduction in staff to around 3 900 full-time positions by the end of 2006
- To achieve the targets for restructuring and staff cuts, measures must be fully implemented. The process must be carried out in a considerate manner in close cooperation with the employee organisations. More efficient production and distribution of services through new and better IT solutions, telephone and Internet banking will reduce the number of employees in the coming years
- Changing customer needs and the introduction of new products make it vital to upgrade professional skills. This will mainly be achieved by educating and relocating the existing workforce

Cooperation with other group entities

Cross-selling of products is one of the major strengths of the DnB NOR Group. Through its distribution network Retail Banking offers:

- Asset management services (DnB NOR Asset Management)
- Life and pension insurance (Vital)
- Financial instruments (DnB NOR Markets)

Residential real estate broking

DnB NOR's real estate broking activities are coordinated in DnB NOR Eiendom AS, and the activities will be run from 59 offices when the integration is completed.

1) Management's estimates

- DnB NOR Eiendom had 82 outlets located in DnB NOR branches as at 30 September 2004
- In addition to fee income, real estate broking operations generate business in the form of residential mortgages and savings

Consumer finance

- DnB NOR's card-based services and consumer finance activities are coordinated in DnB NOR Kort (an entity within DnB NOR Bank ASA)
- Compared with the third quarter of 2003 DnB NOR Kort's lending volume increased from NOK 9 513 million to NOK 9 762 million
- Consumer finance activities showed healthy profits in the third quarter of 2004
- DnB NOR Kort is Norway's leading card issuer. As at 30 September 2004, the entity had issued more than 1.2 million credit and charge cards. Including debit cards, the DnB NOR Group had issued approximately 3.3 million cards

Non-life insurance

Vital Skade was the first company in Norway to develop a totally integrated virtual insurance site where Internet banking customers can buy non-life insurance products (home, car, travel etc.). Products are sold on a commission basis. Vital Skade assumes no risk on its own, but operates as an agent.

Vital Skade has entered into non-exclusive agreements with 13 academic associations offering non-life insurance products through specialised service centres. Premium income generated in Vital Skade for the first three quarters of 2004 totalled NOK 289 million, an increase of 39 per cent on the 2003 figures. Academic associations account for 52 per cent of total premiums. Sales through the Internet banking application continued to show strong growth compared with the January through September period in 2003, with total premiums of NOK 65 million, up from NOK 20 million in 2003. Commission income increased from NOK 40 million in the first three quarters of 2003 to NOK 55 million in the same period of 2004. Costs declined by 6 per cent to NOK 30 million compared with the year-earlier period.

DnB NOR Markets

DnB NOR Markets is Norway's largest provider of a wide range of securities and investment services. DnB NOR Markets comprises the following units: FX/Treasury - Customers, FX/Treasury - Trading, Equities Sales/Research, Corporate Finance and Securities Services. The Group Treasury is organisationally part of DnB NOR Markets though profits and losses for the unit are not recorded under this business area. Ottar Ertzeid, group executive vice president, is head of DnB NOR Markets.

DnB NOR Markets aims to be the leading investment bank for Norwegian and Norwegian-related customers, as well as international clients requiring services relating to Norway and the Norwegian krone.

DnB NOR Markets is a full-service investment bank with leading market positions in Norway. The business area has:

- 32 per cent of total revenues for Norwegian investment banks (first half 2004)
- Diversified business/revenues mix (products and customers)
- Sound mix of customer and trading activities
- Cost and capital-efficient operations

The DnB NOR integration was completed during the first half of 2004. Staff synergy targets were reached during the third quarter. Cost synergies will be realised during 2004 with close to full effect by the end of the year.

Comments to the financial performance for the first three quarters of 2004

- DnB NOR Markets showed healthy profits
- The business area recorded a satisfactory cost/income ratio and a sound return on equity
- Interest income on allocated capital was down NOK 43 million due to lower NOK interest rates
- Market making/trading revenues increased by NOK 16 million from a high level
- Income on customer business declined by NOK 46 million
- Less volatile exchange rates slowed customer demand for currency hedging products, while the low interest rate level and steep interest rate curves resulted in reduced demand for interest rate hedging products
- Close to zero growth in corporate credits reduced income from debt financing
- Costs were brought down 8.2 per cent

Interest rate sensitivity

The value of financial investments recorded on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB NOR resulting from parallel one percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB NOR relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. In the trading portfolio, such losses will be charged to the accounts as they occur. In the banking portfolio, the losses will be amortised over the remaining maturity. The calculations are based on the Group's positions as at 30 September 2004 and market rates on the same date.

Life Insurance and Pensions

Life Insurance and Pensions offers group pension schemes to businesses and the public sector. In the retail market, long-term savings alternatives are offered in the form of individual pension agreements and annuities. Bård Benum, group executive vice president, is head of Life Insurance and Pensions.

Life Insurance and Pensions aims to be Norway's strongest entity within pension savings. The business area seeks continued growth within the company's business segments and aims to deliver competitive results to its owner and policyholders. Devoting further efforts to improving cost efficiency, providing top-quality advisory services, maintaining high levels of service and customer relationship management and serving as an attractive entry portal for customers into the DnB NOR Group will be instrumental in reaching these targets.

Vital Forsikring ASA and Gjensidige NOR Spareforsikring ASA merged in March 2004, and life insurance operations are continued in Vital Forsikring. The integration process moved along according to schedule in the first three quarters of 2004.

The business area comprises Vital Forsikring ASA including subsidiaries and the sister company Vital Link AS. Columns marked "life insurance" refer to operations in Vital Forsikring ASA including subsidiaries. Columns marked "Life Insurance and Pensions" refer to life insurance operations including the unit linked operations in Vital Link.

Gjensidige NOR Fondsforsikring AS is not included in the figures. The company was sold to Forsikringsselskabet Danica in May 2004.

*) Profit for allocation to the owner and taxes for operations subject to profit sharing in Life Insurance includes:

- return on equity, subordinated loan capital and the security reserve, calculated as the company's return on capital, less accrued interest on subordinated loans and allocations to the security reserve
- margin of policyholders' funds
- margin of effective risk premium adjusted for survival risk on contracts providing sufficient profits

According to regulations, annual profit for allocation to the owner and taxes cannot exceed 35 per cent profit for operations subject to profit sharing. If this figure is negative, the entire amount should be charged to the owner. Total profit to the owner and taxes also includes profits from operations not subject to profit sharing.

Products and organisation

Life Insurance and Pensions offers:

- Group pension schemes to businesses, adapted to customer needs for defined-benefit, defined-contribution and single premium pension schemes
- Long-term savings alternatives in the form of individual pension agreements and annuities in the retail market
- Products are offered with guaranteed returns or with a choice of investment profile (unit linked)
- Group life, endowment and personal insurance
- Savings products from other units in the DnB NOR Group, including mutual funds from DnB NOR Asset Management and equity-linked bonds from DnB NOR Markets

The business area is represented in most parts of Norway through sales offices and provides services through DnB NOR and Postbanken's distribution networks and independent agents, as well as via the Internet.

Employees

Asset Management

Asset Management provides mutual funds and discretionary portfolio management services to Norwegian and other Nordic corporate clients, the public sector, private pension funds and retail customers. Øyvind Birkeland, group executive vice president, heads the business area.

Asset Management seeks to provide first-class returns on customer funds within the preferred risk profile and investment horizon. DnB NOR aspires to be the leading asset manager for customers in the Nordic region, providing sound long-term returns and a high level of service based on a thorough understanding of customer needs.

Managers have been appointed for all units in the business area, and the organisation was finalised in March 2004. The asset management companies including mutual funds companies were merged in June 2004. Products, services and the organisations will be further integrated, which is expected to result in annual cost synergies of NOK 110 million by the end of 2006. The number of full-time positions will be reduced by 70. The initial integration process in 2003 resulted in staff cuts of 15 full-time positions. In the first three quarters of 2004 staff was reduced by 46 full-time positions.

Comments to the financial performance for the first three quarters of 2004

- Commission income increased by NOK 87 million from the first three quarters of 2003 to the first three quarters of 2004. This was mainly due to growth in assets under management and a shift to equity investments in the retail market
- Operating expenses in the first three quarters of 2004 were NOK 509 million, which was NOK 17 million below operating expenses in the first three quarters of 2003
- Marketing and IT activities were at a minimum in 2003 due to the upcoming integration of DnB and Gjensidige NOR. Such expenses returned to a normal level in the first three quarters of 2004

(Pro forma accounting figures prior to 31 December 2003)

Comments to changes in assets under management

- Assets under management increased by NOK 25.5 billion or 5.5 per cent in the first three quarters of 2004 and by NOK 35 billion or 7.7 per cent compared to 30 September 2003
- A net outflow of funds in the retail market reduced assets under management by NOK 0.9 billion or 2.4 per cent
- Net inflow from institutional clients came to NOK 2.9 billion or 0.7 per cent
- New institutional mandates were won in both Sweden and Norway
- Market developments led to a NOK 24.9 billion increase in assets under management, representing 5.4 per cent measured in the customers' base currencies
- The appreciation of NOK against other currencies, especially SEK, reduced assets under management by NOK 1.4 billion or 0.3 per cent
- During the first three quarters of 2004 Morgan Stanley's global equity index (MSCI World) rose by 2.5 per cent measured in USD and by 3.7 per cent in NOK
- The stock exchanges in Stockholm (OMX) and Oslo (OSEBX) climbed by 10.9 and 28.3 per cent respectively during the first three quarters of 2004

Investment returns on assets under management

- Returns on a number of major client portfolios and funds outperformed relevant benchmarks, including Vital Forsikring's total portfolio, as well as Norwegian equity and bond investments and major Swedish equity portfolios
- Fund managers' specialisation has led to strong performance for several industry-specific funds (percentage point return in excess of benchmark in the first three quarters of 2004 in parenthesis):
 - DnB NOR Global Health Care (+5.1)
 - DnB NOR Nordic Technology (+6.7)
 - Avanse Telecom (+11.2)
