

DiaGenic ASA

Sweden Bio

“Life Science Investment Day”

9 March 2009

Erik Christensen MD PhD
CEO

DiAGENiC

FOR EARLIER DISEASE DETECTION

DiaGenic's Vision

DiaGenic's vision is to offer patient friendly diagnostic tools for the early detection of diseases, thereby leading to an improved quality of life.

Executive Summary

Markets:

- Large, fast growing. Unmet medical needs
- Extensive pharma spending

DiaGenic:

- Blood based diagnostic tests and biomarkers
- IP based innovative technology with unique benefits & strong scientific validation
- First product launched, India Nov 2008
- Experienced team
- Backed by Nordic institutional investors
- Listed at Oslo Stock Exchange
 - Market Cap 130M NOK

DiaGenic
—
Management

Erik Christensen, MD PhD
Chief Executive Officer

MD in Denmark 1983. Norway 1985,
PhD 1991.
Qualified in Clinical Chemistry 1992.

Abbott Laboratories 1996.- 2006
Medical Director Nordics, ADD and
Country Manager Norway, ADD

DiaGenic from January 2007

Anders Lönneborg,
PhD
Research Director
Co founder

Praveen Sharma ,
PhD
Technology Director
Co founder

Dag Christiansen
Marketing Director

Håkon Sæterøy
Chairman of the Board

The Principle

The primary diseased part of the body is not the only part responding to a disease

- subtle but systemic impact on gene expression

The disease also leaves a unique "signature" in other parts of the body, including the circulatory system

- response can be detected by measuring the amount of RNA for specific genes from peripheral blood

These signatures can be identified using gene expression technologies

DiaGenic
-
Product
Pipeline

BCtectTM
DiaGenic for early Breast Cancer detection

PDtectTM
DiaGenic for early Parkinsons Disease detection

ADtectTM
DiaGenic for early Alzheimers Disease detection

Rx- Business

Biomarker for Prescription drug use

- Biomarkers for pharma studies
 - Use of current tests (ADtect® or BCtect®)
 - R&D cooperation
 - development of new or optimized tests
 - Companion diagnostics

MDx- Business

Molecular Diagnostics

- *Invitro* Diagnostics
 - Regulatory approved assays
 - ADtect® and BCtect® soon to be approved
 - PDtect® in development

DiaGenic
-
business
segments

DiaGenic can provide biomarkers for pharma studies

- In dialogue with several large players within the neurology field
 - DiaGenic has a signed term sheet for biomarker development with the first pharmaceutical company
 - A final agreement awaits a decision by the pharmaceutical company based on their ongoing studies.
- Received funding for developing a Parkinson's Disease Biomarker
 - Michael J Fox Foundation and the Norwegian Research Council
 - Collaboration with Harvard Medical School
- Soon fully documented and regulatory (Europe) approved tests
 - Big pharma are already collecting dedicated samples in clinical studies for the potential use on gene expression tests (Alzheimer's Disease)
- Initiated studies needed for new diagnostic assays, like MCI and PD tests
 - Multicentre studies across Europe

Business
Biomarker for Prescription
drug use

DiaGenic's position in *Invitro* Diagnostics

- First in the market with blood based diagnostics for Alzheimer's Disease and Breast Cancer
- Strong IP on diagnostic use of gene expression
 - Concept can be applied on a multitude of diseases
- Cooperation with two main technology vendors
 - Qiagen – blood sampling – RNA extraction
 - DiaGenic participates in a EU project (SPIDIA) together with Qiagen to further develop gene expression methods
 - Life Sciences (formerly Applied Biosystems)
 - cDNA measurements, OEM producer of our gene cards
- Regulatory approved assays
 - ADtect[®] and BCtect[®] soon to be CE-marked
- BCtect[®] launched by SRL Diagnostics in India
 - Successful multicentre study gives clinical documentation
- PDtect[®] in development
- Building a distributor network in Europe

Compliance studies

- ✓ Documenting clinical utility:
 - 440 -640 patient samples tested
 - 6-8 sites from several European countries
- ✓ Documenting technical robustness
 - 15 different studies for each (346 data points x2)
 - Variability across the whole process documented
- Data analysis
 - Calibration model by multivariate regression models
 - More than 75.000 data points to be reviewed for each
 - Data and report compilation

**All lab analysis completed
CE marking pending data analysis**

SRL Diagnostics - Our marketing and sales partner in India:

- The largest pathology laboratory network in India
 - Extensive competencies within molecular diagnostics and experience in launching new diagnostic methods
- BCtect™ launch in New Delhi November 2008
 - 80 leading gynaecologists and oncologists attended
 - Scientific presentations from radiologists, oncologists and DiaGenic representatives
 - Launch activities ongoing in New Delhi
 - Nationwide rollout to come

**Statement from SRL Diagnostics
CEO Sanjeev Chaudhry:**
**“The Product Management Team
and Sales and Marketing Teams
at SRL are both optimistic and
enthusiastic and believe in the
potential of this test. “**

Molecular Diagnostics

Benefits of DiaGenic's innovative diagnostic tests

- The test is ***patient friendly***. A simple blood sample is all that is required.
- The test is ***convenient***. The sample can be taken at Collection Centers and sent to centralized laboratory.
- The BCtect[®] test has ***high accuracy*** with all ages.
 - Performs equally well for pre and post-menopausal women.
 - Detects very ***early cancer stages***.
 - Detects ***lobular cancer*** with high accuracy.
- The ADtect[®] test has ***high accuracy*** with all stages of Alzheimer's Disease.

Conclusion

- 10 years of R&D to be capitalized and backed by a strong IP
 - First diagnostic product in the market
 - First term sheet for biomarker development signed
- Target disease markets are large and with clear medical needs
 - Significant big pharma interest and spend
- Clear marketing strategy via different global territories
 - BCtect[®] launched last quarter in India
 - CE marking of BCtect[®] and ADtect[®] within few months
 - Preparing for distributor network in Europe
- Under present financial markets conditions, future activities will be focused on supporting sales of existing products
- Research & development to be financed by external sources
