

Welcome to DiaGenic Capital Markets Day

The seminar will focus on the markets for DiaGenic's two business areas: Biomarkers and Molecular Diagnostics.

The speakers will address important topics regarding positioning of DiaGenic's first two diagnostic tests for Breast Cancer (BCtect®), and Alzheimer's Disease (ADtect®).

In these challenging financial markets, we would also like to share some evaluations from international investors.

The list of speakers includes:

"DiaGenic Report for 1st quarter 2009"

MD PhD Erik Christensen, Managing Director, DiaGenic

BCtect®

Derek Tobin, Ph.D., Senior Scientist & Project Manager Breast Cancer, DiaGenic

ADtect®

Birgitte Bonstra Booij, Ph. D., Senior Scientist & Project Manager Alzheimer's Disease, DiaGenic

"Sales and Distribution partners in Europe"

Morten Sten Johansen, International Business Director, DiaGenic

"From research into clinical practice with BCtect®"

Dr James Mackay, Trinity Health Innovations Ltd, London

James Mackay is honorary senior lecturer in genetics at University College London

"Biomarkers in CNS drug development"

Sebastian Krempien, M.D. Ph.D., Senior Medical Expert
