Cision selects Millistream as new provider of market data

Millistream has signed an agreement with Cision regarding delivery of market data. Cision will use the market data in its Investor Relations services for Nordic listed companies.

The marked data feed from Millistream to Cision will include Nordic share prices from NasdaqOMX, Nordic Growth Market and Oslo Børs.

“We found that Millistream were able to provide the most flexible system that catered for our needs, when looking both at content and technical requirements,” says Magnus Thell, MD of Cision Scandinavia.

The solution from Millistream also makes it possible for Cision to add own data feeds and integrate with the market data feed from Millistream.

“The agreement with Cision is very important for Millistream and it proves that our solutions are very well adapted for the needs of financial professionals in the Nordics,” says Per Rastin, CEO of Millistream Market Data AB.
