## **Telelogic opens an office in Karlskrona, Sweden**

**MALMÖ, Sweden, December 18, 2000** – Telelogic AB (Stockholm Stock Exchange: TLOG), the world-leading supplier of solutions for real-time software development, configuration management and requirements management, announced today that it is opening an office in Karlskrona, Sweden from January 1<sup>st</sup>, 2000. With this establishment, Telelogic is represented in the regions with the highest number of communication companies in Sweden.

The Karlskrona office will mainly offer professional services related to Telelogic's products to regional and Nordic customers. The office is expected to grow to 50 employees within two years. Development engineers with experience from design and test, preferably within the area of telecom, will be recruited.

Richard Lidén will head the new office. Richard has formerly been the regional manager for Cell Telecom in Karlskrona and also responsible for the test notation TTCN within Ericsson.

### **About Telelogic**

Telelogic is established in thirteen countries under its own name, and a further 20 countries through distributors. It leads the market in development environments for advanced software, especially in real-time applications. By offering high quality graphical development tools and related services, Telelogic makes the development of software more rapid, less labor intensive, and more reliable.

The company has a global client base, including all the top 10 communication suppliers such as Alcatel, Cisco, Ericsson, Fujitsu, Hewlett-Packard, Lucent, Motorola, NEC, Nokia, Nortel Networks and Siemens, as well as a number of leading suppliers within automotive and aerospace.

The software market is moving towards more visual programming methods, and Telelogic leads in the production of the next generation of development tools, in this area. Telelogic is
