

SSM appoints advisors in preparation for stock exchange listing

SSM Holding AB (publ), one of the leading operators within residential development and housing construction in the Stockholm Region, is preparing for a potential listing on Nasdaq Stockholm.

To prepare the company for a potential listing on Nasdaq Stockholm, advisory banks and legal support have been procured. SEB and ABG Sundal Collier have been selected as advisory banks and Gernandt & Danielsson Advokatbyrå has been retained as legal advisor.

- For many years, SSM has enjoyed strong growth, and the company has good momentum and the conditions for continued solid growth. The next natural step is to prepare the company for a potential stock exchange listing. The solid team we've built together with our advisors will give us the best prerequisites for a successful listing process, says Mattias Roos, President & CEO of SSM Holding AB (publ).

Interest in SSM's housing is high among prospective clients and projects are often sold out long before the start of production. The company currently has 1,337 homes under construction in eight projects. Of these, 98 percent have already been sold.
