Alfa Laval wins SEK 60 million brewery order in Ireland

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply equipment to Diageo, a premium drinks manufacturer and owner of brands such as Guinness. The order, booked in the Food Technology segment late September, has a value of approximately SEK 60 million and delivery is scheduled for 2014.

Alfa Laval's equipment will be installed in a complete process line for wort treatment at Diageo's Irish brewery, where, among other brands, the famous Guinness stout is produced.

"The order confirms that our innovative solutions meet the specific and high demands from the brewery industry", says Lars Renström, President and CEO of the Alfa Laval Group.

Did you know... that Alfa Laval UK & Ireland was established in 1923 and therefore celebrates 90 years in these countries this year?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2012, posted annual sales of about SEK 29.8 billion (approx. 3.5 billion Euros). The company has today about 16 400 employees.
