Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order from a vegetable oil plant in Brazil. The order, booked in the Food Technology segment late September, has a value of approximately SEK 70 million and delivery is scheduled for 2014

Alfa Laval will supply a solution, including equipment such as separators and heat exchangers, to refine crude vegetable oil into high quality oil.

“Our food business in Brazil has developed well during the year and this order confirms our strong position as a reliable supplier of solutions to the vegetable oil industry”, says Lars Renström, President and CEO of the Alfa Laval Group.
