

The production for June 2017 totaled in 40,5 GWh

The production from the Company's wind farms for June 2017 totaled 40,5 GWh, which is about 65 percent above expectation. The availability in the Company's wind farms has been over 98 percent.

Rabbalshede Kraft offer operating services and operates wind farms around Sweden, in-house or for external partners. Rabbalshede Kraft operates 141 turbines (341 MW), of which 71 turbines (190 MW) are proprietarily managed and 70 turbines (151 MW) are owned by external partners. The annual production capacity of the 141 wind turbines is 900 GWh.

The expected production is based on an average wind year.

This is Rabbalshede Kraft

Rabbalshede Kraft AB (publ) plans and establishes proprietary land-based wind farms, in collaboration with other players or for divestment whereby the Company is able to offer operating services. Rabbalshede Kraft was formed in 2005 and currently manages 141 wind turbines of which 71 turbines, in the eight wind farms, are in-house. The electricity produced from the Company's wind farms in operation is sold in the open electricity market, Nord Pool. Follow the Company's progress at www.rabbalshedekraft.se
