

The production for November 2017 totaled in 53,5 GWh

The production from the Company's wind farms for November 2017 totaled 53,5 GWh, which is in line with expectation. The availability in the Company's wind farms has been just above 96 percent.

Rabbalshede Kraft offer operating services and operates wind farms around Sweden, in-house or for external partners. Rabbalshede Kraft operates 170 turbines (438 MW), of which 93 turbines (266 MW) are own or co-owned and 77 turbines (172 MW) are owned by external partners. The annual production capacity of the 170 wind turbines is 1 200 GWh.

The expected production is based on an average wind year.

This is Rabbalshede Kraft

Rabbalshede Kraft AB (publ) plans and establishes proprietary land-based wind farms, in collaboration with other players or for divestment whereby the Company is able to offer operating services. Rabbalshede Kraft was formed in 2005 and currently manages 170 wind turbines of which 93 turbines, in nine wind farms, are own or co-owned. The electricity produced from the Company's wind farms in operation is sold in the open electricity market, Nord Pool. Follow the Company's progress at www.rabbalshedekraft.se
