

## **Rabbalshede Kraft acquires new projects**

Rabbalshede Kraft has, in accordance with the new strategy, acquired two wind power projects, Gårdshyttan and Lönhult.

- Gårdshyttan consist of an environmental permit for five wind turbines with 190 meters tip height, located in Askersund municipality, Örebro county.

- Lönhult consist of five wind turbines with 210 meters tip height in Aneby municipality, Jönköping county. The acquisition of Lönhult is conditional upon the environmental permit to gain legal force.

*"The projects have very good preconditions and are judged by Rabbalshede Kraft as attractive acquisitions that fit into the company's new strategy."* Martin Pettersen, Head of Business Development

We are now preparing to begin construction of these wind farms. The project work for Gårdshyttan has begun while Lönhult is waiting for legislative power.
