### Saab Air Traffic Management to Exhibit at World ATM Congress

**Defence and security company Saab will be exhibiting Air Traffic Management at the World ATM Congress, March 4 through 6, in Madrid, Spain, in stand 305. Saab will be demonstrating its broad line of products and services that are transforming Air Traffic Management (ATM) from a group of separate tools into a harmonized modern system that delivers advanced safety and efficiency.**

Saab's ATM solutions on display at the ATM industry's largest conference will include:

- Industry-leading airport surface safety system (the A3000), multilateration and surface movement radar
- The Saab Integrated tower, a flexible, scalable approach to providing users with a streamlined set of automation tools to manage traffic flow in a safe and efficient manner
- The future of air traffic management – Saab's Remote Tower – that is a safe, economical alternative to traditional air traffic services
- The Aerobahn Collaborative Decision Making (CDM) and efficiency platform that enables airports and airlines to drive down operating costs, enhance efficiency and improve the public's flying experience
- Operational Safety and Efficiency analysis capabilities that are providing users with a better understanding of the performance of airports
- Saab's airport-wide security management system, SAFE, which provides airport-wide situational awareness and tools to more efficiently manage airport security.
