SaabTech Systems receives export order worth SEK 250 million on command systems

In the last few days, SaabTech Systems has received an order from Abu Dhabi Shipbuilding for the United Arab Emirates navy to supply command systems for six coastal patrol boats. The order, worth approximately SEK 250 million, involves the modernization of existing onboard systems.

The order, of considerable strategic significance for SaabTech Systems, confirms the company's position as a world-leading supplier of naval command systems. SaabTech Systems has developed command systems for many classes of vessel, for Sweden and other countries, for more than 30 years.

Saab is northern Europe's leading high technology company, mainly active in the defense, aviation and space industry, and offers advanced products and systems based on sophisticated information technology. The business areas within Saab are Infomatics, Aerospace, Dynamics, Technical Support and Services, Space and Aviation Services.
