Saab Barracuda has signed an agreement worth SEK 74 million for camouflage systems

Saab Barracuda has entered into a substantial framework agreement with the Norwegian Army Material Command (HFK) for Multispectral, Static and Mobile Camouflage Systems. The value of the framework contract is up to SEK 74 million.

The Barracuda Multispectral, Static and Mobile Camouflage Systems include advanced products with very good capabilities within the thermal, radar, near infrared and visual wavelength areas. Soldiers, as well as vehicles, get optimal protection against reconnaissance and hit. Delivery will take place over a period of three years with final delivery in 2004. The contract includes an option for deliveries after 2004.

Saab Barracuda, Gamleby, is a company within the Systems and Electronics business area of the Saab Group. Saab Barracuda develops, produces and markets signature management products and services for protection against detection and identification. The company, with subsidiaries in four countries and customers and representation in 50 countries, is the world leader within its field.

Saab is one of the world's leading high-technology companies, with its main operations focusing on defence, aviation and space. The group covers a broad spectrum of competence and capability in systems integration.
