Saab signs additional Carl-Gustaf contract with Australia

The defence and security company Saab has received an order from Australia for ammunition to the Carl-Gustaf M3 weapon system. The order sum is MSEK 160.

It is the Australian Defence Materiel Organisation (DMO) that has selected Saab to be the provider of various versions of 84mm Carl-Gustaf ammunition.

“This shows the high level of trust Australia have for the Carl-Gustaf system. It is a strategic and important contract securing production as well as contributing to further development of the system” says Tomas Samuelsson, Head of business area Dynamics.

In late 2009 the Australian Defence Force selected the Carl-Gustaf M3 weapon system after thorough evaluation as their future multi-purpose weapon system. The Carl-Gustaf weapon until now has been exported to more than 40 nations worldwide.

Manufacturing will be done by Saab in Karlskoga, Sweden, and deliveries take place within the next half year.

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.
