Saab signs additional Carl-Gustaf contract with Australia

The defence and security company Saab has received an order from Australia for ammunition to the Carl-Gustaf M3 weapon system. The order is placed under a standing offer signed in early 2011 and amounts to MSEK 199.

It is the Australian Defence Materiel Organisation (DMO) that has selected Saab to be the provider of various versions of 84 mm Carl-Gustaf ammunition.

“This shows the high level of trust Australia have for the Carl-Gustaf system. We are very proud of the confidence our customers place in the Carl-Gustaf system and satisfied to have been able to secure an additional order for the system,” says Tomas Samuelsson, Head of business area Dynamics.

The Australian Defence Force selected the Carl-Gustaf M3 weapon system after thorough evaluation as their future multi-purpose weapon system.

The Carl-Gustaf weapon until now has been exported to more than 40 nations worldwide. The system has successively been modernized and adapted to meet new requirements. With the Carl-Gustaf M3 version Saab offer state-of-the-art capability for demanding customers investing in the future.

Deliveries take place during 2013.

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.
