Saab receives order for RBS15 Mk3

Defence and security company Saab has received an order from its German partner Diehl BGT for the Surface-to-Surface Missile RBS15 Mk3. The order value is SEK 168 million, and includes options with a total value of SEK 83 million. Deliveries will take place during the period 2014 to 2016.

"The order for RBS15 Mk3 is important for us in the long-term cooperation with our partner Diehl and for the continued development of the system," says Tomas Samuelsson, Senior Vice President and Head of Business Area Dynamics. "From a broader perspective, it is yet another evidence of our ability to deliver on Saab's long-term strategy to increase sales outside Sweden."

Saab's RBS15 Mk3 is a heavy weight Surface-to-Surface Missile system with a range of more than 200 km and the added capability to combat land targets. The system has previously been sold to Germany, Poland and Sweden.

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.
