Saab receives order for missile components

Defence and security company Saab has signed a contract comprising missile components amounting to approx SEK 437 million. Deliveries will take place during 2015-2017.

Saab is a significant supplier of high-performing and cost-effective missile systems and components for air, land and naval operations. The strong product portfolio includes air defence system RBS 70, and the latest generation RBS 70 NG, NLAW anti-tank system and RBS15 anti-ship missile system. Furthermore, Saab also participates in a number of multinational cooperation missile development programmes.

The industry's nature is such that depending on circumstances concerning the product and customer, information regarding the customer will not be announced.

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. Saab has operations and employees on all continents and constantly develops, adopts and improves new technology to meet customers' changing needs.
