Saab Marine Electronics concludes worldwide purchasing agreement with Van Ommeren

The independent Storage Company Van Ommeren has chosen radar tank gauges from Saab Marine Electronics as their tank gauging system, worldwide.

Van Ommeren has already equipped tank terminals in different countries, such as Australia, England and China, with 230 Saab TankRadar gauges. Recently the Storage Company purchased additional 150 gauges for installation on a terminal in Hamburg.

The demands on a reliable tank gauging system with custody transfer accuracy have been of great importance in the choice of the radar systems from Saab Marine Electronics. Another important factor is the safety of the systems that meet the demands on a safe handling.

Saab Marine Electronics is certified in accordance with ISO 14001 environmental standards. The high reliability and accuracy of the radar gauging systems prevent overfilling and thereby damages on the environment.

Saab Marine Electronics is a part of the high technology Saab Group. Saab is active in many areas, for example in the aerospace and defense industries, offering advanced products and systems based on sophisticated information technology. Saab has five business areas and core skills are focused on system integration, the ability to combine high-technology products into complex and intelligent systems. system.
