## **Ericsson Saab Avionics secures order for joint defense technology development**

Ericsson Saab Avionics has obtained a joint defense forces research and development (R&D) order for work within the electronic warfare (EW) area from the Defense Materiel Administration (FMV) of Sweden. The work will also cover a technology demonstrator and participation in test operations.

The order, for this initial phase, is worth SEK 60 M (USD 7.2 M)

The main purpose of the development work will be to create a technology base for future cost-efficient jammer applications.

The intention is to lay the foundations for development of advanced modular EW systems that meet the armed forces' future requirements.

---

*Ericsson Saab Avionics AB is owned jointly by Ericsson and Saab and is the principal supplier of electronic systems to the JAS 39 Gripen. Equipment delivered includes the EP-17 display system and the EWS-39 electronic warfare system.*
