Saab at LAAD Exhibition in Brazil

During the LAAD Exhibition 2005 in Rio de Janeiro in Brazil, Saab is delighted to invite you to Saab, stand K 51. At the LAAD 2005, you will also be able to meet Saab Group Senior Vice President for International Relations and Business Improvement, Mr. Ian McNamee.

During the LAAD Exhibition between Tuesday 26 and Friday 29 April, Saab will show the variety of the leading edge-technology that represents the Group. At the stand, Saab will demonstrate Command and Control systems, Simulation and Training Systems and Signature Management Systems.

Saab will also show Weapon Systems like the recoilless, man-portable weapon Carl-Gustaf with its versatility of its new generation of ammunition. This together with the successful anti-armour weapon AT 4 and the man-portable, anti-tank guide weapon BILL, will also be demonstrated.

Together with the true fire and forget, sea-skimming, cruise type missile system, RBS15 Mk3, Saab will also illustrate the all-weather air defence missile system BAMSE. At the stand, visitors are actually able to try the Air Defence Missile System RBS 70, in a simulator facility.

Together with Gripen International that is located in the stand L 59, next to the Saab stand, the Gripen fighter program will be demonstrated during the exhibition.

For a general update of Saab and to meet Mr. Ian McNamee during the LAAD exhibition, please contact Peter Larsson or Anders Florenius at the Saab stand.

Most Welcome

Saab is one of the world's leading high-technology companies, with its main operations focusing on defence, aviation and space. The group covers a broad spectrum of competence and capabilities in systems integration.
