### Follow the introduction of Saab's new UAV system at Eurosatory

**We are pleased to invite you to Saab's press conference at the Eurosatory exhibition in Paris, France, where Saab's new UAV system Skeldar V-150 will be introduced. You will also have the opportunity to meet Executive Vice President and Deputy CEO Mr. Ingemar Andersson and Saab Aerosystems Senior Vice President and Managing Director Mr. Lennart Sindahl.**

Skeldar V-150 is Saab's new UAV System, consisting of an unmanned helicopter, EO/IR payloads, and a control station. The system can be used both by civil and military operators, for surveillance, reconnaissance, and electronic warfare for example. It can be part of a command and control system and a natural component in a network based defence. The Eurosatory exhibition is the official launch of Skeldar V-150.

The press conference is held in **Saab's stand no C4 in hall 6, June 13, 10:00 a.m. (CET).**

After the press conference you are welcome to join a guided tour around Saab's stand.

For one-on-one interviews with Executive Vice President and Deputy CEO Mr. Ingemar Andersson, please contact Saab media responsible Katarina Tolgfors at the Saab stand (C4 hall 6).

Most Welcome!

*Saab is one of the world's leading high-technology companies, with its main operations focusing on defence, aviation and space. The group covers a broad spectrum of competence and capabilities in systems integration.*
