SaabTech Systems has received an order for Command & Control System

SaabTech Systems AB has received an order for an Air Command and Control System to a country in South East Asia. The order value is approximately 100 MSEK. Delivery of the Air Command and Control System will take place during the year 2002. SaabTech Systems has for more than 30 years developed Command and Control Systems to Sweden and other countries.

Saab is northern Europe's leading high technology company, mainly active in the defense, aviation and space industry, and offers advanced products and systems based on sophisticated information technology. The business areas within Saab are Infomatics, Aerospace, Dynamics, Technical Support and Services, Space and Aviation Services.
