# Telelogic Signs 2.3 MUSD contract with leading US supplier of sophisticated defense systems

**MALMÖ, Sweden and IRVINE, California – April 3, 2006** – Telelogic, (Stockholm Exchange: TLOG), the leading provider of software solutions that align advanced systems and software development with business objectives, today announced it has signed a four year 2.3 MUSD software license and maintenance agreement with a leading US aerospace and defense company.

The four year subscription agreement includes software licenses for the Telelogic's Lifecycle solutions. Telelogic DOORS® and Telelogic FOCAL POINT™ will be used for requirements management, analysis and product prioritization, Telelogic TAU® and Telelogic SYSTEM ARCHITECT® for modeling and Telelogic SYNERGY™ for change and configuration management.

“This customer, like many within the aerospace/defense industries, has to build increasingly complex systems to the highest safety and quality standards under ever tighter deadlines,” said Anders Lidbeck, President and CEO of Telelogic. “Like many other leading companies in this market, it determined that Telelogic's applications were superior in helping them meet these challenges.”

### **About Telelogic**

Telelogic® is a leading global provider of solutions for automating and supporting best practices across the enterprise – from powerful modeling of business processes and enterprise architectures to requirements-driven development of advanced systems and software. Telelogic's solutions enable organizations to align product, systems, and software development lifecycles with business objectives and customer needs to dramatically improve quality and predictability, while significantly reducing time-to-market and overall costs.

To better enable our customers' drive towards an automated lifecycle process, Telelogic supports an open architecture and the use of standardized languages. As an industry leader and technology visionary, Telelogic is actively involved in shaping the future of Enterprise Architecture, Application Lifecycle Management, and customer needs

management by participating in industry organizations such as INCOSE, OMG, The Open Group, Eclipse, ETSI, ITU-T, the TeleManagement Forum, and AUTOSAR.

Headquartered in Malmö, Sweden with U.S. headquarters in Irvine, California, Telelogic has operations in 20 countries worldwide. Customers include Airbus, Alcatel, BAE SYSTEMS, BMW, Boeing, DaimlerChrysler, Deutsche Bank, Ericsson, General Electric, General Motors, Lockheed Martin, Motorola, NEC, Philips, Samsung, Siemens, Sprint, Thales, and Vodafone.
