

Fjord Network grows with 400% over 4years and appointed as a Gasell!

Dagens Industri, the leading financial paper in Scandinavia appoints Fjord Network to be a Gasell 2009 which is synonymous as one of the fastest growing companies I Sweden.

For ten consecutive years the leading financial paper in Sweden, Dagens Industri, has carried out an audit of the fastest growing companies in Sweden, Fjord Network belongs to the rare 1% of the fastest companies that has grown organically during the last four years and therefore been appointed to be a Gasell.

Criteria s to be appointed as a Gasell:

- " Minimum 4 annual public reports
- " Turn over exceeding 10MSEK
- " More than 10 employees
- " For the latest three years have had a steady growth
- " For the latest three years doubled its revenues
- " For the last four years had a positive summarized profit
- " Has grown organically
- " Has over all a health financial status

– We are extremely proud for the appointment, our impressive growth of 400% over the last 4 years shows that Fjord Network now is established as one of the leading Service Providers of telephony services in Sweden. Fjord network is most recognized by its teleconferencing service Confy , but have now also introduced GroupTalk, a push to talk service for professional users, in the market. To be recognized as a Gasell gives us an enhanced credibility in the market and we hope to continue our growth. says Jörn Karlsson CEO of Fjord Network.
