

PRESS RELEASE

21 September 1998

## **Statement with reference to the public offering from Drott AB (publ) to the shareholders in Näckebo**

The Board of Directors has commissioned a valuation of Näckebo from the perspective of a financial investor. The value has been assessed based on an estimated net asset value, forecast future cash flows and the stock market's valuation of comparable companies.

It is the joint opinion of the Board that the offer submitted by Drott of SEK 141 per share does not fully reflect the value of Näckebo. However, in view of present market conditions, Näckebo's share price prior to the offer, and other circumstances in connection with Drott's offer, the bid is judged to be reasonable from a financial point of view.

Näckebo AB (publ)

The Board of Directors
