Facts about DONG Energy in Germany

In September 2009 DONG Energy acquired the majority share, 83.57 %, of the energy company KOM-STROM AG, in Leipzig, from Deutsche Essent GmbH. Before the acquisition DONG Energy was represented on the German energy market with the Hamburg based wholesale company DONG Energy Sales GmbH. 15 March 2010, the name of KOM-STROM was changed to DONG Energy Germany AG.

KOM-STROM AG held a strong client base in the Southern part of Germany and with the acquisition DONG Energy went from a presence primarily in the Northern part of Germany to covering all parts of Germany.

DONG Energy also gained a broader scale of products as KOM-STROM was strong in power sales to Stadtwerke and industrial customers and DONG Energy was strong in gas sales.

DONG Energy is one of the leading energy groups in Northern Europe. We are headquartered in Denmark. Our business is based on procuring, producing, distributing and trading in energy and related products in Northern Europe. We have approximately 6,000 employees and generated just under DKK 50 billion (EUR 6.6 billion) in revenue in 2009. For further information, see www.dongenergy.com or www.dongenergy.de.
