*Two steps access number

FREQUENTLY ASKED QUESTIONS

Can I use ArkadinAnytime from abroad?

Of course, you can use the international access numbers list provided by Arkadin or the standard (domestic) toll number listed on your access card when traveling abroad. In some countries, you have the choice between a local toll and/or a toll free number.

If my participants are in a country that is not listed, how do I access ArkadinAnytime?

If there is no number available for the country your participants are in, you can provide your standard (domestic) toll access number. Participants would dial your country code prefix + the toll number on your access card.

Why would I provide my international participants a country-specific toll number?

Provide participants with a country-specific toll number if you want your participants to share the cost of conducting your conference call. The country-specific international access numbers provided by Arkadin will allow your participants to dial a local number and be billed with local charges, which eliminates additional long distance country-to-country charges for your participants. The moderator still pays for the ArkadinAnytime service charges.

Why would I provide my international participants a country-specific toll-free number?

You would provide a country specific toll-free number to your participants if you do not want them to pay to join your conference. When participants use the international toll-free numbers, all charges will be billed to the Moderator of the conference, which includes the local toll-free charges + ArkadinAnytime service charges.
