- Balance sheet total SEK 190.9 billion
- Lending SEK 128.8 billion
- Operating profit SEK 195.1 million

Comment by Tomas Werngren, President and CEO

"Kommuninvest's stable development continues. Our position as the Swedish Local Government Debt Office and leading lender to the local government sector has been further strengthened during the first six months.

The decision to strengthen the capital base by SEK 1 billion in the form of a subordinated loan was taken by the annual meeting of the Kommuninvest Cooperative Society in March 2010. Following subscription for the loan during late spring and

summer we now know that the issue has been oversubscribed. Important work to anchor the capitalisation has been done by staff and elected politicians among our members.

Kommuninvest's financial stamina and ability to provide our members with effective financing solutions in the long term remain very good.

Changes in accounting principles

Due to changes being implemented by the Swedish Financial Supervisory Authority (Finansinspektionen), Kommuninvest has changed certain valuation and accounting principles as described below. The changes are being implemented through the regulatory code FFFS 2009:11 and affects rules in the regulatory code FFFS 2008:25 regarding annual reporting in credit institutions and securities companies

According to the principles applied previously, Kommuninvest has within the framework for applied principles for hedge accounting, which has been FFFS 2008:25 and not IAS 39, valued financial liabilities in accordance with fair value hedge accounting.

Since the regulations from Finansinspektionen no longer approves any other model for hedge accounting than IAS 39, Kommuninvest has made the following changes in its applied principles;

• Fair value hedge accounting of interest rate risk has been implemented in accordance with the principles in IAS 39 and is being applied for financial liabilities that have fixed interest rate payments and where a derivative instrument is used to hedge interest rate or foreign exchange exposure

• Application of fair value option on financial liabilities that have fixed interest rate payments and financial liabilities made with so called embedded derivatives instruments, structured borrowing.

Effects of the change in accounting principles

Items in the income statement and balance sheet that have been changed due to application of the new rules by the Swedish Financial Supervisory Authority (Finansinspektionen), regarding annual reporting by credit institutions and securities companies (FFFS 2009:11).
