Acando becomes the first SAP partner to sign a SaaS agreement in the Nordic market

Acando has been appointed Subscription Partner by SAP and has signed its first Software as a Service agreement (SaaS). Through the agreement, Acando will provide an automated invoicing service against a fixed monthly subscription fee to one of its customers in Stockholm.

"As Acando already hosts and supports SAP solutions for a large number of clients as part of our SAP offering, this is an obvious arena to enter for us", says Eva Sandberg, Business Area Manager SAP at Acando

Software as a Service implies that a system is provided as a service, instead of the customer owning its own licenses and maintaining its own solution. The payment is made in the form of a subscription fee during a given time period.

"The extended partnership with SAP strengthens our cooperation even further. In addition, Acando recently won the competition on being the Swedish partner to sell most All-in-One licenses during Q2 and Q3", Eva Sandberg continues.
