Alf Göransson resigns from Svedala Industri AB

Svedala Industri AB's President and CEO Alf Göransson has announced his intention to leave the Group at the latest in autumn 2001.

"During my relatively short period at Svedala I have focused on improving the profitability and on supporting the planned merger with Metso. My personal assumption is that Svedala and Metso Minerals will most likely enter an interesting and challenging integration process in the near future, and the time has come for me to make my choice among the possibilities and challenges that have been presented," comments Alf Göransson.

This is Svedala

Svedala is a world-leading supplier of equipment, service and parts to the construction and mineral processing industries. Svedala's sales are partly through its own Svedala House organization, which comprises 200 sales and service units in some 50 countries, and partly through a well-established network of dealers and distributors worldwide.

The Group's complete range of equipment for extraction and handling of bulk minerals means that Svedala can offer customers complete total solutions for more efficient and more reliable processes. In addition, Svedala has the broadest range of wear and spare parts on the market.
