

Danish TRE-FOR chooses Tilgin for advanced Triple Play

Stockholm, Sweden, November 5, 2010: Tilgin, a leading provider of solutions for multiplay and next-generation broadband access, has won a new order for IP technology from TRE-FOR Bredbånd, a Danish fiber operator. Based on Tilgin's solution, TRE-FOR continues to enhance its consumer offering with Triple Play services to fiber-connected households in Denmark.

This new win builds on the previously announced orders of approximately SEK 5 million, in mid-February 2010 and December 2009.

TRE-FOR has been very successful in its launch and roll-out of advanced triple play services to its Danish subscriber base. The new order includes Tilgin's home gateway HG1311 with accompanying Home Gateway Software HGA570 as well as the latest version of Tilgin's remote management solution VCM 5.7. The order value is approximately SEK 4 million.

"We are very proud to have a Home Gateway solution that meets and supports TRE-FOR's advanced Triple Play services, says Mats Victorin, CEO at Tilgin. "TRE-FOR's continued trust in Tilgin shows that we have a strong offering to utility companies that offer broadband access including triple play via fiber. I appreciate TRE-FOR for the effort they put into their motto to offer "Fiber to all" and the professionalism and high quality they do it with. With this order we yet again prove the stability and flexibility of our software and solutions and that we meet the most advanced market requirements".

TRE-FOR is a Danish utility company in a fast-growing area the Southern Danish Triangle Region in Jutland. Although TRE-FOR is the main supplier of electricity, water and also district heating for the region, it is increasingly earning revenues from its communications services. The company offers its consumers full triple-play services to fiber-connected households.
