

Press release
Stockholm, 2 February 2011

Kancera's new share issue oversubscribed

Kancera AB's new share issue to the public ahead of listing on the NASDAQ OMX First North market was oversubscribed. The new share issue comprised 3,600,000 shares. The issue price was SEK 7 per share, which means that Kancera will receive SEK 25.2 million before issue expenses.

Thanks to the new share issue, Kancera's share capital will rise to SEK 1,104,000 divided between 13,248,000 shares. The shares subscribed in the offer correspond to 27.2% of the share capital in Kancera. The number of shareholders will rise to approx. 1,600.

The listing of Kancera's shares on NASDAQ OMX First North is expected to take place in February 2011. The share's short name or ticker is KAN.

Kancera will be exercising the option to acquire all the shares in iNovacia AB.
