## **Cell Telecom signs agreement with Ericsson**

**Ericsson has signed a agreement with Cell Telecom for consultancy services in R&D, research and development, and IS/IT.**

Cell Telecom is one of the R&D and IS/IT consultancies selected when Ericsson signs agreements on external consultancy services for the coming year. Cell Telecom will supply services including system management, system development, project management, integration and verification

"The agreement shows that our complete offer in both R&D consulting and IS/IT consulting is highly beneficial to the customer. We offer Ericsson both system design of real-time and embedded systems, mobile solutions, business solutions, telecom management and customer care " says Birgitta Jingmark, Head of Sales at Cell Telecom.
