Important information

This Prospectus has been prepared in order to provide information about Norwegian Property ASA (“Norwegian Property” or the “Company”) and its business in connection with the Rights Offering of 96,153,846 New Shares as described in this Prospectus.

For the definitions of terms used throughout this Prospectus, see Section 18 “Definitions and Glossary of Terms”.

The Company has furnished the information in this Prospectus. The Managers make no representation or warranty, expressed or implied, as to the accuracy or completeness of such information, and nothing contained in this Prospectus is, nor shall be relied upon as, a promise or representation by the Managers. This Prospectus has been prepared to comply with the Norwegian Securities Trading Act and the Norwegian Regulation on Contents of Prospectuses, which implements the Prospectus Directive (EC/2003/71), including the Commission Regulation EC/809/2004, in Norwegian law. Oslo Børs ASA (“Oslo Børs”) has reviewed and approved this Prospectus in accordance with Section 7-7 of the Norwegian Securities Trading Act. This Prospectus has been published in an English version only.

All inquiries relating to this Prospectus should be directed to the Company or the Managers. No other person has been authorised to give any information about, or make any representation on behalf of, the Company in connection with the Rights Offering, and, if given or made, such other information or representation must not be relied upon as having been authorised by the Company or the Managers.

The information contained herein is as of the date hereof and subject to change, completion or amendment without notice. There may have been changes affecting the Company or its subsidiaries subsequent to the date of this Prospectus. Any new material information and any material inaccuracy that might have an effect on the assessment of the Shares arising after the publication of this Prospectus and before the listing of the New Shares on Oslo Børs, will be published and announced promptly as a supplement to this Prospectus in accordance with Section 7-15 of the Norwegian Securities Trading Act. Neither the delivery of this Prospectus nor the completion of the Rights Offering at any time after the date hereof will, under any circumstances, create any implication that there has been no change in the Company’s affairs since the date hereof or that the information set forth in this Prospectus is correct as of any time since its date.

The distribution of this Prospectus and the offering of the New Shares and the Subscription Rights in the Rights Offering may in certain jurisdictions be restricted by law. Persons in possession of this Prospectus are required to inform themselves about and to observe any such restrictions. This Prospectus does not constitute an offer of, or a solicitation of an offer to purchase, any of the New Shares or the Subscription Rights in any jurisdiction or in any circumstances in which such offer or solicitation would be unlawful. No one has taken any action that would permit a public offering of the New Shares or the Subscription Rights to occur outside of Norway.

The New Shares and the Subscription Rights have not been and will not be registered under the U.S. Securities Act of 1933 as amended, or with any securities authority of any state of the United States. The New Shares and the Subscription Rights may not be offered or sold in or into the United States, Canada, Japan or Australia.

The contents of this Prospectus shall not to be construed as legal, business or tax advice. Each reader of this Prospectus should consult its own legal, business or tax advisor as to legal, business or tax advice. If you are in any doubt about the contents of this Prospectus, you should consult your stockbroker, bank manager, lawyer, accountant or other professional adviser.

In the ordinary course of their respective businesses, the Managers and certain of their respective affiliates have engaged, and may continue to engage, in investment and commercial banking transactions with the Company and its subsidiaries.

Without limiting the manner in which the Company may choose to make any public announcements, and subject to the Company’s obligations under applicable law, announcements relating to the matters described in this Prospectus will be considered to have been made once they have been received by Oslo Børs and distributed through its information system.

Investing in the Company’s Shares involves risks. See Section 2 “Risk Factors” of this Prospectus.

A detailed overview of significant events is set out in Section 6.2 of this Prospectus.

1.1.3 Business description

The Group's business segments are commercial properties (Norwegian Property) and hotel properties (Oslo Properties/Norgani Hotels).

The combined portfolio of Norwegian Property and Norgani Hotels as of the date of this Prospectus consist of 125 properties with a total of 1,347,014 sqm. of prime office, retail and hotel properties across the Nordic Region.

Commercial properties

Norwegian Property has a clear strategy of investing in high-quality commercial properties with attractive locations in Norway's largest cities. Over time, the ambition is for attractively-located office and commercial properties in Norway to account for more than 70% of the value of the Group's property portfolio.

Norwegian Property owns 51 properties, mainly located in Oslo and Stavanger. Norwegian Property's properties mainly comprise office areas, warehouses, shopping areas and parking in connection with the office areas. On Aker Brygge, Norwegian Property also owns a shopping centre with outlets and restaurants.

Norwegian Property has a tenant portfolio of attractive and solid organizations and companies. The tenants are from different industries, with Oil/Oil Service, Telecom/Data/IT and Financial services representing 62%. The weighted average duration of lease contracts as of 31 March 2008 is approximately 6.1 years.

Norwegian Property has sold 8 non-core assets during 2008¹, amounting to a total of NOK 1,347 million. The gross profit from these sales is approximately NOK 15 million.

A detailed overview of the commercial properties owned by Norwegian Property as of this date is set out in Section 6.7.2 below.

Hotel properties

Norgani Hotels was acquired in the autumn of 2007 by Oslo Properties. Norwegian Property owns 17.5% of the shares in Oslo Properties.

As of 31 March 2008, Norgani Hotels owned a total of 73 hotels and one conference centre. In addition, the company has also reached an agreement acquiring a new hotel in Oslo upon completion in 2009. Altogether, the 74 properties have 12,804 rooms and an area of 671,080 square metres. The hotels are operated on long term rental contracts (mainly revenue based) with some of the largest and leading hotel operators in the Nordic market, including Scandic, Rezidor and Choice. The weighted average duration of lease contracts as of 31 March 2008 is approximately 10.7 years.

Detailed information of the hotel properties in Norway, Denmark, Sweden and Finland is set out in Section 6.8.2 below.

1.2 PURPOSE AND BACKGROUND FOR THE RIGHTS OFFERING

At the board meeting held on 30 May 2008, the Board of Directors of Norwegian Property resolved to call for an extraordinary general meeting in order to propose a share capital increase rasing gross proceeds of approximately NOK 2,500 million directed towards the Company's Existing Shareholders in form of a Rights Offering which is fully underwritten by a guarantee consortium. The proceeds from the Rights Offering will, inter alia, finance the remaining settlement of the acquisition of the shares in Oslo Properties (Norgani Hotels) from EQT/Scandic Hotels AB ("Scandic") and other financial investors and will strengthen the Company's balance sheet. In addition, the Board of Directors resolved to cease the negotiations with the potential buyers of Norgani Hotels. Norwegian Property plans to maintain the ownership of Norgani Hotels, but has been contacted by several attractive potential partners and/or buyers and will continue to investigate these opportunities in order to create shareholder values.

¹ The closing related to Elvegaten 25 is expected late June 2008.

On 17 June 2008, the extraordinary general meeting resolved to conduct a rights issue raising gross proceeds of approximately NOK 2,500 million, directed towards Existing Shareholders as of 18 June 2008.

1.3 DESCRIPTION OF THE RIGHTS OFFERING

1.3.1 Overview

The extraordinary general meeting held on 17 June 2008 resolved to carry out an increase in the Company's share capital by issuance of 96,153,846 New Shares each with a nominal value of NOK 25 per New Share, with pre-emptive right for Existing Shareholders. The Rights Offering will increase the share capital of the Company from NOK 2,637,039,250 to NOK 5,040,885,400.

1.3.2 Pre-emptive right/Subscription Rights

Existing Shareholders have a pre-emptive right to subscribe the New Shares in the same ratio as their existing holdings. The Company will issue 1 Subscription Right per 1.097 Share owned as per 18 June 2008. 1 Subscription Right will give the right to subscribe for 1 New Share. Fractions of Subscription Rights will not be issued. The Subscription Rights are fully transferable and will be listed on Oslo Børs in the Subscription Period with ticker code NPRO T and registered in the VPS with the international securities code: ISIN NO 001 0441843. The Subscription Rights are distributed free of charge, and the recipient of Subscription Rights will not be debited any cost.

The Subscription Rights was registered on each Existing Shareholders' VPS account on 23 June 2008.

The Subscription Rights may only be used by the person with the Subscription Rights registered on his/hers account. After the expiry of the Subscription period, the Subscription Rights will be of no value. Acquired Subscription Rights give the same right to subscription as allocated Subscription Rights.

Persons interested in trading in Subscription Rights should be aware that the exercise of Subscription Rights by holders who are located in countries outside of Norway may be restricted or prohibited by applicable securities laws.

Eligible Shareholders who are legally prevented from subscribing the New Shares and who will not receive this Prospectus or the subscription material, will as a general rule not be credited Subscription Rights. Norwegian Property has authorised the Managers to sell the Subscription Rights on these shareholders' behalf during the Subscription Period, provided that the Subscription Rights has an economic value which is expected to exceed the estimated sales costs.

1.3.3 Subscription period and Subscription Offices

The Subscription Period is from and including 26 June 2008 to and including 10 July 2008 at 16:30 hours (CET). Subscriptions must be made on a Subscription Form especially drawn up for this purpose. A properly filled out Subscription Form must be submitted to one of the Subscription Offices prior to 16:30 hours (CET) on 10 July 2008.

The Subscription Offices are Pareto Securities AS, Dronning Maudsgate 3, P.O.Box 1411 Vika, 0115 Oslo, Norway, telephone: (+47) 22 87 87 00, telefax: (+47) 22 83 43 09 and SEB Enskilda AS, Filipstad Brygge 1, P.O. Box 1363 Vika, 0113 Oslo, Norway, telephone: (+47) 21 00 85 00, telefax: (+47) 21 00 89 62.

1.3.4 Subscription Price

The Subscription price is set to NOK 26 per New Share. Total proceeds will amount to approximately NOK 2,500 million. The discount in relation to the last known share price prior to the announcement (closing price on Oslo Børs on 29 May 2008) is approximately 26%.

1.3.5 Allocation/over-subscription

The allocation of New Shares will be made in accordance with the following criteria:

1. Allocation will be made to holders in accordance with held and acquired Subscription Rights used in the Subscription Period. 1 Subscription Right will give the right to subscribe for and be allocated 1 New Share.
2. In the event the Subscription Rights are not fully used, those who have used their Subscription Rights and have over-subscribed, will have the right to be allocated remaining New Shares not subscribed for on a pro rata basis. In the event a pro rata allocation is not applicable due to few New Shares, the Company will determine the allocation by drawing lots or applying similar mechanisms through the automated procedures applicable through VPS.
3. Subscriptions from non-holders of Subscription Rights are allowed. In the event, after applying criteria 1. and 2. above, there still remain New Shares which are not allocated, the remaining number of New Shares shall be allocated to these subscribers in accordance with the subscribed amount. In the event of over-subscription from this group, allocation will be made on a pro rata basis using the subscribed amount.
4. In the event there still remain New Shares which have not been allocated, the participants in the guarantee consortium shall have a right and obligation to be allocated the New Shares in accordance with the guarantee agreements. The underwriters will be allocated on a pro rata basis of the guarantors pro rata share of the guarantee consortium. Allocation to guarantors based on subscriptions will be deducted from each guarantor's share of the guarantee consortium.

1.3.6 Payment for allocated New Shares

Each Subscriber in the Rights Offering must provide a one-time authorization to Pareto Securities AS ("Pareto Securities") and SEB Enskilda AS ("SEB Enskilda") to debit a specified bank account with a Norwegian bank for the amount (in NOK) payable for the New Shares allotted to such Subscriber. The amount will be debited on 21 July 2008. If there are insufficient funds on a Subscriber's bank account or it is impossible to debit a bank account for the amount the Subscriber is obligated to pay or payment is not received by the Managers according to other instructions, the allotted New Shares will be withheld.

Interest will in such event accrue at the applicable rate according to the Norwegian Act on Interest on Overdue Payments 1976, currently being 12.25% per annum.

1.8.5 Significant changes to the Company's financial or trading position since 31 March 2008

Except for the agreements on sale of properties totaling approximately NOK 475 million entered into in April, May and June 2008 as described in Section 6.2 below, there have been no significant changes in the financial and trading position of Norwegian Property subsequent to 31 March 2008.

1.9 PRO FORMA FINANCIAL INFORMATION

This Section present the pro forma profit and loss statement for Norwegian Property and Norgani Hotels combined for the year 2007. Reported financial statements of Norwegian Property for the period ended 31 March 2008 includes Norgani Hotels for the full quarter, and pro forma income statements for the period ended 31 March 2008 and balance sheets as of 31 March 2008 are consequently not required.

The pro forma financial information does not necessarily reflect what the actual results would have been if transactions had occurred earlier and are not indicative of future results of operation or financial position. It must also be pointed out that the pro forma financial information is prepared for illustrative purposes only and that there is higher uncertainty in pro forma financial information than in historical actual financial information.

The proforma financial information is set out in Section 9 in this Prospectus.

⁸ Owned by Torstein Tvene, board member of Norwegian Property.

1.10.2 Related party transactions

Property transactions

No property transactions with related parties were carried out during 2007 and no Shares have been issued as consideration to any sellers. The property transactions carried out in 2006 and 2008 are set out in Section 16.3.2 below.

Facility management agreements (property management agreements)

For the majority of the properties, the Company has entered into management agreements with professional managers who previously carried out the same services on behalf of the former property owners. An overview of these agreements is set out in Section 16.3 below.

Norwegian Property entered into a 6 years agreement with NEAS ASA regarding management and operation of its Norwegian office portfolio. Under the agreement, NEAS ASA will assume responsibility for management and the day to day operations of Norwegian Property's properties during 2008 and 2009.

A special commercial and facility management arrangement for Aker Brygge, with four-year duration, has been entered into with Linstow Eiendom AS in 2006. Linstow Eiendom AS is also managing the Company's properties Middelthunsgate 17, Ibsenkvarteret and Stortingsgaten 6.

Rental agreements

Linstow Eiendom AS (A.W. Group) is a tenant at Aker Brygge, and also a shareholder in Norwegian Property. The annual rent amounts to NOK 4.3 million.

Interest charges to subsidiaries

All controlled subsidiaries to Norwegian Property are charged for interest in relation to the subsidiaries share of the total group financial costs in addition to their share of administration expenses.

1.11.5 Third party statements

Information contained in this Prospectus which has been sourced from third parties has been accurately reproduced and, as far as the Company is aware and able to ascertain from the information published by that third party, no facts have been omitted that would render the reproduced information inaccurate or misleading.

2. RISK FACTORS

2.1 GENERAL

Investing in the Shares in Norwegian Property involves inherent risks. Prospective investors should consider, among other things, the risk factors set out herein before making an investment decision. The risks described below are not the only ones facing the Company. Additional risks not presently known to the Company or that the Company currently deems immaterial may also impair the Company's business operations and adversely affect the price of the Shares. If any of the following risks actually occur, Norwegian Property's business, financial position and operating results could be materially and adversely affected.

A prospective investor should carefully consider the factors set forth below, and elsewhere in the Prospectus, and should consult his or her own expert advisors as to the suitability of an investment in the Shares.

An investment in the Shares is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of the investment. Such information is presented as of the date hereof and is subject to change, completion or amendment without notice.

All forward-looking statements included in this document are based on information available to the Company on the date hereof, and the Company assumes no obligation to update any such forward-looking statements. Forward-looking statements will, however, be updated if required by applicable law or regulation. Investors are cautioned that any forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties, and the actual results may differ materially from those included within the forward-looking statements as a result of various factors. Factors that could cause or contribute to such differences include, but are not limited to, those described below and elsewhere in this Prospectus.

2.2 MARKET RISK

2.2.1 Macro economic fluctuations

Norwegian Property is exposed to the economic cycle and macro economical fluctuations, since changes in the general economic situation could affect rent levels and the value of the Company's assets. There is risk associated with the general development of lease levels of commercial property for various segments and the locations where the Company owns properties. It is especially important what the market conditions are when lease contracts expire on the Company's properties.

2.2.2 Inflation risk

The Norwegian Central Bank's objective is to maintain annual long-term inflation level at a level of 2.5%. A lower rate of inflation may have a negative impact on the Company's revenues and liquidity. The majority of rental contracts in the Company's commercial property portfolio have a 100% CPI adjustment clause allowing the Company to adjust rental rates with the CPI development. On the majority of rental contracts in the Company's hotel portfolio the minimum rents have a CPI adjustment clause. The Company seeks to secure such regulation clauses in all new contracts.

2.2.3 Regulation risk

Changes in, or completion, of existing planning regulations by relevant authorities may significantly affect the operations of the Company's properties, including the interest of potential tenants in future rental of premises or interest of future purchasers of the properties. Furthermore, existing planning regulations may limit the possibility to further develop the properties.

2.2.4 Demand for office space and accommodation

The demand for office/retail space and accommodation is influenced by several factors, on both a micro and macro level. Negative changes in the general economic situation, including business and private spending, may adversely affect the demand for office space and accommodation.

Regarding accommodation on a micro level, the relative attractiveness of regions and cities, both with regards to business and leisure, will affect business and leisure travel to the respective regions and cities, and hence the demand for accommodation. There are no guarantees that the regions that are attractive today remain to be attractive.

2.2.5 Supply of office and hotel space

The supply of office and hotel space is influenced mainly by construction and refurbishment activity. Historically, periods with good market conditions in the office property market and/or hotel market have been followed by increased construction of office and/or hotel properties. This may lead to oversupply and increased vacancies. The long lead time of construction may further increase this effect, as construction that has been started in general will be finalized regardless of any market slowdown.

2.3 OPERATIONAL RISK

2.3.1 Tenant risk

The financial status and strength of the Company's tenants, and thus their ability to service the rent etc. will always be a decisive factor when evaluating the risk of property projects. Termination of leases with subsequent vacancy of the premises, possible adjustment cost in relation to new tenants or lower rent levels, will influence the rental income negatively.

Tenants of Norgani Hotels' properties situated in Sweden have by law, an indirect right to extension on fair market conditions upon expiration of the lease term. The tenant might be entitled to compensation if the landlord refuses extension or if the conditions offered for extension are deemed to be unfair.

2.3.2 Revenue based leases

Norgani Hotels' leases are mainly operator revenue based which means that factors affecting the revenue of the tenants (such as quality of the tenants' operations and general market conditions) will affect the rental income of Norgani Hotels.

2.3.3 Risk related to Aker Hus – the headquarter of Aker Solutions ASA

The construction of Aker Hus – Aker Solutions ASA's new headquarter at Fornebu - was completed in November 2007. Pursuant to the sale and purchase agreement entered into in 2005, Aker ASA is as a main rule obligated to cover costs and losses arising from delayed completion and construction costs exceeding the initial budget. Aker ASA's liability applies to costs/claims forwarded to Aker ASA by November 2010. Costs/claims related to the property which arise after this cut-off date shall be born by the owner of the property (which is a subsidiary of the Company). Furthermore, it cannot be ruled out that i.a. the development of local infrastructure at Fornebu may lead to costs for and claims against the property owners at Fornebu and that such costs/claims may arise later than November 2010. In particular, there are uncertainties as to whether the development of a new railway solution at Fornebu (*Fornebu-banen*) may lead to claims against the owner of the property and other property owners at Fornebu.

2.3.4 Lease contract Middelthunsgate 17

The lease contract between a subsidiary of Norwegian Property and Nordea Bank Norge ASA regarding Nordea Bank Norge ASA's rent of the property Middelthunsgate 17 in Oslo, lays down certain restrictions on the following companies', direct or indirect, ownership of the property (where indirect ownership also may be interpreted to include ownership in Norwegian Property): DNB NOR ASA, Sparebank 1, Danske Bank or any group or associated company of any of these companies. If any of these companies, without prior written consent of Nordea Bank Norge ASA, separately or jointly acquire a controlling interest in the Company, the tenant may claim a 30% reduction of rent as long as the violation of the restrictions persists. Further, the said premises shall not be used by competing companies as long as the lease contract with Nordea Bank Norge ASA is in force.

2.3.5 Legal claims/legal matters/ pre-emption rights

Norwegian Property and Norgani Hotels are, and may in the future be, subject to legal claims from tenants, authorities, including tax authorities and other third parties. No assurance can be given to the outcome of any such claims.

There are contractual and statutory pre-emption rights (*Nw: forkjøpsrett*) applicable upon sale of some of the office and hotel properties (or companies holding the properties). Even if such rights have been waived, not used or were not applicable in Norgani Hotels' or the Company's acquisitions, such rights may be exercised in

subsequent transactions, and the existence of such pre-emption rights may imply a reduced value on the properties.

2.3.6 Relationship with Property Managers

If the property managers do not fulfil their obligations under the property management agreements this may negatively impact the Company's value.

2.3.7 Maintenance/Technical condition/Operating risk

Maintenance of the properties is mainly regulated so that the landlord is responsible for external maintenance and that the tenant covers other operating costs (e.g. internal maintenance) in the premises leased. In addition, the landlord is in several of the leases obliged to cover the costs of replacement of technical installations. There is a general risk that costs for maintenance and replacements, upgrading, etc., for which the Company is responsible may be greater than assumed. The scope of the landlord's potential obligation will depend on the technical state and condition of the lease object. In particular, the Company will incur costs in relation to adaptation to new tenants.

2.3.8 Hidden defects and emissions - pollution

In respect of some of the Company's properties, and the ground on which some of the properties are placed, pollution/use of toxic material is known to the Company. Further, some of the properties acquired are situated in areas where it is not unlikely that the ground is polluted, based on the history of the site/area. The risks relating to pollution in the ground and in the properties and associated buildings largely rest on the Company. Such pollution may render further development of the properties/ground, and excavation, more expensive (due to required soil surveys or otherwise) and subject to approval from the authorities.

2.3.9 Preservation areas

Some of the buildings on Aker Brygge, parts of Middelthunsgate 17 and Skippergata 3 are regulated for conservations purposes. For Aker Brygge this includes the original buildings from the shipyard period. These are regulated as "special area preservation (business, office, food and drink, cinema, museum)". The buildings are not permitted to be demolished and there are restrictions on the altering of the exteriors of the buildings.

In a report prepared in 2006 by ICOMOS Norway (International Council of Monuments and Sites) with support from the Directorate of Cultural Heritage, Aker Brygge is listed as one of several buildings/cultural heritage environments from the 20th century which are recommended to be preserved under the statutes of cultural heritage. According to the report, the preservation value is attached to the general town planning works and the authentic 1980s features in the architectural look/facade. The interiors are considered less suitable for preservation, not least due to the requirements for changes to offices and retail areas.

Parts of Middelthunsgate 17 are regulated as "special area preservation (offices)" in the zoning plan approved on 24 July 1985. This entails a general ban on demolishing and restrictions concerning reconstruction, extension etc. Similar restrictions apply on Skippergata 3.

2.3.10 Risk from use of title companies

In order to achieve full title and legal protection for the acquisition of a property, a requirement pursuant to the Land Registration Act is that the acquisition shall be duly registered in the land register. In this context legal protection means that the buyer of the property is protected from the seller's or former owner's creditors seizing the property and further against subsequent competing legal rights over the property. If an acquisition is not registered on the property's home page in the land register, and the seller, or a former owner goes bankrupt or the seller's creditors seize the property etc, the buyer's ownership rights to the property may be challenged.

However, registering the acquisition and thus obtaining legal title is subject to stamp duty of 2.5% of the property's market value. In major property transactions, it is normal practice that the buyer does not register his acquisition. As an alternative, the buyer may often (in addition to purchasing the property) acquire the shares or parts in a company which holds the title to the property. This structure is to a large extent used in the Company's property portfolio. However, from a legal point of view there may be uncertainties connected to such structure. E.g. it has not been decided or clarified under Norwegian law whether the seller's or former

owner's creditors can seize the property in situations where title companies are sold. However, the Company is free to carry out the registration with the land register which, however, would trigger stamp duty of 2.5% of market value. The Norwegian Supreme Court has recently passed a decision, which confirms this risk.

2.3.11 Vendor rental guarantees/Credit risks on sellers

Norgani Hotels has received rental guarantees from sellers of properties for a limited period of time guaranteeing a certain rent level. Only limited security is established for these guarantees. Consequently, Norgani Hotels takes to a large extent the credit risk on the sellers. Furthermore, the risks related to the level of Norgani Hotels' income increase when the guarantees expire given the large extent of revenue based leases.

2.3.12 Agreement with Fearnley syndicate

There are risks related to the share purchase agreement entered into between Norgani Hotels and a Fearnley syndicate regarding sale of hotels (see Section 6.8.4 for an outline of this agreement), as Norgani Hotels has guaranteed a certain rent and cost level and as Norgani Hotels has undertaken to repurchase the hotels on certain conditions.

2.4 FINANCIAL RISK

2.4.1 Fulfilment of loan obligations

The loan facilities of the Company contain certain requirements as regards the financial condition of the Company (financial covenants) relating to i.a. interest coverage ratio, debt service coverage ratio, loan-to-value covenants, change of control etc. and other obligations of financial nature, see further Section 11.5 for a description of the borrowings of the Company.

No assurance can be given that the Company will be able to satisfy all these terms and conditions at all times, or that its lenders will waive or change the terms to avoid an actual or expected default of the above mentioned conditions. This could mean that repayment of the loans is accelerated by the lenders, including acceleration based on the provisions regarding cross-default, which could itself oblige the Company to seek to refinance its loans and the Company may be forced to divest properties. There can be no assurance that the Company will, if required, be able to enter into new loan facilities on satisfactory terms, and to the extent necessary to maintain its existing and future business.

2.4.2 Fair value adjustments

The Company's properties and certain financial derivatives are included at fair value in the Company's consolidated financial statements. The fair value of the properties is impacted by a number of external factors (see Section 7 below for market information and Section 7.1.3 specifically on the property transaction market), including interest rates, rental market for the properties, credit margins, the financial institutions lending conditions (including covenants, requirements for equity in transactions and availability of fund) and conditions in the investor market (including investors required return on capital and balance in the transaction market for properties). Changes in fair value are recorded quarterly in the income statement and, with respect to the properties, are among other input also based on third party valuations. Consequently, adjustment based on changes in fair value may negatively affect the Company's income and equity on group level. This may in turn, among other things, have an impact on the Company's ability to satisfy its obligations (financial covenants) under its loan agreements.

2.4.3 Interest rate fluctuations

Norwegian Property is to a large extent financed by debt and will be exposed to interest rate fluctuations. Any period of unexpected or rapid increase in interest rates may hence negatively affect the Company's cash flows, profitability and valuation of the underlying assets. Norwegian Property seeks to limit its interest rate risk through entering into fixed interest rate contracts/swaps for a major part of its outstanding loans. The interest rate level over time will also be an important factor in the development of the value of the properties and the return which investors can obtain. Indirectly the interest rate level could also affect rent levels by having a negative impact on the revenue of the tenants, but rent level is also relevant when re-negotiating/renewing or entering into new leases.

2.4.4 Tax risk

Changes in laws and rules regarding tax and duties may involve new and changed parameters for investors and the Company. This may involve a reduction in the profitability of investing in property and the profit after tax for the Company. Tax implications of transactions and dispositions of the Company are to some extent based on judgment of applicable tax law and regulations. Even if the Company is of the opinion that it has assessed tax law in good faith, it could not be ruled out that the tax authorities and courts may conclude differently.

The Company has no assurance that the tax losses carried forward related to Norgani Hotels are usable, either within the country they appeared or across the Nordic region. Furthermore, Norgani Hotels do not have any assurance for when and how these losses may be utilized against profits. See also Section 16.1.

2.4.5 Exchange rate risk

A substantial part of Norgani Hotels' revenues and expenditures are paid in foreign currency (SEK, DKK and EUR). As a result, Norgani Hotels is exposed to market risks resulting from fluctuations in foreign currency exchange rates. A material drop in the value of any such foreign currency as compared to NOK could result in an adverse effect on Norgani Hotels' cash flow and revenues.

Interest bearing debt is as far as possible raised in the same currency, and currency derivatives are used to tune the interest rate position. Still, certain equity exposure remains in such currencies, and a material change of any such currency as compared to NOK could result in an adverse effect on Norgani Hotels' equity.

2.4.6 Settlement to co-owners of Oslo Properties

Delays in settlement under the Rights Offering may result in the Company being unable to fulfill its obligations under the agreements with the co-owners of Oslo Properties (see Section 6.5 for an outline of these agreements).

2.5 RISK FACTORS RELATING TO THE SHARES AND THE RIGHTS OFFERING

2.5.1 Price volatility of publicly traded securities

The trading price of the Shares could fluctuate significantly in response to, amongst other factors, quarterly variations in operating results, adverse business developments, interest rate, changes in financial estimates by securities analysts, matters announced in respect of major customers or competitors, or changes to the regulatory environment in which the Company operates.

The market price of the Shares could decline due to sales of a large number of the Shares in the market or the perception that such sales could occur. Such sales could also make it more difficult for the Company to offer equity securities in the future at a time and at a price that is deemed appropriate.

2.5.2 Subscription Rights

Persons interested in trading in Subscription Rights should be aware that the exercise of Subscription Rights by holders who are located in countries outside of Norway may be restricted or prohibited by applicable securities laws.

Eligible shareholders who are legally prevented from subscribing the New Shares and who will not receive this Prospectus or the subscription material, will as a general rule not be credited Subscription Rights. Norwegian Property has authorised the Managers to sell the Subscription Rights on these shareholders' behalf during the Subscription Period, provided that the Subscription Rights has an economic value which is expected to exceed the estimated sales costs.

If any holder of Subscription Rights does not exercise, or is restricted as a matter of law from exercising its Subscription Rights by the end of the Subscription Period, its Subscription Rights will have no value and will lapse without compensation to the holder.

An active trading market in the Subscription Rights may not develop on Oslo Børs during the Subscription Period. In addition, because the trading price of the Subscription Rights depends on the trading price of the Shares, the price of the Subscription Rights may be volatile and subject to the same risks as described in the

above risk factor. The existing volatility of the Shares may also magnify the volatility of the Subscription Rights.

2.6 OTHER RISKS

2.6.1 Enforceability of civil liabilities

The Company is a public limited liability company organised under the laws of Norway. The directors of the Company and executives and certain of the experts named herein, reside in Norway. As a result, it may not be possible for investors to effect service of process in other jurisdictions upon such persons or the Company, to enforce against such persons or the Company judgements obtained in non-Norwegian courts, or to enforce judgements on such persons or the Company in other jurisdictions.

2.6.2 Foreign shareholders may be diluted if they are unable to participate in future offerings

Because non-Norwegian investors may be unable to participate in future offerings, their percentage shareholding, if they have been allotted Shares in the offering, may be diluted. Unless otherwise resolved by the general meeting, shareholders in Norwegian limited liability companies such as the Company have pre-emptive rights proportionate to the aggregate amount of the Shares they hold with respect to new Shares issued by the Company. For reasons relating to foreign securities laws or other factors, foreign investors may not be able to participate in a new issuance of Shares or other securities and may face dilution as a result.

2.6.3 Norwegian law may limit the shareholders' ability to bring an action against the Company

The Company is a public limited company incorporated under the laws of Norway. The rights of holders of Shares are governed by Norwegian law and by the Articles of Association. These rights differ from the rights of shareholders in other jurisdictions. In particular, Norwegian law limits the circumstances under which shareholders of Norwegian companies may bring derivative actions. Under Norwegian law, any action brought by a company in respect of wrongful acts committed against the company takes priority over actions brought by shareholders in respect of such acts. In addition, it may be difficult to prevail in a claim against the Company under, or to enforce liabilities predicated upon, securities laws in other jurisdictions.

2.6.4 Changes in the Board composition

An extraordinary general meeting in the Company will be held on or before 17 July 2008 at the request of certain shareholders, to resolve upon composition of the Board of Directors and the nomination committee of the Company. The success of the Company is amongst other things dependent upon the competence and experience of the Board members and also their knowledge about the Company's business. Significant changes to the composition of the board of directors may inter alia imply lack of continuity in the board when it comes to such knowledge.

3. RESPONSIBILITY FOR THE PROSPECTUS

3.1 The Board of Directors of Norwegian Property

This Prospectus has been prepared in connection with the Rights Offering described herein. The Board of Directors of Norwegian Property accepts responsibility for the information contained in this Prospectus. The Board of Directors hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus is, to the best of our knowledge, in accordance with the facts and contains no omissions likely to affect its import.

4. NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus includes “forward-looking” statements, including, without limitation, projections and expectations regarding the Company’s future financial position, business strategy, plans and objectives. When used in this document, the words “anticipate”, “believe”, “estimate”, “expect”, “seek to” and similar expressions, as they relate to the Company, its subsidiaries or its management, are intended to identify forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the Company and its subsidiaries, or, as the case may be, the industry, to materially differ from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Company’s present and future business strategies and the environment in which the Company and its subsidiaries will operate. Factors that could cause the Company’s actual results, performance or achievements to materially differ from those in the forward-looking statements include but are not limited to:

- the competitive nature of the markets in which the Company and its subsidiaries operates,
- global and regional economic conditions,
- government regulations,
- changes in political events, and
- force majeure events.

Some important factors that could cause actual results to differ materially from those in the forward-looking statements are, in certain instances, included with such forward-looking statements and in the Section entitled “Risk Factors” (Section 2) in this Prospectus.

Given the aforementioned uncertainties, prospective investors are cautioned not to place undue reliance on any of these forward-looking statements.

5. THE RIGHTS OFFERING

This Section gives a detailed overview of the Rights Offering and the issuance of the Subscription Rights.

5.1 BACKGROUND FOR THE RIGHTS OFFERING AND USE OF PROCEEDS

On 17 September 2007, Norwegian Property entered into investment agreements (as later amended) regarding Oslo Properties with Scanprop AS (a company owned by EQT), Scandic, A. Wilhelmsen Capital AS, Annual Classic AS and certain financial investors with the intention of Oslo Properties submitting an offer on Norgani Hotels. These agreements are further outlined in Section 6.3 below.

On 17 September 2007, Oslo Properties launched a voluntary offer for all the shares in Norgani Hotels for a purchase price of NOK 91 per share. The voluntary offer was i.a. conditioned upon Oslo Properties receiving acceptance from 80%.

On 21 September 2007, Oslo Properties increased the offer price under the voluntary offer to NOK 94 per share. Furthermore, the acceptance level was decreased to 67%. The voluntary offer was completed on 3 October 2007. On 8 October 2007, Oslo Properties launched a mandatory offer for the shares in Norgani Hotels not already owned by Oslo Properties for a purchase price of NOK 94 per share. At the same time as launching the mandatory offer, Oslo Properties gave notice of a compulsory acquisition of all shares in Norgani Hotels not already owned by it. The compulsory acquisition became effective on 8 October 2007. Thus, as of 8 October 2007, Oslo Properties was the owner of 100% of the shares of Norgani Hotels.

In an extraordinary general meeting of Norgani Hotels held on 25 October 2007, it was resolved to apply for delisting of the Norgani Hotels shares from Oslo Børs.

On 2 May 2008, Norwegian Property/Oslo Properties announced to have entered into a letter of intent with a group of buyers who were granted exclusivity to medio May 2008 to acquire the shares in Norgani Hotels. The offer represented an enterprise value of NOK 11.1 billion in addition to a compensation for Norgani Hotels' net cash generation in the 1st half of 2008 estimated to approximately NOK 0.1 billion. A completed transaction would settle all the Company's obligations to all its partners in Oslo Properties (including EQT).

On 21 May 2008, Norwegian Property announced to have experienced some delays caused by more detailed due diligence work than expected in phase one and buyers' formal financing. As a consequence, the exclusivity period granted in favour of the potential group of buyers had expired.

On 2 June 2008, Norwegian Property announced that the negotiations with the potential buyers of Norgani Hotels had ceased. Norwegian Property has plans to maintain the ownership of Norgani Hotels, but has been contacted by several attractive potential partners and/or buyers and will continue to investigate these opportunities in order to create shareholder values.

On 17 June 2008, the extraordinary general meeting resolved a share capital increase raising gross proceeds of approximately NOK 2,500 million in order to, inter alia, finance the full take out of all external shareholders in Oslo Properties (estimated to approximately NOK 1,805 million) and to strengthen the Company's balance sheet to capitalize on the strong development in the underlying office markets in Norway and hotel markets in the Nordic region.

Approximately 2/3 of the share issue will be used to finance the settlement of the EQT/Scandic obligation and take out of other financial investors in Oslo Properties, while the remainder will be used to strengthen the balance sheet. After the share issue and following settlement of EQT/Scandic and other financial investors, the Company anticipates to have an LTV of approximately 70% (on a proforma basis per 31 March 2008 as compared to a LTV at the end of first quarter of just below 80% including the obligation to take out other shareholders in Oslo Properties).

On 17 June 2008, the extraordinary general meeting of the Company resolved to issue 96,153,846 New Shares at an issue price of NOK 26 per New Share and with pre-emptive right to be allocated to holders of the Company's shares as of 18 June 2008.

5.2 THE SHARES AND SHARE CAPITAL

5.2.1 The Shares and Share capital

The Company's current registered share capital is NOK 2,637,039,250, divided into 105,481,570 Shares with a nominal value of NOK 25 per Share, all of which are fully paid.

The Rights Offering will increase the Company's share capital with NOK 2,403,846,150 to NOK 5,040,885,400 divided into 201,635,416 Shares each with a nominal value of NOK 25 per Share.

All issued Shares in the Company are vested with equal shareholder rights in all respects and no Shares have different voting rights. There is only one class of shares and all Shares are freely transferable. The Company's Articles of Association do not contain any provisions imposing any limitations on the ownership or the tradability of the Shares.

All Shares are registered with VPS under the International Securities Identification Number (ISIN) NO 001 0317811.

The Subscription Rights will be registered with the VPS with International Securities Identification Number (ISIN) NO 001 0441843.

The registrar for the Shares is Nordea Bank Norge ASA, Verdipapirservice, Essendropsgrt. 7, 0107 Oslo, Norway.

5.2.2 Rights attached to the New Shares

All of the New Shares carry the right to any dividend, declared with a record date on or after the date of the registration of the share capital increase in the Norwegian Register for Business Enterprises and otherwise rank pari passu with the other outstanding Shares from the date of issuance of the New Shares in the Company's register of shareholders.

Please refer to the description of legal matters and rights attached to the Shares set out in Section 13.6 of the Prospectus.

5.2.3 Withholding tax on dividends paid

Reference is made to Section 14 "Taxation in Norway".

5.3 RESOLUTION FROM THE EXTRAORDINARY GENERAL MEETING

5.3.1 Resolution regarding the Rights Offering

On 17 June 2008, the extraordinary general meeting passed the following resolution:

1. *The share capital is increased with NOK 2,403,846,150, from NOK 2,637,039,250 to NOK 5,040,885,400 by issue of 96,153,846 new shares, each with a nominal value of NOK 25.*
2. *The Company's shareholders as on 18 June 2008 shall have preferential rights to subscribe for the shares. Tradable subscription rights will be issued. Oversubscription and subscription without subscription rights are permitted.*
3. *The following allotment criteria are proposed:*
 - 3.1 *The Shares will be allotted pursuant to the allotted and acquired subscription rights which the subscriber makes use of during the subscription period.*
 - 3.2 *If the subscription rights are not fully used, those who have used their subscription rights and who have oversubscribed, have the right to take over the remaining shares which have not been subscribed for, on a pro rata basis. As far as possible, a pro rata allotment will be carried out pursuant to the number of subscription rights that each person has used. If the pro rata allotment cannot be completed, allotment will be carried out by a routine of drawing lots.*

- 3.3 Persons who do not hold subscription rights in the Company may subscribe for shares in the rights issue. If, subsequent to the allotment pursuant to section 3.1 and 3.2 above, there still remain shares which are not allotted, the remaining number of shares shall be distributed among the other subscribers pursuant to the subscription amount. In the event of oversubscription, allotment on a pro rata basis pursuant to the subscription amount shall be carried out.

3.4 If there still remain shares which have not been allotted, the remaining shares shall be allotted to the participants in the underwriter consortium pursuant to the guarantee agreements entered into. Among the guarantors, the allotment under the guarantee commitment will take place pro rata based on the guarantor's pro rata part of the underwriter consortium. The shares which are allotted to the guarantors in connection with subscription in the rights issue will be deducted.

4. The subscription price is NOK 26 per share. The subscription price is proposed by the Board of Directors after having consulted with the Company's managers, Pareto Securities AS and SEB Enskilda AS, and is based on the general market conditions and the share price for the Norwegian Property share on 29 May 2008, with a discount of around 26%. The shares are offered against a contribution in cash.

5. The subscription period is from 26 June 2008 to 10 July 2008, with the following reservation: The subscription period starts to run from the 1 trading day subsequent to the Approval Date (as defined below). If the Approval Date is a date later than 25 June 2008, the subscription period is postponed with an equivalent number of days. The subscription period is two weeks.

The "Approval Date" means the day the Company files a stock exchange notification stating that Oslo Børs has approved the prospectus in connection with the rights issue. It is expected that the prospectus will be approved around 25 June 2008, however Oslo Børs' approval process may take longer.

6. An underwriter consortium has been established which guarantees to subscribe for shares worth a total of NOK 2.5 billion equal to the gross issue proceeds. Shares which are not subscribed for within the subscription period will be allotted to this underwriter consortium, which has undertaken to subscribe for shares not subscribed or allotted to other subscribers, within a limit of NOK 2.5 billion. The guarantors' obligation to subscribe is pro rata, and for each guarantor limited to the maximum amount that the guarantor is obliged to pay. A guarantor's obligation will be reduced by shares subscribed for and allotted to the guarantor in the rights issue.

7. Time limit for payment is the 7 trading days after the subscription period expires. When subscribing, subscribers domiciled in Norway must grant Pareto Securities AS or SEB Enskilda AS a specific power of attorney to debit a stated bank account for an amount equal to the allotted number of shares. Upon allotment, the manager will debit the subscriber's account by the allotted amount. The debit will take place the 7 trading days after the subscription period expires. Payment for the remaining subscribers shall take place to a separate bank account.

8. The new shares will give shareholder rights, including right to dividend as from the date of registration of the share capital increase in the Norwegian Register for Business Enterprises.

9. Section 4 of the Articles of Association is amended to reflect the share capital, the number of shares, and the nominal value following the share capital increase.

10. An amount equal to 2% of the guaranteed amount will be paid to the guarantors in consideration for the underwriting agreement described in section 6 above.

5.4 DETAILS OF THE RIGHTS OFFERING

5.4.3 Pre-emptive rights/Subscription Rights

Existing Shareholders have a pre-emptive right to subscribe the New Shares in the same ratio as their existing holdings as of the Record Date. The Company will issue 1 Subscription Right per 1.097 Shares owned as of 18 June 2008. Fractions of Subscription Rights will not be issued and the number of Subscription Rights allocated to each shareholder will be rounded down to the nearest whole Subscription Right.

Transactions in Shares made on or before the Record Date, but which have not settled or failed to be registered in the VPS within three trading days after the Record Date (i.e. appear in the VPS on the morning of 24 June 2008) will not be allocated Subscription Rights. 1 Subscription Right will give the right to subscribe for 1 New Share.

The Subscription Rights are fully transferable and will be listed on Oslo Børs in the Subscription Period with ticker code NPRO T and registered in the VPS with the international securities code: ISIN NO 001 0441843. The Subscription Rights are distributed free of charge, and the recipient of Subscription Rights will not be debited any cost.

The Subscription Rights was registered on each Existing Shareholders' VPS account on 23 June 2008.

The Subscription Rights may only be used by the person with the Subscription Rights registered on his/hers account. After the expiry of the Subscription period, the Subscription Rights will be of no value. Acquired Subscription Rights give the same right to subscription as allocated Subscription Rights.

Trading in the Subscription Rights on Oslo Børs will commence on 26 June 2008 and expire at 16:30 hours (CET) on 10 July 2008.

Persons interested in trading in Subscription Rights should be aware that the exercise of Subscription Rights by holders who are located in countries outside of Norway may be restricted or prohibited by applicable securities laws.

Eligible Shareholders who are legally prevented from subscribing the New Shares and who will not receive this Prospectus or the subscription material, will be credited Subscription Rights in their VPS accounts. Norwegian Property has authorised the Managers to sell the Subscription Rights on these shareholders' behalf during the Subscription Period, provided that the Subscription Rights has an economic value which is expected to exceed the estimated sales costs. Any proceeds from the sale of these Subscription Rights will be paid out to these relevant shareholders. The Company will not sell any Subscription Rights which is not used by a shareholder during the Subscription Period, except for the reasons stated above.

5.4.4 Subscription Period

The Subscription Period for the Rights Offering will commence on 26 June 2008 and expire at 16:30 hours (CET) on 10 July 2008. The Subscription Period may not be extended.

5.4.5 The Subscription Price

The subscription price in the Rights Offering is NOK 26 per New Share. The discount in relation to the closing price on 29 May 2008 (the last trading day prior to the announcement of the proposed Rights Offering) is approximately 26%. The Subscribers will not incur any costs related to the subscription for, or allotment of, the New Shares.

5.4.6 Subscription Procedures/Subscription Offices

Subscriptions for New Shares must be made on a Subscription Form in the form attached as Appendix 9 hereto. Shareholders as of 18 June 2008 will receive Subscription Forms which include information on their shareholdings, the number of received Subscription Rights and certain other matters relating to the relevant shareholders.

Accurately completed Subscription Forms must be received by the Managers by 16:30 hours CET on 10 July 2008. Subscription Forms sent by regular mail on 10 July 2008 are likely to arrive after the deadline. Neither the Company nor the Managers may be held responsible for delays in the mail system, busy facsimile lines or for non-receipt of Subscription Forms forwarded by facsimile to the Managers.

Properly completed and signed Subscription Forms may be faxed, mailed or delivered to the Managers at the addresses set out below:

The Board of Directors and the Managers may at their sole discretion refuse any improperly completed, delivered or executed Subscription Form or any subscription which may be unlawful. A subscription is irrevocable and may not be withdrawn, cancelled or modified once it has been received by the Managers.

Multiple subscriptions are not allowed. In the event shareholder submits one or more identical Subscription Forms (the same VPS account, same number of Subscription Rights and same subscription amount), only the first Subscription Form will be registered. The other Subscription Forms will be rejected without further notice.

5.4.7 Allotment

Allotment of the New Shares is expected to take place on or about 16 July 2008. The Board reserves the right to round off, cancel or reduce any subscription which is not covered by Subscription Rights. Over-subscription is allowed.

The allocation of New Shares will be made in accordance with the following criteria:

-
1. Allocation will be made to holders in accordance with held and acquired Subscription Rights used in the Subscription Period. 1 Subscription Right will give the right to subscribe for and be allocated 1 New Share.
 2. In the event the Subscription Rights is not fully used, those who have used its Subscription Rights and have over-subscribed, will have the right to be allocated remaining New Shares not subscribed for on a pro rata basis. In the event a pro rata allocation is not applicable due to few New Shares, the Company will determine the allocation by drawing lots or applying similar mechanisms through the automated procedure applicable through VPS.
 3. Subscriptions from non-holders of Subscription Rights are allowed. In the event, after applying criteria 1. and 2. above, there still remain New Shares which are not allocated, the remaining number of New Shares shall be allocated to these subscribers in accordance with the subscribed amount. In the event of over-subscription from this group, allocation will be made on a pro rata basis using the subscribed amount.
 4. In the event there still remain New Shares which have not been allocated, the participants in the guarantee consortium shall have a right and obligation to be allocated the New Shares in accordance with the guarantee agreements. The guarantors will be allocated on a pro rata basis of the guarantors pro rata share of the guarantee consortium. Allocation to guarantors based on subscriptions will be deducted from each guarantor's share of the guarantee consortium.

5.4.8 Payment

Each Subscriber must provide a one-time authorization to debit a specified bank account with a Norwegian bank for the amount (in NOK) payable for the New Shares allotted to such Subscriber by signing the Subscription Form when subscribing for New Shares. The amount will be debited on 21 July 2008. Subscribers not having a Norwegian bank account must ensure that payment for their New Shares with cleared funds is made on or before 12:00 (CET) on 18 July 2008 and should contact the Managers in this respect.

If there are insufficient funds on a Subscriber's bank account or it is impossible to debit a bank account for the amount the Subscriber is obligated to pay, or payment is not received by the Managers' according to other instructions, the allotted New Shares will be withheld. Interest will in such event accrue at the applicable rate according to the Norwegian Act on Interest on Overdue Payments 1976, currently 12.25% per annum.

The Managers reserves the right to make up to three debits in the period up to 29 July 2008 if there are insufficient funds on the account on the debiting date. If payment for the allotted New Shares is not received when due (i.e. on 21 July 2008), the New Shares will not be delivered to the Subscriber, and the Board reserves the right, at the risk and cost of the Subscriber, to allow a third party pay the subscription amount for the New Shares, to cancel or reduce the subscription in total or in part in respect of the New Shares for which payment has not been made, or to sell or otherwise dispose of the New Shares in accordance with Section 10-12, cf. Section 2-13 of the Norwegian Public Limited Liability Companies Act, and hold the Subscriber liable for any loss, cost or expense suffered or incurred in connection therewith. The original Subscriber remains liable for payment of the entire amount due, including interest, costs, charges and expenses accrued, and the Managers' may enforce payment of any such amount outstanding. However, if payment has not been received within three days after the due date for payment, the Company reserves the right without prior notice to either (i) let a third party assume ownership of such unpaid New Shares, or (ii) sell such unpaid New Shares for the relevant subscriber's account and risk.

5.4.9 Delivery of the New Shares

All subscribers subscribing for New Shares must have a valid VPS account (established or maintained by an investment bank or Norwegian bank that is entitled to operate VPS accounts) to receive New Shares. Assuming that payment from all Subscribers are made when due, delivery of the New Shares is expected to take place on or about 29 July 2008. It is expected that the share capital increase will be registered in the Norwegian Register of Business Enterprises on the same date, i.e. 29 July 2008.

5.4.10 Publication of information relating to the Rights Offering

General information on the outcome of the Rights Offering is expected to be published on or about 11 July 2008 in the form of a stock exchange release through the Oslo Børs information system. All Subscribers being allotted New Shares will receive a letter from VPS confirming the number of New Shares allotted to the Subscriber and the corresponding amount to be paid. This letter is expected to be mailed on or about 17 July 2008.

General publication of the Rights Offering, will be published on the Oslo Børs information system, and will also be available on the Company's web-site www.npro.no.

5.4.11 Listing of the New Shares

All of the New Shares will be listed on Oslo Børs. Assuming timely payment by all Subscribers, the Company expects that the New Shares will be listed on Oslo Børs on or about 29 July 2008. The Shares of the Company are not listed (and no application has been filed for listing) on any other stock exchange or regulated market than Oslo Børs.

5.4.12 Transferability of the New Shares

A Subscriber will not under any circumstances be entitled to sell or transfer its New Shares until these shares have been paid in full by such Subscriber and been registered in the Norwegian Register of Business Enterprises (see also Section 5.4.13 below).

Furthermore, any Subscriber (having paid for its shares) that sells or transfers its New Shares before registration of the share capital increase in the Norwegian Register of Business Enterprises and delivery of the New Shares on said Subscriber's VPS account, runs the risk that full payment by all Subscribers does not take place in accordance with the procedures set out in Section 5.4.8 above. In such case, the completion of the Rights Offering and thereby the delivery of the New Shares to the Subscriber may be delayed (see also Section 5.4.8 above). The Subscriber will then run the risk that the Subscriber is unable to settle the sale or transfer its New Shares in time.

5.4.13 Shareholders' rights relating to the New Shares

The Subscribers being allotted and who have paid for the New Shares in the Rights Offering will have full shareholders' rights in respect of their New Shares once the share capital increase is registered in the Norwegian Register of Business Enterprises, expected on or about 29 July 2008. The New Shares will be issued electronically in accordance with the regulations set forth in the Norwegian Public Limited Liability Companies Act and will rank pari passu in all respects with the Company's other outstanding Shares, including the right to dividends with a record date after New Shares are issued, see also Section 13.6.9 regarding the dividend rights. See also Section 13 ("Share Capital and Shareholder Matters") for a further description of the rights and tradability of the Shares.

5.4.14 Timeliness, Validity, Form and Eligibility of Subscriptions

All questions concerning the timeliness, validity, form and eligibility of any subscription for New Shares will be determined by the Board, whose determination will be final and binding. The Board, or the Managers upon being authorized by the Board, may in its or their sole discretion waive any defect or irregularity in the Subscription Forms, permit such defect or irregularity to be corrected within such time as the Board or the Managers may determine, or reject the purported subscription of any New Shares. It cannot be expected that Subscription Forms will be deemed to have been received or accepted until all irregularities have been cured or waived within such time as the Board or the Managers shall determine. Neither the Board, the Company nor the Managers will be under any duty to give notification of any defect or irregularity in connection with the submission of a Subscription Form or assume any liability for failure to give such notification. Further, neither the Board, the Company nor the Managers are liable for any action or failure to act by a financial intermediary through whom any eligible Shareholder holds his Shares or by the Managers in connection with any subscriptions or purported subscriptions.

5.5 THE GUARANTEE CONSORTIUM

The Rights Offering is fully underwritten by a guarantee consortium established by Norwegian Property on 30 May 2008. The guarantors will receive a guarantee fee of 2% of the guaranteed amount. The table below shows the list of the guarantors:

The guarantee agreement entered into between the Company and the guarantors, provides that the New Shares which are not validly subscribed for in the Rights Offering shall be allocated to the members of the guarantee consortium, as far as possible pro rata to the amount and number of New Shares each member has guaranteed to subscribe for, however so that if any guarantor has subscribed for and been allotted shares in the Rights Offering, its obligation to subscribe for shares under the guarantee agreement shall be reduced accordingly.

The Company's business address serves as c/o address in relation to the above mentioned guarantors.

5.6 MANDATORY ANTI-MONEY LAUNDERING PROCEDURES

The Rights Offering is subject to the Norwegian Money Laundering Act No. 41 of 20 June 2003 and the Norwegian Money Laundering Regulations No. 1487 of 10 December 2003 (collectively the "Anti-Money Laundering Legislation").

All Subscribers who are not registered as existing customers with the Managers must verify their identity to the Managers in accordance with requirements of the Anti-Money Laundering Legislation, unless an

⁹ Company owned and controlled by Widar Salbuvik, Chairman of Norwegian Property.

exemption is available. Subscribers that have designated an existing Norwegian bank account and an existing VPS-account on the Subscription Form are exempted, provided the aggregate price is less than NOK 100,000, unless verification of identity is requested by the Managers. The verification of identification must be completed prior to the end of the Subscription Period. Subscribers that have not completed the required verification of identification will not be allocated New Shares.

Further, participation in the Rights Offering is conditional upon the Subscriber holding a VPS account. The VPS account number must be stated on the Subscription Form. VPS accounts can be established with authorised VPS registrars which can be Norwegian banks, authorised securities brokers in Norway and Norwegian branches of credit institutions established within the EEA. However, non-Norwegian investors may use nominee VPS accounts registered in the name of a nominee. The nominee must be authorised by the Norwegian Ministry of Finance. Establishment of VPS account requires verification of identification to the VPS registrar in accordance with the Anti-Money Laundering Legislation.

5.7 MARKET MAKING

The Company has not entered into any market making agreements.

5.8 EXPENSES

Costs attributable to the Rights Offering will be borne by the Company. The total costs are expected to amount to approximately NOK 155 million, whereof the guarantee provision to the underwriters amounts to approximately NOK 50 million. The net proceeds to the Company will be approximately NOK 2,345 million.

5.9 MANAGERS

The Managers for the Rights Offering are Pareto Securities AS, Dronning Maudsgate 3, P.O. Box 1411 Vika, 0105 Oslo, Norway and SEB Enskilda AS, Filipstad Brygge 1, P.O Box 1363 Vika, 0113 Oslo, Norway.

5.10 JURISDICTION AND CHOICE OF LAW

This Prospectus is subject to Norwegian law, unless otherwise indicated herein. Any dispute arising in respect of this Prospectus is subject to the exclusive jurisdiction of the courts of Norway, with Oslo District Court as legal venue.

5.11 FINANCIAL INTERMEDIARIES

All questions concerning the timeliness, validity and form of instructions to a financial intermediary in relation to the exercise, sale or purchase of Subscription Rights should be determined by the financial intermediary in accordance with its usual customer relations procedure; or as it otherwise notifies each Shareholder.

The Company is not liable for any action or failure to act by a financial intermediary through which Existing Shareholders hold their Shares.

5.11.1 Subscription Rights

If an Existing Shareholder holds the Shares through a financial intermediary on the Record Date, the financial intermediary will customarily give each Existing Shareholder details of the aggregate number of Subscription Rights to which each Existing Shareholder will be entitled. The relevant financial intermediary will customarily supply each Existing Shareholder with this information in accordance with its usual customer relations procedures. Existing Shareholders should contact their financial intermediary if they have received no information with respect to the Rights Offering. Only holders of the Shares as of the Record Date will be entitled to receive Subscription Rights. If any such Existing Shareholders have acquired Subscription Rights which are held through a financial intermediary, contact should be made to the relevant financial intermediary for instructions on how to make the subscription.

5.11.2 Subscription Period

The time until which notification of exercise instructions may be validly given may be earlier if Shares are held through a financial intermediary. This depends on the financial intermediary.

5.11.3 Subscription

If Existing Shareholders hold their Subscription Rights through a financial intermediary and wish to exercise their Subscription Rights, they should instruct their financial intermediary in accordance with the instructions received from such financial intermediary. The financial intermediary will be responsible for collecting exercise instructions from the Existing Shareholders and for informing the Managers of their exercise instructions.

5.11.4 Method of payment

Existing Shareholders holding their Subscription Rights through a financial intermediary should pay the Subscription Price for the New Shares that they subscribe for in accordance with the instructions received from that financial intermediary. The financial intermediary must pay the Subscription Price to the Managers, who will in turn pay it to the Company. Payment for the New Shares must be made to the Managers no later than the payment date. Accordingly, financial intermediaries may require payment to be provided to them prior to the payment date.

5.11.5 Trading in the Subscription Rights

Subject to applicable securities laws, Existing Shareholders holding their Shares through a financial intermediary may customarily instruct their financial intermediary to sell some or all of their Subscription Rights, or to purchase additional Subscription Rights, on behalf of such Existing Shareholders.

6.3 LEGAL STRUCTURE

Norwegian Property is the parent company in the Group with limited activity other than being the ultimate holding company.

The Company's properties are as a main rule each held by an individual subsidiary in so-called single purpose companies and in some cases the title is held by a separate legal entity. Some of the single purpose companies are limited partnership companies, which require at least two owners according to applicable law, and therefore usually 10% of each partnership company's shares are owned by a general partner which is a separate entity. One of Norwegian Property's subsidiary companies has minority shareholders¹⁰. The Company has about 250 subsidiaries. Please see below for a description of the owner situation in Oslo Properties.

¹⁰ Stortingsgaten 6 KS/AS in Oslo.

The chart below shows a simplified overview of the company chart of Norwegian Property:

On 17 September 2007, the Company entered into investment agreements (as later amended) regarding Oslo Properties with Scanprop AS (Scanprop AS' rights and obligations were subsequently transferred to Snowball Holding Guernsey Ltd ("SHG"), both companies controlled by EQT), Scandic, A. Wilhelmsen Capital AS, Annual Classic AS and certain financial investors (the latter parties, hereinafter the "**Financial Investors**").

Oslo Properties has a total share capital of NOK 1,002,500,000 divided into 20,050,000 shares each with a nominal value of NOK 50. The Company subscribed for 3,500,000 shares in Oslo Properties, representing approximately 17.5% of the total share capital of Oslo Properties, for a subscription price of NOK 100 per share. According to the investment agreements, the Company has the right to designate 3 of a total of 5 members of the board of Oslo Properties, including the Chairman.

According to the investment agreement entered into with the Financial Investors, the Company has a right, but not an obligation, to acquire the financial investor's shares in Oslo Properties (call option), such shares being in total 4,000,000 shares and representing approximately 20% of the total share capital of Oslo Properties. The call options expire on 1 July 2008. Furthermore, each of the Financial Investors has the right, but not an obligation, to sell its shares in Oslo Properties to the Company (put option). The financial investors may only exercise the put options for settlement on 1 July 2008. The strike price (purchase price) to be paid upon exercise of the put and call options is NOK 112 per share for settlement in cash. The options have been exercised for settlement with the Financial Investors on 1 July 2008.

According to the investment agreement entered into with SHG, Scandic, A. Wilhelmsen Capital AS and Annual Classic AS, the Company has a right, but not an obligation, to acquire the shares in Oslo Properties held by SHG and Scandic (call option), such shares representing approximately 55.9% of the total share capital of Oslo Properties. The call options are not time limited. Furthermore, each of SHG and Scandic has the right, but not an obligation, to sell its shares in Oslo Properties to Norwegian Property (put option). The put options may be exercised at any time following 1 July 2008. The strike price (purchase price) to be paid upon exercise of the put and call options are acquisition cost of NOK 100 per share plus a fixed interest rate (in average approximately 8.8% p.a.). Upon exercise of the put and call options regarding SHG and Scandic,

Norwegian Property may elect to settle the strike price either in cash or in shares in Norwegian Property against a minor discount.

In connection with the Rights Offering, the Company has entered into an amendment agreement of the investment agreement with SHG and Scandic, whereby the parties have agreed that SHG and Scandic will sell their shares in Oslo Properties to the Company at a price of NOK 1,120 million (excluding interests) payable in cash immediately following completion of the Rights Offering, expected on or about 30 July 2008. During the term of this amendment agreement, the parties have undertaken to suspend their respective put/call option rights. The amendment agreement will terminate if the Subscription Period of the Rights Offering ends later than 21 July 2008 or the Rights Offering has not been completed (registered in the Norwegian Register for Business Enterprises) by 31 July 2008.

Thus, the Company may through agreements, call options and put options become the owner of more than 90% of the shares of Oslo Properties.

Oslo Properties conducts no business and has no activities apart from owning shares in Norgani Hotels (see below).

6.4 DESCRIPTION OF THE MAIN COMPANIES IN THE CURRENT GROUP

Below is a description of the main companies in the Group. The Company does not have any ownership interests or investments in any undertakings, other than these companies, that are likely to have a significant effect on the assessment of the Company's own assets and liabilities, financial position or profits and losses.

6.4.1 Norwegian Property ASA

Norwegian Property is the parent company in the Group. The Company has limited activity other than being a holding company. The Company was incorporated on 20 July 2005, is located in Oslo, Norway and has a total of 15 employees. The Company has a total of around 250 subsidiaries.

6.4.2 Norwegian Property Holding AS

Norwegian Property Holding AS is a Norwegian limited liability company organised under Norwegian laws. The company was incorporated on 13 September 2006 with organisation number 990 298 211. The company has limited activity other than being a holding company and has no employees. The company is located in Oslo, Norway.

6.4.3 Oslo Properties AS (17.5%)

Oslo Properties is a Norwegian limited liability company incorporated on 2 January 2007 with organisation number 990 727 716 and located in Oslo, Norway. Oslo Properties is the sole owner of Norgani Hotels as described in more detail in Section 6.8 below. The company has limited other activity than being a holding company and has no employees.

6.5 THE COMPANY'S VISION AND BUSINESS STRATEGY

6.5.1 Vision

The overall long-term object is to be the largest and the preferred investment option and premier value-developer in Norway, and to serve as a door-opener to the Nordic property market.

6.5.2 Strategy

The principal strategy is to invest in attractive and centrally located properties with a value of more than NOK 200 million each and an attractive entry yield. Between 70% to 75% of the properties will be in prime offices in Oslo, Stavanger, Bergen and Trondheim, while 25% to 30% of the properties may be in other property segments with consumer related rents, such as hotel and retail.

The emphasis is on securing long-term leases, adjusted in accordance with the consumer price index ("CPI"). Tenants will normally be large listed companies and public bodies, in order to reduce risk associated with leases.

The Company's earnings, cash flow and required return from operations are anticipated to be fairly predictable. The objective is a return of 13% to 15% on paid-in equity and an annual dividend of 4 to 6% of paid-in equity. The Company will seek to be financed on competitive terms. More than 70% of long-term debt will be hedged at fixed interest rates.

Open communication combined with clear goals and strategies will help to ensure confidence in the investor market. A broad shareholder base comprising Norwegian and international investors will contribute to a high level of liquidity for the share.

6.6 OVERVIEW OF THE BUSINESS

The Group's primary reporting format are the business segments commercial properties (Norwegian Property) and hotel (Oslo Properties/Norgani Hotels). The business segment division is in conformity with the Group's legal organisation and the internal management reporting.

The combined portfolio of Norwegian Property and Norgani Hotels as of the date of this Prospectus consist of 125 properties with a total of 1,347,017 m² of prime office (including Elvegaten 25, but excluding other properties sold during 2007 and 2008), retail and hotel properties across the Nordic Region.

6.7 COMMERCIAL PROPERTIES

6.7.1 Overview

Norwegian Property has a clear strategy of investing in high-quality commercial properties with attractive locations in Norway's largest cities. Over time, the ambition is for attractively-located office and commercial properties in Norway to account for more than 70% of the value of the Group's property portfolio.

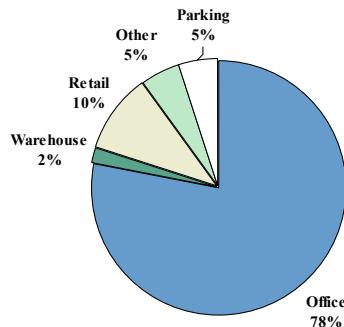

Below is an overview of the key figures for the commercial property portfolio as of 31 March 2008 and 31 December 2007 and 2006:

Sale of non-core properties

Norwegian Property has sold eight non-core assets during 2008, which amounted to a total of NOK 1,347 million. The properties sold included Mauritz Kartevoldspllass 1 (Sandnes), Østre Akervei 20 and 22 (Oslo), Forskningsveien 2 (Oslo), Magnus Paulssons vei 7 (Oslo), Økernveien 9 (Oslo), Nedre Holmegate 30-34 (Stavanger) and Elvegaten 25 (Sandnes – expected completion of transaction in June 2008). The gross profit from these sales amounted to approximately NOK 15 million.

6.7.3 Tenants and lease contracts

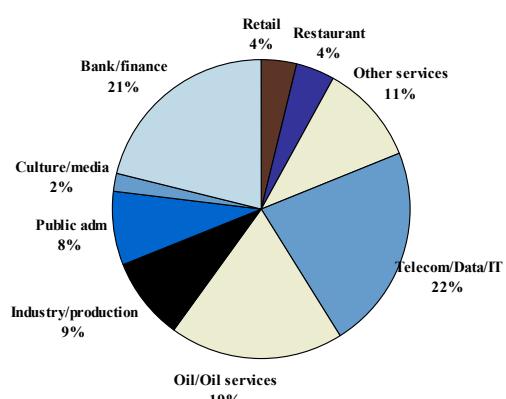

Norwegian Property has a tenant portfolio of attractive and solid organizations and companies. The tenants consist of companies within several different lines of service, with Oil/Oil Service, Telecom/Data/IT and Financial services representing 62%. The figure to the left below illustrates distribution of the lines of service in the tenant base. The weighted average duration of lease contracts as of 31 March 2008 is approximately 6.1 years. The figure to the right below illustrates the property portfolio duration profile.

¹¹ Nedre Holmegate 30-34 is sold (see Section 6.2 above).

¹² Elvegaten 25 (Sandnes) is sold (see Section 6.2 above).

Approximately 61% of the rental income is derived from the 20 largest tenants. Average contract duration for these tenants is 7 years as of 31 March 2008.

On 28 February 2008, Norwegian Property entered into a 6 years agreement with NEAS ASA regarding management and operation of its Norwegian office portfolio. Under the agreement, NEAS ASA will assume responsibility for management and the day-to-day operations of Norwegian Property's properties during 2008 and 2009.

The agreement involves that future ownership cost during the agreement period which is expected to be secured at a level of 10% to 12% below current levels, without a corresponding reduction in magnitude or quality of work (though subject to index adjustments going forward). In addition, the agreement is anticipated to ensure more and better services for Norwegian Property's tenants.

6.8 HOTEL PROPERTIES (NORGANI HOTELS)

6.8.1 Overview

The hotel properties are organised in Norgani Hotels, which had a portfolio of 73 hotel properties in addition to one conference centre as of 31 March 2008. The properties have an estimated rental income for 2008 of NOK 819 million, corresponding to a proforma growth of 7% when taking into account the effect of guarantee rents. The estimated rental income is based on the reported RevPAR-expectations from the operators of about 5%, with the addition of an additional assumed uplift of mnok 11 and a reduction in guarantee rents of about NOK 14 million from 2007. Revenue development is based on budgeted exchange rates from November 2007. These currency rates are marginally different from exchange rates as of 31 March 2008.

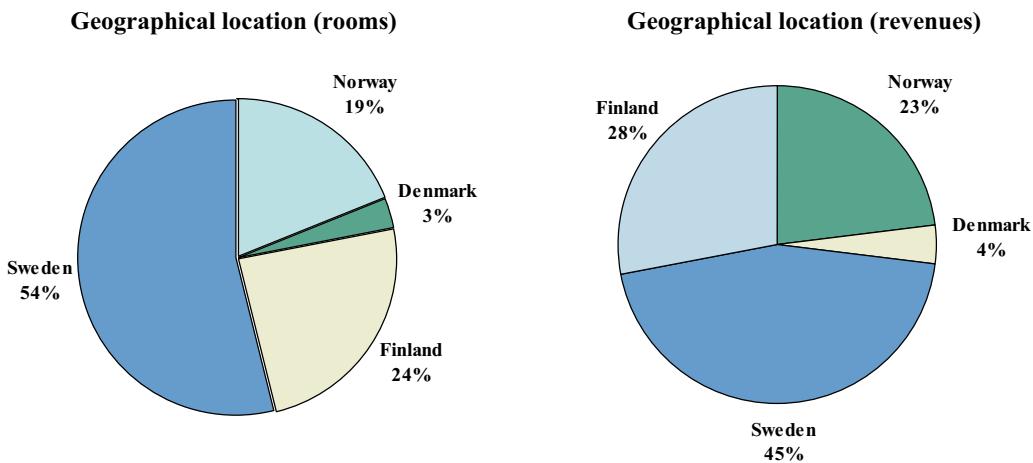

¹³ Norwegian Property's business was established in May 2006.

Below is an overview of the key figures for the hotel property portfolio as of 31 March 2008, 31 December 2007 and 31 December 2006:

6.8.2 The hotel property portfolio

As of 31 March 2008, Norgani Hotels owns a total of 73 hotels and one conference centre. It has also reached agreement on acquiring a further hotel in Oslo upon completion in 2009. Altogether, the 74 properties have 12,804 rooms and an area of 671,080 square metres. Virtually all the space is leased for hotel operation, but some hotels also have small areas leased for other types of activity. A more detailed presentation of all the properties as per the date of this Prospectus is provided in the table below.

¹⁴ Per 31.03.2008 and 31.12.2007 the estimated run rate for gross rental income is based on the reported RevPAR- growth expectations from the operators of about 5%, with the addition of an additional assumed uplift of NOK 11 million and a reduction in guarantee rents of about NOK 14 million from 2007 (based on exchange rates as of end March 2008).

6.8.3 Lease agreements

By the end of the first quarter 2008, all Norgani Hotels' hotels were operated under performing contracts with only immaterial vacancies. Except for one hotel, the contracts are turnover-based leases, mostly with differentiated rates between lodging and food/beverages, which is the most common contract type in the Nordic region. Most contracts have defined customer price index (CPI) adjusted minimum leases. Minimum rents are approximately 64% of run rate 2008 (NOK 819 million), which based on current payable interest expenses more than cover debt servicing of current interest bearing debt in Norgani Hotels. One lease agreement is charged at a fixed rate with yearly CPI (100%) adjustment. The fixed rental contract accounts for less than 1% of total revenue per Q1 2008. Norgani Hotels has vendor rental guarantees for some of its hotels, which means that the original seller of the property to Norgani Hotels has agreed to compensate Norgani Hotels for the difference between guaranteed level and the actual turnover based rent. The average lease duration for the total portfolio as of 31 March 2008 is 10.7 years, including the renegotiated Scandic agreement.

6.8.4 Share purchase agreement with Fearnley syndicate

On 19 December 2006, Norgani Hotels entered into a share purchase agreement with three single purpose companies (“Purchaser”) established by Fearnley Finans Eiendom ASA, regarding sale of Clarion Hotel Copenhagen (the “Clarion Hotel”), Scandic Hotel Hvidovre, Scandic Hotel Kolding and Scandic Hotel Glostrup (the “Scandic Hotels”).

Norgani Hotels has guaranteed that the Clarion Hotel will generate a minimum yearly rent of DKK 18,200,000 (2007 figures, to be indexed every year). Norgani Hotels has furthermore guaranteed that the Scandic Hotels will generate a minimum yearly rent of DKK 24,400,000 (2007 figures, to be indexed every year). The guarantee period is six years from 31 December 2006 (the “Guarantee Period”).

Norgani Hotels has also guaranteed that during the Guarantee Period there will not be need of any investments in the hotels except for DKK 10,000,000 set off for investments in the Scandic Hotels.

Norgani Hotels has guaranteed that the running expenses for the Clarion Hotel during the Guarantee Period will not exceed 5% of the above-mentioned guaranteed rent for the Clarion Hotel. Norgani Hotels has furthermore guaranteed that the running expenses for the Scandic Hotels during the Guarantee Period will not exceed 18% of the above-mentioned guaranteed rent for the Scandic Hotels.

During the Guarantee Period Norgani Hotels has – through a separate management agreement – undertaken to manage the hotels on behalf of the Purchaser.

If the purchaser chooses to sell the hotels before 31 December 2009, Norgani Hotels has the right to present a purchase offer. If the offer is not accepted by the purchaser, the Purchaser has the right to sell the hotels to a third party on conditions better than Norgani Hotels’ offer.

In the period from 1 January 2010 to 31 December 2012 the Purchaser has the right to sell the Clarion Hotel to Norgani Hotels for a price of DKK 299,200,000. In the same period the Purchaser has the right to sell the Scandic Hotels to Norgani Hotels for a price of DKK 272,200,000.

In the period from 1 January 2010 to 31 December 2012 the Purchaser may also choose to sell the hotels at marked value. Under given circumstances Norgani Hotels may in this situation have the right of a part of a possible increase in the value of the hotels.

6.9 VALUATION REPORT

DTZ Realkapital AS (“DTZ”) performed an external and independent valuation as of 31 March 2008 covering the Company’s office and hotel properties in Norway, Sweden and Denmark. The Company’s hotel properties in Finland were valued by Maakanta OY (“Maakanta”). Further information on both valuers, can be found in Section 17.4 below.

DTZ’s valuation model is based on discounting cash flows related to existing leases and the value of market rents after the expiry of existing leases. Individual assessments of current expenses and upgrading costs and of vacancy at the expiry of existing leases are made on a property-by-property basis. Maakanta bases its valuation on cash flow models.

The Board of Directors and the executive management have carried out independent assessments of the parameters which affect the value of the Group’s properties, including developments in interest rates, market rents, occupancy, the yield level on property transactions and the quality of the properties. On the basis of these assessments, the Company has concluded that the valuations by DTZ and Maakanta provide a realistic valuation of the properties as of 31 March 2008. These valuations have accordingly been applied in the accounts. The total value of the Company’s investment properties as of 31 March 2008 was NOK 31,096 million after adjusting for tax compensation at the date of acquisition.

The valuations covering the Company’s office and hotel properties are made on the request of the Company.

The valuation reports are included in this Prospectus as Appendix 8 and both DTZ and Maakanta have approved the publication of the valuation reports for this use.

Below is an overview of the differences between the latest valuation reports and the last year end-book value:

NOK million	
DTZ 31 March 2008 valuation report	28,532
Maakanta 31 March 2008 valuation report	2,947

First quarter 2008 Investments.....	(51)
First quarter 2008 divestments.....	50
31 December 2007 book value	31,114

From the date of the valuation the long term interest rates have increased significantly. At the same time it appears that the Nordic banks have adjusted their credit terms to accommodate increasing funding cost and perceived risk (See Section 7 on the market). In the Company’s opinion, no other material changes have occurred since the date of the valuations that would materially change the parameters or valuation of the Company’s properties substantially. The Company has since the valuation report agreed the sale of additional two properties (Nedre Holmegate 30-34 and Elvegaten 25 (see Section 6.7.2 above)).

6.10 PROPERTY, PLANT AND EQUIPMENT

As of 31 March 2008, Norwegian Property had non-current assets of NOK 32,175 million, of which the value of investment property comprise NOK 31,096 million, development property comprise NOK 0 million and other tangible assets comprise NOK 1,065 million. The properties are pledged as securities in connection with

the loans as described in Section 11.5. Generally, the Company carries a risk of hidden defects and pollution at its properties. Such pollution may influence further development of the properties/ground (see also Section 2 “Risk factors” above). To the Company’s knowledge, there are no defects or pollution that affects the present use of the properties.

6.11 ENVIRONMENTAL ISSUES

The Group is not aware of any specific environmental issues that are likely to have a negative effect on the utilization of its assets and services.

6.12 DEPENDENCE ON RESEARCH AND DEVELOPMENT, PATENTS AND LICENCES

In the opinion of the Group, its business is not materially dependent on any research and development, or on particular patents or licenses.

6.13 TREND INFORMATION

The Company has not experienced any changes or trends outside the ordinary course of business that are significant to the Group between 31 March 2008 and the date of this Prospectus, other than those described elsewhere in this Prospectus. Please see Section 7 “The Market”, Section 8 “Consolidated Financial information” and Section 13 “Share Capital and Shareholder Matters” for more information about significant recent trends in the Group’s business and relevant markets.

7. THE MARKET

7.1 GENERAL ON THE MARKET

7.1.1 Nordic Macro outlook

The Nordic countries have experienced strong economic growth the last years. Low interest rates and inflation combined with high GDP growth and employment have resulted in a booming property market. Real estate has been an attractive place for investments and the activity has been high. This trend continues into 2008, however with the credit crunch kicking in summer 2007, yields have started to rise and the investment market has cooled somewhat off. Growth has been slowing down overall, but the rental market seems solid. Limited office completion the last years have resulted in historical low vacancy and high office rents. According to Jones Lang Lasalle and their Nordic City Report Spring 2008, the Nordic counties still enjoys promising prospects in the commercial real estate market.

7.1.2 The Norwegian economy

The underlying economy is performing very well in Norway. Mainland GDP growth (excluding items related to petroleum exploitation and ocean shipping) for 2006 and 2007 was 4.3% and 5.7% respectively and the forecasted growth for 2008 is 3.2% (SEB Nordic outlook, May 2008). Subsequently, the unemployment level is record low, with approximately 2.5% of the total workforce being unemployed. This is below the long term equilibrium level of approximately 3.75% (average the last ten years) and the tight labor market is causing the wages to increase. The forecasted unemployment rate for 2008 is 2.3% (Nordea – Økonomisk Oversikt – April 2008).

Source: Norway Central Bank, Statistics Norway

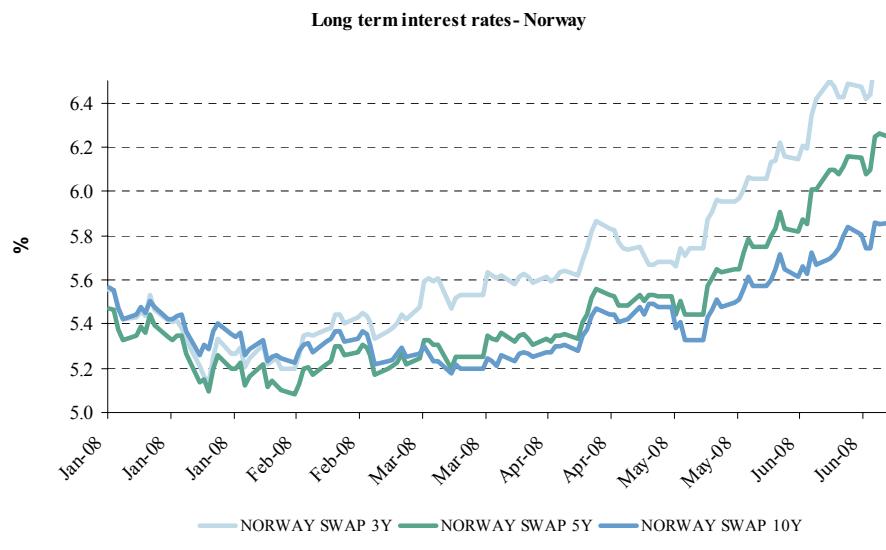

The inflation rate in Norway has remained low the last years and significantly below the Norwegian Central Bank's target level of 2.5%, keeping the interest rates low. During the end of 2007, however, the inflation rate started to accelerate and the interest rates have increased. Today the sight deposit rate is 5.5% (as of 5 June 2008) up from 1.75% in March 2004. Equally, the long term interest rate (10 year swap) is at 5.7% and the 10 year Norwegian treasury bonds are 4.7% (both as of 5 June 2008). The inflation forecast of Statistics Norway

for 2008 is 3.3% and based on the strict inflation target of the Norwegian Central Bank, there may be more interest rate hikes to come.

Source: Datastream, Norway Central Bank, SST

From early May the long term interest rates have seen a major uplift as illustrated in the graph below.

Source, Nordea e-Markets

7.1.3 The property transaction market

The Norwegian commercial property transaction market has slowed down during the first half year of 2008. Transaction volumes for commercial properties were NOK 44 billion in 2005, NOK 68 billion in 2006 and NOK 53 billion in 2007. For the period January to May 2008 total transaction volume was estimated to NOK 5.1 billion, which is a significant reduction from the same period last year (DnB NOR Eiendomsmegling).

After a period last year where the Nordic and Norwegian banks appeared to be somewhat less impacted by the international financial turmoil, it now appears that the Nordic banks start to adjust their credit terms to accommodate expected increasing risk and funding cost. During the first half year of 2008 required credit margins on property financing has increased significantly and other terms (like required equity and amortisation structure) has tightened.

The combination of increasing long term interest rates (see 7.1.2) and tightened financing terms has impacted yield requirements on property transactions. Yields on transactions started to raise on less attractive properties (quality and geography) during the second half of 2007. There is limited transactional evidence in 2008, due to few transactions, but the few transactions that have been completed seem to support a yield expansion also on prime properties.

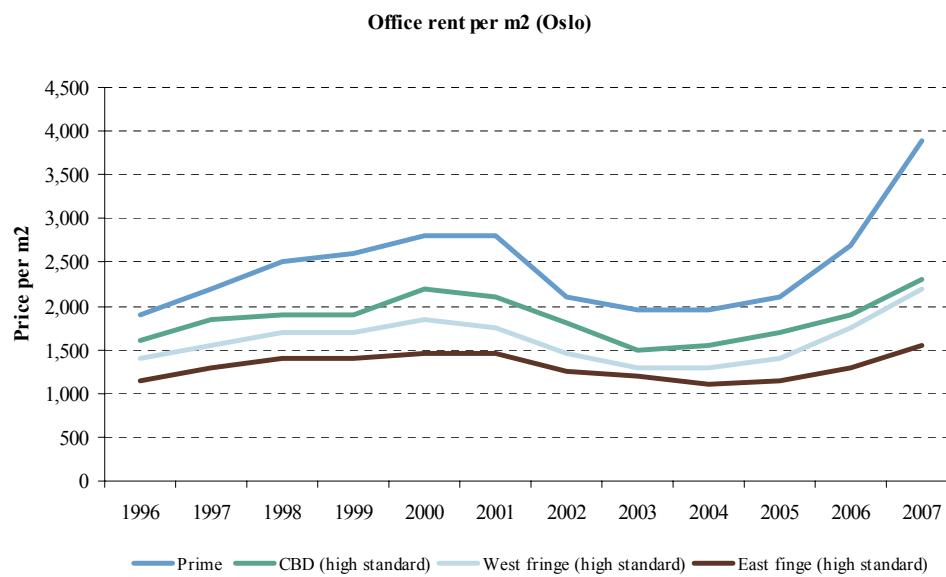

7.2 THE OFFICE MARKET

7.2.1 Overview of the Oslo office market

The Oslo office building stock, including Lysaker, consists of approximately 8.7 million sqm. Of this, roughly 3 million sqm is situated within the city centre (from Solli Plass in the west to Bjørvika in the east). The best and highest priced office premises are located in and around the Aker Brygge/Vika area, considered as the Central Business District (CBD) in Oslo. The area around the government offices forms a second popular office area and there is a strong build up of new office buildings in Bjørvika (around the central railway station) which is considered an upcoming central business area. The office zones outside the CBD stretches from the outer circle road (Ring 2) from Lysaker through Nydalen and Helsfyr to Bryn.

7.2.2 Office rents

In Oslo, the rental growth for prime offices was 57% during 2007 (Jones Lang Lasalle, Nordic City Report Spring 2008). Compared to an average prime office growth of 10% in Europe, the high growth in Oslo is mainly explained by a high demand for prime premises and low CBD vacancy. Regarding the future development in Oslo office rents, consensus is expecting a flat development in office rents in 2008 (Jones Lang Lasalle, Newsec, DnB NOR Næringsmegling and Akershus Eiendom). Furthermore, DnB NOR Næringsmegling is expecting a flat or possible negative development in office rents from 2009. (DnB NOR Næringsmegling Market Report 1st half 2008).

7.2.3 New projects in Oslo

There has been very low development/new building activity in the Oslo office sector since 2004. Developers have concentrated on the higher margin segments like residential and retail buildings of which the demand has been strong. Today there is more uncertainty in the residential market and the construction has slowed down, thus more resources are available for the commercial sector. However, available land plots for office development are located in areas with lower rent levels and most of the projects due for completion in 2008 and 2010 are located in the centre and westwards to Skøyen, Lysaker and Fornebu (Newsec Nordic Spring Report 2008).

According to Eiendomsspar, around 200,000 sqm. of new office stock has been brought into the Oslo market each year since 1990 and average net absorption has been 199,000 sqm. over the same period. In 2004, an all-time low in new office stock with 32,000 sqm. were noted. This is very low compared to average absorption, implying that the vacancy will remain low during 2008. Completion is however expected to double in 2009 with approximately 200,000 sqm, being higher than the estimated absorption of around 150,000 sqm. The same is expected for 2010 with expected completion about 230,000 sqm. and estimated absorption around 115,000 sqm (DnB NOR Næringsmegling Market Report 1st half 2008).

Oslo Office completion and absorption

7.2.4 Vacancy

Sparse supply of new development and continuously demand for new office space the last years has caused the vacancy rate in Oslo to decline substantially. According to DnB NOR Næringsmegling, the overall vacancy in Oslo, Asker and Bærum is currently around 4.6%, ranging from 1 to 2% in the CBD to 10 to 12% in some of the eastern office areas. DnB NOR Næringsmegling expects an upward trend in the vacancy level to from 2009 and 2010 due to more new space being brought to the market and less pressure on demand (DnB NOR Næringsmegling Market Report 1st half 2008).

7.2.5 Other cities

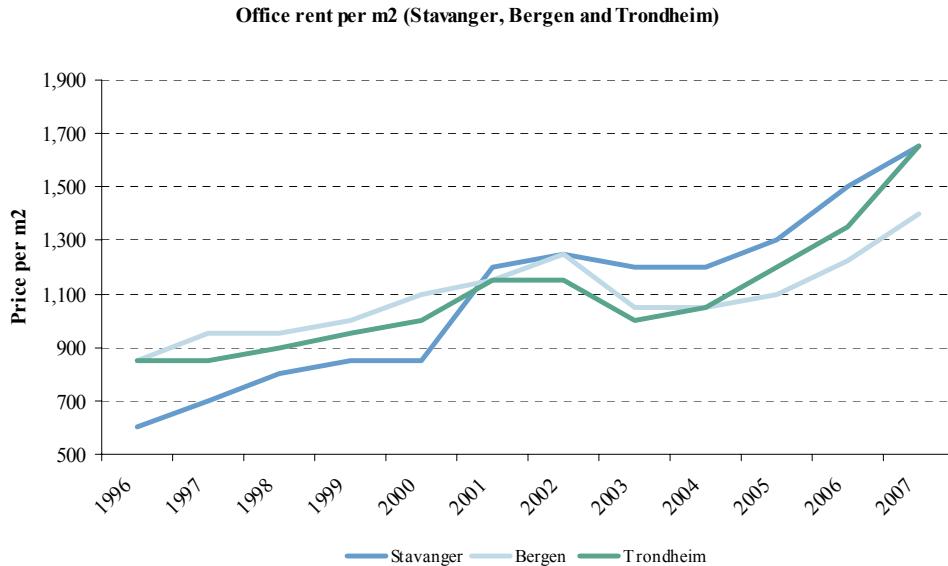

The commercial real estate markets in the other large cities in Norway have had a relatively high growth the last years as well. CBD office rents in Stavanger, Bergen and Trondheim have climbed between 10% and 22% during 2007, with Stavanger and Trondheim in the upper rent level range (average around NOK 1,600 per sqm) Simultaneously, the vacancy has been falling in Bergen and Stavanger, but has levelled out in Trondheim during 2007 (Akershus, The Norwegian commercial property market spring 2008).

In addition to Oslo, Stavanger, the oil capital of Norway, is one of the most expanding regions of Norway. The last two years about 24,000 new jobs were brought to the Rogaland region and the 2008 predictions count another 11,000 (Akershus, The Norwegian commercial property market spring 2008). The unemployment level in the Stavanger region is currently record low.

Overall, the same positive drivers are present in Trondheim, Bergen and Stavanger:

1. Few new construction projects
2. Vacancies dropping in Bergen and Stavanger
3. Zero vacancy for larger office areas (CBD)
4. Oil-area (Stavanger) - demand for space increasing

The rent levels in Stavanger, Bergen and Trondheim bottomed out in the 2003-2004 period, however since then there has been a positive development. The table below illustrates the development in the nominal rent levels over the last 10 years in Stavanger, Bergen and Trondheim.

7.3 THE HOTEL MARKET

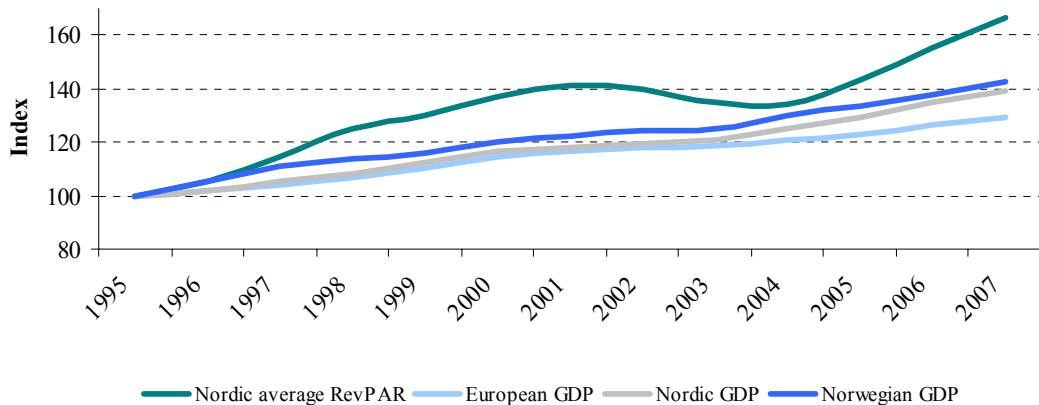

7.3.1 Overview of the Nordic hotel market

In general, the hotel market more or less follows the same trend as the Gross Domestic Product (GDP). Higher economic wealth leads to more spending and more travelling. Especially the business and conference segment has had a rapid increase the last years and the strong economic growth in the Nordic region has led to a substantial upswing in the hotel market.

A hotel's room revenue is measured by revenue per available room (RevPAR), which is determined by multiplying average room rate with occupancy, where occupancy is the proportion of sold rooms in relation to capacity. Generally the hotel room revenues fluctuates a lot over the year- with the second and third quarters normally better than the first and fourth. Due to rising occupancy levels and constantly rising room prices, 2007 was a record year for the hotel industry. RevPAR for 2007 increased by approximately 10% (y-o-y) compared to 2006 and occupancy increased around 3% the same period. The strong development in RevPAR continues into 2008, up 8.0% in Norway, 7.6% in Sweden from January to April (y-o-y) and 8.9% in Finland from January to April (y-o-y). Denmark had an occupancy decrease of 0.8% the same period.

As shown in the figure below, RevPAR has increased steadily the last ten years with a little downturn in 2002 and 2003.

RevPar and GDP development 1995-2007

Source: Statistics Norway (www.ssb.no), Statistics Sweden (www.scb.se), Statistical office of Finland (www.stat.fi) and statistics Denmark (www.statistikbanken.dk)

In 2007, there were about 4,517 hotels with a total of 255,711 rooms in the Nordic region. More than half of the hotel room capacity, 54%, is located in Sweden with 19% and 25% in Norway and Finland respectively. Denmark only represents about 3% of the total room capacity in the Nordic region.

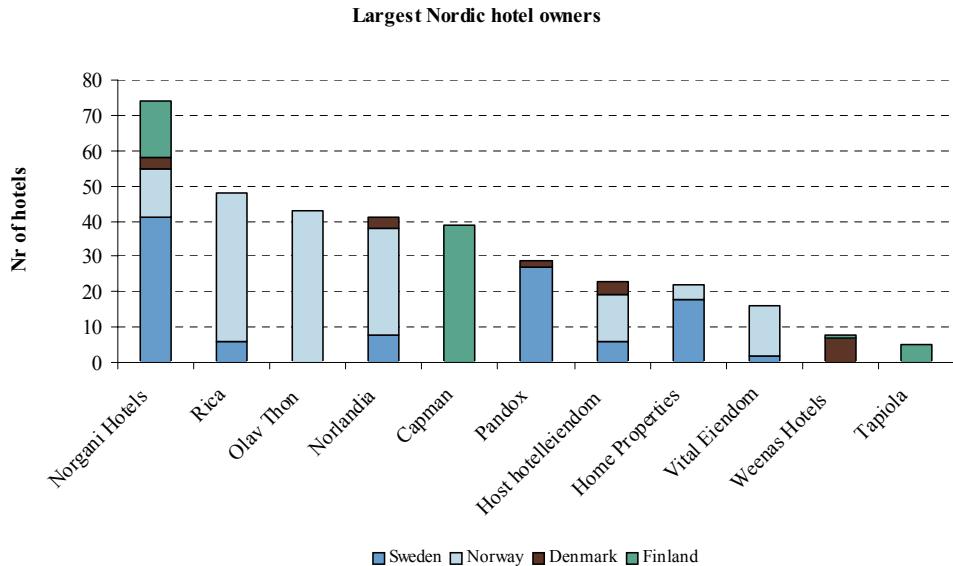

Hotel demand can be categorized as 1) conference/business and 2) holiday/leisure, split by 3) foreign and domestic. In Sweden and to some extent Norway, the majority of guests are conference and business, while in Denmark and Finland it is holiday and leisure. The majority of the guests are domestic residents.

Nordic Guest profile 2007

Guest profile	Business	Leisure	Domestic	International
Sweden	64%	36%	78%	22%
Norway	53%	47%	73%	27%
Denmark	41%	59%	82%	18%
Finland	41%	59%	70%	30%

The hotel market has three main players: the owners, the operators and the distributors. Some cover all these functions while in most cases these roles have different participants. The hotel property owners typically have lease agreements or other types of contracts with the operators who perform the day-to-day operation of the hotels, whereas hotel distributors market the hotels under a brand name and perform the booking for the hotels. In the past, these three roles were usually combined. Increasingly, however, specialists are taking responsibility for their part of the value chain. Norgani Hotels has specialized in the hotel owner role and is currently the largest hotel property owner in the Nordic region with 74 owned hotels. At the end of 2007, Norgani Hotels controlled 5% of available Nordic hotel rooms.

Source: Companies websites as of Dec 07- Jan 08

There is not an absolute distinction between distributors and operators, both types are organized in chains. The chart below shows the largest Nordic hotel chains measured in number of hotels. Scandic and Choice Hotels Scandinavia are the two largest with respectively 120 and 104 hotels under operation.

7.3.2 The Norwegian market

The Norwegian RevPAR increased by approximately 13% in 2007 (y-o-y), from NOK 407 to NOK 461. The growth in RevPAR for Oslo was almost 15%, substantially stronger than the rest of the country. Average room rate (ARR) increased by approximately 9% from NOK 746 to NOK 811 and the occupancy rate was almost 57% up from 55% the same period. The strong development in RevPAR continues into 2008, up 8.3% in Norway and 10.4% in Oslo. Strong underlying economic growth and increased air traffic contributes to increased demand both from the leisure and from the business segment. Especially the business segment has had a rapid increase.

The graph below illustrates the historical development in RevPAR for Norway and Oslo from 1998 to 2007. As we see, there was a negative development in RevPAR from 1999 to 2003 followed by a high growth the last four years. Oslo has significantly higher RevPAR than the average in Norway, but follows the same trend.

Source: Statistics Norway (www.ssb.no)

7.3.3 The Swedish market

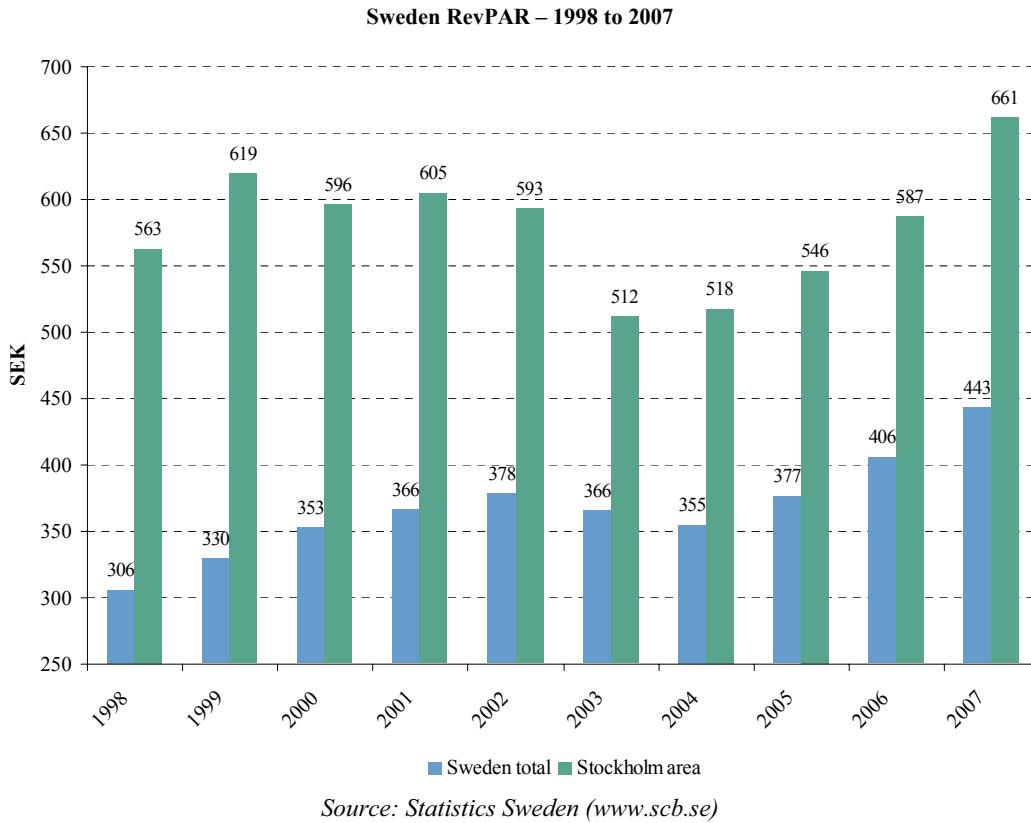

The RevPar for Sweden improved by 9.5% in 2007, from SEK 406 to SEK 443. Subsequently, the average room rate (ARR) rose by 6% from SEK 825 to SEK 875 and the occupancy by 2% from 49% to 51%. From January to April 2008, RevPAR in Sweden was up 6.7% (y-o-y) and Stockholm was up 10.4%. Sweden is Norgani Hotels most important market

Sweden	2007	2006	Change
Occupancy rate	50.6%	49.2%	2.8%

The graph below shows the historical development in RevPAR for Sweden and Stockholm from 1998 to 2007. As we see, the average RevPAR growth in Sweden was increasing from 1998 to 2002 followed by a small downturn in 2003 and 2004 and a steady increase from 2004 to 2007. Like Oslo, Stockholm has significantly

higher RevPAR than the average, however with a somewhat more volatile development historically. RevPAR in Stockholm has had a sharp increase the last five years.

7.3.4 The Finnish market

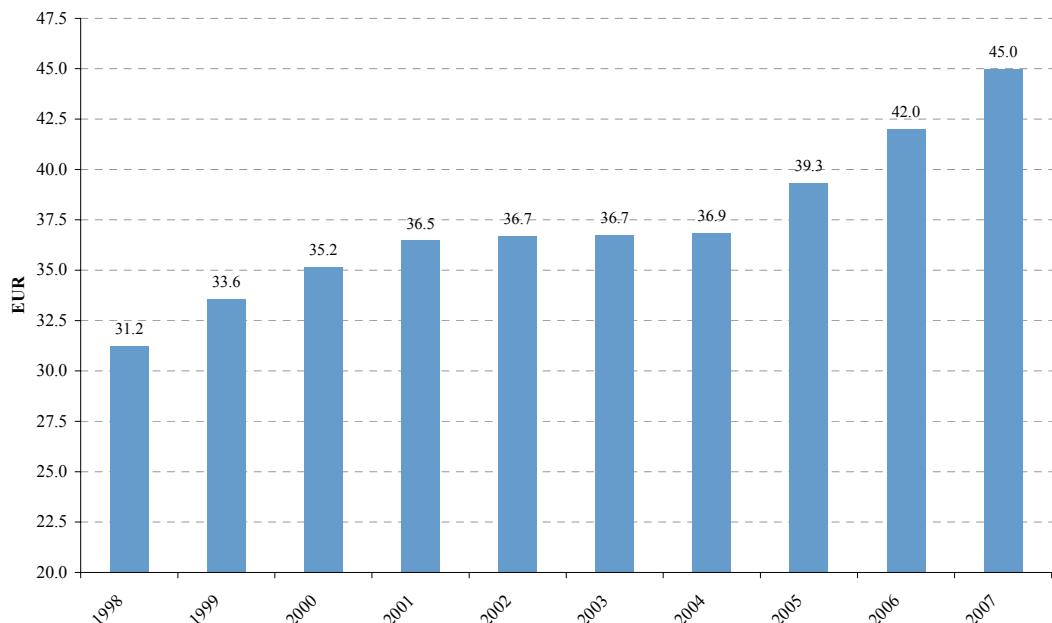

The Finnish market has expanded continuously since 2003, reaching one of its highest levels since 1980 in 2007, where RevPAR increased by 7.3% to EUR 42. Equally, the average room rate (ARR) rose by 3.8% from EUR 76 to EUR 79. Occupancy was 53% in 2007, an increase of 2% from 51% in 2006. The Finnish market had a RevPAR increase of 8.7% from January to April 2008 (y-o-y) and is mainly driven by domestic holiday and leisure travel. Simultaneously, Helsinki had an increase of 6.8% the same period.

7.3.5 The Danish market

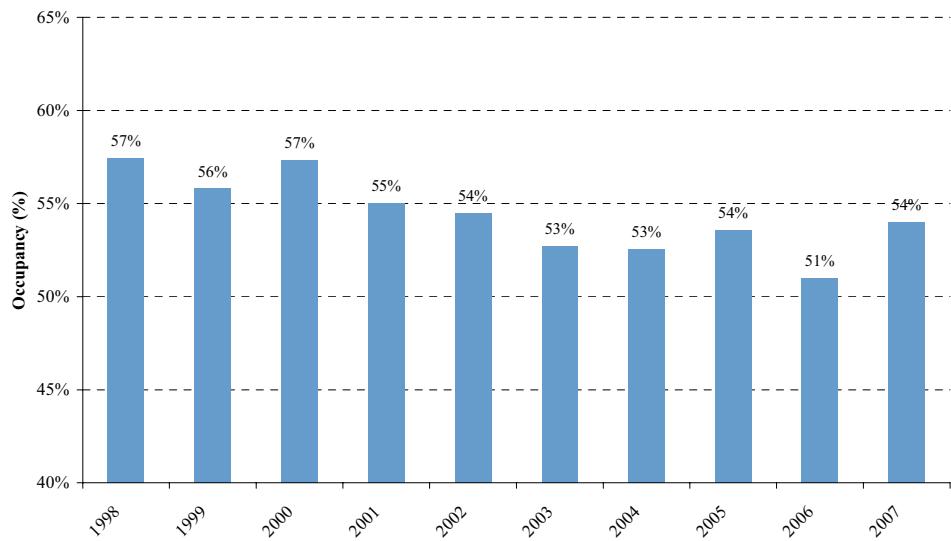

In Denmark, occupancy increased by 2.5% in 2007, from 57.5% to 59%. The figure for January to April 2008 was a slight decrease in occupancy of 0.8%. The market lacks official statistics for average room prices, making it difficult to compute RevPAR.

The Danish market lacks official statistics for the average room prices (ARR), making it difficult to compare development in RevPAR. The graph below illustrates instead the development in occupancy from 1998 to 2007. As we see, all time high was in 1998 and 2000, followed by a volatile and overall downward development to this date.

8. CONSOLIDATED FINANCIAL INFORMATION

8.1 BASIS FOR PREPARATION

The consolidated financial statements are presented in NOK and all tabular amounts are rounded to the nearest thousands except when otherwise indicated.

The consolidated financial statements of Norwegian Property have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. The consolidated financial statement have been prepared under the historical cost convention except that investment property, available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments) are carried at fair value through the profit and loss account.

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Those areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed within note 4 in the Company's annual report for 2007, incorporated as Appendix 3 to this Prospectus.

The consolidated financial statements as stated below has been derived from the Company's annual report for 2007 and the 1 quarter report for 2008 which is incorporated as Appendix 3 and 2 respectively to this Prospectus. The 1 quarter financial statements for 2008 with comparable figures for the same period in 2007 are not audited. The annual report for 2007, 2006 and 2005 are audited and incorporated in this Prospectus as Appendix 3, 4 and 5.

The annual financial statements for Norgani Hotels for the year 2005-2007 may be found in Appendix 6 to this Prospectus.

8.2 SUMMARY OF ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with international financial standards. Please see note 2 to the annual report for 2007 in Appendix 3 for the full summary of the Company's accounting policies.

8.3 CONSOLIDATED HISTORICAL FINANCIAL INFORMATION

The business operations of Norwegian Property were established in 2006 and therefore real no comparable figures exist for the year 2005. The first quarter figures for 2008 as presented below, includes Oslo Properties/Norgani Hotels.

Separate financial figures for Norgani Hotels for the first quarter 2008 and for the full year of 2007 can be found in note 1 in the Company's first quarter report for 2008 included as Appendix 2 in this Prospectus. The annual reports for the years 2005-2007 for Norgani Hotels may also be found in Appendix 6 to this Prospectus.

8.3.5 Significant changes to the Company's financial or trading position since 31 March 2008

Except for the agreements on sale of properties totaling approximately NOK 474 million entered into in April, May and June 2008 as described in Section 6.2 above, there have been no significant changes in the financial and trading position of Norwegian Property subsequent to 31 March 2008.

8.4 SEGMENT INFORMATION

The tables below have been derived from Note 5 to the Company's annual report for 2007 incorporated as Appendix 3 to this Prospectus.

For the year 2006, Norwegian Property's main activity was ownership and rental of prime office buildings in prime locations within Norway's largest cities. There were no material differences in risks and returns in the economic environments in which the company was operating. Consequently, the Company was only present in one business segment and one geographic market in the year 2006.

8.4.1 Business segment

The Group's primary reporting format is the business segments commercial properties (Norwegian Property) and hotel (Oslo Properties/Norgani Hotels). The business segment division is in conformity with the Group's legal organisation and the internal management reporting, thus the distribution of revenue, expenses, assets and liabilities to the business segments follows the group's legal structure. The hotel portfolio was acquired at the end of third quarter 2007. Below is an allocation of the main key figures to the business segments for the year 2007.

NOK 1,000	Commercial properties	Hotel properties ²³	Unalloc./elimin.	Total
Net rental income	949,009	165,253	-	1,114,262

Investments	4,275,323	851,135	-	5,126,458

8.4.2 Geographical segment

The Group's secondary reporting format is geographical markets. The Group had operations in Norway, Sweden, Denmark and Finland in 2007. The commercial property segment is only located in Norway, while the hotel segment is located in all four countries. Below is an allocation of the main key figures to the different countries for the year 2007.

	Norway	Sweden	Denmark	Finland	Unalloc./elimin.	Total

8.5 INDEPENDENT AUDITOR

The Company's auditor is Deloitte AS ("Deloitte"), Norway, represented by state authorized public accountants who are members of Norwegian Institute of Public Accountants (DnR). Deloitte's address is Karénslyst Allé 20, P.O.Box 347 Skøyen, 0213 Oslo, Norway and its organisation number is 980 211 282.

Deloitte has been the Company's auditor since 20 April 2006. From incorporation and until this date (when the Company did not perform any business), BDO Noraudit Oslo DA, Munkedamsveien 45, 0250 Oslo, Norway, having the organisation number 875 926 632, was the auditor for the Company. The auditor was changed due to commencement of business activities.

The annual financial statements for the Company included in this Prospectus have been audited by Deloitte. Deloitte has issued an audit report on these financial statements without any qualifications or disclaimers. In Section 9 in this Prospectus, unaudited Pro Forma Financial Information is set out. Deloitte has issued an Independence Assurance Report on this Pro Forma Financial Information. Deloitte has not audited or reviewed or produced any report on other information provided in this Prospectus.

²³ These figures includes Oslo Properties and the liability to acquire shares in Oslo Properties (total acquisition financing).

9. UNAUDITED PRO FORMA CONDENSED FINANCIAL INFORMATION

This Section presents, in accordance with the guidance from the Committee of European Securities Regulators (CECR/05-054b), the 2007 full year pro forma profit and loss statement for Norwegian Property and Norgani Hotels combined.

Norwegian Property gained control over Norgani Hotels as of 24 September 2007. Reported financial statements of Norwegian Property for the period ended 31 March 2008 includes Norgani Hotels for the full quarter, and pro forma income statements for the period ended 31 March 2008 and balance sheets as of 31 March 2008 are consequently not required. The pro forma financial statements for the period ended 31 December 2007, are presented as if the acquisitions took place and as if the combined Norwegian Property and Norgani Hotels group had existed in operation from 1 January 2007.

In summary, the pro forma figures for the period ended 31 December 2007 illustrates a total pro forma turnover for the Group of NOK 1,771 million. The estimated EBIT is NOK 2,791 million and net profit is estimated to be NOK 1,185 million.

9.1 GENERAL ASSUMPTIONS

The pro forma financial information does not necessarily reflect what the actual results would have been if transactions had occurred earlier and are not indicative of future results of operation or financial position. The pro forma financial information presented below is prepared for illustrative purposes only and because of its nature, the pro forma financial information addresses a hypothetical situation and, therefore, does not represent the Company's actual financial position or results.

The pro forma condensed financial information is prepared in a manner consistent with the accounting policies of the Group as set out in Section 8.2 above. The pro forma condensed financial information for the Group does not include all of the information required for financial statements under IFRS, and should be read in conjunction with the historical financial information of the Group.

Norwegian Property gained control over Norgani Hotels as of 24 September 2007. The pro forma financial statements for the period ended 31 December 2007, are presented as if the acquisitions took place and as if the combined Norwegian Property and Norgani Hotels group had existed in operation from 1 January 2007.

The basis for the pro forma consolidated financial information is the historical consolidated financial statements of Norwegian Property, including Norgani Hotels from 24 September 2007. The income statement figures for Norgani Hotels for the period from 1 January 2007 until 24 September 2007 included in the pro forma figures presented are identical to the actual figures (see adjustment 1 in Section 9.3.1 below). Both Norwegian Property's and Norgani Hotels' financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS).

Pro forma fair value adjustments of investment properties and financial derivative instruments (mainly interest rate swap contracts) are not calculated. Consequently, fair value adjustments included in the pro forma income statement for 2007 are equal to actual reported figures. The purchase consideration is carried out based on fair values as of the acquisition date (24 September 2007). Fair value adjustments of investment properties reported by Norgani Hotels actual first half year 2007 are consequently included in the pro forma income statement for 2007. Additional fair value adjustments in the third quarter are reported as part of the purchase consideration (NOK 654 mill) in both actual and pro forma figures. Fair value adjustments for the full Group after the takeover are included in the actual and pro forma income statements.

Pro forma income taxes for the period ended 31 December 2007 are calculated at 28%.

9.3 ADJUSTMENTS/NOTES TO THE UNAUDITED PRO FORMA CONDENSED STATEMENTS

All of the pro forma adjustments listed below in Section 9.3.1-9.3.2 will also apply for and impact the financial statements going forward.

9.3.1 Pro forma Adjustment 1

The adjustments are related to the full year effect of profit and loss figures in relation to the acquisitions of Norgani Hotels. Norgani Hotels was acquired on 24 September 2007, and full year pro forma adjustments are related to the period 1 January 2007 to 24 September 2007.

Minority interests of 82.5% are calculated on profit for the period. Income taxes of 28% are calculated on profit before tax.

9.3.2 Pro forma Adjustment 2

Adjustments are related to the full year effect of the acquisition financing of Norgani Hotels. The full year adjustment effect of Norwegian Property's NOK 1,525 million nominal liabilities to acquire shares in Oslo Properties is an additional interest cost of NOK 52 million. The corresponding full year adjustment effects of the NOK 1,700 million acquisition borrowing facility in Oslo Properties and the NOK 433 million cash payment made by Norwegian Property are additional interest costs/reduced interest income of NOK 66 million and NOK 14 million respectively.

The adjustment of interest cost is calculated based on actual average interest rates paid for the period in 2007, and the adjustment of interest income is calculated based on average actual interest rates received for the period in 2007.

Minority interests of 82.5% are calculated on the additional interest costs related to the acquisition borrowing facility in Oslo Properties. Income taxes of 28% are calculated on profit before tax.

9.3.3 Independent Report on examination of the unaudited pro forma condensed combined statement of income and balance sheet for the financial year ended 31 December 2007

The Company's auditor Deloitte has issued an independent report on the unaudited pro forma condensed financial information. The report is included in Appendix 7 to this Prospectus.

10. OPERATING AND FINANCIAL REVIEW

You should read the following discussion of the financial condition and results of operations in conjunction with the financial statements included in Section 8 this Prospectus. The following discussion may contain forward-looking statements that are based on current assumptions and estimates by the Company's management regarding future events and circumstances. The Company's actual results could differ materially from those expressed or implied by the forward-looking statements as a result of many factors, including those described in Section 2 "Risk factors".

10.1 COMPARISON FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2008 AND 2007

10.1.1 Operating revenue

The gross rental income for the first quarter of 2008 was NOK 283.2 million (NOK 472.1 including Norgani Hotels), compared to NOK 248.6 million for the same period last year. The increase of approximately NOK 35 million was related to the acquisition of the DnB-headquarter at Aker Brygge, completion of the Aker Hus property, annual CPI-adjustments of rents and renegotiation of expiring rental agreements with corresponding rental increases.

10.1.2 Operating expenses

The total operating cost for the first quarter of 2008 was NOK 31.4 million (NOK 66.4 million including Norgani Hotels) compared to NOK 30.1 million for the same period of 2007. The change in operating expences is minimal reflecting effective operation of the properties and maintenance activity in line with the preceeding year.

10.1.3 Operating profit

The operating profit was NOK 55.0 million for the first quarter of 2008 (NOK 313.7 million including Norgani Hotels) compared to NOK 445.9 million for the same period of 2007. Net loss from fair value adjustments on investment properties in the first quarter 2008 was NOK 197.0 million (when excluding the Norgani Hotels) compared to a gain of NOK 227.4 million in the same quarter of 2007.

10.1.4 Net financial items

Net financial items was NOK 261.6 million for the first quarter of 2008 (NOK 480.6 million including Norgani Hotels) compared to NOK 100.6 million for the same period of 2007. Negative change in market value of financial derivatives was NOK 67.3 million in the first quarter 2008 compared to a positive change in the same quarter 2007 of NOK 58 million. The remaining increase in net financial items is mainly attributable to acquisition of the DnB NOR-headquarter at Aker Brygge, completion of Aker Hus at Fornebu and increasing short term market interest rates.

10.1.5 Profit before/after tax

Profit before tax for the first quarter of 2008 was NOK -206.6 million (NOK -166.9 million including Norgani Hotels) compared to NOK 345.4 million for the same quarter in 2007. The decrease is mainly due to negative changes in fair value adjustment on investment properties and negative changes in market value of financial derivative instruments.

The income tax expense for the first quarter of 2008 is calculated to NOK 57.8 million (NOK 46.7 million including Norgani Hotels) compared to NOK 96.7 million for the same period in 2007. The profit for the period for 2008 was NOK -148.7 million (NOK -120.2 million including Norgani Hotels) compared to NOK 248.7 million for the same period of 2007.

10.1.6 Cash and cash equivalents

The Group had cash and cash equivalents for the first quarter of 2008 equalling NOK 512.5 million (including Norgani Hotels) compared to NOK 635.5 million (including Norgani Hotels) at year end 2007. The change is related to a net effect of positive operational cash flow and a net negative effect from investment and financing activities.

10.1.7 Liabilities

Total liabilities was NOK 26,938.4 million (including Norgani Hotels) for the first quarter of 2008, compared to NOK 27,051.2 million at year end 2007 (including Norgani Hotels). The slight decrease is mainly due to minor reductions in other liabilities and deferred tax liability.

10.1.8 Total equity

The Group's total equity (including Norgani Hotels and minorities) was NOK 6,731.5 million for the first quarter of 2008 compared to NOK 6,830.9 million at year end 2007. The reduction is mainly related to dividend payments in 2007, minority interests in Oslo Properties, currency translation differences and effects from profit after minorities.

10.1.9 Significant changes in the Company's financial or trading position since 31 March 2008

Except for the agreements on sale of properties totaling approximately NOK 414 million entered into in April and May 2008 as described in Section 6.2 below, there have been no significant changes in the financial and trading position of Norwegian Property subsequent to 31 March 2008.

10.2 COMPARISON FOR THE FINANCIAL YEARS ENDED 31 DECEMBER 2007 AND 2006

10.2.1 Operating revenue

The gross rental income for the year 2007 was NOK 1,195.7 million compared to NOK 414.7 million for 2006. 2006 was a start up year for Norwegian Property with only 7 months of operation and a number of properties acquired during the second half of 2006. The increase of approximately NOK 781 million was mainly due to a full year of operation, acquisitions made during 2006 and 2007 and the acquisition of Norgani Hotels (NOK 185.2 million). Positive effects were also seen from positive CPI-adjustments and renegotiation of leases.

10.2.2 Operating expenses

The total operating cost for the year 2007 was NOK 159.4 million compared to NOK 63.1 million for the year 2006. The increase of NOK 96.3 million was attributable to a full year of operation, increased acitivity and the acquisition of Norgani.

10.2.3 Operating profit

The operating profit was NOK 2,264.7 million for the year 2007 compared to NOK 744.9 million for 2006. The increase of NOK 1,519.8 million was attributable to a full year of operation, acquisitions of Norgani Hotels and new properties and a larger effect from fair value adjustments of properties (NOK 835.2 million).

10.2.4 Net financial items

Net financial items was NOK -614.1 million for the year 2007 compared to NOK -205.5 million for 2006. The negative change of NOK 408.6 million was mainly attributable to a full year of operation and the acquisitions of Norgani Hotels and the DnB NOR-headoffice at Aker Brygge. Change in market value of financial derivatives was NOK 200 million more positive in 2007 than in 2006.

10.2.5 Profit before/after tax

Profit before tax for the year 2007 was NOK 1,650.6 million compared to NOK 539.5 million for 2006. The increase is mainly due to a full year of operation, gains from fair value adjustments of properties and positive changes in market value of financial derivatives.

The income tax expense for 2007 was NOK 460.7 million compared to NOK 148.6 million for 2006. The profit for 2007 was NOK 1,189.8 million compared to NOK 390.9 million for 2006.

10.2.6 Cash and cash equivalents

The Group had cash and cash equivalents equalling NOK 635.5 million at the end of 2007 compared to NOK 1,252.5 million at the end of 2006. The increase in 2007 is related to NOK 1,066.9 million in cash flow from operating activities, net investments of NOK 8,363.4 million including the acquisition of Norgani Hotels, net proceeds from equity issue of NOK 479.4 million, dividend payments of NOK 263.7 million and other financing activities of NOK 6,460 million. Changes in exchange rates only had minor effects.

10.2.7 Liabilities

Total liabilities was NOK 27,051.2 million for the year 2007 compared to NOK 11,514.7 million for the year 2006. The increase is mainly due to the acquisition of Norgani Hotels, the acquisition of the DnB NOR-headquarter at Aker Brygge and the completion of the acquisition of the IFN-portfolio in Nydalen.

10.2.8 Total equity

The Group's total equity was NOK 6,830.9 million for 2007 compared to NOK 5,373.2 million for 2006. The increase is related to net income of NOK 1,121.9 million, equity issue with net proceeds of NOK 485.1 million, dividend payment of NOK 263.7 million and net effect related to the Oslo Properties/Norgani Hotels acquisition of NOK 130 million (minorities in Oslo Properties).

11. CAPITAL RESOURCES

The Company has raised approximately NOK 5,348 million through issuing new Shares. These funds have partly financed the Group's commitments and liabilities. In addition, the Group has total interest bearing debt of NOK 23,171 million. In addition, Norwegian Property has a potential liability to acquire shares in Oslo Properties based on put/call options with a discounted value of NOK 1,621 million, see Section 11.5 "Borrowings" below.

As of 31 March 2008, the Company had cash and cash equivalents of NOK 512.5 million.

11.1 CASH FLOWS

The Group's main sources of cash flow are equity issues, borrowings from banks and cash flow from operations.

All comments below regarding historical cash flows are derived from the combined historical information as presented in Section 8.3.3 above. Below is a summary of the Group's cash flow:

NOK 1,000	1Q 2008 (unaudited) ²⁴	1Q 2007 (unaudited)	2007 (audited) ²⁵	2006 (audited)
Net cash flow (used in/generated from) operating activities.....	302,437	273,344	1,066,873	576,311
Net cash flow (used in) investing activities.....	27,938	(2,275,985)	(8,363,412)	(14,823,896)
Net cash flow generated from/(used in) financing activities.....	(453,645)	1,615,245	6,675,980	15,499,947

The cash flow from operating activities in 2007 amounted to NOK 1,067 million compared to NOK 576.3 million for the year 2006. The doubling in cash flow from operating activities in 2007 relates to a full year of operation and increased activity resulting from acquisitions of new properties and Norgani Hotels. Net cash flow from operating activities for the first quarter of 2008 was NOK 302.4 million compared to NOK 273.3 million for the same quarter of 2007. As a consequence of shorter roll over periods for the interest payments in the first quarter, a negative periodisation effect of NOK 50 million relating to interest payments was charged in the first quarter. In addition, some negative periodisation effects relating to rental payments have effected the first quarter of 2008.

The cash flow from investing activities in 2007 amounted to NOK 8,363 million compared to NOK 14,824 million for the year 2006. The amount in 2006 relates mainly to fewer acquisitions in 2007 compared to 2006. The net cash flow from investing activities was NOK 27.9 million in 2008 compared to NOK -2,276 million for the same quarter of 2007. The cash flow for the first quarter of 2008 is relating to the net effect of sold assets and ordinary capital expenditures, whereas the investments in 2006 are mainly related to the completion of the acquisition of the IFN-portfolio.

The cash flow from financing activities decreased with NOK 8,824 million in 2007 from NOK 15,500 million in 2006 to NOK 6,675.9 million in 2007. The decrease is related to reduced investment activity and consequently reduced financing needs. Net cash flow from financing activities was NOK -453.6 million compared to NOK 1,615 million for the same period of 2007.

The funding of the Company is described in detail in Sections 11.4 "Capitalization and indebtedness" and 11.5 "Borrowings" below.

For further information regarding the Company's capital expenditures, see Section 11.6 "Investments" below.

²⁴ Includes Oslo Properties/Norgani Hotels.

²⁵ Includes Oslo Properties/Norgani Hotels from 24 September 2007.

11.2 WORKING CAPITAL STATEMENT

The Company's working capital is sufficient to cover its present requirements. See also Section 11.3 and 11.4 below.

The Group's primary resource is internally generated cash flow from operations, which is forecasted to meet existing financial obligations.

11.2.1 Key ratios

The table below shows the key ratios for the Group:

	31.03.2008	31.12.2007
Working capital ratio ²⁶	39.4%	44.5%
Debt to equity ratio ²⁷	78.6%	78.4%
Solidity ²⁸	20.0%	20.2%

11.3 FUNDING STRUCTURE AND RESTRICTIONS ON USE OF CAPITAL

Norwegian Property anticipates that by taking into account generally expected market conditions, internally generated cash flow, funds to be raised from the Rights Offering, the funds will be sufficient to fund operations of the Company's activities and to fulfill its commitments.

As of 31 December 2007, the Group was funded by NOK 6,830.9 million in equity and had NOK 24,828.0 million in interest bearing debt (including the potential obligation to take out minorities in Oslo Properties). In addition, the Group held NOK 635.5 million in cash at the end of 2007.

The Company believes that, together with the proceeds from the Rights Offering, funds from operations and funds available under its bank facilities will be sufficient to support the organic part of the Company's growth strategy. The adequacy of available funds will depend on many factors, including the further growth of the business, capital expenditures, market development, competition and potential acquisitions. Accordingly, the Company may require additional funds and seek to raise such funds through issuing new equity and debt.

As long as the bank acquisition facilities in Oslo Properties remain in place, the cash generation in Norgani Hotels in excess of a certain threshold shall be used for downpayment of the acquisition facility.

The Company has term loans, credit and bank facilities in addition to bond loans that include covenants that restrict the use of capital. These facilities and the covenants are further described in Section 11.5 below.

11.4 CAPITALISATION AND INDEBTEDNESS

The Group's equity as of 31 March 2008 totalled NOK 6,731.5 million, representing an equity ratio of approximately 25%. The Board of Directors regards this as satisfactory in the light of current activities relating to the Rights Offering, the sale of certain assets and agreements with certain of the minority shareholders in Oslo Properties which provide the opportunity to convert their shareholdings in Oslo Properties to shares in Norwegian Property. To optimise the long-term return, the board has had a "loan to value" target of borrowing up to 75% of the value of the Company's properties. At times when major purchases are made, this debt ratio could be higher. In light of the recent financial market development, the capital structure will be reviewed and possibly adjusted to secure fullfilment of the Company's goals, strategy and development.

The table below sets forth the Company's unaudited consolidated cash and cash equivalents and capitalisation as of 31 March 2008 on an actual basis. This table should be read together with the consolidated financial statements and the related notes hereto, as well as the information under Section 8 "Financial Information".

11.5 BORROWINGS

11.5.1 Overview of the total interest bearing debt and hedging

Total interest bearing debt as of 31 March 2008 was NOK 23,171 million. In addition, Norwegian Property has a potential liability to acquire shares in Oslo Properties based on put/call options with a discounted value of NOK 1,621 million. A total of NOK 16,316 million of the interest bearing debt has been hedged, corresponding to a hedge ratio of 70%. The average interest for the interest bearing debt (including the bank acquisition financing in Oslo Properties) was approximately 5.44% and the average loan margins was 77 basis points.

11.5.2 Debt financing of commercial property portfolio

Norwegian Property currently has the following debt facilities in respect of its commercial property portfolio:

Type of debt facility	Lender	Principal debtor	Facility amount (MNOK)	Principal amount 31/03/08 (MNOK)	Final maturity

Term loan and revolving credit facilities

The NOK 11 billion term and revolving facilities (the “**Bank Facilities**”) referred to above (and which were both established in July 2007 and amended in February 2008) comprise the main debt facilities of Norwegian Property, and is split in a NOK 10 billion Term Loan Facility and a NOK 1 billion Revolving Credit Facility. The main terms of the Bank Facilities include:

- *Interest*: NIBOR plus an applicable margin of 60 bp.
- *Interest rate hedging*: Maintain an interest rate hedge of at least 70% of the interest rate exposure.
- *Amortisation*: As of 31 March 2008 amortisation for this facility was 1.00% p.a. based on an LTV below 70% in Norwegian Property Holding AS. Annual amortisation to increase if LTV increases above certain thresholds (maximum 2.50% at LTV above 80%).
- *Financial covenants*: Agreed senior interest cover (“**ICR**”), loan to value (“**LTV**”) and debt service coverage (“**DSCR**”) ratios as follows: ICR of minimum 1.4 (increasing to 1.5 after 3 years), LTV of maximum 85% and a DSCR of minimum 1.1.
- *Other covenants*: The Bank Facilities contain undertakings which are customary for credit facilities of this nature, including the following general undertakings (applicable to the Norwegian Property Holding AS group if not stated differently):
 - negative pledge in relation to assets;
 - cross default;
 - restrictions on new financial indebtedness without the prior approval of the lending banks (unless financed on a stand-alone/non-recourse basis and provided that the group’s financial covenants are complied with);

- mandatory prepayment provisions relating to disposal of properties (save for substitution of properties within 9 months);
- restrictions on granting of loans, credit or guarantees;
- restrictions on mergers, demergers, amalgamations without the lenders' approval; and
- restrictions on payment of dividends or making other distributions to its shareholders if not in compliance with its financial covenants.
- *Change of control:* If Norwegian Property is to be de-listed from Oslo Børs or, alternatively, a person (or persons acting in concert) obtains or controls more than 50% of the share capital or voting rights, the lenders may demand full repayment of the Bank Facilities within 120 days.
- *Repayment:* The Bank Facilities mature in full on 6 June 2012.
- *Security and guarantees:* First priority security interests in assets owned or related to the companies benefiting from the Bank Facilities, comprising real properties, subsidiaries' shares, trade receivables, intercompany loans, insurance proceeds, bank accounts, claims under hedging arrangements and claims against sellers. In addition, Norwegian Property, Norwegian Property Holding AS and the other obligors have (subject to relevant limitations) guaranteed all amounts owed by each obligor under the Bank Facilities and related hedging arrangements.

Bond issues

Norwegian Property has issued the following three series of bond issues in the Norwegian bond market (the “**Bond Issues**”):

- ISIN NO 001 035374.1: 5.50% Norwegian Property ASA Bond Issue 2007/2012 (NOK 386 million);
- ISIN NO 001 035375.8: FRN Norwegian Property ASA Bond Issue 2007/2012 (NOK 823 million); and
- ISIN NO 001 035376.6: FRN Norwegian Property ASA Bond Issue 2007/2010 (NOK 302 million).

The main terms of the Bond Issues include:

- *Coupon in respect of the NOK 823 million bond issue:* NIBOR plus 45 bps.
- *Coupon in respect of the NOK 302 million bond issue:* NIBOR plus 70 bps.
- *Covenants:* The Bond Issues are based on the prevailing market terms for this type of issues in the Norwegian market, including restrictions on the subsidiaries connected to the properties.
- *Security:* First priority security interests in the properties Finnestadveien 44, Maridalsveien 323, Middelthunsgate 17 and Forusbeen 35, the shares of the property owning and title holding subsidiaries, related bank accounts and claims under intercompany loan agreements owed to Norwegian Property.

Separate loan financing

a. Skøyen Bygg

The Skøyen Bygg properties have been separately financed by a NOK 768 million mortgage loan agreement and a NOK 195,750,000 bank loan agreement (together, the “**Skøyen Bygg Loan Agreements**”) with Nykredit Realkredit A/S and Nykredit Bank A/S as respective lenders. Norwegian Property has guaranteed the obligations of the borrowers.

The main terms of the Skøyen Bygg Loan Agreements include:

- *Interest:* NIBOR plus an average margin of 55 bp.
- *Financial covenants:* Consolidated ICR for Skøyen Bygg ANS on or before 31 December 2009 to be maintained at 1.4 and thereafter 1.5.
- *Amortisation:* The bank loan amortises in quarterly repayment amounts, whereas the mortgage loan will be repaid in full on the final maturity date.
- *Security:* First priority security interests in the properties.

b. Drammensveien 134

The property Drammensveien 134 has been separately financed by a NOK 522 million loan against a promissory note (the “**DRV 134 Loan Agreement**”) with Storebrand Bank ASA.

The main terms of the DRV 134 Loan Agreement include:

- *Interest:* NIBOR plus an interest margin of 65 bps.
- *Financial covenants:* Liquidity reserve of minimum NOK 1 million to be maintained.
- *Amortisation:* The loan will amortise over 25 years (so that the outstanding amount will be NOK 355 million by 2020 and 268.3 million by 2025).
- *Security:* First priority security interests in the property, the interest swap arrangements and the shares in the title holding subsidiaries of Drammensveien 134-1 AS.

c. Drammensveien 144

Drammensveien 144 has been separately financed by a EUR 32,621,861 loan agreement (the “**DRV 144 Loan Agreement**”) with DnB NOR Bank ASA as lender. The loan is divided into two tranches: tranche A of EUR 25,466,877 and tranche B of EUR 7,154,984.

The main terms of the DRV 144 Loan Agreement include:

- *Interest:* EURIBOR plus an interest margin of 37.5 bp.
- *Hedging:* The borrowers shall maintain an interest rate hedge of minimum 75% for a minimum average period of 8 years or until final maturity.
- *Financial covenants:* Each of the borrowers to maintain free cash in a total of NOK 1.5 million.
- *Amortisation:* Tranche A is to amortise over 11 years, whereas tranche B will amortise in quarterly instalments in 2018 with the remaining outstanding amount falling due on 2 January 2019.
- *Security:* First priority security interests in the property, the shares of the borrowers and of the other related entities and claims under the lease agreement with the tenant. Drammensveien 144 Holding KS has also provided a EUR 42,400,000 guarantee as security for the obligations of Drammensveien 144 KS.

d. Further undertakings

The loan agreements referred to in a-c above contain further undertakings which are customary for loan arrangements of this size and nature, including:

- cross default provisions;
- restrictions on financial indebtedness;
- restrictions on termination of or negative material changes to the respective lease contracts;
- change of control restrictions; and
- requirements to liquidity and restrictions on dividend payments.

11.5.3 Debt financing related to the acquisition of Norgani Hotels

Through a joint investment in Oslo Properties, Norwegian Property, together with certain other investors, acquired all the shares in Norgani Hotels pursuant to a public offer in the autumn of 2007. The acquisition was partly financed under a NOK 1,700 million multicurrency term loan and guarantee facility agreement (the “**OPAS Facility Agreement**”) with Oslo Properties as borrower and a NOK 450 million short term credit facility agreement (the “**Short Term Facility Agreement**”) with Norwegian Property as borrower. Both loan facilities have been arranged by Nordea and SEB.

Type of debt facility	Lender	Principal debtor	Principal amount (MNOK)	Final maturity
Multicurrency term loan and guarantee facilities	Bank syndicate lead by Nordea and SEB	Oslo Properties	1,700	02/10/2010
Term loan facility	Nordea and SEB	Norwegian Property	450	03/10/2008

Multicurrency term loan and guarantee facilities

The facilities under the OPAS Facility Agreement have mainly been utilised to finance parts of the acquisition costs and issuing the offer guarantee in relation to the compulsory offer for the shares of Norgani Hotels. Norwegian Property has guaranteed the obligations of Oslo Properties.

The main terms of the OPAS Facility Agreement include:

- *Interest:* NIBOR plus an interest margin of 150 bp until 2 April 2009 and 200 bp thereafter. The said interest margin to be adjusted to 100 bp upon Oslo Properties achieving an LTV on a consolidated basis below 75%.
- *Financial covenants:* A minimum consolidated interest cover ratio of (A) 1.60 on a consolidated basis for the Norgani Hotels group and (B) on a consolidated basis for the Norwegian Property Group (i) 1.40 until 2 April 2009 and (ii) 1.50 thereafter. A maximum LTV of (A) 90% for the OPAS group until 2 April 2009 and 75% thereafter, (B) 85% for the Norgani Hotels group and (C) 85% for the Norwegian Property Group. DSCR to be maintained for the Norwegian Property Group of 1.1.
- *Repayment:* Oslo Properties to repay outstanding loans by an amount equal to the available cash flow of the Norgani Hotels group in each quarter. Remaining outstanding loans to be repaid on the final maturity date.

-
- *Other covenants:* The OPAS Facilities Agreement contains undertakings which are customary for credit facilities of this nature, including:
 - Restrictions on new financial indebtedness within the Oslo Properties group;
 - Negative pledge applying to the Oslo Properties group;
 - The Norgani Hotels group to maintain hedging arrangements covering 70% of the consolidated outstanding financial indebtedness of that group from time to time;
 - Restrictions on disposal of shares in subsidiaries/properties of the Oslo Properties group, in that sales will (unless proceeds from such sale being reinvested) trigger a mandatory prepayment;
 - No changes to the existing commitments to subscribe for equity in Oslo Properties;
 - Oslo Properties to make no dividend payments, no extraordinary repayment of the intercompany loan arising under the Short Term Facility Agreement, no extraordinary payments in respect of the commitments to subscribe for equity in Oslo Properties and no acquisition of own shares;
 - Restrictions on acquisitions by the Norgani Hotels group with a total asset value in excess of NOK 200 million per calendar year (and then provided that Oslo Properties can demonstrate that such acquisitions will have a positive operational cash flow after ordinary debt service);
 - The Norwegian Property Group not to incur further financial indebtedness if the consolidated financial indebtedness exceeds 85% of the market value of the properties of the Group;
 - Norwegian Property to maintain hedging arrangements of at least 70% of the Group's interest rate exposure with a minimum average period for 5 years, such average period not to fall below two years at any time; and
 - Change of control: the lenders are entitled to terminate the OPAS Facility Agreement and demand prepayment within 120 days if (i) a person (or a group of persons acting in concert) controls more than 50% of the shares/votes in Norwegian Property or Oslo Properties or (ii) the shares of Norwegian Property are de-listed from Oslo Børs. The change of control restrictions do not apply to Norwegian Property or any of its subsidiaries obtaining control of Oslo Properties

Short Term Facility Agreement

Funds drawn under the Short Term Facility Agreement have been lent by Norwegian Property to Oslo Properties under an intercompany loan. Parts of the proceeds have also been used to redeem the former NOK 250 million bond issue by Norgani Hotels.

The main terms of the Short Term Facility Agreement include:

- *Interest:* NIBOR plus an interest margin of 150 bps. The said interest margin to be adjusted to 100 bp upon Oslo Properties achieving an LTV on a consolidated basis below 75%.
- *Financial covenants:* A minimum consolidated ICR of (A) 1.60 on a consolidated basis for the Norgani Hotels group and (B) 1.40 on a consolidated basis for the Norwegian Property Group. A maximum LTV ratio of (A) 90% for the Oslo Properties group until 2 April 2009 and 75% thereafter, (B) 85% for the Norgani Hotels group and (C) 85% for the Norwegian Property Group. DSCR to be maintained for the Norwegian Property Group of 1.1.
- *Repayment:* Outstanding loans shall be repaid in full on the final maturity date.
- *Other covenants:* The Short Term Facility Agreement contains undertakings which are customary for credit facilities of this nature and mirror those of the OPAS Facilities Agreement.

11.5.4 Debt financing of the hotel property portfolio

The Norgani Hotels group currently has the following debt facilities in respect of its hotel property portfolio:

Type of debt facility	Lender	Principal debtor	Principal amount	Principal amount 31/03/2008	Final maturity
Multicurrency term loan and revolving credit facilities	Bank syndicate lead by SEB	Fastighets AB Prince Philip	EUR 13m DKK 640m NOK 1,435m SEK 1,840m NOK 150m	EUR 47m SEK 1,594m NOK 1,546m	27/04/2013

Overdraft credit facilities	SEB	Norgani Hotels	NOK 75m	NOK 0	Annual renewal

Multicurrency term loan and revolving facilities

In April 2006, Norgani Hotels entered into a 7 year facilities agreement (the “**Facilities Agreement**”) with a syndicate of banks lead by SEB, pursuant to which the company was granted secured term loan facilities as follows: EUR 13 million, DKK 640 million, NOK 1,435 million and SEK 1,840 million, and a MCCY Revolving Credit Facility of NOK 150 million. As part of a reorganisation of the Norgani Hotels group, the Swedish subsidiary Fastighets AB Prince Philip (“**Prince Philip**”) assumed all borrowings under the Facilities Agreement in December 2006. Norgani Hotels is now obligated under the Facilities Agreement as parent company and guarantor. The borrower’s obligations are also supported by a guarantee from Norwegian Property.

The proceeds drawn under the above term loan facilities serves as long term financing source of the Norgani Hotels group and may also be utilised to support the financing of any future acquisition of additional hotel properties Norgani Hotels (or its subsidiaries) going forward.

The multicurrency revolving credit facility shall be used for general corporate purposes.

The main terms of the Facilities Agreement include:

- *Interest*: EURIBOR/CIBOR/NIBOR/STIBOR plus an interest margin of 110 bp., said interest margin to be revisited by the parties after five years.
- *Hedging arrangements*: Prince Philip shall maintain an interest rate hedge in the range between 60% to 50% for a minimum average period of 3 years at any time during the term of the Facilities Agreement.
- *Financial covenants*: Both Prince Philip and Norgani Hotels to maintain an ICR of not less than 2.0 and an Equity Ratio of more than 15%.
- *Other covenants*: The Facilities Agreement contains undertakings which are customary for credit facilities of this nature, including:
 - Restrictions on any new financial indebtedness;
 - Negative pledge;
 - Restrictions on disposal of shares in subsidiaries/properties of Norgani Hotels, in that sales will (unless proceeds from such sale being reinvested) trigger a mandatory prepayment;
 - Any dividend payment made during the first 4 years in excess of 10% of the company’s paid-in equity will result in an obligation to prepay the term loans with an amount equal to such excess amount paid in dividend; and

-
- Change of control: Majority lenders (66.67%) are entitled to terminate the Facilities Agreement and demand prepayment within 120 days if (a) a person (or a group of persons acting in concert) controls more than 50% of the shares/votes of Norwegian Property; or (b) the shares in Norwegian Property are de-listed from Oslo Børs; or (c) Norwegian Property ceases to control more than 50% of the voting rights in Oslo Properties; or (d) Oslo Properties ceases to control more than 90% of the shares/votes of Norgani Hotels.
 - *Amortisation.* The term loans granted under the Facilities Agreement will amortise with 1.50% per year (first repayment date being on 30 September 2006), increasing to 2.25% per year from 30 June 2007. Said amortisation profile to be adjusted depending on the ratio of loan to value of the relevant hotel properties financed (LTV), with a minimum of 0.50% and a maximum of 3.00%.

The loans provided to Prince Philip under the Facilities Agreement are secured by way of, i.a., first priority mortgages against each of the relevant hotel properties, pledge of shares and accounts in subsidiaries, as well as upstream guarantees from each of Prince Philip's subsidiaries being financed under the Facilities Agreement.

Stand-alone financing of the Hotelleiendom AS ("HEAS") portfolio

When acquiring the Hotelleiendom AS ("HEAS") portfolio in December 2005, it was decided and agreed with the existing lenders to that portfolio of properties that Norgani Hotels would continue the financing arrangements already in place. Hence, the HEAS portfolio, which is now owned by the Norgani Hotels' subsidiary Norgani Hotelleiendom AS and its respective subsidiaries, is financed on a stand-alone basis outside the Facilities Agreement referred to above.

These financing arrangements include certain long term loan facilities with Svenska Handelsbanken AB (together, the "**HEAS Facilities**") as follows:

- a SEK 460 million floating interest term loan facilities, amortising with yearly repayments of SEK 12,1 million; and
- three SEK 230 million (in total SEK 690 million) fixed interest bullet loan facilities (with interest rates of 3.42%, 3.98% and 4.19% respectively).

The HEAS Facilities all mature on 15 June 2015 and are secured with, inter alia, first priority mortgages in the HEAS portfolio of properties.

Stand-alone financing of the Kapiteeli portfolio

For the purpose of the acquisition of the Kapiteeli hotel portfolio, the Swedish subsidiary of Norgani Hotels, Norgani Suomi Holding AB ("**Suomi Holding**"), has entered into a 5 year syndicated facility agreement (the "**Kapiteeli Facilities Agreement**") with SEB as agent, pursuant to which Suomi Holding has been granted a secured term loan facility in the maximum amount of EUR 239,500,000. The purpose of the Kapiteeli Facility Agreement is to provide stand-alone financing of part of the purchase price for the Kapiteeli hotel portfolio.

The main terms of the Kapiteeli Facilities Agreement include:

- *Interest:* EURIBOR plus an interest margin of 90 bps.
- *Hedging arrangements:* Suomi Holding shall maintain an interest rate hedge in the range between 70% to 50% for a minimum average period of 3 years at any time during the term of the Facilities Agreement.
- *Financial Covenants:* The Suomi Holding group to maintain an ICR (expressed as a percentage) of not less than (i) 125% prior to 29 June 2008 and (ii) 135% thereafter and keep a LTV (expressed as a percentage) of maximum 85% for the Kapiteeli hotel portfolio. In addition, an ICR (expressed as a percentage) of not less than 160% and an Equity Ratio (expressed as a percentage) of not less 15% shall be maintained on the Norgani Hotels group level.
- *Other Covenants:* The Kapiteeli Facility Agreement contains undertakings customary for acquisition term loan facilities of this nature, including:
 - Restrictions on new financial indebtedness;
 - Negative pledge;
 - Restrictions on disposal of shares in subsidiaries/properties; and
 - *Change of control:* Majority lenders (66.67%) are entitled to terminate the Kapiteeli Facility Agreement and demand prepayment within 90 days if (a) a person (or a group of persons acting in concert) obtain directly or indirectly control of more than 50% of the shares/votes of Norgani Hotels, (b) any party, whether individually or a group acting in concert, acquires more than 50% of the shares/voting rights in Norwegian Property, (c) Norwegian Property ceases to be listed on Oslo Børs, (d) Norwegian Property ceases to control more than 50% of the voting rights in

respect of Oslo Properties or Oslo Properties ceases to control (directly or indirectly) more than 90% of the share capital/voting rights in Norgani Hotels, (e) Norgani Hotels ceases to have full voting or ownerships rights in respect of Norgani Sweden Holding AB, (f) Norgani Sweden Holding AB ceases to have full voting or ownerships rights in respect of Suomi Holding or (g) any shares in Norgani Sweden Holding AB or in any Suomi Holding group company are listed on a stock exchange.

- *Amortisation.* The term loans granted under the Kapiteeli Facility Agreement amortise with approximately 2.0% per year (when the company has provided the guarantee referred to above one amortisation free year will follow). The amortisation will be adjusted depending on the LTV ratio of the financed hotel properties.

The loan pursuant to the Kapiteeli Facility Agreement is secured by way of, i.a., first priority mortgages against each of the relevant hotel properties of the Kapiteeli hotel portfolio, pledge of shares and accounts in subsidiaries, pledge of intra-group long-term receivables, pledge of proceeds emanating from insurance policies for the acquired hotel properties, floating charge over the business of the subsidiaries, as well as upstream guarantees (to the extent permissible under applicable law) from each of Suomi Holding's subsidiaries being financed by the acquisition debt.

Stand-alone financing of acquired hotels in 2007

During 2007, Norgani Hotels acquired the shares in the companies owning the hotels Scandic Hasselbacken Hotel, Scandic Alvik Hotel, Radisson SAS Linköping Hotel and Clarion Collection Hotel Bastion. The acquisitions were part-financed under a secured SEK 565 million facility agreement (the "**SH Facility Agreement**") with Norgani Sweden Holding AB ("**Sweden Holding**") as borrower, SEB as lender and Norgani Hotels as guarantor. The SH Facility Agreement requires Norgani Hotels separately and on a consolidated level to maintain an equity ratio of more than 15% and an interest coverage ratio of minimum 1.60. The loan will mature in full on 30 September 2008.

Other covenants:

- Change of Business
- Negative Pledge
- Restrictions on new Financial Indebtedness
- Cross-default

Note Loan Agreement FRN (ISIN NO 001 037877.1)

For its general financing Norgani Hotels has issued a series of loan notes (the "**Loan Notes**") on customary terms in the total aggregate amount of NOK 500 million in the Norwegian market with Norsk Tillitsmann ASA as trustee. The Loan Notes require a consolidated equity ratio of at least 20% and a consolidated interest coverage ratio of minimum 1.20. The coupon rate is NIBOR plus 70 bps. The Change of Control clause gives each Note holder a put option in case a shareholder obtains more than 40% of the voting shares.

Overdraft credit facilities

For its working capital purposes, Norgani Hotels has entered into an agreement for overdraft credit facilities (the "**Overdraft Agreement**") on customary terms with SEB in the maximum amount of NOK 75 million. An agreement for new overdraft credit facilities is being negotiated, but the Overdraft Agreement will stay in force until such new arrangement is in place. The Overdraft Agreement requires a consolidated equity ratio of at least 15% and a consolidated interest coverage ratio of minimum 2.0.

11.6 INVESTMENTS

11.6.1 Historical investments

The Company has performed the following investments in subsidiaries (unaudited):

Oslo Properties gained control over Norgani Hotels on 24 September 2007, and owns all shares in the company at year end 2007. For accounting purposes it is assumed that Norwegian Property controls Oslo Properties. Oslo Properties/Norgani Hotels is consolidated as a part of the Norwegian Property Group from 24 September 2007.

Norwegian Property owns 17.5% of the shares and has entered into put/call option agreements to acquire an additional 76% of the shares in Oslo Properties. Management functions in Oslo Properties are appointed by Norwegian Property, and Norwegian Property also has the right to designate 3 out of 5 board members in Oslo Properties (including the chair).

The acquisition of Norgani Hotels is treated as a business combination according to IFRS 3. All previous acquisitions made by the Group in 2006 and 2007 have been purchases of single purpose entities. The purchase consideration of Norgani Hotels is calculated as follows (as of 31 December 2007 – for further details see note 24 in Annual report for 2007, included in Appendix 3 in this Prospectus):

Purchase price for the shares in Norgani Hotels	3,718,688

There are no differences in voting rights between the shareholders. The major shareholders of the Company is defined as holding more than 10% of the share capital. The major shareholders are Credit Suisse Securities (Europe) Ltd., A. Wilhelmsen Capital AS and Fram Realinvest AS/Fra, Holding AS. The Company is not aware of any other shareholders or consolidated groups of shareholders owning more than 10% of the Shares. The Company is not aware of any other arrangements that may result in, prevent, or restrict a change in control of the Company.

In accordance with the disclosure obligations regulated by Norwegian law, shareholders owning or controlling more than 5% of the share capital of a company listed on Oslo Børs must notify the stock exchange immediately. The table above shows the percentage held by such notifiable shareholders. See also Section 15.6 below for a detailed description of the disclosure obligations regulated by Norwegian law.

13.6 THE ARTICLES OF ASSOCIATION AND SHAREHOLDER MATTERS IN GENERAL

13.6.1 The Company's objectives and purpose

The Articles of Association (last amended 29 March 2007) of the Company are included as Appendix 1 to this Prospectus. According to Section 3 of the Articles of Association, the objectives of the Company are to operate, purchase, sell and develop commercial properties hereunder participation in other companies including business operations and activities related thereto.

13.6.2 The Shares

The Articles of Association provides for one class of shares only, in which all shares enjoy equal rights.

³⁸ Controlled by Torstein Tvenge, board member of Norwegian Property.

³⁹ Controlled by Torstein Tvenge, board member of Norwegian Property.

13.6.3 The general meeting of shareholders

The general meeting of shareholders is the highest authority of a Norwegian Public Limited Liability Company. The Company must arrange for the annual general meeting to be held within six months of the end of each financial year. The annual general meeting shall amongst others approve the annual accounts and any dividends payable. An extraordinary general meeting shall be called if the Board resolves to do so or the auditor or shareholders representing 5% of the Shares and votes requires it.

Pursuant to the Norwegian Public Limited Liability Companies Act, a written notice shall be sent to all shareholders with known address at the latest two weeks prior to a general meeting. According to Section 8 of the Articles of Association, the shareholders in Norwegian Property must give notice to the Company if they will attend the general meeting by returning the notice of attendance within the date stated in the notice, in no event later than five days prior to the general meeting. The shareholders may participate in person or by proxy.

13.6.4 The Board of Directors

The management of the Company pertains to the Board, which shall oversee the proper organization of the business. The Board shall supervise the administration of the Company, hereunder supervise the Chief Executive Officer.

Pursuant to the Articles of Association, the Board of Directors of the Company shall consist of three to nine members as decided by the General Meeting.

The members of the Board are elected by the general meeting by majority vote. The general meeting also resolves the annual remuneration of the Board members upon the proposal of the Nomination Committee, see Section 12.3 above and Section 7 of the Articles of Association.

13.6.5 The management of the Company

The Board employs the CEO of the Company and resolves his/her remuneration. The CEO conducts the day-to-day business in accordance with the guidelines and instructions of the Board. The CEO has in general the right and duty to participate at Board meetings.

The CEO employs the other members of the executive management and decides their remuneration.

Under Norwegian law the members of the executive management do not become members of the Board, unless the general meeting elects them. The CEO cannot be elected as Chairman of the Board of the Company. Please also refer to Section 13.6.4 above.

13.6.6 Voting rights

Each share in the Company carries one vote at the general meeting.

As a general rule, resolutions that shareholders are entitled to make pursuant to Norwegian law or the Company's Articles of Association, requires approval by a simple majority of the votes cast. In the case of election of directors to the Board, the person who obtains the most votes is elected to fill the positions up for election. However, as required under Norwegian law, certain decisions, including resolutions to waive pre-emptive rights in connection with any issue of shares, convertible bonds, warrants etc., to approve a merger or de-merger, to amend the Company's Articles of Association, to authorize an increase or reduction in the share capital, to authorize an issuance of convertible loans or warrants or to authorize the Board to purchase the Company's own Shares or to dissolve the Company, must receive the approval of at least two-thirds of the aggregate number of votes cast as well as at least two-thirds of the share capital represented at a shareholders' meeting. Further, Norwegian law requires that certain decisions, which have the effect of substantially altering the rights and preferences of any shares or class of shares, receive the approval of all the holders of such shares or class of shares as well as the majority required for amendments of the Company's Articles of Association. Decisions that (i) would reduce any existing shareholder's right in respect of dividend payments or other rights to the assets of the Company or (ii) restrict the transferability of the shares require a majority vote of at least 90% of the share capital represented at the general meeting in question as well as the majority required for amendments to the Company's Articles of Association. Certain types of changes in the rights of shareholders require the consent of all shareholders affected thereby as well as the majority required for amendments to the Company's Articles of Association.

In general, in order to be entitled to vote, a shareholder must be registered as the beneficial owner of Shares in the share register kept by the VPS. Beneficial owners of Shares that are registered in the name of a nominee are generally not entitled to vote under Norwegian law, nor are any persons who are designated in the register as holding such Shares as nominees.

Readers should note that there are varying opinions as to the interpretation of Norwegian law in respect of the right to vote nominee-registered shares. For example, Oslo Børs has in a statement on 21 November 2003 held that in its opinion “nominee-shareholders” may vote in general meetings if they prove their actual shareholding prior to the general meeting.

13.6.7 Ownership of the Shares

Neither the Company’s Articles of Association nor the Norwegian Public Limited Liability Companies Act restricts ownership of the Shares. There are no limitations under Norwegian law on the rights of non-residents or foreign owners to hold or vote for the Shares.

13.6.8 Additional issuances and preferential rights

All issuances of shares by the Company, including bonus issues, require an amendment to the Articles of Association of the Company, which requires support by at least two-thirds of the votes cast and share capital represented. Furthermore, under the Norwegian Public Limited Liability Companies Act, the Company’s shareholders have a pre-emptive right to subscribe for new shares issued. The pre-emptive rights may be waived by a resolution in a general meeting by two-thirds of the votes cast. A waiver of the shareholders’ preferential rights in respect of bonus issues requires the approval of all outstanding shares, irrespective of class.

Under Norwegian law, bonus issues may be distributed, subject to shareholder approval, by transfer from the Company’s free equity or from its share premium reserve. Such bonus issues may be effectuated either by issuing shares or by increasing the par value of the shares outstanding.

To issue shares to holders who are citizens or residents of the United States upon the exercise of preferential rights, the Company may be required to file a registration statement in the United States under United States securities laws. If the Company decides not to file a registration statement, such holders may not be able to exercise their preferential rights and in such event would be required to sell such rights to eligible Norwegian persons or other eligible non-U.S. holders to realize the value of such rights.

13.6.9 Dividends

Under Norwegian law, no interim dividends may be paid in respect of a financial period as to which audited financial statements have not been approved by the annual general meeting of shareholders. Any proposal to pay a dividend must be recommended or accepted by the Board and approved by the shareholders at a general meeting. The shareholders may vote to reduce (but not to increase) the dividends proposed by the Board.

Dividends in cash or in kind are payable only out of (i) the annual profit according to the adopted income statement for the last financial year, (ii) retained profit from previous years, and (iii) distributable reserves, after deduction of (a) any uncovered losses, (b) the book value of research and development, (c) goodwill, (d) net deferred tax assets recorded in the balance sheet for the last financial year, (e) the aggregate value of any treasury shares that the Company has purchased or been granted security over during the preceding financial years, (f) any credit or security given pursuant to Sections 8-7 to 8-9 of the Norwegian Public Limited Liability Companies Act and provided always that such distribution is compatible with good and prudent business practice with due regard to any losses which may have occurred after the last balance sheet date or which may be expected to occur. The Company cannot distribute any dividends if the equity, according to the balance sheet, amounts to less than 10% of the total balance sheet without following the procedure for capital decrease with two months’ creditor notice period.

The Board will consider the amount of dividend (if any) to recommend for approval by the Company’s shareholders, on an annual basis, based upon the earnings of the Company for the years just ended and the financial situation of the Company at the relevant point in time. Hence, the shareholders do not have an absolute entitlement to share in the Company’s profits.

All shareholders that are shareholders at the time of the general meeting making its resolution are entitled to dividend. There is no time limit under which the individual shareholders entitlement to a declared dividend lapses.

13.6.10 Rights of redemption and repurchase of shares

The Company has not issued redeemable shares (i.e., shares redeemable without the shareholder's consent). The Company's share capital may be reduced by reducing the par value of the shares. Such a decision requires the approval of two-thirds of the votes cast at a general meeting. Redemption of individual shares requires the consent of the holders of the shares to be redeemed.

A Norwegian company may purchase its own shares if an authorization for the board of directors of the company to do so has been given by the shareholders at a general meeting with the approval of at least two-thirds of the aggregate number of votes cast at the meeting. The aggregate par value of treasury shares so acquired and held by the company is not permitted to exceed 10% of the company's share capital, and treasury shares may only be acquired if the company's distributable equity, according to the latest adopted balance sheet, exceeds the consideration to be paid for the shares. The authorisation cannot be given for a period exceeding 18 months.

13.6.11 Mandatory offer requirement

New mandatory offer regulation in compliance with EU's Take-Over-Directive (Directive 2004/25/EF) has been adopted by the Norwegian legislators in the New Securities Trading Act (Act of 29 June 2007 No 75) Chapter 6. The regulation included in Chapter 6 came into force on 1 January 2008.

Norwegian law requires any person, entity or group acting in concert that acquires more than 1/3 of the voting rights of a company primary listed on Oslo Børs to make an unconditional general offer for the purchase of the remaining shares in the company. The offer is subject to approval by Oslo Børs before submission of the offer to the shareholders. The Offer Price per share must be at least as high as the highest price paid or agreed by the offeror in the six-month period prior to the date the 1/3 threshold was exceeded, but equal to the market price if the market price was higher when the 1/3 threshold was exceeded. In the event that the acquirer thereafter, but prior to the expiration of the bid period acquires, or agrees to acquire, additional shares at a higher price, the acquirer is obliged to restate its bid at that higher price. A mandatory offer must be in cash or contain a cash alternative at least equivalent to any other consideration offered. A shareholder who fails to make the required offer must within four weeks dispose of sufficient shares so that the obligation ceases to apply (i.e. reduce the ownership to a level below 1/3). Otherwise, Oslo Børs may cause the shares exceeding the 1/3 limit to be sold by public auction. Until the mandatory bid is given or the shares exceeding the 1/3 threshold are sold, the shareholder may not vote for shares exceeding the 1/3 threshold, unless a majority of the remaining shareholders approve. The shareholder can, however, exercise the right to dividends and pre-emption rights in the event of a share capital increase. Oslo Børs may impose a daily fine upon a shareholder who fails to make the required offer or sell down below 1/3.

A shareholder or consolidated group that owns shares representing more than 1/3 of the votes in a listed company, and that has not made an offer for the purchase of the remaining shares in the company in accordance with the provisions concerning mandatory offers (e.g., due to available exemptions), is obliged, in general, to make a mandatory offer in the case of each subsequent acquisition. However, there are exceptions to this rule, including for a shareholder or a consolidated group that, upon admission of the company to listing on a stock exchange, owns more than 40% of the shares in the company.

There will be a repeated obligation when passing 40% and 50%. Shareholders holding shares above the mentioned thresholds at the time of implementation of the new rules will be required to give a mandatory offer for all issued Shares if acquiring additional shares after the effectuation of the new rule.

The Company has not received any takeover bids or bids to acquire controlling interest during the last 12 months.

13.6.12 Compulsory Acquisition

In accordance with Section 4-25 of the Norwegian Public Limited Liability Companies Act, a shareholder, directly or via subsidiaries, who acquires shares representing more than 90% of the total number of issued shares in a Norwegian company as well as more than 90% of the total voting rights attached to such shares, such majority shareholder has a right (and each remaining minority shareholder of the Company have a right to require such majority shareholder) to effect compulsory acquisition for cash of the shares not already owned by such majority shareholder. Such compulsory acquisition would imply that the majority shareholder has become the owner of the thus acquired shares with immediate effect. If the majority shareholder has not completed a mandatory offer he will have to do so simultaneously with the compulsory acquisition under the

current legislation. Upon effecting the compulsory acquisition the majority shareholder would have to offer the minority shareholders a specific price per share, the determination of which price would be at the discretion of the majority shareholder. Should any minority shareholder not accept the offered price, such minority shareholder may, within a specified deadline of not less than two months' duration, request that the price be set by the Norwegian courts. Absent such request or other objection to the price being offered, the minority shareholders would be deemed to have accepted the offered price after the expiry of the two months deadline. The cost of such court procedure would, as a general rule, be for the account of the majority shareholder, and the courts would have full discretion in respect of the valuation of the shares as per the effectuation of the compulsory acquisition.

13.6.13 Insolvency/Liquidation

According to the Norwegian Public Limited Liability Companies Act, the Company may be liquidated by a resolution in a general meeting of the Company passed by a two-thirds majority of the aggregate votes cast as well as two thirds of the aggregate share capital represented at such meeting. The Shares rank pari passu in the event of a return on capital by the Company upon a liquidation or otherwise.

In the event a resolution to liquidate the Company has been made, the Company's assets shall be transformed to cash in order to cover the Company's contractual obligations and for distribution to the shareholders as long as the shareholders have not accepted to receive the dividends in kind.

13.7 SHAREHOLDER AND DIVIDEND POLICY

13.7.1 Shareholder policy

Norwegian Property will inform its shareholders and the market in general on an ongoing basis of the Company's development, activities and special events, ensuring that as far as possible the pricing of the Company's Shares reflects the underlying values and expectations on future profits. Such information will, among other things, take the form of annual reports, quarterly reports, bulletins, press releases and investor presentations when appropriate.

13.7.2 Dividend policy

Norwegian Property's goal is to pay an annual dividend which is competitive, predictable and higher than average for the property sector, through a combination of rising value and dividend.

The Company aims for its annual dividend to be competitive, predictable and higher than average for the property sector. The goal is that dividend will represent 4 to 6% of paid-in equity and at least 50% of the annual net profit (when account has been taken of income statement items without cash flow effect). For both 2006 and 2007, the general meeting resolved to pay a dividend of NOK 2.50 per share.

13.8 SHAREHOLDER AGREEMENTS

The Company is not aware of any shareholder agreements among its investors.

13.9 CORPORATE GOVERNANCE

The Company endeavours to be in compliance with the Norwegian corporate governance regime, as detailed in the Norwegian Code of Practice for Corporate Governance, published on 4 December 2007 by the Norwegian Corporate Governance Board. As per this date, the Company is in full compliance with the Norwegian Code of Practice for Corporate Governance, except for the matter discussed below.

The Company has not been subject to any known public take over attempts, and there has not been established any guiding principles.

14. TAXATION IN NORWAY

The statements herein regarding taxation are unless otherwise stated based on the laws in force in Norway as of the date of this Prospectus, and are subject to any changes in law occurring after such date, changes which, in respect of Norwegian taxes, could be made on a retrospective basis.

The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, own or dispose of the New Shares. Furthermore, the summary only focuses on the shareholder categories explicitly mentioned below (personal shareholders and limited liability companies). Investors should consult their professional advisers on the possible tax consequences of their subscribing for, purchasing, holding, selling or redeeming New Shares under the laws of their countries of citizenship, residence, ordinary residence or domicile.

Please note that for the purpose of the summary below, a reference to a Norwegian or foreign shareholder refers to the tax residency rather than the nationality of the shareholder.

14.1 NORWEGIAN SHAREHOLDERS

14.1.1 Taxation of dividends

Norwegian personal shareholders

Dividends received by shareholders who are individuals resident in Norway for tax purposes (“Norwegian personal shareholders”) are taxable as ordinary income for such shareholders at a flat rate of 28%.

Norwegian personal shareholders are however entitled to deduct a calculated allowance when calculating their taxable dividend income. The allowance is calculated on a share-by-share basis. The allowance for each share is equal to the cost price of the share multiplied by a determined risk free interest rate. The allowance is calculated for each calendar year, and is allocated solely to Norwegian personal shareholders holding shares at the expiration of the relevant calendar year. Norwegian personal shareholders who transfer shares will thus not be entitled to deduct any calculated allowance related to the year of transfer. Any part of the calculated allowance one year exceeding the dividend distributed on the share can be forwarded and deducted when calculating taxable dividend income or taxable capital gains (see below) a later year. The unused allowance is also included in the basis for calculating the allowance the following years.

Norwegian corporate shareholders

Dividends distributed to shareholders who are limited liability companies resident in Norway for tax purposes (“Norwegian corporate shareholders”) are not taxable.

14.1.2 Capital gains tax

Norwegian personal shareholders

Sale, redemption or other disposal of shares is considered a realization for Norwegian tax purposes. A capital gain or loss generated by a Norwegian personal shareholder through a realization of shares is taxable or tax deductible in Norway. Such capital gain or loss is included in or deducted from the basis for computation of ordinary income in the year of disposal. The ordinary income is taxable at a rate of 28%. The gain is subject to tax and the loss is tax deductible irrespective of the duration of the ownership and the number of shares disposed of.

The taxable gain/loss deductible is equal to the sales price less the Norwegian personal shareholder’s cost price of the shares, including costs incurred in relation to the acquisition or realization of the share. From this capital gain, Norwegian personal shareholders are entitled to deduct a calculated allowance, provided that such allowance has not already been used to reduce taxable dividend income. See Section 14.1.1 above for a description of the calculation of the allowance. The allowance may only be deducted in order to reduce a taxable gain, and may not be deducted in order to increase or produce a deductible loss.

If the Norwegian personal shareholder owns shares acquired at different points in time, the shares that were acquired first will be regarded as the first to be disposed of, on a first-in first-out basis.

Norwegian personal shareholders who move abroad and cease to be tax resident in Norway as a result of this, are deemed taxable in Norway for any potential gain related to the shares held at the time the shareholders ceased to be resident in Norway for tax purposes, or is regarded as tax resident in another jurisdiction according to an applicable tax treaty, as if the shares were realized at this time. Gains of NOK 500,000 or less

are not taxable. Potential losses are as a main rule not deductible. However, if the person moves to a jurisdiction within the European Economic Area (“EEA”), potential losses related to shares held at the time tax residency ceases will be tax deductible when exceeding the NOK 500,000 threshold. The actual taxation (loss deduction) will occur at the time the shares are actually realized for tax purposes. However, if the personal shareholder moves to a jurisdiction outside the EEA, or to a jurisdiction within the EEA where Norwegian tax authorities are not in a position to collect information and obtain assistance with respect to the collection of taxes, the taxation will only be postponed if the personal shareholder provides sufficient guarantee for the fulfilment of the potential tax obligations. If the shares are not realized for tax purposes within five years after the shareholder ceased to be resident in Norway for tax purposes, or was regarded as tax resident in another jurisdiction according to an applicable tax treaty, the tax liability calculated under these provisions will not apply.

Norwegian corporate shareholders

Norwegian corporate shareholders are exempt from tax on capital gains upon the realization of shares, and losses related to such realization are not tax deductible.

14.1.3 Net Wealth Tax

Norwegian personal shareholders

The value of shares is included in the basis for the computation of wealth tax imposed on Norwegian personal shareholders. Currently, the marginal wealth tax rate is 1.1% of the value assessed. The value for assessment purposes for shares listed on Oslo Børs is the listed value as of January 1 in the year of assessment.

Norwegian corporate shareholders

Norwegian corporate shareholders are not subject to wealth tax.

14.1.4 Taxation related to subscription rights

Norwegian personal shareholders

A Norwegian personal shareholders’ subscription of shares pursuant to a subscription right is not subject to taxation in Norway. Costs related to the subscription of shares will be added to the cost price of the shares.

Sales and other transfer of subscription rights is considered a realization for Norwegian tax purposes. For Norwegian personal shareholders, a capital gain or loss generated by a realization of subscription rights to shares is taxable or tax deductible in Norway. Such capital gain or loss is included in or deducted from the basis for computation of ordinary income in the year of disposal. The ordinary income is taxable at a rate of 28%

Norwegian corporate shareholders

A Norwegian corporate shareholders’ subscription of shares pursuant to a subscription right is not subject to taxation in Norway. Costs related to the subscription of shares will be added to the cost price of the shares.

Norwegian corporate shareholders are exempt from tax on capital gains upon the realization of subscription rights, and losses are not tax deductible.

14.2 FOREIGN SHAREHOLDERS

14.2.1 Taxation of dividends

Foreign personal shareholders

Dividends distributed to shareholders who are individuals not resident in Norway for tax purposes (“Foreign personal shareholders”), are as a general rule subject to withholding tax at a rate of 25%. The withholding tax rate of 25% is normally reduced through tax treaties between Norway and the country in which the shareholder is resident. The withholding obligation lies with the company distributing the dividends, and Norwegian Property assumes this obligation.

Foreign personal shareholders resident within the EEA are subject to withholding tax, ref above, but may be entitled to a partial refund of the withholding tax. The refund may be granted on the basis of an application from the Foreign personal shareholder, and will, if granted, equal (in full or partially) the calculated allowance

granted to Norwegian personal shareholders, see “Taxation of dividends – Norwegian personal shareholders” above.

If a Foreign personal shareholder is carrying on business activities in Norway and the relevant shares are effectively connected with such activities, the shareholder will be subject to the same taxation as a Norwegian shareholder, as described above.

Foreign corporate shareholders

Dividends distributed to shareholders who are limited liability companies not resident in Norway for tax purposes (“Foreign corporate shareholders”), are as a general rule subject to withholding tax at a rate of 25%. The withholding tax rate of 25% is normally reduced through tax treaties between Norway and the country in which the shareholder is resident.

Dividends distributed to Foreign corporate shareholders resident within the EEA for tax purposes are exempt from Norwegian withholding tax, provided that the shareholder is the beneficial owner of the shares and that the shareholder is genuinely established and involved in real economic activities in the relevant EEA jurisdiction.

Foreign shareholders who have suffered a higher withholding tax than set out in an applicable tax treaty may apply to the Norwegian tax authorities for a refund of the excess withholding tax deducted.

Nominee registered shares will be subject to withholding tax at a rate of 25% unless the nominee has obtained approval from the Norwegian Tax Directorate for the dividend to be subject to a lower withholding tax rate. To obtain such approval the nominee is required to file a summary to the tax authorities including all beneficial owners that are subject to withholding tax at a reduced rate.

If a Foreign corporate shareholder is carrying on business activities in Norway and the relevant shares are effectively connected with such activities, the shareholder will be subject to the same taxation as a Norwegian corporate shareholder, as described above.

14.2.2 Capital gains tax

Foreign personal shareholders

Gains from the sale or other disposal of shares by a Foreign personal shareholder will not be subject to taxation in Norway unless the Foreign personal shareholder (i) holds the shares in connection with the conduct of a trade or business in Norway or (ii) has been a tax resident of Norway within the five calendar years preceding the year of the sale or disposition (and whose gains are not exempt pursuant to the provisions of an applicable income tax treaty).

Foreign corporate shareholders

Capital gains derived by the sale or other realization of shares by Foreign corporate shareholders are not subject to taxation in Norway.

14.2.3 Net wealth tax

Shareholders not resident in Norway for tax purposes are not subject to Norwegian net wealth tax. Foreign personal shareholders can however be taxable if the shareholding is effectively connected to the conduct of trade or business in Norway.

14.2.4 Taxation related to subscription rights

Foreign personal shareholders

A Foreign personal shareholders’ subscription of shares pursuant to a subscription right is not subject to taxation in Norway.

Gains from the sale or other disposal of subscription rights derived by a Foreign personal shareholder will not be subject to taxation in Norway unless the Foreign shareholder (i) holds the subscription rights in connection with the conduct of a trade or business in Norway or (ii) has been a tax resident of Norway within the five calendar years preceding the year of the sale or disposition (and whose gains are not exempt pursuant to the provisions of an applicable income tax treaty).

Foreign corporate shareholders

A Foreign corporate shareholders' subscription of shares pursuant to a subscription right is not subject to taxation in Norway.

Capital gains derived by the sale or other realization of subscription rights to shares derived by foreign corporate shareholders are not subject to taxation in Norway.

14.3 INHERITANCE TAX

Upon transfer of shares by way of inheritance or gift, the transfer may be subject to Norwegian inheritance or gift tax. However, such transfer is not subject to Norwegian tax if the donor/deceased was neither a national nor resident in Norway for tax purposes.

The basis for the computation of inheritance tax is the marked value at the time the transfer takes place. The rate is progressive from 0-30%. For inheritance and gifts from parents to children, the maximum rate is 20%.

14.4 DUTIES ON TRANSFER OF SHARES

No stamp or similar duties are currently imposed in Norway on transfers of the New Shares.

15. SECURITIES TRADING IN NORWAY

As a company listed on Oslo Børs, the Company is subject to certain duties to inform the market under the Stock Exchange Regulations, and the insider trading regulation of Chapter 3 of the Securities Trading Act. Furthermore, the Company is subject to Norwegian securities regulations and supervision by the relevant Norwegian authorities.

15.1 INTRODUCTION

Oslo Børs was established in 1819 and is the principal market in which shares, bonds and other financial instruments traded in Norway. In 2000, Oslo Børs was transformed to a public limited liability company. As of 31 December 2007, the total capitalization of companies listed on Oslo Børs amounted to approximately NOK 2,156 billion.

Oslo Børs is a part of the NOREX Alliance, whose other members are Stockholmsbörsen (thereunder Københavns Fondsbørs, Helsinki Stock Exchange, and various exchanges in the Baltic countries) and the Iceland Stock Exchange.

On 2 May 2007, Oslo Børs established the Oslo Axess, which is a new authorised marketplace for shares. The distinction between the two markets primarily consists of the less stringent listing requirements that apply to Oslo Axess, largely requirements relating to a company's operating history and the number of shareholders.

Companies on Oslo Axess will have access to the same infrastructure and stock exchange expertise, and the investor base will be virtually the same. A company listed on Oslo Axess will be subject to the same continual obligations vis-à-vis the marketplace and investors as companies listed on Oslo Børs.

Per this date, Oslo Axess had a total of 31 companies listed. The following Sections will describe the procedures and processes for shares trading on Oslo Børs, however the Sections are also applicable for the Oslo Axess regulated market. More information on Oslo Axess can be found at the web-page: www.osloaxess.no.

15.2 TRADING AND SETTLEMENT

Trading on the NOREX exchanges is carried out in the electronic trading system SAXESS. This trading system is in use by all members of the NOREX Alliance, and allows brokers to operate on all such exchanges of which they are members through a single trading system. For the time being, clearing of all trades, however, takes place through different systems for trades affected on the different exchanges.

Official trading on Oslo Børs takes place between 9:00 (CET) and 16:30 (CET) each trading day. Orders may be placed in the system from 8:15 (CET). From and including 1 September 2008, the Oslo Børs will close at 17:30 (CET).

The settlement period for trading on Oslo Børs is three days (T+3).

The ability of brokerage houses to trade for their own account is restricted to trading that occurs as an integral part of either investment services or general capital management. Trading by individual employees is also restricted.

Investment services in Norway may only be provided by Norwegian brokerage houses holding a license under the Securities Trading Act, branches of brokerage houses from an EEA-state or brokerage houses from outside the EEA that have been licensed to operate in Norway. EEA state brokerage houses may also conduct cross-border investment services in Norway.

It is possible for brokerage houses to undertake market-making activities in shares listed in Norway if they have a license to do so under the Securities Trading Act, or in the case of EEA state brokerage houses, a license to carry out market making activities in their home jurisdiction. Such market-making activities will be governed by the regulations of the Securities Trading Act covering brokers' trading for own account. Such market-making activity, however, does not as such require notification to the Financial Supervisory Authority of Norway or Oslo Børs except for the general obligation on brokerage houses that are members of Oslo Børs to report all trades in the listed securities.

15.3 INFORMATION, CONTROL AND SURVEILLANCE

Oslo Børs controls the issuance of securities in both the equity and bond markets in Norway and devotes substantial resources to overseeing activities in the market. Supervision of the activities in the market that determine the price of listed securities represents one of the major quality control mechanisms for Oslo Børs, and plays an essential role in maintaining a liquid market. The market surveillance department strives to protect both investors and the integrity of the market as a whole from attempts by individual players to benefit from information that is not generally known to the market or to trade in any other way at an incorrect price. The department also monitors the reporting rules and other regulations that are important for market transparency. The department is regulated with a provision in Section 5-11 of the Stock Exchange Act and an own regulation founded on the above mentioned law: Regulation on Market Surveillance. This has been done to secure the integrity and independence of the department from the businesslike side of Oslo Børs.

Oslo Børs and Kredittilsynet (the Banking, Insurance and Securities Commission) have established formal guidelines for collaboration. Whenever the market surveillance department at Oslo Børs identifies possible breaches of the rules for price quotation it immediately initiates a more detailed investigation. The results of these investigations may be that Oslo Børs will sanction against its members or listed companies, or the cases will be deferred to the competent authority. Cases where there is a suspicion of breaches to relevant regulations and where such preliminary investigations do not exclude the suspicion the matter is reported to Kredittilsynet at a low threshold.

Each listed company with its home state in Norway must publish copies of all reports and communications sent to its shareholders. Each company must also promptly, unless there are valid reasons for postponement (in accordance with the Norwegian Securities Trading Act section 5-3), release to Oslo Børs any other precise information about the financial instruments, the company or other matters which are suited to influence the price of the financial instruments or related financial instruments noticeably, and which are not publicly available or commonly known in the market.

Companies with their primary listing on Oslo Børs are obligated to release its annual financial reports within four months of the end of the year. In addition, companies must publish its half-year reports within two months of the end of the quarter.

15.4 THE VPS AND TRANSFER OF SHARES

To enable the Shares to be traded on Oslo Børs, the Shares must be registered in the VPS, which is Norway's paperless centralized securities registry.

In the VPS, shares are registered in the name of the owner of the shares. As a general rule, there are no arrangements for nominee registration. However, shares may be registered in the VPS by a fund manager (bank or other nominee) approved by the Norwegian Ministry of Finance, as the nominee of foreign shareholders. An approved and registered nominee under Norwegian law has a duty to provide information on demand about beneficial shareholders to the issuer and to the Norwegian authorities. In the case of registration by nominees, registration with the VPS must show that the registered owner is a nominee. A registered nominee has the right to receive dividends and other distributions but cannot vote at general meetings on behalf of the beneficial owners. Beneficial owners must register with the VPS or provide other sufficient proof of their ownership to the shares in order to vote at general meetings.

All transactions relating to securities registered with the VPS are made through computerised book entries. The VPS confirms each entry by sending a transcript to the registered shareholder irrespective of any beneficial ownership. To effect such entries, the individual shareholder must establish a share account with a Norwegian account agent. Norwegian banks, the Bank of Norway, authorised securities brokers in Norway and Norwegian branches of credit institutions established within the EEA are allowed to act as account agents.

The entry of a transaction in the VPS is *prima facie* evidence in determining the legal rights of parties as against the issuing company or a third party claiming an interest in the given security.

The VPS is strictly liable for any loss resulting from an error in connection with registering, altering or cancelling a right, except in the event of contributory negligence, in which event compensation owed by the VPS may be reduced or eliminated.

A transferee or assignee of shares may not exercise the rights of a shareholder with respect to such shares unless such transferee or assignee has registered such shareholding or has reported and shown evidence of such share acquisition, and the acquisition of shares is not prevented by law, the Articles of Association or otherwise.

15.5 FOREIGN INVESTMENT IN SHARES LISTED ON OSLO BØRS

Foreign investors may trade shares listed on Oslo Børs through any broker that is a member of Oslo Børs, whether Norwegian or foreign.

15.6 DISCLOSURE OBLIGATIONS

A person, entity or group acting in concert that acquires shares, options for shares or other rights to shares resulting in its beneficial ownership, directly or indirectly, in the aggregate meeting or exceeding the respective thresholds of 5%, 10%, 15%, 20%, 25%, 33.33%, 50%, 66.66% or 90% of the share capital or the voting rights in the Company has an obligation under Norwegian law to notify Oslo Børs immediately. The same applies to disposal of shares, option for shares etc., resulting in a beneficial ownership, directly or indirectly, in the aggregate meeting or falling below said thresholds.

15.7 INSIDER TRADING

According to Norwegian law subscription for, purchase, sale or exchange of shares which are quoted, or incitement to such dispositions, must not be undertaken by anyone who has precise information about the financial instruments, the company or other matters which are suited to influence the price of the financial instruments or related financial instruments noticeably, and which are not publicly available or commonly known in the market. The same applies to entry into, purchase, sale or exchange of options or futures/forward contracts or equivalent rights connected with such shares or incitement to such disposition.

16. LEGAL MATTERS

16.1 DISPUTES

There are substantial losses carried forward in certain Swedish group companies of the Company (belonging to Norgani Hotels) incurred as a result of liquidation of partnerships following acquisition of the partnerships in 2005. The losses carried forward have been recorded with SEK 593 million in the accounts of Norgani Hotels, corresponding to 28% of the losses incurred in 2005. However, pursuant to a reassessment by the Swedish Tax Agency, the Tax Agency has denied some of the Swedish Group companies the deduction for losses in connection with the liquidation of partnerships. The total amount of denied deductions is approximately SEK 1,645 million, representing approximately SEK 460 million of the above SEK 593 million.

The Tax Agency has not challenged the deductibility of the losses as such, but have denied deduction in 2005 on basis that the loss could not be finally determined as the shareinterest sale and purchase agreements contained provisions which might result in payment by the seller to the relevant Group company which in turn may reduce the purchase price and hence the tax loss. The Company has appealed the decision of the Swedish Tax Agency. Furthermore, the Company has filed warranty claims against the sellers of the above referred partnerships on the basis of warranties regarding the tax losses provided by the sellers in the sale and purchase agreements. The claim amounts to approximately SEK 130 million.

Certain Finnish group companies have requested a dispensation regarding ownership change in 2006. A dispensation would allow tax losses for certain fiscal years prior to 2006 to be carried forward. Dispensations were not granted and the Finnish group companies have appealed the decision to the Finnish Supreme Administrative Court where a decision is still pending.

The Company has discovered certain construction errors in the fire separators in one of its hotels in Sweden. The costs of remedy are currently estimated to be around SEK 15 million. The Company has filed a warranty claim against the party who sold the hotel to Norgani Hotels.

Except for the matters described above, the Company is not involved in any governmental, legal or arbitration proceedings, which may have, or have had in the recent past significant effects on the Company and/or the Company's financial position or profitability. The Company is further not aware of any such proceedings that are pending or threatened, nor has the Company been involved in any such proceedings during the last 12 months.

16.2 MATERIAL CONTRACTS

As to material contracts, and other than in respect of contracts entered into in the ordinary course of business (such as rental agreements, rental guarantee agreements, property sale/purchase agreements, management agreements (cf. Section 16.3.3 and loan agreements (cf. Section 11.5 above), reference is made to Section 6.3 – The agreements regarding Oslo Properties, Section 6.8.4 – Sale of Danish hotels to syndicate established by Fearnley Finans Eiendom ASA, Section 5.1 – Letter of intent regarding the possible sale of Norgani Hotels and Section 16.3.3 – The agreement with NEAS ASA.

16.3 RELATED PARTIES/MANAGEMENT AGREEMENTS

16.3.1 Overview

This related-party disclosure has been stated in accordance with the IAS 24 standard. The objective of this Standard (IAS 24) is to ensure that an entity's financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

The Norwegian Property Group is not directly controlled and dominated by any significant shareholders. However, the A. Wilhelmsen Group controlled a total of 15.3% of the shares through Anders Wilhelmsen Capital AS (11.5%), AWECO Invest AS (2.7%) and Miami AS (1%) and Torstein Tvene and his family controls 7.6%.

There are four main categories of transactional relationships with “related parties” to Norwegian Property:

- Property transactions with share considerations to sellers;
- Facility management agreements;
- Rental agreements with shareholders; and
- Interest charges from parent to subsidiaries.

All these transactions are believed to be on market terms.

16.3.2 Property transactions

Companies that have sold properties to Norwegian Property and accepted to be paid in part by issuing new shares in the Company as consideration to the seller are considered related party in this connection.

No property transactions with related parties were carried out in 2007 and no Shares have been issued as consideration to any sellers.

In 2006, Norwegian Property acquired Skøyen Bygg AS (including its property portfolio) from Fram Holding AS, which is controlled by close associates of Board Member Torstein Tvene. The agreement was signed on 12 May 2006 and completed 9 June 2006. The purchase price was partially paid by issuing new shares in the Company as consideration to the seller.

The Company acquired the property Middelthunsgate 17 (M17) and the Aker Brygge-properties from companies controlled by the Anders Wilhelmsen group. The purchase price was partly paid by issuing new shares in the Company as consideration to the sellers. The A. Wilhelmsen group is represented on the Board of the Company by Mr. Jostein Devold.

Related party	Property	Total transaction (NOK m)	Shares ⁴⁰	Share price (NOK)	% stake
A. Wilhelmsen Capital AS/Aweco Invest AS	Aker Brygge / M17	2,984	14,955,967	50	20.9%
Torstein Tvene and family through controlled companies	Skøyen Bygg	1,295	8,000,000	50	11.2%

In addition to the table above, the following companies are considered to be related-parties of the Company, after receiving ownership in the Norwegian Property Group as a part of the settlement of the transaction of the respective properties. As part of the agreements, an amount of the purchase price was paid by issuing new shares in the Company as consideration to the seller:

Related party	Property	Total transaction (NOK m)	Shares ⁴¹	Share price (NOK)	% stake
Oslo Næringseiendom 1 AS	Økernveien 9	257	600,000	50	0.8%
Pareto PE AS – Syndicate	Finnestadveien 44	451	1,844,000	50	2.6%
Pareto PE AS – Syndicate	Drammensveien 134 KS	670	14,807	50	0.0%
Pareto PE AS – Syndicate	Kokstadveien 23	221	800,000	50	1.1%
Pareto PE AS – Syndicate	Gardermoen NE	345	1,000,000	50	1.4%

* Pareto PE AS: Pareto Private Equity AS

The Pareto group through Pareto Eiendom AS, is performing rental brokerage services for Norwegian Property and earned fees totaling NOK 0.3 million during 2006. Pareto Securities was also providing securities brokerage services to Norwegian Property. During 2006, they earned NOK 63.1 million in such fees.

⁴⁰ Ownership at the time of the transaction, not including purchases or sales after the transaction.

⁴¹ Ownership at the time of the transaction, not including purchases or sales after the transaction.

During 2008, Pareto PE AS (Syndicate) has acquired Magnus Poulsensvei, Forskningsveien and Østre Akervei 20 and 22 for a total acquisition price of NOK 948 million.

16.3.3 Facility management agreements (property management agreements)

For the majority of the properties, the Company has entered into management agreements with professional managers who previously carried out the same services on behalf of the former property owners.

Linstow Eiendom AS

A special commercial and facility management arrangement for Aker Brygge, with four year duration, has been entered into with Linstow Eiendom AS in 2006, which is owned by the Anders Wilhelmsen Group through two daughter companies. Linstow Eiendom AS is also managing the property Middelthunsgate 17, Ibsenkvartalet and Stortingsgaten 6. Linstow Eiendom AS is receiving an annual compensation for the services rendered of NOK 5.3 million.

Pareto Investor Service AS

Pareto Investor Service AS, being a part of the Pareto group is providing commercial administration services to the Company for an annual fee of NOK 3.6 million.

NEAS ASA

On 28 February 2008, Norwegian Property entered into a 6 years agreement with NEAS ASA regarding management and operation of its Norwegian office portfolio. Under the agreement, NEAS ASA will assume responsibility for management and the day to day operations of Norwegian Property's properties during 2008 and 2009.

The agreement involves that future ownership cost during the agreement period is expected secured at a level of 10 to 12% below current levels (inflation adjusted going forward), without a corresponding reduction in magnitude or quality of work. In addition, the agreement is anticipated to ensure more and better services for Norwegian Property's tenants.

16.3.4 Rental agreements

Linstow Eiendom AS (A.W. Group) is a tenant at Aker Brygge, and also a shareholder in Norwegian Property. The annual rent amounts to NOK 4.3 million.

16.3.5 Interest charges to subsidiaries

All controlled subsidiaries of Norwegian Property are charged for interest in relation to the subsidiaries share of the total Group financial costs. In addition, the subsidiaries are charged for a share of administration expenses related to Group companies' ownership cost.

Appendix 2: Unaudited 1 Quarter report for 2008

NORWEGIAN PROPERTY ASA – REPORT FOR THE FIRST QUARTER 2008

HIGHLIGHTS FOR THE QUARTER

- Rental income was NOK 472.1 million in the first quarter of 2008 (NOK 248.6 million in the same quarter in 2007).
- Profit before tax, value changes and interests on acquisition financing was NOK 125.1 million.
- After value adjustments/derivatives, fair value adjustment properties and interest expenses acquisition financing, loss before tax was NOK 166.9 million (profit of NOK 345.4 million in the first quarter 2007).
- Net asset value per share (EPRA) was NOK 70.15 (NOK 60.26).
- The hotel markets in the Nordic region are strong with RevPAR (Revenue Per Available Room) growth between 6% and 12% so far in 2008 (per February). RevPAR growth for Norgani hotels was significantly higher (+9.6 % to 17.9%). Rental growth in Norgani in the first quarter 2008 was up 20.6 % compared to 2007.
- Overall office vacancy in Oslo is now below 4%. Rents are still increasing but at lower pace than earlier. Yields are trending upwards on less attractive properties.
- Agreement was signed with NEAS for facility management of the office portfolio. The agreement will secure stable and low property expenses going forward.
- Divestment process of non-core assets is proceeding according to plan. Agreements are entered regarding sale of non-core office properties with a property value of NOK 1.4 bn. Processes are ongoing regarding sale of hotel portfolio.

NORWEGIAN OFFICES - MARKET

The international financial and macroeconomic turmoil has so far had limited direct impact on the Norwegian economy. Unemployment remains very low, and demand for labor is still strong. Only a limited amount of new office space will be available in the market over the next few years. In central areas (CBD) vacancy does virtually not exist. Rents thus are expected to increase over the next year. Due to slow down in the residential market and the strong rental growth in the office market, start up of new office projects is increasing, though from very low levels.

The market for property transactions has slowed down as a consequence of the increase in long term interest rates and the credit turmoil, however to a lesser extent than in other countries. Less attractive properties and properties with long term leases have seen a certain increase in yield requirements. Also more centrally located areas have started to see some yield expansion. Increasing rents are to some extent neutralising the effects on the property values.

ACCOUNTING PRINCIPLES AND CONSOLIDATED ENTITIES

The first quarter report has been prepared in accordance with IAS 34 – Interim Financial Reporting. The quarterly result has been prepared in accordance with the current IFRS-standards and interpretations. The accounting policies applied in the preparation of the quarterly result are consistent with the principles applied in the financial statements for 2007.

In the consolidated group accounts Oslo Properties and Norgani Hotels have been included for the full quarter.

Mauritz Kariyolds phase 1, which was agreed sold in December 2007, was included up to February 1, when the sale was completed. The sale of Kokstadveien 23, was completed in the fourth quarter, and the property has not been included in the numbers in the first quarter. Other properties agreed sold, are included for the full quarter as closing of the transactions are not completed.

2) Deferred earnings per share are the same as the basic earnings per share.

3) Ordinary book value of equity (x), minority interests per share adjusted for deferred property tax, goodwill and financial derivative instr., per share.
 Deferred property tax per share include both ordinary deferred tax related to properties and tax compensation or purchase accounted for as a reduction of investment properties. Goodwill per share is calculated from the single item in the balance sheet, while financial derivative instr. per share is calculated based on the asset and liability items (market values of interest/exchange rate swap contracts and similar) in the balance sheet after tax.

RESULT

The report for the first quarter 2008 includes the operation of 57 commercial properties (investment properties), 73 hotels and one conference center in Norgani Hotels for the full quarter. Gross rental income for the first quarter was NOK 472.1 million (NOK 248.6 million in the same period in 2007). In addition Norwegian Property has received payments under retain guarantees (NOK .5 million) in the first quarter, which are not included in the P&L.

Maintenance and property related expenses for the quarter were NOK 37.6 million (NOK 14.1 million) corresponding to 8.0 % of gross rental income. The increase reflects the acquisition of Norgani Hotels. Group and administrative expenses were NOK 28.8 million (NOK 16.0 million). Operating profit before value adjustment was NOK 405.6 million (NOK 218.5 million).

DTZ Realkapital has for the office portfolio, based on the same methods and principles as in the previous quarters, performed an external and independent valuation of properties. Increased inflation expectations that market rents is reaching a peak. Widening of risk premiums (bank margins) and general yield expansion (especially on less attractive properties) have had a negative effect on valuations. The company has carried out independent assessments of this parameters which affect the value of the group's properties, including development in interest rates, market rents, occupancy and yield requirements on similar transactions. Based on these considerations the Company has applied DTZ's valuation. Total value of the Group's portfolio of investment properties (offices) after adjustment for deferred tax was thus NOK 20.196 million as of 31 March 2008. NOK -19.7 million (NOK 22.74 million) in loss (gain) from fair value adjustment of investment properties has been realised in the first quarter.

The hotel portfolio has been externally valued by DTZ Realkapital and Maskanta (see separate description of this revaluation). Gain from fair value adjustment on the hotel portfolio was NOK 75.6 million. Net financial items include NOK -142.5 million (NOK 58.0 million) relating to negative changes in market value of financial derivatives. Interest expenses relating to the acquisition financing of Norgani Hotels / Oslo Properties was NOK 57.7 million. Financial expenses also include a loss of NOK 2.9 million related to changes in exchange rates.

Loss (profit) before tax for the first quarter was NOK -166.9 million (NOK 345.4 million). Calculated tax was NOK -46.7 million (NOK 96.7 million), primarily relating to deferred tax, which does not have any cash flow impact. Ordinary loss (profit) for the period was thus NOK -120.2 million (NOK 248.7 million).

CASH FLOW

Net cash from operating activities was NOK 302.4 million (NOK 273.5 million) in the first quarter. As a consequence of shorter roll over periods for the interest payments in the first quarter, a negative periodisation effect of NOK 50 million relating to interest payments was changed in the second quarter. This effect will be reversed in the first quarter. There are also some negative periodisation effects relating to rental payments having effect in the first quarter. Net cash flow from investing activities was NOK 27.9 million relating to the net effect of sold assets and ordinary capital expenditures. Ordinary capital expenditures relating to the group's investment properties (offices) were NOK 29 million and to the hotel portfolio NOK 22 million in the first quarter. Net cash flow from financing activities was NOK -453.6 million. Net change in cash and cash equivalents in the first quarter was NOK -123.3.

BALANCE SHEET

Cash and cash equivalents as of 31 March 2008 were NOK 512.5. In addition the group had NOK 365 million in unused committed credit facilities. Total equity was NOK 6.732 million (NOK 6.151 million), corresponding to an equity ratio of 20.0 % (31.3 %). After deduction of minority interests the Net Asset Value per share was NOK 61.85 (NOK 57.54). Net Asset Value based on EPRA's standard was NOK 70.15 (NOK 60.26).

The decomposition of deferred tax liability is described in the table below:

Deferred tax liability on properties (on fair value adjustments)	1.941
-Deferred tax asset from carry forward losses	(465)
Deferred tax liability	1.476
Deferred tax liability (booked as reduction on investment property)	364

FINANCING

Total consolidated interest bearing debt as of 31 March 2008 was NOK 12,171 million (NOK 12,751 million). NORGANI – THE HOTEL MARKET

The share price at the end of the first quarter was NOK 44.00 versus NOK 66.50 at the end of last year. Generally property shares around the world has had a more stable performance so far this year compared to last year. FTSE EPRA NAREIT's Global Real Estate Index Europe was down 1.8% in the first quarter, whereas GPR 250 Europe was up 0.3%.

Figures: Recent market information on the Nordic hotel market (February 2008), the strong trend continues. RevPAR

(Revenue Per Available Room) increased between 6.4 % and 11.8 % in the countries recording this figure. Norgani's hotels had an even stronger RevPAR development ranging from 9.6% to 14.3% in the same countries. In Denmark, where market RevPAR is not recorded, occupancy continue to grow. Norgani only has three hotels in Denmark, and a limited exposure, but saw a negative RevPAR development in the first quarter. A refurbishment project on one of the properties is one reason for the drop, but Norgani is addressing the issue to improve the situation.

NORGANI – THE HOTEL PORTFOLIO

At the end of March 2008, Norgani's portfolio comprised 73 hotels and one congress centre with a total of 12,804 rooms and 671,080 sqm.

NORGANI – THE HOTEL LEASE CONTRACTS

By the end of the first quarter, all Norgani's hotels were operating under performing contracts with only immaterial vacancies. Except for one hotel, the contracts are turnover based leases, mostly with differentiated rates between lodging and food/beverages. Most contracts have minimum leases, on average at around 64% of current gross rent (CPI adjusted minimum leases). For some of the hotels there are vendor rental guarantees, which means that the seller has agreed to compensate Norgani for any shortfall between the guaranteed level and actual turnover based rent. The average duration of the lease agreements was 10.7 years, including the renegotiated Scandic agreement.

NORGANI – VALUATION OF HOTEL PORTFOLIO

As of 31 March 2008 the hotel portfolio was valued by DTZ Realkapital (Sweden, Denmark and Norway) and Maakanta (Finland). Total valuation in the external valuation was NOK 10.901 million, which is an increase of NOK 200 million from the end of last year. The valuation is based on the discounted cash flow method. In parallel Norgani has carried out internal valuations based on the principles previously applied by Norgani Hotels. The internal valuations concluded with a slightly higher value of NOK 10.914 million. The internal valuations are based on a net present value calculation of the property's future operating net serving the foundation for calculating property values. This means in principle that a property is valued by discounting expected revenues, and expenditures with a discount rate. The cash flow period is 0 years. As for Norwegian Property the external valuation has been applied

for the valuation in the group accounts.

NORGANI - RESULT

Revenues in the first quarter were NOK 188.9 million compared to NOK 156.6 in the same period last year. Growth in RevPAR and renegotiated lease agreements, mainly related to the Scandic hotels, are the main drivers behind the increase. Operating expenses and administrative expenses were NOK 20.2 million and NOK 14.8 million respectively. Maintenance efforts were high in the first quarter and will be reduced going forward.

Net financial items were NOK -86.1 million, excluding interests on group internal debt of NOK 7.1 million. Fair value adjustments on properties were NOK 75.6 million, whereas fair value adjustments on financial instruments were NOK 75.2 million mainly due to a reduction in the long term interest rates and changes in currencies. In Sweden Norgani has sold a company holding no properties with a gain of NOK 29.3 million.

Profit before tax was consequently NOK 97.5 million or NOK 90.4 million if adjusting for group internal finance expenses.

NORGANI – FINANCING STRUCTURE

Gross interest bearing debts as of 31 March 2008 in Norgani was NOK 7,122 million (NOK 6,246.9 million at the end of the first quarter last year). Gross value of financial derivatives (interest swaps and currency hedging) was NOK 11.5 million. Further details on the financing is described under the group financing structure.

OUTLOOK

Norwegian Property's current portfolio of 57 high quality office properties in Oslo and Stavanger and 74 hotel properties in the Nordic region is well positioned to benefit from the strong economic growth in the region. Norwegian Property will continue the strong operational focus on tenant management and rental improvement, cost reductions and asset management. Major focus going forward is directed towards consolidation and integration of Norgani including focus on the financing structure. Sale of non-core assets is ongoing.

Norwegian Property has a long term strategic ambition of being a consolidator of the property business and of growing the business through accretive acquisitions. The main focus is still on the prime office markets in the larger Norwegian cities. But through due investment in Oslo Properties and Norgani, Norwegian Property has entered the Nordic hotel market. The high degree of revenue based contracts implies a faster leverage on the strong economic growth in the region. In the short to medium term Norwegian Property's main focus will be on consolidation of the combined company, including integration of the organisations, take out of synergies, refinancing of Norgani and divestment of non-core assets. However Norwegian Property will also continue the work of evaluating accretive acquisitions, mainly in the form of structural transactions.

Share issues and refinancing

- A fully-subscribed private placement of NOK 500 million was implemented on 29 March at a subscription price of NOK 71.75.
- Agreements for loans and mandates related to financing with an overall volume of up to NOK 21 billion were concluded in July. After this refinancing, the average margin on Norwegian Property's borrowing was reduced to 56 basis points.
- Biggest Nordic hotel property company acquired in the fourth quarter through the Oslo Properties investment company owned 17.5 per cent by Norwegian Property. Through agreements, Norwegian Property has secured the right to acquire more than 90 per cent of Oslo Properties.
- Strengthening property portfolio in Norway
- The acquisition of four office and retail properties during July for NOK 1.7 billion made Norwegian Property the largest landlord at Aker Brygge in Oslo.
- Park Inn in downtown Oslo was acquired in December for NOK 174 million through Norwegian Hotels AS.
- Disposal of non-strategic properties
- Agreement was reached in December on the sale of the Mauritz Kartverdsplass 1 property for NOK 50.5 million and of the Kokstadveien 23 property in Bergen for a value corresponding to NOK 230.8 million.
- Included in international benchmarking index
- Norwegian Property was included from 24 December in GPR 250, a leading global benchmark index for investors in property shares.

Norwegian Property in brief

Norwegian Property buys, develops and owns high-quality commercial properties with attractive locations. The portfolio was expanded in 2007 with additional commercial properties in Oslo. Acquiring Norgani Hotels also contributed with a substantial number of hotel properties in the Nordic region.

Established in May 2006, Norwegian Property ASA has made its mark on the start as a substantial and dynamic player in the Norwegian property market. Its portfolio at 31 December 2007 totalled 58 commercial and 74 hotel properties with a combined market value of NOK 31.4 billion. This makes Norwegian Property the largest listed Nordic property company.

These properties represent a total area of roughly 1,400,000 square metres, with an annual rental income of just under NOK 1 billion. Vacancy for the overall portfolio of commercial and hotel properties is less than one per cent, and leases have an average remaining term of 8.4 years.

Norwegian Property is located in Oslo. It had 33 employees at the end of 2007 and a total rental income for 2007 of NOK 1,195.7 million. The company is listed on the Oslo Stock Exchange with ticker code NPRO.

Through the Oslo Properties investment company, Norwegian Property also controls Norgani Hotels. The latter has its head office in Oslo and 19 employees, with a total rental income of NOK 639.1 million. In 2007, Norgani Hotels was delisted from the Oslo Stock Exchange on 12 November following its acquisition by Oslo Properties.

The business

The company has two business areas: commercial property and hotel property.

Commercial property – Norwegian Property ASA

Activities related to commercial property are organised in Norwegian Property ASA.

At 31 December, the portfolio comprised 58 attractive commercial properties in Oslo and Stavanger with a market

value of NOK 20.7 billion. These represented an annual gross rental income of roughly NOK 1.145 million. The properties are managed by external partners.

Hotel property – Norgani Hotels AS

The hotel properties are organised in Norgani Hotels AS, which had a portfolio at 31 December comprising 74 hotel properties with a rental income for 2008 of NOK 81.9 million based on development expectations from the hotel operators. Norgani Hotels was acquired in 2007 by the Oslo Properties investment company. At 31 December, the latter controlled all the shares in Norgani. Norwegian Properties' 17.5 per cent of the shares in Oslo Properties, and has secured the right to secure 50 per cent. Norwegian Property regards the investment in Norgani Hotels as both long-term and strategically important, and has accordingly opted to present the hotel properties as part of its business.

Through the Oslo Properties investment company, Norwegian Property also controls Norgani Hotels. The latter has its head office in Oslo and 19 employees, with a total rental income of NOK 639.1 million. In 2007, Norgani Hotels was delisted from the Oslo Stock Exchange on 12 November following its acquisition by Oslo Properties.

The business

The company has two business areas:

commercial property and hotel property.

Commercial property – Norwegian Property ASA

Activities related to commercial property are organised in Norwegian Property ASA.

At 31 December, the portfolio comprised 58 attractive commercial properties in Oslo and Stavanger with a market

restricted. Rents are accordingly expected to continue rising over the next few years. Norwegian Property is well positioned to benefit from a future positive trend in the property market, and has ambitions for continued growth.

Meeting the demand for a liquid, listed investment option in the commercial property sector, the company aims to give its shareholders an attractive return. A well-diversified quality portfolio of large commercial properties, combined with an attractive and predictable relationship between risk and return, will contribute to value creation. Norwegian Property aims to take a leading role in the restructuring and industrialisation of the market.

Object and strategies

The overall long-term object for Norwegian Property is to be the preferred investment option and premier value-developer in Norway, and to serve as a door-opener to the Nordic property market.

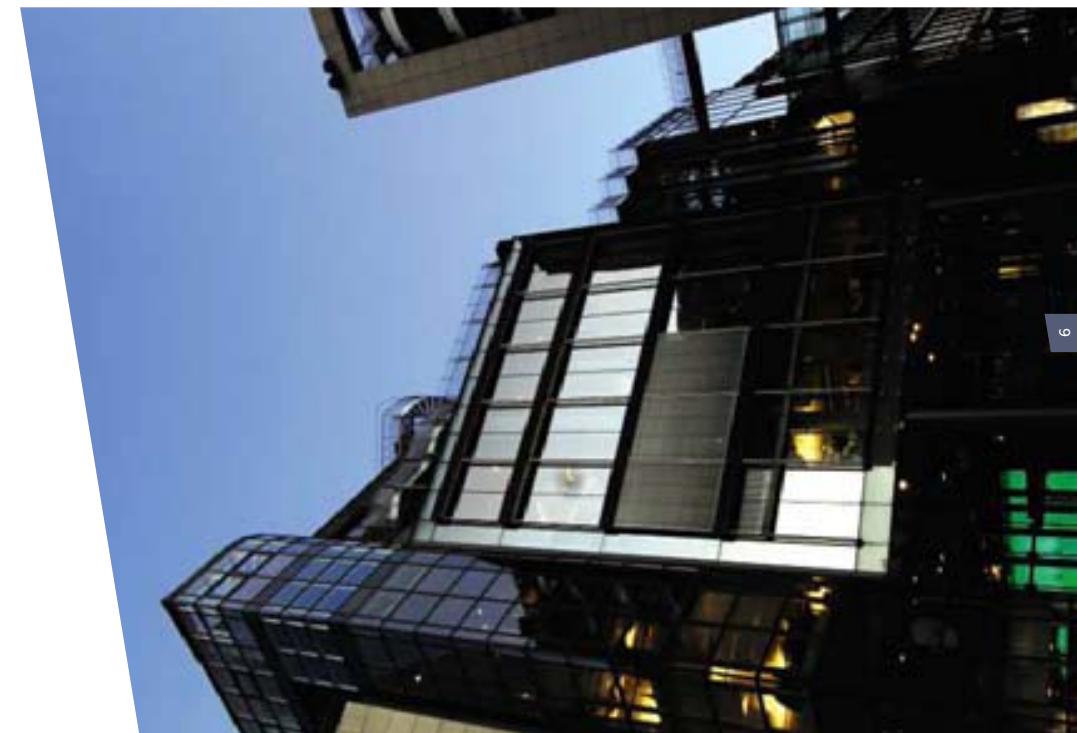

Norwegian Property's ambition is to achieve considerable progress in revenues and cash flow with a long-term return of equity of at least 13.15 per cent before tax, while also paying a competitive dividend.

Investment strategy

The investment strategy is to continue

continually developing and managing the portfolio in the chosen priority areas. At the same time, the group will contribute to a restructuring and professionalisation of the sector.

business people. The availability of new hotel capacity has been limited, and both occupancy rates and average room prices have made good progress. More information about each property can be found in a separate section of the annual report, and on the company's websites at www.noh.no and www.norban.no.

Tenants

Norwegian Property has a number of large and financially sound tenants in both private and public sectors. The 25 largest office tenants account for about 66 per cent of their rental income. The office portfolio had a total of 400 tenants at 31 December 2007.

Tenants of Norwegian Hotels include leading, international and regional chains such as Scandic Hotels (including Hilton), Choice Hotels Scandinavia

and Reidor. These account for about 90 per cent of the rental income. Scandic Hotels is the largest tenant, accounting for about 64 per cent.

The company's earnings, cash flow and required return will be highly predictable.”

- In the long term, attractively located office properties in Norway will form 70 per cent of the portfolio by value. Hotel and retail could form up to 30 per cent of the portfolio by value in the longer term.
- The main focus for the office portfolio will be:
 - locations in attractive areas of Oslo and Stavanger, with Bergen and Trondheim considered if large portfolios become available
 - mainly fully developed properties, with a minimum of 150 rooms and attractive locations
 - collaboration with the largest and most professional hotel operators in the Nordic region.
- Financing and investment strategy

The company's earnings, cash flow and required return will be highly predictable.

- The objective is a return of 13.15 per cent on paid-in equity and an annual dividend of four-six per cent of paid-in equity.
- The company's target equity ratio will be about 25 per cent.
- The company will be financed on competitive terms.
- A high proportion of long-term debt will be hedged at fixed interest rates. This applies to at least 70 per cent of the office portfolio and at least 50 per cent of the hotel portfolio.
- Shareholder strategy
- Open communication combined with clear goals and strategies will help to ensure confidence in the investor market.
- A broad shareholder base comprising Norwegian and international investors

Letter from the CEO:

Focus on increased value creation

Norwegian Property is growing. We became the Nordic region's largest listed property company in 2007, and have established a strong portfolio of hotel and commercial properties.

High-quality office properties in attractive locations represent the bulk of our portfolio. In order to become even more strongly placed, we also positioned ourselves during 2007 in the market for hotel properties. This will make us less vulnerable to economic fluctuations and help to enhance value creation.

The Norwegian property market was again characterised by a high level of activity in 2007, and plenty of holdings were for sale. However, we in Norwegian Property are very selective about which buildings and portfolios we consider. Maintaining our absolute requirement for a return of 13-15 per cent on equity is crucial for us. It is also important for the properties to be attractive in terms of quality and location. That will help us to maintain our position as the favoured choice for large and reputable tenants, and will ensure a level of rents which creates value for our owners.

We were built on a portfolio of office properties. At an early stage, we expressed an ambition to develop our company into a Nordic leader. To fulfil our growth strategy, we wanted more legs to stand on. Market trends indicated that a commitment to hotel properties would be favourable, and we accordingly made an offer in August 2007 for Norgani Hotels.

Other players also regarded Norgani's portfolio of 74 Nordic hotel properties as attractive and a bidding war ensued. An alliance that we entered into with Oels Properties, forged by Oslo Properties, The agreement meant that we have secured the right to acquire more than 50 per cent of Norgani's shares in the longer term, and the acquisition of Norgani was accomplished at a price which satisfies our required return.

Acquiring Norgani has given us a

more robust base in relation to economic fluctuations. Backed by assessments from independent analysts, we believe that hotel properties will now experience something like the same growth seen for the development of office property values. Occupancy rates in Nordic cities are rising, and this trend is expected to persist. Norgani's portfolio consists primarily of three- and four-star hotels, and this is the segment with the highest growth and most stable progress.

Negotiations with Scandic Hotels have resulted in higher rents with effect from 1 January 2008. During the boom we are experiencing in the hotel market, we will also secure a positive effect for our cash flow from the fact that all but one of the hotels have turnover-based leases. In addition come minimum-rent guarantees from operators for an average period of 11 years to come.

Another milestone for us in 2007 was the acquisition of the DNB Not head office at Aker Brygge in July. We now own a substantial proportion of all the commercial premises in this part of Oslo - Norway's most attractive property market. Demand for prime space in this area is high, and rents have risen by more than 100 per cent over the past two years.

While our main focus

is on individual purchases. We believe

that our combination of first-class office

properties and properties with consumer-oriented activities will be a successful formula for enhanced value creation.

creation even further. By integrating the Norwegian Property and Norgani organisations, we can unify resources and expertise in a way which strengthens us even further while also laying the basis for taking out substantial synergies and economies of scale.

The unrest in the financial market and the strong decline we have seen in stock markets, particularly in early 2008, have not affected our operations. The demand for our tenants is still very good, and rents are continuing to rise. Nor has our financing been affected by the turbulence in the market. Almost 80 per cent of our debt is covered by fixed-interest contracts or items below the market rate, and we are comfortable with our ability to maintain our target of a return of 13-15 per cent on equity.

We will continue our efforts to trim

and optimise our portfolios in both office

and hotel segments, and our attention is

focused more on structural opportunities

than on individual purchases. We believe

that our combination of first-class office

properties and properties with consumer

oriented activities will be a successful

formula for enhanced value creation.

Hotel properties: Biggest Nordic hotel owner

Through its investment in Norgani Hotels, Norwegian Property established hotel properties as a new business area in 2007. This commitment is long-term and regarded as strategically important.

Highlights of 2007

- Norgani Hotels strengthened its position as the largest Nordic hotel owner, and concluded agreements on the acquisition of five hotels and a development project with a total of 859 new rooms.
- Work continued on refining the portfolio, and three non-strategic properties with a total of 231 rooms were sold.
- An overall agreement on negotiating all leases for the 42 hotels in the Scandic chain was concluded with effect from 1 January 2008. Rents were raised to the current net level, resulting in annual income of EUR 10.5 million. At the same time, the term of the leases was extended from six to 13 years and minimum rents were introduced for all the hotels, based for each hotel year, compiled during February 2008.

Strong market positions

As the biggest owner of Nordic hotel properties, Norgani Hotels embraces about five per cent of all available rooms in the region. Turnover in the hotel sector is expanding rapidly as a result of both increased tourism and greater business travel. The travel trade is now one of the world's biggest industries, and one of those with the fastest growth. In line with international trends, developments in the Nordic region are also very positive.

Norgani Hotels is active in the travel trade as a hotel owner and as a creator

of value through investment in as well as management and development of hotel properties in close cooperation with their operators. The company's main focus is on hotels with less volatility than the hotel market in general:

- The goal is to have a well-diversified portfolio of three- and four-star (mid- and up-market segments) hotels, located primarily in Nordic towns with more than 50,000 inhabitants.
- These properties will be mainly fully developed, in attractive locations and with at least 150 rooms.
- Hotel management is handled by professional players. Cultivating and further extending & collaboration with the largest and most professional hotel operators in the Nordic region has a high priority.

Outlook and goals for 2008

Nogani expects 2008 to be a good year for hotel owners, even though this market could also be affected to some extent by the international financial unrest. New building activity is on the increase, but the balance between supply and demand in the hotel market is still affected by a shortage of capacity – particularly in the biggest cities. Nogani's attention in 2008 will be focused on the following issues:

- Continue to develop collaboration with the most important operators in the Nordic hotel market to ensure continued strong progress for Nogani's hotels. In cooperation with the operators, develop their existing hotel portfolio while continuously assessing interesting new collaboration projects.
- Build further on Nogani's competent organisation to ensure that it continues to develop as the leading expertise centre for purchase and sale, development, and administration of hotel properties.
- Complete the sales processes currently in progress for 20 non-state-owned hotel properties. These will have an expected gross rental income of roughly NOK 140 million in 2008, and this sales process is expected to be completed during the first half.
- Based on experience gained by Norwegian Property in outsourcing property management, Nogani's ambition is to reduce operating costs. This work will be given priority in 2008.

Ordinary operating profit before fair value adjustments accordingly declined from 2006. The strong rental market from 2006. The strong rental market and a reduction in the required return for investments in the first half of 2007 meant a positive change of NOK 820 million in the value of the hotel portfolio for 2007. Pre-tax profit accordingly rose from NOK 710 million to NOK 1,139 million.

In connection with the acquisition of Nogani Hotels by Oslo Properties, Egil Ellingsen opted to resign as president. She will be succeeded by Runar Ingdal from April.

Commercial property: Largest in attractive office properties

Norwegian Property has established Norway's largest portfolio of attractive commercial properties. This business area comprises 57 properties with a market value of almost NOK 21 billion.

Highlights of 2007

- Norwegian Property acquired the IFN portfolio in January covering 13 properties with a total area of 123,000 square metres in the Nydalen and Økern districts of Oslo, for a purchase price of NOK 2,199 million.
- Agreement was reached in July on the acquisition of DnB Nor's head office at Aker Brygge, comprising four properties with a combined area of roughly 32,000 square metres. The purchase price was NOK 1,740 million.
- The new Aker Kvarner head office at Forusby outside Oslo was completed in November. This structure ranks as one of Norway's most modern office buildings and is the largest single building in the Norwegian Property portfolio. Covering 58,500 square metres, its market value is about 1.5 billion.
- Agreement was reached in December on the disposal of the Maurit, Kartverksplassen 1, and Kokstadveien 23 Properties in Sandnes and Bergen respectively for a combined price of roughly NOK 280 million.

Norwegian Property's principal strategy is the acquisition, development and ownership of high-quality commercial properties with good locations. Its ambition is to achieve the greatest possible value creation through efficient operation of the properties and by exploiting the development potential of the portfolio.

Focus on quality and attractive properties

Purchase and sale of properties form a natural part of the company's efforts to create the greatest possible value. The properties will be positioned in attractive areas of Oslo and Stavanger, Bergen and Trondheim will be considered if large portfolios are available.

The properties will primarily be fully developed, with a value of more than NOK 200 million each, and have an

attractive expected return. The emphasis will be on long-term leases, with inflation-adjustment clauses, but with a certain element of short-term leases in order to secure the potential in today's strong market.

Tenants will primarily be large listed companies and public bodies, in order to reduce lease-related risk.

Portfolio of commercial properties

Norwegian Property owns 58 properties at 31 December, including one (Mauritz Kartverksplassen 1 in Sandnes) covered by a sales agreement. The total area of the remaining 57 properties was 736,391 square metres. The most important key figures for the property portfolio are presented in the table on page 21, which also shows the most important changes compared with the end of 2006. A more

detailed overview for each property is shown in separate table.

Rental income

Gross rental income, following the sale of Mauritiz Kretordislas, came to NOK 1.141 million at 31 December, compared with NOK 1.064 million a year earlier. Norwegian Property's portfolio largely includes office properties with associated warehousing and parking facilities. Some buildings include retail premises as well, ranging from restaurants to long-term

leases for responding more quickly to the present rise in market rents. The average remaining term for this company's leases is 6.5 years, down from 7.3 years at 31 December 2006. The accumulated maturity profile for the Norwegian Property portfolio is illustrated in the table on page 23. Given the sharp growth in the rental market DTZ Realcapital has estimated that rents based on existing leases are roughly 1.6 per cent lower than they would have been if all the space were leased at today's market rates.

Diversified tenant structure

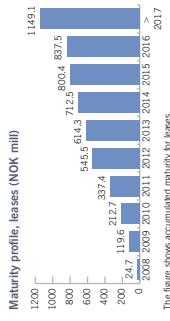

Norwegian Property's ambition is to have a diversified structure of high-quality tenants in order to minimise the risk of bad debts and loss of rents. Exports to various sectors is well diversified and is shown in the table to the left.

The largest tenants account for 65.5 per cent gross rental income, compared with 64.2 per cent in 2006, and mainly comprise companies with good credit records or public institutions.

Market Oslo

Oslo's market for rented office property had another record year. Employment grew by 12,000 in 2007, resulting in a growth of jobs for 7 per cent. Although the international economy showed signs of slowing down, Norwegian economic and employment growth is expected to continue. Commercial space in Oslo is under pressure, especially in some sectors. After a number of years with very little new building, activity in this sector was somewhat higher in 2007.

But vacancy space declined overall from 6.5 per cent at 1 January to four per cent at 31 December. As a result, rents

Risk

The group's most important market risks relate to reductions in rental income as a result of declining rents or increased vacancy in the property portfolio. Efforts are made to minimise this risk by investing in high-quality properties in attractive locations.

The risk of lost rental income relates to possible fire or other damage to the buildings. This risk is reduced by appropriate insurance policies from leading players in the re-insuring market. Special cover has been secured for damage resulting from possible terrorist action.

The year 2007

Norwegian Property had its first full operating year in 2007. Its organisation was further strengthened during the year. External consultants were used to some extent for certain functions at the beginning of 2007, but all strategic functions were carried out by full-time in-house personnel resources at 31 December.

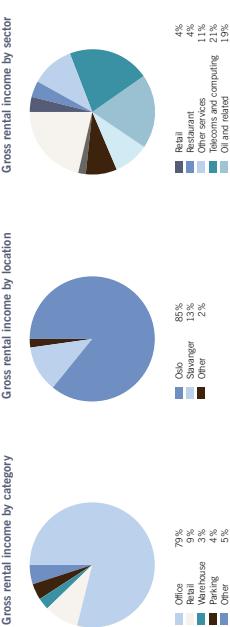

Activity was high in most parts of the business.

Where tenancies were concerned, vacancy was low and the number of vacancies due to forward delivery small.

Competitors

The property market remains fragmented. The largest property owners in Oslo and Sætre are the life insurance companies, specialised property companies such as Oslo Helse, Elmhoffsar and other foundations and state-owned companies and funds, and syndicates. Foreign investors have made limited direct investments in the Norwegian market, even though they participated to a greater extent in 2007 as bidders in val-

Norwegian Property has made a strategic choice to outsource its property management and maintenance work. It had eight different managers before the properties were acquired. The company reached an agreement in 2008 on concentrating all management, including ones of a more structural character, on a single provider. This integration will yield cost savings, as well as low and predictable property expenses in the future. Work is under way on the sale of certain properties located outside Norway. The most important tasks for 2008 are outlined below:

- Efforts will be made to ensure that market rents are achieved for space where the leases fall due in the next few years. Consideration will be given to renewing leases where possible to secure a positive development in revenue and cash flow.
- The company's ambition is to be a consolidator in property transactions and to constantly reassess whether it has bought the right properties. The combination of quality and return required by the company, possible transactions, including ones of a more structural character, are constantly being pursued. But possible deals must satisfy the company's requirements.

Growth and continued refinement

Norwegian Property ranked at 31 December 2007 as the largest listed property company in the Nordic region, holding properties with a market value of NOK 31.1 billion. Pre-tax return on equity was 27 per cent. The company's long-term goal for the pre-tax return on paid-in equity is a minimum of 13-15 per cent.

Norwegian Property had its first full operating year in 2007. The company was established in May 2006 with the object of providing private and institutional investors with access to a large, liquid and well-diversified investment alternative with good exposure to the market for centrally-located commercial properties. The business focused during 2007 on further refinement of the company's expertise and position, and on value-creating growth to benefit from the strength of the Nordic economies.

Attention in Norwegian Property focuses primarily on attractive office and commercial properties in Norway. Over time, the goal is that such holdings will account for more than 70 per cent of the value of the Group's property portfolio. The group embraces two business areas: office and commercial property and hotel property. Norwegian Property's head office is in Oslo.

Commercial properties

At 31 December, Norwegian Property was the leading manager of office properties in Norway, owning 58 attractive office and commercial properties in Oslo and Stavanger, with a combined market value of NOK 20.4 billion.

The company continued its systematic efforts during 2007 to become the best office landlord in Norway. This is the best use of resources in Norway. Its organization was strengthened by recruiting key resources in all parts of the business.

The positive change in the valuation of the company's property portfolio is NOK 1,219.1 million (NOK 393.2 million). This rise primarily reflects over the year. When borrowing secured on the properties is taken in account, Norwegian Property has contributed to a foreign investment of roughly NOK 14 billion in Norwegian property. This is significantly higher than direct foreign purchases of properties in Norway during 2007.

Group accounts

The group accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS). Since the company was founded in May 2006, no comparative figures are available for 2005.

Income statement

The consolidated income statement for 2007 embraces Norwegian Hotels ASA, with 74 properties, from its acquisition on 24 September, the original portfolio of 58 office and commercial properties and the Aker House Development completed in November 2007. Gross rental income totalled NOK 1,195.7 million (2006: NOK 10.7 billion).

The main reason for the increase in the

income statement is the significant growth in the hotel sector from the strong growth while held by Norwegian Hotels provide an immediate return from the strong growth, while risk is reduced because all but one of the leases contain clauses on a minimum rent. In connection with the acquisition of the hotel portfolio, Norwegian Property also identified a potential for value development through various measures. These include the renegotiation with Scandic Hotels, the biggest tenant of Norwegian Hotels, which saw a substantial increase in the level of rents and an extension of leases, for the office portfolio. This is the main reason why the net-rented assets rose from 4.9 per cent of gross rental income in 2006 to 6.8 per cent. Other operating costs totalled NOK 81.4 million (2006: NOK 20.2 million). The share of costs is somewhat higher for the hotel portfolio than for the office portfolio.

The positive change in the valuation of the company's property portfolio is NOK 1,219.1 million (NOK 393.2 million). This rise primarily reflects

order to optimise rental income and ensure customer satisfaction had a high priority.

Costs were reduced through improvements to the company's financing structure and work on industrialising property management and procurement.

Hotel properties

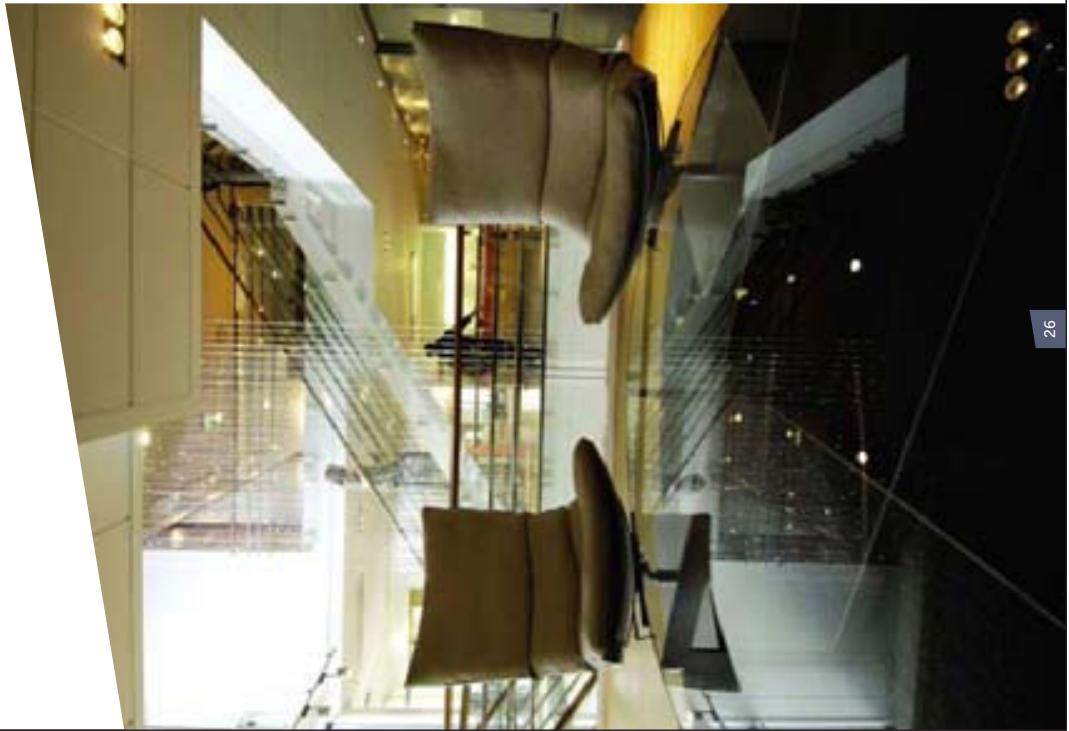

Norwegian Property secured control in September over the largest Nordic hotel company, Norwegian Hotels, through ownership and shareholder agreements. At 31 December, Norwegian owned 23 hotel properties and a conference centre in Norway, Sweden, Finland and Denmark, with a combined market value of NOK 10.7 billion.

The Nordic hotel sector is viewed by Norwegian Property as an interesting growth market. Turnover-based leases held by Norwegian Hotels provide an immediate return from the strong growth, while risk is reduced because all but one of the leases contain clauses on a minimum rent. In connection with the acquisition of the hotel portfolio, Norwegian Property also identified a potential for value development through various measures. These include the renegotiation with Scandic Hotels, the biggest tenant of Norwegian Hotels, which saw a substantial increase in the level of rents and an extension of leases.

Its organization was strengthened by recruiting key resources in all parts of the business.

Attractive investment

Since its listing, Norwegian Property has focused its efforts towards Norwegian and International investors and companies to enter the listed market. Meetings have been held with more than 200 investors, many abroad, and three brokers have either established or are in the process of establishing analysis offices. Foreign ownership increased from 56.1 per cent to 61.1 per cent

an increased level of rents and higher market rents. See the section below on the property portfolio. Kodavallen 23 in Bergen was sold during December, yielding a book gain of NOK 3 million. Group operating profit came to NOK 2 264.7 million (2006: NOK 745.8 million). Financial income, which consists largely of interest income, totalled NOK 68 million (2006: NOK 13.5 million). Financial expenses, primarily interest expenses and other costs related to the company's financing, were NOK 988.9 million (2006: NOK 295.8 million). The company has secured financial instruments to manage interest rate and foreign exchange risk. Following the restructuring of the company's borrowing, most of these instruments no longer qualify for hedge accounting under IAS 39. The change in market value for these instruments had a positive effect of NOK 276.7 million (2006: NOK 7.7 million) on profits. Profit before tax and minority interests was thereby NOK 1 650.6 million (2006: NOK 539.5 million), NOK 460.7 million (2006: NOK 148.6 million). The company's accounts for tax expenses, which relates primarily to changes in deferred tax and deferred tax asset, and accordingly has no cash effect. The minority share of profits was NOK 1.8 million (2006: NOK 1.3 million). As a result, net profit after tax and minorities is NOK 1 185 million (2006: NOK 385.6 million). That represents earnings per share of NOK 11.42 (2006: NOK 5.14).

Balance sheet, financial position and capital structure

Cash in hand at 31 December amounted to NOK 635 million (2006: NOK 1 253 million). In addition, the group had NOK 290 million in unused drawing rights. Total equity was NOK 6 831 million (2006: NOK 3 373 million), representing an equity ratio of 20.2 per cent (2006: 31.8 per cent). After deduction of minority interest, book equity per share came to NOK 630.20 (2006: NOK 54.09).

Interest-bearing debt at 31 December was NOK 23 232 million (2006: NOK 10 978 million) excluding the obligation to acquire shares in Oslo Properties AS. At 31 December, the average interest rate on the company's loans was 4.1 per cent (2006: 5.16 per cent). This increase reflected higher short-term market interest rates and the effect of acquisition financing for Nogan Hotels AS. The average loan margin was unchanged from 2006 at 0.76 per cent. The average remaining term to maturity for the loans was 16 years (2006: seven years). Through put and call option agree-

ments, Norwegian Property can become the owner of a further 76 per cent of the shares in Oslo Properties AS. This company is the sole owner of Nogan Hotels AS. The potential obligation totals NOK 1 525 million plus an interest compensation up to a possible takeover. At 31 December, a liability of NOK 1 595.8 million related to this obligation was recognised in the balance sheet. Norwegian Property can opt to undertake a full or partial settlement for one office property at that time. The overall guideline is that 70 per cent of the liability will be hedged by interest rates with an average term of 5.1 years. The effect of the changes in short-term market interest rates will also affect the liability.

Through Nogan Hotels, Norwegian Property's valuation of its hotel properties in Norway, Sweden and Denmark. The company's hotel properties in Finland were valued by Makantaka. DTZ Realakipala's valuation model is based on discounting cash flows related to existing leases and the value of make rents after the expiry of existing leases. Individual assessments of current expenses and upgrading costs and of vacancy at the expiry of existing leases, occupancy, the yield level on property basis. Makantaka bases its valuation on cash flow models.

The board and executive management have carried out independent assessments of the parameters which affect the value of the group's properties, including developments in interest rates, market rents, occupancy, the yield level on property transactions and the quality of the properties. On the basis of these assessments, the board has concluded that the valuations by DTZ Realakipala and Makantaka provide a cautious but realistic valuation of the properties. These valuations have accordingly been applied in the accounts. The total value of the company's investment properties at 31 December was thereby NOK 31 113 million after adjusting for tax compensation at the date of acquisition.

Risks and risk management

Risk management is intended to ensure that risks of significance for Norwegian Property are clarified, analysed and handled as efficiently as possible and maintained in a cost-effective way. Risk cannot be eliminated, but risk management is necessary to ensure value creation for shareholders, employees and society. Growth opportunities are continuously assessed in relation to the associated risk picture.

Financial risks

The company's financial risks relate primarily to changes in equity as a result of amendments to the value of the property portfolio and exchange rate changes, the effect of interest rate changes, the effect of liquidity risk when refinancing the company's debt, and the effect on profits of number-based rents for the group's hotels.

Norwegian Property's portfolio of office properties has a high level of quality and good locations. Financially sound tenants and an average remaining lease term of 5.5 years. The total portfolio consists primarily of four three- and four-star hotels, rented on long-term turn-over-based leases to the largest Nordic

organisations and companies. The largest office tenants accounted for 66 per cent of annual rental income at 31 December 2007.

Hotel properties

In the hotel sector, Norwegian Hotels focuses primarily on three- and four-star hotels located in Nordic towns with more than 50 000 inhabitants. Historically, these hotels have experienced less volatility in turnover than others. All but one of the hotels have leases with turnover-based rents. Given their budgeted turnover for 2008 gross rental income for that year will total NOK 819 million. The average term for NOK 819 million, the average term for NOK 819 million is 11 years, and most specify minimum rents which are inflation-adjusted annually. The minimum guaranteed rental income for 2008 is NOK 519 million.

Tenants largely comprise the biggest hotel chains operating in the Nordic region. Standardised accounts for about 64 per cent of the properties, while the remaining 36 per cent of the properties consist mainly of local three- and four-star hotels, rented on long-term turn-over-based leases to the largest Nordic

Risk cannot be eliminated, but risk management is necessary to ensure value creation for shareholders, employees and society. Growth opportunities are continuously assessed in relation to the associated risk picture.

The company's financial risks relate primarily to changes in equity as a result of amendments to the value of the property portfolio and exchange rate changes, the effect of interest rate changes, the effect of liquidity risk when refinancing the company's debt, and the effect on profits of number-based rents for the group's hotels.

Norwegian Property's portfolio of office properties has a high level of quality and good locations. Financially sound tenants and an average remaining lease term of 5.5 years. The total portfolio consists primarily of local three- and four-star hotels, rented on long-term turn-over-based leases to the largest Nordic

hotel operators. The average remaining term for these leases is 11 years, and the leases for 71 of the hotels contain clauses on minimum rents tied to consumer price index.

Interest rate hedging is utilised to dampen the effects of interest rate changes on profits and liquidity. At 31 December, 70 per cent of the group's interest-bearing debt excluding client liability to buy out minority shareholders in Oslo Properties ASA was covered by interest rates with an average term of 5.1 years. The effect of the changes in short-term market interest rates will also affect the liability.

Through Nogan Hotels, Norwegian Property's tenants in the office properties normally pay rent quarterly in advance. In addition, most leases require security for rent payments in the form of deposit account or bank guarantee. The risk of direct losses from defaults or payment problems is accordingly limited, and relates primarily to the risk of re-leasing premises.

Market conditions

After a number of years of strong growth, the second half of 2007 was affected by international financial unrest and uncertainty. The impact of these conditions on the Norwegian and Nordic economies has been limited.

Employment is continuing to rise in Norway, with office premises in great demand. New building remains at low levels, and office rents in Oslo at 31 December were around four per cent – down from six per cent at 1 January.

Rents increased in the whole of Oslo during 2007, and by more than 50 per cent for some properties. Vacant space is expected to contract further in 2008 before expanding again. Rents are thereby also expected to make strong progress in 2008 and 2009. The same trend is expected in Bayanger, where vacant space stands at roughly two per cent. However, somewhat greater new building activity means that the potential for rental growth is lower in this city.

Over time, growth in the hotel market largely correlates with the development of the gross domestic product. Limited new hotel capacity was added to the market in 2007. At the same time, demand was high, and the hotels accordingly performed considerably more strongly than the economy as a whole. Revenue per available room (RevPAR) increased by 7.1–13 per cent in the Nordic countries during 2007. Both occupancy rates and room rates made strong progress. New capacity entering the market remains limited, while a certain degree of economic growth is expected to continue. As a result, RevPAR is likely to show further progress.

Employees and organisation

Personnel

The group had 33 employees at 31 December (2006: seven), including 19 in the hotel business. Fourteen people are now employed in the office properties business, and in the contact personnel. In the start-up phase have largely been phased out, and replaced by full-time employees. External consultants are now used primarily for major projects or assignments. A contract was awarded to NEAS in February 2008 which means that the latter will take over management

Valuation of the properties

DTZ Realakipala performed an external and independent valuation at 31 December 2007 covering the company's office and hotel properties in Norway, Sweden and Denmark. The company's hotel properties in Finland were valued by Makantaka. DTZ Realakipala's valuation model is based on discounting cash flows related to existing leases and the value of make rents after the expiry of existing leases. Individual assessments of current expenses and upgrading costs and of vacancy at the expiry of existing leases, occupancy, the yield level on property basis. Makantaka bases its valuation on cash flow models.

The board and executive management have carried out independent assessments of the parameters which affect the value of the group's properties, including developments in interest rates, market rents, occupancy, the yield level on property transactions and the quality of the properties. On the basis of these assessments, the board has concluded that the valuations by DTZ Realakipala and Makantaka provide a cautious but realistic valuation of the properties. These valuations have accordingly been applied in the accounts. The total value of the company's debt and the Oslo Properties ASA obligation totals NOK 926 million. The company constantly seeks to have a liquidity buffer to cover the repayment profile of its debts, continuous short-term fluctuations in working capital requirements, and planned property acquisitions.

Norwegian Property ASA

Acquisition of the properties by ASA at 31 December 2007 gave the group a total liquidity position of NOK 926 million. The company continues to have a liquidity buffer to cover the repayment profile of its debts, continuous short-term fluctuations in working capital requirements, and planned property acquisitions.

Norwegian Property had a total of 925 registered shareholders at 31 December 2006 (2006: 913). Foreigners owned 61.1 per cent of the issued shares at that date (2006: 56.1 per cent).

Outlook

The natural environment

In the board takes the view that the group's environmental management and its impact on the environment, causes increasing pollution of the natural environment. As far as possible, efforts are made to use environment-friendly materials in construction, development and rehabilitation projects.

It is the company's ambition to facilitate the use of environment-friendly waste management.

Norwegian Property manages a substantial amount of concrete and accord-

responsibility for all the office properties. This agreement is part of an industrialisation of the business, and will ensure unpredictable property expenses at a lower level than before.

equal opportunities

The corporate management team consists of four people, including one woman, 33% of the company's 33 employees are women. The board consists of two female and three male directors.

This board's ambition is that future appointments will help to maintain a balanced gender balance between the genders. This has been given when recalling a person's management and key personnel to a combination of professional expertise and a personal appreciation of the property sector, while also ensuring that personal qualities contribute to it being an aggressive and efficient organization. The board's ambition is that Norwegian Property Group will be Norway's leading company in managing commercial property.

Outlook

Norwegian Property has a strategic ambition of contributing to the consolidation of the Nordic property market and growth through accretive transactions. The principal focus remains on attractive office districts in the largest Norwegian cities. Through the investment in Oslo Properties (and Norgjan Hotels), Norwegian Property has now also entered the Nordic market for hotel property.

The high proportion of turnover-based leases in the hotel business ensures that economic growth in the region has a faster effect on profits. For the immediate future and in the medium term, Norwegian Property's principal focus is directed at consolidating the company. That includes integrating organisations, taking out synergies, reorganising Norgjan and disposing of non-strategic assets.

Norwegian Property's portfolio of 54 high-quality office properties in Oslo and Stavanger and 74 Nordic hotel properties is well positioned to benefit from the strong, economic growth in the region.

Norwegian Property will continue to pursue its strategy of growth and expansion through acquisitions and joint ventures, as well as through further development of its existing assets.

manages its assets to maintain a strong operational focus on investment management and lease improvements, cost reductions and management of the company's assets. At the same time, the company will continuously assess assetive transactions, primarily in the form of structural transactions.

NOTE 1 General Information

The Norwegian Project Group is a real estate investment company established in 2006 which invests in large centrally located commercial properties in Norway's biggest cities. At the end of 2007, the company owns 58 properties in Oslo and Bergen. All properties are acquired after 9 June 2006. The purpose of the company is to provide private and institutional investors with access to a large, liquid and diversified commercial property portfolio. Centrally located properties in the current business environment are considered to be a safe investment.

In 2007 Norwegian Property gained control over the listed Norgani Helse AS group by acquiring 17.5 per cent of the shares and entering into a put/call option agreement to acquire additional 7.5 per cent of the shares in the group. The transaction was completed on 1 November 2007. The group now consists of the following companies: Norgani Helse AS, Norgani Property AS, Norgani Properties AS, Norgani Finance AS and Norgani Management AS. On 29 April 2006, the company conducted its first public offering on the Oslo Stock Exchange under the name Norgani Property AS. The stock was listed on 22 May 2006. The company was admitted to a public listing in NORex (Norwegian Central Securities Register) on 1 November 2006. Norwegian Property AS is listed on the Oslo Stock Exchange on 15 November 2006.

NOTE 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of Norwegian Property ASA have been prepared in accordance with International Financial Reporting Standards (IFRS). The preparation of these financial statements has been based on the principles of substance over form. The preparation of these financial statements has been based on the historical cost convention, except that investment property, available-for-sale financial assets and financial assets and financial liabilities (including derivative financial instruments) are carried at fair value through the profit and loss account.

IFRS 8, Segment Reporting, requires management to make a disclosure of the main financial segments. It also requires management to exercise its judgement in the process of applying the group's accounting policies, thus where assumptions and estimates are significant to the financial statements, management must disclose the rationale for these assumptions and estimates. The financial statements for the year ended 31 December 2007 do not include the results of the financial services segment, which became relevant from 1 January 2007, but are relevant to the group's operations.

- IFRS 4, Insurance contracts.
- IFRS 7, Applying the statement approach under AS 29; Financial instruments in financial statements, and
- IFRS 9, Financial instruments.

Interpretations of existing standards that are not yet effective and have not been early adopted by the group:

- IAS 23 (Leasing), Borrower costs (effective as of 1 January 2009).
- IFRS 8, Operating Segments (effective as of 1 January 2009).
- IFRS 14, IAS 19 - The limit on a defined benefit asset, minimum funding requirements and their interaction (effective as of January 2008).

Interpretations of existing standards, which are not yet effective and assumed not to be relevant for the group:

- IFRIC 12, Service concession arrangements (effective as of 1 January 2008).
- IFRIC 13, Customer loyalty programmes (effective as of 1 January 2008).

2.2 Consolidation

(a) Subsidiaries
Subsidiaries are defined as all entities including special purpose entities over which the group has the power to govern the financial and

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets reported at fair value for the purpose of sales in the short term held for trading or held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

(b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed determinate payments that are quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as trade and other receivables in the balance sheet (Note 5).

2.10 Derivative financial instruments and hedging activities

Derivatives are initially recognised at fair value on the date of inception. They are subsequently measured at fair value and reclassified to other financial assets or liabilities if they are designated as such. This classification is determined by whether the derivative is designed as a hedge instrument, and to what extent it is effective in offsetting changes in the nature of the item being hedged. This group designates certain derivatives as hedges of particular risk associated with a recognised liability or a highly probable forecast transaction (cash flow hedge). The hedge is designated as a cash flow hedge if the risk management objective and strategy for undertaking the hedge transaction is to reduce the risk of variability of cash flows from the hedged item. The hedge is designated as a net investment hedge if the risk management objective and strategy for undertaking the hedge transaction is to reduce the risk of variability of the fair value of the hedged item. The group also documents its assessment, both on an ongoing basis, whether the derivatives that are included in hedging transactions are highly effective in offsetting changes in the fair value of the derivative instruments used for hedging purposes are disclosed in Note 10. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of cash flows in equity. The full fair value hedge derivative is classified as a derivative of a financial instrument. The fair value of the derivative is recognised in the income statement when the gain or loss is greater than 12 months or as a change in equity when the gain or loss is less than 12 months.

(a) Derivatives that do not qualify for hedge accounting
The majority of the group's interest rate and currency derivatives are not designated as hedge instruments. The group does not qualify for hedge accounting in the fair value of derivative instruments used for hedging purposes. The fair values of various derivative instruments used for hedging purposes are disclosed in Note 10. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of cash flows in equity. The full fair value hedge derivative is classified as a derivative of a financial instrument. The fair value of the derivative is recognised in the income statement when the gain or loss is greater than 12 months or as a change in equity when the gain or loss is less than 12 months.

(b) Cash flow hedge

The effective portion of changes in fair value derivatives that are designated as cash flow hedges are recognised within equity. The effective portion of changes in fair value derivatives that are recognised within equity is the interest rate and currency derivatives in Note 10. Movements on the hedging reserve in shareholders' equity are not recognised in the income statement in the fair value of derivative instruments used for hedging purposes. The fair values of various derivative instruments used for hedging purposes are disclosed in Note 10. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of cash flows in equity. The full fair value hedge derivative is classified as a derivative of a financial instrument. The fair value of the derivative is recognised in the income statement when the gain or loss is greater than 12 months or as a change in market value of financial derivatives.

(c) Derivatives that do not qualify for hedge accounting
The majority of the group's interest rate and currency derivatives are not designated as hedge instruments. The group does not qualify for hedge accounting in the fair value of derivative instruments used for hedging purposes. The fair values of various derivative instruments used for hedging purposes are disclosed in Note 10. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of cash flows in equity. The full fair value hedge derivative is classified as a derivative of a financial instrument. The fair value of the derivative is recognised in the income statement when the gain or loss is greater than 12 months or as a change in market value of financial derivatives.

(d) Net investment hedge

The majority of the group's interest rate and currency derivatives are not designated as hedge instruments. The group does not qualify for hedge accounting in the fair value of derivative instruments used for hedging purposes. The fair values of various derivative instruments used for hedging purposes are disclosed in Note 10. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of cash flows in equity. The full fair value hedge derivative is classified as a derivative of a financial instrument. The fair value of the derivative is recognised in the income statement when the gain or loss is greater than 12 months or as a change in market value of financial derivatives.

2.11 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. Losses on trade receivables are recognised in the income statement when the credit risk of the receivable is impaired. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probably

that the debtor will enter bankruptcy or financial reorganisation and to determine whether the amount of the provision is sufficient to cover the expected loss if the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. The carrying amount of the asset is reduced through a loss in the allowance account. When the loss is irrecoverable, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited in the income statement within other operating expenses.

2.20 Pensions
Norwegian Property ASA operates a defined contribution plan for all employees and the CEO. Norwegian ASA has a defined contribution plan for its pension fund. Norwegian ASA has a defined contribution plan for its employees except in Norway. The group estimates cash flows considering the contractual terms of the financial instrument (for example, payment options) but does not consider future credit losses. The cash plan includes a funding policy and a funding plan of three per cent. The cash plan has a funding target of 100 per cent. The funding plan is based on the interest rate, transaction costs and all other premiums or discounts.

2.21 Cash and cash equivalents
Cash and cash equivalents include cash in hand, deposits held at call with banks, other short term highly liquid investments, bank overdrafts of maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

2.13 Share capital
Shares are classified as equity when there is a legal obligation to issue cash or other assets. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.14 Trade payables

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.15 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs charged or received by the creditor. Transaction costs consist of finance charges, broker fees (net of transaction costs) and the fair value of the asset. The fair value is recognised in the income statement over the period of the borrowing until the effective interest method.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.16 Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which it is possible to utilise the changes to the tax base. Deferred income tax assets from initial combination that is at the time of the transaction affects the accounting, nor taxable profit or loss. Deferred income tax is determined using tax rates and laws that have been enacted or substantiated by the time the financial statement is issued, unless there is a change in the related deferred income tax assets or the deferred income tax liability is settled.

Deferred income tax is determined using tax rates and laws that have been enacted or substantiated by the time the financial statement is issued, unless there is a change in the related deferred income tax assets or the deferred income tax liability is settled.

2.17 Revenue recognition

Revenue includes rental income, service charges and management. Changes from properties, and income from property trading. Revenue comprises the fair value of the consideration received for the delivery of the products or services of the group's activities. Revenue is shown net of discounts, rebates and discounts and after eliminating sales within the group.

(a) *Rental income*

Rental income is recognised over the life of the rental period.

(b) *Other income*

Other income is recognised as it is earned.

2.18 Dividend distribution

Dividend distribution to the company's shareholders is recognised as a dividend and is accounted for by the company's shareholders.

2.19 Interest expense

Interest expenses for borrowings are recognised within 'financial costs' within the income statement using the effective interest rate method.

To the extent that the income statement uses a straight-line method of calculating interest, the difference between the effective interest rate and the stated rate of interest is recognised as a gain or loss on the financial instruments.

The group uses a weighted average of the stated rates of interest on the group's forward exchange contracts as classified as available for sale financial assets that were not traded in active markets.

Consolidated annual accounts

(b) *Credit risk*
The group's rental revenues come from solid tenants. New leases are entered against a credit rating for acceptable credit history. Most tenants have provided bank guarantees or made deposits with amounts equivalent to 10 months rent. Credit loss during 2007 and 2008 has been negligible.

2.22 Liquidity risk and financial flexibility
The group aims to ensure liquidity is sufficient to meet its foreseeable obligations. The group has a reasonable capacity to meet unsecured obligations. The funding strategy aims to maintain liquidity to seize market opportunities and minimise fluctuations in rental incomes.

2.23 Fraud risks
Overall guidelines as ethical standards for leadership and business conduct in the company are set out in "Instructions to the Board and the ethical standard for the leadership and business conduct in the company". The group has identified no incidents of fraud.

NOTE 4 Critical accounting estimates and judgements

Estimates and judgments are used in the preparation of the financial statements. These are based on historical experience and are subject to review and adjustment as new information becomes available.

3.2 Financial risks
Financial risks include exposures related to the cost of financing, stability of rental income and the company's liquidity and financial flexibility.

When calculating the effective interest rate, the group estimates cash flows considering the contractual terms of the financial instrument (for example, payment options) but does not consider future credit losses. The cash plan includes a funding policy and a funding plan of three per cent. The cash plan has a funding target of 100 per cent. The cash plan is based on the interest rate, transaction costs and all other premiums or discounts.

3.20 Interests rate risks

The group is subject to market risk relating to changes in interest rates, given that it has a significant financing programme. At the end of 2007, the average credit margin on financing programmes was 76 basis points. In order to mitigate interest risk, the group has acquired from sellers and entered into 20 year leases, the swap agreements totalling NOK 16.3 billion at the end of 2007. The average basis rate of the swaps portfolio is 4.40 per cent and has an average remaining maturity of 16 years. There is no legal or other obligation to settle the swap agreements. The swap agreements have a policy to hedge a minimum of 70 per cent of floating rate loans outstanding. As at year end 84 per cent of such basis swaps were hedged (including cash). The loan to value ratio is lower for Norgut Hotel compared to Norwegian Property, and the corresponding policy for Norgut Hotels is to hedge a minimum of 50 per cent of such loans (including cash). Swap agreements totalling NOK 1.6 billion have been entered into with Santander Finansbank, Norwegian Hotels experience fluctuation in its revenue from rental income.

Changes of interest rate expectations in the market affect the group's cash flow results and equity. For example, if the average interest rate on the group's floating rate loans increased by 100 basis points, the group's cash flow would increase by NOK 1.6 billion. Sensitivity of interest hedge instruments is not taken into account. The sensitivity of interest payments cash flow and resiliency relates to changes of market interest rates are mainly reduced by the group's hedging strategy. Changes in market rates affect the value of interest swaps and increases the book value of interest swaps in the balance sheet.

These changes in the fair value of interest swaps are generally compensated by an opposite development in the fair value of investment properties.

3.21 Stability and predictability of rental income
Stability and predictability of rental income is exposed to the market rental levels, credit risk and currency risk.

(i) *The market*
The group focuses on long term lease contracts. Leases shall in the main consist of larger, well established companies and stable sector organisations in order to reduce counterparty credit risk. The current average duration of contracts is 8.4 years.

(ii) *Inflation*
The majority of Norwegian Property's rental contracts have a 100 per cent CPI adjustment clause allowing the company to adjust rental rates in line with the CPI development. The company seeks to secure such regularisation clauses in all new contracts.

(iii) *Foreign exchange risk*

A substantial part of Norwegian Property's rental income and operating costs are in foreign currency (SEK, EUR, USD, NOK). These cash flows are not subject to currency hedging. In 2007, 76 per cent of Norwegian Property's revenue was related to Sweden, Finland and Denmark. Entities and locations have been allocated to net asset risk stated to subsidiaries that have a functional currency different from the presentation currency. For example, if the value of NOK is changed by approximately 10 per cent at the end of 2007, the group's results will be approximately 70 per cent worse. The hedge is not fully hedged. Hedging is done with more than 20 per cent points from its baseline. At the year end, close to 70 per cent of the net exposure were hedged. Hedging is generally achieved by borrowing in the different currencies. The group has entered into hedge agreements to reduce the net asset exposure in its investments. The approach is to net asset value (NAV).

Less than 5 per cent of NOK 47 million (annual) is in Norwegian Property's office portfolio rental income is denominated in NOK. This is practically all operational expenses are denominated in NOK. This is also the case for the majority of the group's other assets. The group uses a single exchange rate for NOK. The group's financial instruments with a total nominal value of NOK 146 million. Gains and losses on the group's forward exchange contracts are classified as available for sale financial instruments in the income statement.

Assets that were not traded in active markets.

3.22 Fair value of financial instruments

The fair value of financial instruments that are not traded in an active market is determined by the company's management team based on selected valuation techniques. The group uses its judgement to select a variety of methods and makes assumptions that are mainly based upon market conditions existing at each balance sheet date. The group uses discounted cash flow analysis for various available for sale financial assets that were not traded in active markets.

1 Related to the sale of Oslo Project Hotel in Norway in 2003. Gain from the sale of NOK 9.3 million.

2 Related to the reclassification of investment properties to investment properties (single purpose entities) of NOK 364.5 million. The corresponding reduction at year end 2006 was NOK 250.0 million.

General principles

Investment property is valued at its fair value at 31 December 2007 based on valuations carried out by independent experts (DITZ Realkapital in Norway) as of 31 December 2007. The valuation is based on market value in an arm's length transaction. Valuation is carried out annually and is conducted in accordance with generally accepted valuation methods.

Based on external valuations and supplementary internal analysis of the marked and rental portfolio, management makes a overall fair value assessment to conclude as to whether they presents a fair picture of the marked value of the property portfolio.

Restrictions related to investment properties.

Apart from covenants in loan agreements, there are no restrictions on when the investment properties can be realised, or how the revenue and cash flow on any sale can be used.

Obligation to acquire investment properties

Norwegian Hotels entered into an agreement in year end 2007 to acquire the property Park Inn Oslo, in Norway, by NOK 174 million. Norwegian Hotels will have the right to terminate the agreement if the seller fails to deliver the property within the agreed time limit. The Group will have the right to terminate the agreement if the seller fails to meet the agreed price or if the seller fails to meet all other obligations under the agreement.

Deferred income tax is not accounted for if it arises from the initial recognition of an asset or liability in a transaction of a single outcome entity, and not at the time of the transaction affects neither accounting nor taxable profit or loss in a business combination defined income tax must be accounted for related to all temporary differences between the carrying amount and the tax base of assets or liabilities. If there are no such differences, the calculation of payable tax Goodwill calculated in the purchase consideration for 2007 is mainly related to the fact that deferred income tax must be accounted for as described in a business combination. The carrying amount of goodwill is assumed to be recoverable amount at year end 2007.	-

NOTE 10 Financial derivative instruments

(All amounts in NOK 1 000 or EUR, SEK or NOK 1 000 where specified)

The Group has had the majority of its real estate portfolio exposed through interest rate swaps (see Note 3). Despite its current hedging position, the Group has been exposed to significant fluctuations in the value of its investment properties. The Group has also been exposed to the effects of fluctuations in prevailing market interest rates. Interest rate swaps are mainly classified as hedges or not hedges in the Group's financial statements. The Group has not yet been able to identify whether the calculation of payable tax Goodwill calculated in the purchase consideration for 2007 is mainly related to the fact that deferred income tax must be accounted for as described in a business combination.

The non-current acquisition financing in Oslo Properties of NOK 1 700 million falls due in 2010. Based on the terms of the loans in the Norwegian Project ASA, the term loan will be repaid in March 2007, bearing NOK 1.51 billion. One of the features is a tenor of 5 years and the other two features have a tenor of 3 years. Four properties are pledged as first priority security for these borrowings. In connection with the acquisition of the Norwegian Project ASA, a NOK 9.6 billion term loan was drawn on 5 July 2007, with the facility being drawn at year end. As the borrower, Norwegian Property Holding AS simultaneously Oslo Properties ASA entered into a year term loan facility of NOK 7 billion, and in November 2007, Norwegian Project ASA entered into a term loan of NOK 450 million. Both term loans were for a tenor of 3 to 22 years. A revolving credit facility of NOK 1.4 billion has been established to finance the acquisition of properties, and utilised in relation to the acquisition of DNB NOK's premises at Akers Brygge in Oslo. NOK 100 million of the facility was undrawn at year end. The main terms of the term loan agreement as at 31.12.2007 are:

- Interest: NIBOR + margin 70 per cent for the commercial property portfolio.
- Interest rate: Nibor + margin 70 per cent for the security portfolio.
- Financial covenants: The company must comply with agreed senior interest cover and bond and/or interest (LTV). Senior interest as of 31.12.2007 is NOK 1.4 billion.
- Other covenants: Negative pledge, restrictions on granting of loans, restrictions on acquisitions and a change of control clause.
- Security: The facility is secured by way of, inter alia, first priority mortgages pledges over the assets (shares, properties, trade receivables, cash and cash equivalents) owned by the Norwegian Project ASA.

Events post 31 December 2007

On 7 February 2008, the Norwegian Property Holding AS NOK 9.6 billion facility and the Norwegian Project ASA NOK 1.0 billion revolving credit facility were refinanced with a Norwegian Project Holding AS NOK 1.0 billion revolving credit facility, including a NOK 1.0 billion revolving credit facility improved. Other terms of the repayments are reduced by calculating the repayments on the basis of LTV levels, and the flexibility of the revolving facility is improved. Other terms of the borrowings are unchanged.

The board compensation specified above is related to the year 2007, and payments will be made in October 2008, related to payments for remunerations of the Board of directors. The compensation made in the shareholders' extraordinary general meeting in place of a total compensation package.

Declaration of management benefits

The declaration relates to benefits received by key management personnel in connection with their employment within the group. The group shall at all times ensure that this a professional leading team in place so as to ensure that shareholder interests are safeguarded to best effect. In order to achieve this, the company is required to offer competitive remuneration terms, as well as a total compensation package.

Principles for base salary

Key management employees can also receive variable bonus payments. Bonus payments are determined by the individual's own performance in achieving key targets either for the group as a whole, a specific function or a subsidiary in which the individual is employed. Key targets shall consist of performance improvement initiatives or financial targets, including the company's share price performance and shall be measurable wherever possible. Targets for other key management personnel based payment shall not exceed 50 per cent of the Chief Executive Officer's annual salary or 30 per cent of the Chairman of the Executive Committee's annual salary.

2. Bonuses principles

Key management employees shall also provide these employees with bonus and mobile telephone allowances. The Chief Executive Officer's annual base salary is not affected by other key management employees.

3. Principles for non-cash related benefits

Key management employees shall also provide these employees with car, insurance and pension scheme arrangements. The company shall also provide these employees with car, home and mobile telephone allowances. Conditions of these pension schemes can vary from employee to employee. The Chief Executive Officer has an individual pension scheme arrangement under which he has the right to retire from age 62 and receive an annual sum of NOK 2 million until he reaches age 67. Upon reaching age 67, the Chief Executive Officer shall receive annually the same NOK 66 per cent of base salary, taking into account his accumulated paid up policies (hipposizer).

A payment after termination of contract agrees to a maximum payment of NOK 100 000. Payment of salary after termination of contract shall only occur in special instances. Approval from the Chairman of the Board shall be required for the granting of payment of salary after termination of contract for any employees where this right is not already documented within their employment contract.

4. Payment after termination of contract

A payment after termination of contract agrees to a maximum payment of NOK 100 000. Payment of salary after termination of contract shall only occur in special instances. Approval from the Chairman of the Board shall be required for the granting of payment of salary after termination of contract for any employees where this right is not already documented within their employment contract.

5. Remuneration decision making process

The Board determines the Chief Executive Officer's annual salary in union.

In accordance with limited liability companies section 5:6.

The guidelines related to management benefits were carried out as described above last year. The board of directors has granted the president and CEO a NOK 500 000 bonus related to extraordinary efforts in connection with several large projects, including the acquisition of Noggin Hotels. The remuneration of executive officers is charged as an expense, and has no other consequences for the shareholders of the company.

If the acquisitions in Oslo Properties/Norjan Hotels had been completed on 1 January 2007, calculated pro forma a group gross operating NOK 1,709.6 million and NOK 1,280.5 million respectively. The pro forma figures are calculated on the basis of actual full year figures for Norwegian Properties and Norjan Hotels. Actual figures are adjusted for full year interest costs related to the acquisition finance (12.2 per cent interest rates less 120 days interest period), non-financial borrowing costs related to the acquisition finance and fair value adjustments of investment properties in Norwegian Hotels. Income tax is calculated based on 28 per cent.

Pro forma figures are meant to provide a basis for comparison based on the group's composition after the takeover of Oslo Properties/Norwegian Properties and Norjan Hotels.

Actual figures are more accurate than the pro forma figures, and will not necessarily reflect the results that would have been realised if the takeover had actually been made at an earlier date.

NOTE 25 Contingencies

The group has no contingent liabilities in respect of guarantees or other matters arising in the ordinary course of business.

NOTE 26 Events after the balance sheet date

In February 2008, Norwegian Property ASA has entered into an agreement with Norwegian ASA (Ness) regarding management and operation of its Norwegian office portfolio. Under this agreement, Ness will assume responsibility for management and the day-to-day operations of the office portfolio. The agreement also stipulates that Ness will lease back the office portfolio for a period of 10 years at a level of 10.2 per cent below the level at the time of the agreement, without a corresponding reduction in magnitude of rental. In addition, the parties allow for Ness to offer more and better services to the tenants. The purpose of the agreement for Norwegian Property ASA is to optimise the office portfolio and increase the scale through the management claim and by enhancing the quality with possibilities of further extensions and by renewing the lease agreements and developments of properties in line with the requirements of the tenants.

Acquisitions and disposals of properties are in line with the plan as shown on 31 December 2007. Norwegian Property ASA entered into an agreement to dispose of the following property programmes:

- Oslo Akeren 20 and 22 in Oslo are divested to a total of NOK 15.5 million. The buyer is a consortium between Petro Energy ASA and a company controlled by Petoro. The transaction is above the property value as of 31 December 2007, and about NOK 30 million in positive cash flow will be released. The transaction will be completed on 1 April 2008.
- The 80 per cent share in a company called Oslo City Divested for a property programme located in Oslo. The buyer is a consortium lead by Petoro. The transaction is above the property value as of 31 December 2007. The sales price is in line with the valuation as of 31 December 2007. The transaction will release about NOK 140 million in positive cash flow. The company will be divested to a new company, to be named Oslo City Divested, which will be a wholly-owned subsidiary of the group. The transaction will be completed in April 2008.

See Note 15 for financing activities carried out after the balance sheet date.

Corporate governance

Good corporate governance is intended to contribute to strengthening external confidence in Norwegian Property, and to the largest possible value creation over time. The company's corporate governance principles are intended to ensure an appropriate division of roles between shareholders, the board of directors and the chief executive.

The board of Norwegian Property has drawn up the presentation of corporate governance in the company, which is based on the Norwegian code of practice for corporate governance dated 4 December 2007. The presentation relates to each section of the code.

1. Values base and ethical guidelines

The company's core values are value creation, expertise, innovation and integrity. Its ethical guidelines and other policy documents have been formulated in accordance with the values base. *Compliance with section 1 of the code: full.*

2. Business

The company's business is the management, acquisition, sale and development of commercial property, including participation in other companies, as well as businesses which are related to such. The company's full articles of association are available in updated form on its website at www.norwegianproperty.no. Within the framework of its articles, the company has established clear goals and strategies for its business. These are presented on pages 5–9 in this annual report and on the company's website. *Compliance with section 2 of the code: full.*

3. Equity and dividends

Group equity at 31 December 2007 totalled NOK 6,831 million, representing an equity ratio of 20.2 per cent. The board regards this as satisfactory in the light of current activities relating to the sale of certain assets and agreements with certain of their minority shareholders in Oslo Properties AS, which provide the opportunity to convert their shareholdings in Oslo Properties to shares in Norwegian Property ASA. To optimise the

long-term return, the board has a 'lean to value' target of borrowing up to 75 per cent of the value of the company's properties. At times when major purchases are made, this debt ratio could be higher. The capital structure is kept under continuous review in light of the market development and the company's goals, strategy and development.

Norwegian Property's goal is to pay an annual dividend which is competitive, predictable and higher than average for the property sector. The dividend policy is described in more detail in the Chapter on shareholder information on page 78 of this annual report.

At 31 December 2007, the board held two mandates to increase the share capital through private placements, either as settlement for property acquisitions. The number of shares remaining under these mandates was 22,651,280. The mandates remain valid until 30 June 2008 or for 9,851,280 shares, until the annual general meeting, if this is held before 30 June 2008.

The board is also mandated to buy 9,851,280 of the company's own (treasury) shares at a price between NOK 10 and NOK 40. These mandates have not been utilised so far.

Compliance with section 3 of the code: full.

4. Equal treatment of shareholders and transactions with close associates

Norwegian Property has one share class with equal rights, and its articles contain no voting restrictions.

The board and the executive management are concerned to ensure equal treatment of all shareholders and that transactions with close associates take place on an arm's-length basis.

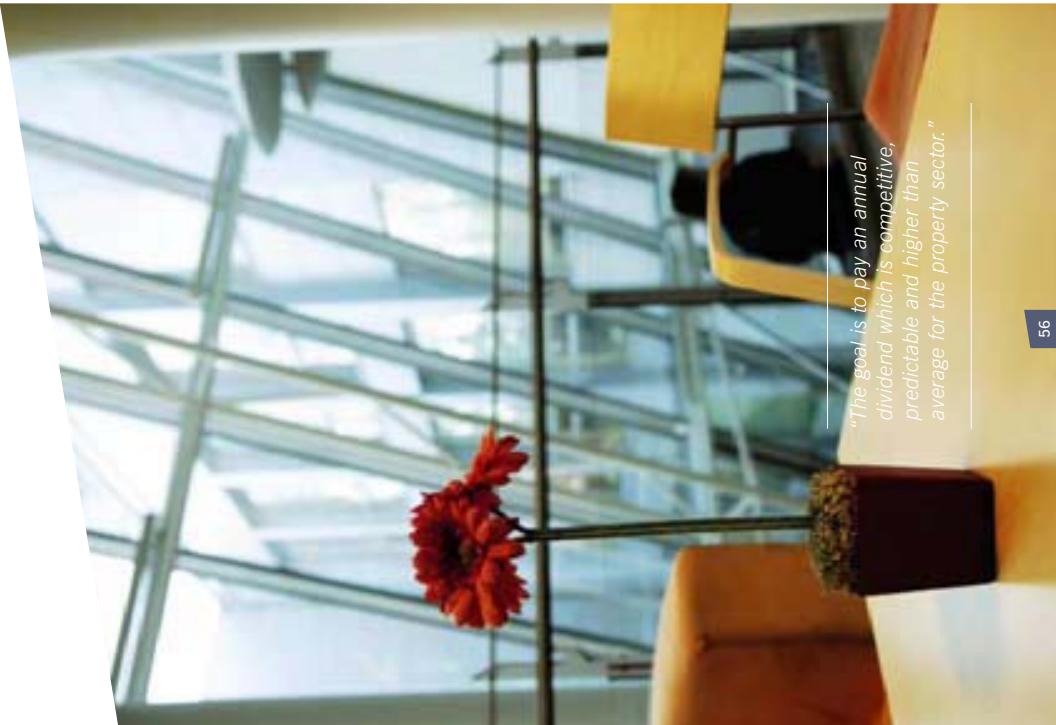

The general meeting has mandated

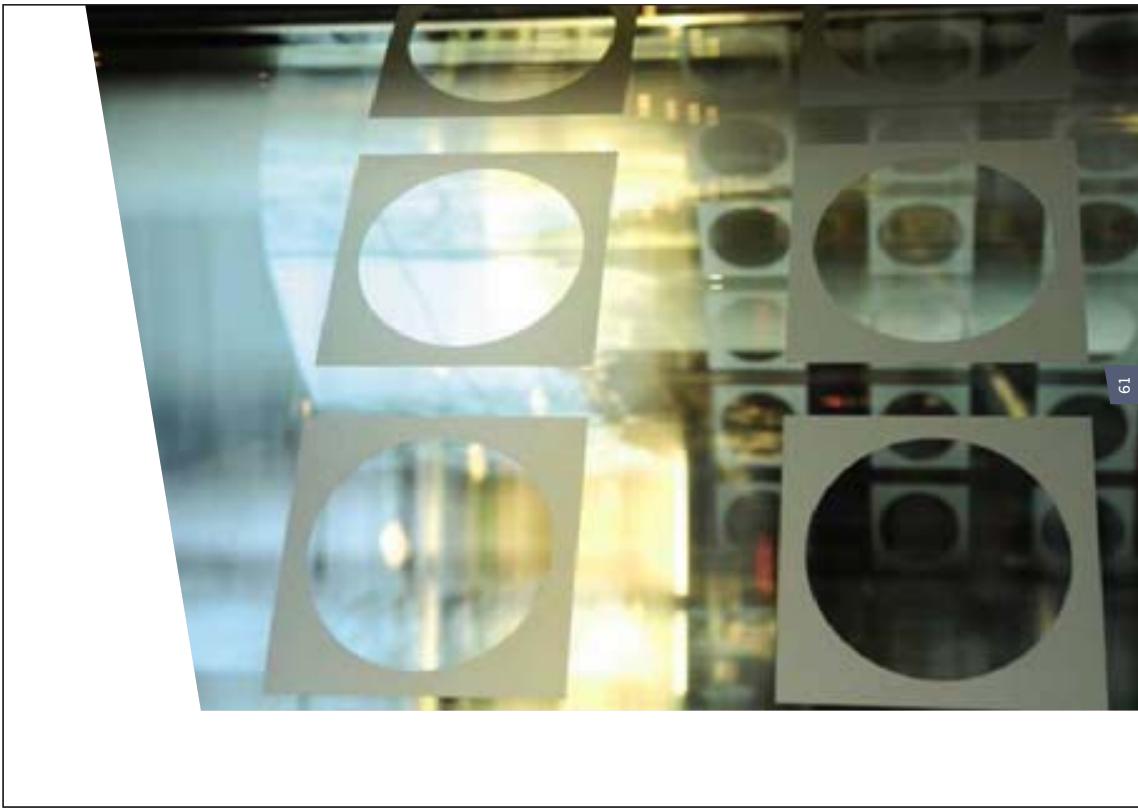

the board to increase the share capital. Pursuant to these mandates, the board can resolve to waive the pre-emptive right of shareholders to subscribe to new shares. This is because the mandates are intended to be used for such purposes as the issue of shares as settlement for property transactions. Note 23 to the group accounts details transactions with close associates, including management agreements with companies controlled by shareholders in Norwegian Property, and agreements on leasing premises to companies controlled by shareholders in Norwegian Property, controlled by the Anders Wihelmsen group owns 5.5 per cent of the shares in Oslo Properties AS, which in turn owns all the shares in Norgani Hotels AS, Norwegian Property ASA, owns or can acquire through put-call agreements the remaining 93.5 per cent of the shares in Oslo Properties. The Anders Wihelmsen group is a shareholder in Norwegian Property, and represented on the boards of both Norwegian Property ASA and Oslo Properties AS.

The company has drawn up an overview which identifies the various roles of its directors, the offices they hold and so forth. This is intended to serve as a source of information for the company's administration in order to avoid unintended conflicts of interest. The directors have also undertaken to ensure that they or their close associates do not involve themselves in projects relating to the purchase or sale of real property which could compete or come into conflict with the company's business without the approval of the board given at a board meeting.

Compliance with section 4 of the code: full.

Share and shareholder information

Norwegian Property's goal is to secure a competitive return for its shareholders, based on a sound financial position and good management of its assets. The company gives weight to an open information policy and an active dialogue with the investor market to ensure a broad shareholder base and a high level of liquidity for the share.

Share price development

The share price at 31 December 2007 was NOK 66.50, compared with NOK 65.00 a year earlier. Corrected for the dividend of NOK 2.50 per share paid in May 2007, this represents a return of just over six per cent. The Oslo Stock Exchange's benchmark index (OSEBX) rose by a little more than 11 per cent over the same period, after a very volatile performance during 2007.

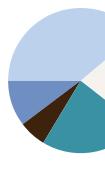

The share attained its highest price at the beginning of June at NOK 91.00, while the lowest price was NOK 60.25 in November. A background of financial unrest and fears of weaker international growth made 2007 a challenging year for property shares both in Norway and internationally. Developments for the leading international property indices are shown in the table below. Norwegian Property's share price performed significantly better than comparable industry indices.

Dividend policy

Norwegian Property's ambition is to give its shareholders a high and stable return on their investment in the company through a combination of rising value and dividend.

The company wants its annual dividend to be competitive, predictable and higher than average for the property and broader shareholder base and high

Analytical information

Properties – key figures for the portfolio
 Norwegian Property owned 58 properties, including one covered by a sales agreement, 73 hotels and one conference centre at 31 December. The table on the facing page presents the principal figures for the portfolio. Details of each portfolio are provided in the section on the relevant business area.

Properties – valuation
 The total value of the commercial property portfolio was NOK 20 730 million at 31 December. The portfolio is broken down by geographical area in the table below.

D7.2 Realcapital has simulated how changes in various factors would affect the valuation of the commercial properties. Values are most sensitive to changes in market rents and the discount rate, primarily because of the long leases. Hotel properties – valuation
 The valuation of the company's hotel properties is broken down by country as presented in the bottom table on the facing page.

Norwegian Property also has a possible and likely obligation to buy out minority shareholders in Oslo Properties. The discounted value of this liability was NOK 656 million at 31 December. The high hedging ratio means that the group's financial expenses are only affected by a limited extent by changes in short-term market interest rates. A rise of one per cent in the equity of Nitnor would boost financial expenses by NOK 69 million, corresponding to an 0.3 percentage point increase in the group's average interest rate to 5.7 per cent. Group debt with short-term fixed interest rates normally has a fixed interest period of three months, so that interest rate changes would not have immediate effect.

Financial risk
 Norwegian Property's financial risks relate primarily to changes in equity caused by alterations in the value of the property portfolio, the effect of interest

rate changes on profits, and the liquidity risk associated with refinancing the company's debt.

Interest rate risk
 The group's interest rate regulation profile is balanced continuously through the use of financial derivatives to prevailing interest rate expectations and the company's fixed interest rates. Group policy is to hedge at least 70 per cent of its interest rate exposure in the commercial property portfolio. The requirement for the hotel portfolio (Norwegian Hotels) is that at least 50 per cent of the company's interest rate exposure will be hedged during 2007. These include using the Norway bond market for a portfolio of four properties. In addition, the company has refinanced individual properties or small portfolios in other financial institutions. This work is being pursued continuously in order to achieve constant improvements and optimisations in the company's financing structure.

Liquidity and capital adequacy
 The company's ambition is to have a debt structure which ensures a optimum combination of flexibility and price. It has initially set a debt ratio of 75 per cent of the fairvalues of the properties, but this proportion is continuously reviewed in the light of market, development and level of interest rates. The debt ratio (interest-bearing debt in relation to company assets) was 74.8 per cent at 31 December. If the group's potential obligation to buy out minorities in Oslo Properties is included, the ratio is 79.9 per cent. The group is pursuing various activities to reduce the debt ratio to the long-term target including the sale of certain assets.

Group liquidity totalled NOK 636 million at 31 December. In addition came NOK 290 million in available credits. The company's available liquidity should be sufficient to cover ongoing operational requirements, but securing a liquidity position, which provides the financial freedom of action to exploit interesting investment opportunities is also a company ambition.

Appendix 4: Annual report for 2006 with auditors statement

Norwegian Property ASA is a new company which invests in large, centrally-located commercial properties in Norway's biggest cities. The company has invested NOK 17.2 billion in 55 properties in Oslo, Stavanger and Bergen. These high-quality holdings occupy very attractive locations, and their tenants include a number of the country's most reputable and financially-sound enterprises.

Highlights of 2006

Creation and share issues

- Norwegian Property was founded in May with the long-term ambition of becoming the largest and most liquid investment option for commercial property in Norway.
- NOK 1.75 billion in equity was raised on 12 May through a share issue at a price of NOK 50 per share. The issue was oversubscribed 3.3 times.
- A further NOK 500 million was raised in July at an issue price of NOK 50 per share. Private placements have also been implemented in connection with the acquisition of properties.

Build-up of the property portfolio

- A total of NOK 17.2 billion was invested in a total of 55 properties between May 2006 and January 2007.
- The total area is about 723,000 square metres, with an annual rental income of roughly NOK 1.1 billion.
- Virtually the entire portfolio is covered by leases, with an average remaining term of about 7.3 years.

Build-up of the organisation

- Peter Jansen joined the company as a president and CEO on 28 August 2006.
- The remainder of the management team was recruited and joined during the autumn.
- A number of appointments were made during 2006, and the organisation is expected to reach its planned size during the first half of 2007.

Share issue and stock market listing

- Plans for an initial public offering and an application for a stock market listing were announced on 27 October.
- Totalling NOK 1.2 billion, the IPO was implemented at a price of NOK 53.50 per share and oversubscribed six times.
- The share was listed on the Oslo Stock Exchange on 15 November with the ticker code NP0. Trading in the share has been good, and the price has developed positively since the listing. Norwegian Property was also included in the international property indices from FTSE EPRA/NAREIT Global Real Estate Index Series.

Refinancing and reduced interest margin

- Agreement was reached in December on a seven-year credit facility of NOK 964 million for refinancing our properties in Oslo. The interest margin on the loan was reduced from 80 to 40 basis points.
- Amendments to the company's syndicated loan agreement were also negotiated in early 2007, and the loan commitment was increased by NOK 5 billion. The average margin on the group's total borrowings is expected to be reduced in March from the 80 basis points in November 2006 to 60 basis points.

Norwegian Property in brief

Established in May 2006, Norwegian Property has quickly built itself up into a leading player in Norway's property market. It secured a listing on the Oslo Stock Exchange in November.

Norwegian Property ranked at the beginning of 2007 as a solid and expansive company with a portfolio totalling 55 attractive commercial properties with a market value of NOK 18.1 billion. On a full-year basis, this portfolio will yield a gross rental income of roughly NOK 1 064 million. During 2006, when the company was in a start-up phase, rental income totalled NOK 415 million.

The organisation is in the process of being established, and the company had seven employees at 31 December. When fully staffed, Norwegian Property is expected to have 15-20 employees. The company is located in Oslo.

Norwegian Property has a clear strategy of investing in high-quality commercial properties with attractive locations in Norway's largest cities. Demand from the rental market for this type of property is high, while the supply of vacant premises and new buildings is restricted. Rents are accordingly expected to continue rising over the next few years. Norwegian Property is well positioned to benefit from a future positive trend in the property market, and has ambitions for future growth.

Meeting the demand for a liquid listed investment option in the commercial property sector, the company aims to give its shareholders an attractive return. A well diversified quality portfolio of large commercial properties will be hedged at fixed interest rates.

Object and strategies

- The overall long-term object is to be the largest and most liquid investment option for Norwegian commercial property.
- The principal strategy is to invest in attractive and centrally located properties with a value of more than NOK 200 million each and an attractive entry yield.
- Between 85 and 90 per cent of the properties will be in Oslo, Stavanger, Bergen or Trondheim.
- The emphasis is on securing long-term leases, adjusted in accordance with the consumer price index.
- Tenants will normally be large listed companies and public bodies, in order to reduce risk associated with leases.

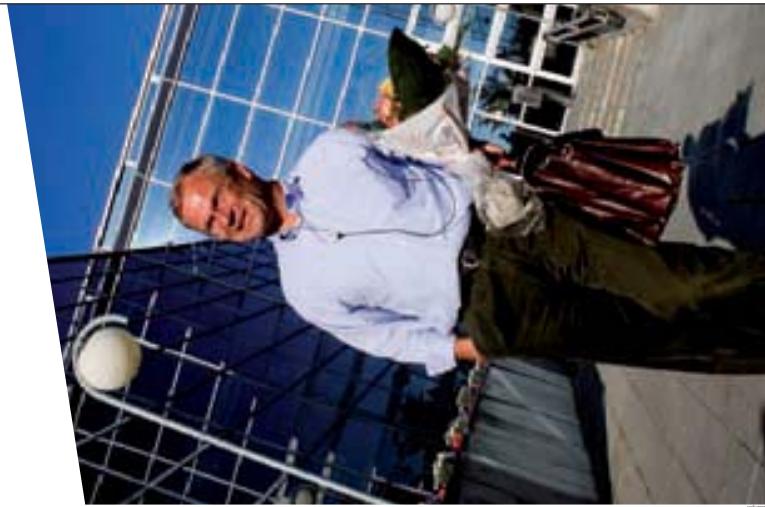

«Aims to take a leading role in the restructuring and consolidation of the market»

Market

The Norwegian market for commercial property reflects the strength of the national economy. Demand for quality properties in central locations is high.

the national economy. We are experiencing a period of growth and good prospects. Demand for commercial property has been growing, and this trend is expected to continue. Attractive premises centrally located in the big cities are in particular demand, and this segment is our priority. Rents rose here by 15 per cent in the second half of 2006, and a further 25 per cent increase is expected over the next two years. We will benefit substantially from this in terms both of future earnings and of the development in the value of our properties.

We have quickly established a solid platform for further growth, and have ambitions to develop our company into the largest and most reputable player in Norwegian commercial property.

Petter Jansen
President and CEO

“We have ambitions to develop our company into the largest and most reputable player in Norwegian commercial property”

Directors' report 2006

Norwegian Property was founded in May 2006 in order to give private and institutional investors access to a large, liquid, profitable and well-diversified investment option with a good exposure to the market for centrally located commercial property. Our long-term goal is to become the largest and most liquid investment option in Norway's commercial property sector.

2006 – a start-up year
Norwegian Property took over its first properties in June 2006. Up to December it acquired or signed purchase contracts for 55 attractive properties in Oslo, Stavanger and Bergen with a total area of 723,000 square metres and a total acquisition cost of NOK 17.2 billion. These purchases have made Norwegian Property one of Norway's largest owners of commercial property.

During the same period, the company built up its organisation and was operational by 31 December with a full-time administration supported by certain key resources employed on a contract basis.

The company has worked actively since its creation to cultivate Norwegian and international investor circles to secure interest in its share. A series of share issues have been implemented, some of them substantially over-subscribed. Since the stock market listing in November, the liquidity of the company's share has been good.

Group accounts
The group accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS). Since the company was founded in May 2006, no comparative figures are available for 2005.

Profit and loss account 2006
The group profit and loss account for

2006 embraces the management of 41 properties from their respective acquisition dates, as well as the Aker Hus development property. Gross rental income from the company's creation totalled NOK 41.8 million. Common costs which have been charged on to tenants are recognised net.

Maintenance and property-related costs

Maintenance and property-related costs totalled NOK 20.2 million. This reflects the fact that tenants in many of the group's buildings cover the bulk of property-related costs under bare-house contracts, and that the portfolio includes a large proportion of single-use buildings, often operating costs totalled NOK 42.8 million and includes substantial spending related to the establishment of the company and its stock market listing. Operating profit before fair value adjustments was thereby NOK 35.7 million.

Financial position and capital structure

Financial position

Capital structure

Norwegian Property was founded in May 2006 in order to give private and institutional investors access to a large, liquid, profitable and well-diversified investment option with a good exposure to the market for centrally located commercial property. Our long-term goal is to become the largest and most liquid investment option in Norway's commercial property sector.

2006 – a start-up year
Norwegian Property took over its first properties in June 2006. Up to December it acquired or signed purchase contracts for 55 attractive properties in Oslo, Stavanger and Bergen with a total area of 723,000 square metres and a total acquisition cost of NOK 17.2 billion. These purchases have made Norwegian Property one of Norway's largest owners of commercial property.

During the same period, the company built up its organisation and was operational by 31 December with a full-time administration supported by certain key resources employed on a contract basis.

The company has worked actively since its creation to cultivate Norwegian and international investor circles to secure interest in its share. A series of share issues have been implemented, some of them substantially over-subscribed. Since the stock market listing in November, the liquidity of the company's share has been good.

Group accounts
The group accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS). Since the company was founded in May 2006, no comparative figures are available for 2005.

Profit and loss account 2006

The group profit and loss account for

The average remaining term to maturity for the loans was seven years. Norwegian Property's policy is to hedge a minimum of 70 per cent of its loans. At 31 December, the company had concluded interest rate hedging contracts totalling NOK 9,336 million. This corresponded to a hedging ratio of 91 per cent. The average remaining term of the interest rate hedges was 6.2 years. NOK 5,750 million of the hedging qualities for hedge accounting under IAS 39.

A refinancing of the group's loans is underway at Norwegian Property in order to secure more competitive borrowing terms. The first phase of this refinancing was implemented during December with a loan of NOK 964 million from Nykredit. In January, the group's credit facility with its main banks was renegotiated and the interest margin reduced. The parties were simultaneously pursuing a joint process to raise a bond issue in March 2007 and securitise parts of the company's debt during the first half of 2007. A NOK 4.7 billion increase in borrowing limits will be available for further acquisitions up to 30 June 2007.

Norwegian Property's ambition is to have overall financing costs which are competitive in the market and average margins which are significantly lower than at 31 December 2006. Another aim is to reduce the annual repayments from today's 5.1 per cent of the loan principal per annum.

Financial position and capital structure
In the accounts for tax expense, which relates primarily to changes in deferred tax and defined tax asset and accordingly has no cash flow effect. The minority share of profit is NOK 1.3 million. As a result, profit after tax and minorities is NOK 369.6 million. That corresponds to earnings per share of NOK 5.14.

Financial position and capital structure
Cash in hand at 31 December amounted to NOK 1,252 million. Total equity was NOK 5,373 million, corresponding to an equity ratio of 31.8 per cent. After deduction of minority interests, book equity per share came to NOK 5.09.

The positive change in the valuation of the company's property portfolio totalled NOK 333.2 million. This increase reflects a rise in higher market rents, but was negatively affected by rising interest rates and consequent changes in the discount rate. See the section below on the property portfolio. Group operating profit came to NOK 745 million.

Financial income, which consists largely of interest income, increased NOK 13.5 million. Financial expenses, primarily interest expenses and other costs related to the company's financing, were NOK 295.8 million. The company has secured financial instruments to manage interest rate and

poses that this be covered by a transfer from other equity. At the annual general meeting in May, the board will propose a dividend of NOK 2.50 per share, corresponding to a total payout of NOK 246.3 million. It is proposed to transfer this amount from other equity. Unrestricted equity at 31 December was NOK 1,082.2 million after the proposed dividend is taken into account.

Properties

Norwegian Property owned 42 properties at 31 December. During January 2007, the company completed the acquisition of a further 11 properties in Nykoden and two at Økern (the IFN portfolio). The combined purchase price for these 13 properties was NOK 2,199 million, which was financed by drawing down NOK 1,650 million in loans and by available liquid assets.

The company's properties are located in central districts of Oslo (87 per cent of the portfolio's value) and Stavanger (11 per cent), plus one in Bergen. The portfolio consists primarily of office buildings (7.8 per cent of gross rental income), as well as warehousing, retail premises and car parking associated with the offices. The company owns a shopping centre at Åker Brygge with retail outlets and restaurants.

Annual gross rental income for the company's properties totalled NOK 923 million at 31 December. Acquiring the IFN portfolio has raised this figure to NOK 1,064 million. The average remaining term of leases in the portfolio is 7.3 years.

Risk management in Norwegian Property
Risk management is intended to ensure that risks of significance for Norwegian Property's goals are identified, analysed and handled as efficiently as possible in a systematic and cost-effective way. Risk cannot be eliminated, but risk management is necessary to

DITZ Rekapital performed an extensive upgrade of the portfolio's overall value. NOK 1,082.2 million was required at 31 January 2007 compared with its total acquisition cost.

The board and executive management have carried out independent assessments of the parameters which affect the value of the group's properties, including developments in interest rates, market rents, occupancy, the yield level on property transactions and the quality of the properties. On the basis of these assessments, the board has applied DITZ Rekapital valuation in the annual accounts. These valuations have accordingly been applied in the accounts, yielding an upward adjustment of NOK 393.2 million in the value of the company's investment properties at 31 December 2006. The total value of the company's investment properties at that date was thereby NOK 1,520 million, in accordance with IAS 36, the carrying amount related to the Aker Hus development property has also been tested. The conclusion is that the carrying amount of this property remains unchanged at NOK 1,151 million.

Going concern assumption
Pursuant to the Norwegian Accounting Act, the board confirms that the going concern assumption is realistic. The annual accounts for 2006 have been prepared on that basis.

Coverage of net loss in the parent company
The parent company, Norwegian Property ASA, showed a net loss of NOK 86.3 million for 2006. The board pro-

ensure value creation for shareholders, employees and society. Growth opportunities are continuously assessed in relation to the associated risk picture.	Market conditions	<p>The Norwegian economy is enjoying boom conditions. Oil prices are high, and unemployment low and falling. Companies and organisations take a positive view of the future and are positioning themselves for further growth.</p> <p>Demand for office space in Oslo in 2006 was about 300,000 square metres, which is substantially higher than the one-year nominal level.</p> <p>Adjusted for obsolete commercial property converted to housing or taken out of the market, the overall supply of space was about 100,000 square metres.</p> <p>Vacant property in Oslo accordingly fell from around eight per cent in 2005 to just over six per cent. In parts of the city, such as Vika and Aker Brygge – central business district (CBD) – no vacant property is in practice available (less than 2.5 per cent).</p> <p>The consequence of declining availability is a rising level of rents. Tenants still differentiate in terms of standard and location. The top rent paid for high quality in the CBD has risen from NOK 2,350 per square metre 1 January 2006, to NOK 3,500 in January 2007, based on estimates by various players.</p> <p>The level of rents in central districts rose by about 20–25 per cent for the year as a whole. The growth in the second half was 15 per cent.</p> <p>An imbalance between supply and demand is expected to persist for a couple of years to come, and will thereby help to maintain rents at an increased level.</p> <p>Vacant property is in very short supply in Slavanger, and on a par with the CBD in Oslo. As a result, the level of rents is experiencing strong upward pressure.</p>
Financial risks	The company's financial risks relate primarily to changes in equity as a result of arrangements to the value of the property portfolio, the effect of interest rate changes on profits and liquidity, and the liquidity risk when refinancing debt.	The average remaining term of the company's debt is seven years. Repayments over the next 12 months amount to NOK 100.8 million. At 31 December, the group had a total liquidity of NOK 1,252 million. The company constantly seeks to have a liquidity buffer added to the repayment profile of its debt over the coming 12 months, continuous short-term fluctuations in working capital requirements and planned property acquisitions.

Before it received a listing on the Oslo Stock Exchange, the share was traded on the Norwegian over-the-counter market.	Demand for commercial premises is high. Substantial price increases are being registered in the construction market. Much of the capacity at the construction companies is tied up in housebuilding. The supply of new premises in central districts during the present year will be limited by the capacity and prices of construction companies, the availability of sites, the process of securing local authority consent and development time for new projects. All in all, therefore, the decline in vacan properties and a rapid rise in rents is expected to continue.

The company's ambition is to contribute to the development of the exterior environment through rehabilitation, maintenance and possible new building.	Rents in central and attractive areas where vacan premises are already in short supply should show a particular increase. Independent analyses estimate a further rise of 15–30 per cent from today's rent level over the next two years. With high-quality properties in good locations, Norwegian Property is well placed to take advantage of this development both through an increase in the value of its properties and through improvements to operating profit when renewing leases as they expire.
Corporate governance	Corporate governance	Norwegian Property's corporate governance principles build almost entirely on the Norwegian code of practice of 28 November 2006, which largely harmonises with international recommendations. A more comprehensive presentation of the company's corporate governance is provided on pages 42–45 in this annual report.

NOTE 1 General information
 Norwegian Property ASA is a newly established real estate investment company which invests in large, centrally-located commercial properties in Norway's biggest cities. The purpose of the company is to provide access to a listed and liquid property company share with exposure to centrally-located high quality commercial properties.

Norwegian Property was incorporated as a limited company on 20 July 2005 (under the name Telgeil Invest AS). On 29 April 2006, The company conducted no operations in 2005. On 22 May 2006 the company was converted into a public limited company (VPS Norwegian Property ASA) and the shares were registered in VPS Norway's central securities register. The company has acquired all owned properties from an including 9 June 2006. On 9 June 2006 Norwegian Property ASA acquired 28 commercial properties in Oslo and Stavanger, with a total approximate value of NOK 8.7 billion. In the period from 9 June to year end, Norwegian Property incurred an additional 14 attractive commercial properties with total approximate value of NOK 6.3 billion. In total, the company has completed 14 different property transactions involving a total of 12 properties, with a total approximate value of NOK 15.0 billion.

In the period from the inception to year end, the company has undertaken several equity issues and contributions, totaling a sum of NOK 4.9 billion and has drawn up a total of NOK 10 billion in senior debt. NOK 15 November 2006, the equity is in connection with the listing on Nasdaq Oslo, and was listed on the Oslo Stock Exchange.

The following standards, amendments and interpretations are mandatory for accounting periods beginning on or after 1 January 2006 but are not relevant to the group's operations:
 • IAS 19 (Amendment), Employee Benefits;
 • IAS 21 (Amendment), Net Investment in a Foreign Operation;
 • IAS 39 (Amendment) Cash Flow Hedge Accounting of Forecast Intragroup Transactions;
 • IAS 39 (Amendment), The Fair Value Option;
 • IAS 39 and IFRS 4 (Amendment), Financial Guarantee Contracts;
 • IFRS 1 (Amendment), First-time Adoption of International Financial Reporting Standards;

Interpretations to existing standards that are not yet effective and have not been early adopted by the group:
 • IFRIC 10, Interim Financial Reporting and Impairment
 • IFRIC 2, Scope of IFRS 2
2.2 Consolidation
 Subsidiaries are defined as all entities (including special purpose entities over which the group has the power to govern the financial and operating policies, generally resulting from a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from the date on which such control ceases.
 As of 31 December 2006 the company had 91 subsidiaries.
 In 2005 the company did not have any operations. The current business operations commenced in April 2006. Consequently, there are no comparable figures for the fiscal year 2005.
 Purchases of slight purpose entities owning only one property with no employees, management or recorded procedure descriptions are not considered to be an acquisition of a business, and the ongoing regular of those entities is not a business combination. IFRS 3 therefore is not applicable. Norwegian Property allocates the costs of such purchases between the individual identifiable assets and such assets acquired, based on their relative fair value at the date of acquisition. The purchase method of accounting is used to account for areas where assumptions and estimates are significant to the financial statements, as described within Note 4.

Notes to the accounts

NOTE 2 Summary of significant accounting policies
 The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. Unless otherwise stated, these policies have been consistently applied to all the years presented.

2.1 Basis of preparation

The consolidated financial statements of Norwegian Property ASA have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. The consolidated financial statement have been prepared under the historical cost convention except that investment property, available-for-sale financial assets and financial assets and financial liabilities (including derivative instruments) are carried at fair value through the profit and loss account.

IFRS requires the use of certain critical accounting estimates.

If these estimates management exercise its judgement in the process of applying the group's accounting policies. These areas involving a higher degree of judgement or complexity, or

the acquisition of subsidiaries by the group. The cost of an acquisition is measured as being the fair value of the assets acquired, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction demonstrates evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

2.5 Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the item. Cost may also include transfers from equity of any gain/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount to the extent that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. Other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

2.6 Financial assets

The group classifies its financial assets in the following categories, at fair value through profit or loss, loans and receivables, and available for sale. The classification is determined by the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading purposes. A financial asset is classified within this category if it acquired principally for the purpose of selling in the short term due to favourable short term market movements. Derivatives are classified as level for trading unless they are designated as hedges. Assets in this category are classified as current assets.

(b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturing loans greater than 12 months after the balance sheet date. These are classified as non-current assets. Loans and receivables are classified as trade and other receivables in the balance sheet. Note 2.8.

2.7 Derivative financial instruments and hedging activities

Derivatives initially recognised at fair value on the date of a derivative contract is entered into and are subsequently reassessed at their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The group designates certain derivatives as hedges of a particular risk associated with a recognised liability or a highly probable forecast transaction (cash flow hedge). The group documents, at the inception of the transaction, the relationship between the hedging instrument and hedged item, as well as its risk management objectives and strategy for property that is being constructed or developed for future

Notes to the accounts

<p>use as investment property is classified as property, plant and equipment and stated at cost until construction or development is complete. Upon completion, it is reclassified and subsequently accounted for as investment property. However, if a fair value gain reverses a previous impairment loss, the gain is recognised within the income statement.</p> <p>Assets under construction are classified as property, plant and equipment measured at cost until completion when the asset is transferred to investment property.</p>	<p>undertaking the hedge transactions. The group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.</p> <p>The fair values of various derivative instruments used for hedging purposes are disclosed in Note 9. Movements on the hedging reserve in shareholders' equity are shown in the consolidated statement of changes in equity. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining net fair value of the hedged item is greater than 12 months or as a current asset or liability when the remaining maturity is less than 12 months.</p>	<p>2.8 Trade receivables</p> <p>Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the</p>
<p>debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the income statement. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited in the income statement within other operating expenses.</p>	<p>2.9 Cash and cash equivalents</p> <p>Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments within original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.</p>	<p>2.10 Share capital</p> <p>Shares are classified as equity when there is no obligation to transfer cash or other assets, incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.</p>
<p>2.11 Trade payables</p> <p>Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.</p>	<p>2.12 Borrowings</p> <p>Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost, any difference between the proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.</p> <p>Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.</p>	<p>2.13 Deferred income tax</p> <p>Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor</p>

minority interests are included in the group's income statement, and are specified as minority interests. Correspondingly, minority interests are included as part of Norwegian property's shareholders' equity and is specified in the balance sheet.

2.3 Foreign currency translation

Financial and presentation currency

The group classifies in the financial statements of each of the group's entities measured using the currency of the primary economic environment in which the entity operates (the primary functional currency). All entities of the group have NOK as their functional currency for 2006. The consolidated financial statements are presented in NOK, which is the company's functional currency and presentation currency.

Transactions and balances

Foreign currency transactions are translated into NOK using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

2.4 Investment property

Property that is held for long-term rental yields or for capital appreciation or rent, and that is not occupied by the company in the consolidated group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs. After initial recognition, investment property is carried at fair value. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. The fair value of investment property reflects, amongst other things, rental income from current leases and assumptions about rental income from future leases in the light of current market conditions.

Changes in fair values are recorded in the income statement within gain or fair value adjustments on investment property. Subsequent expenditure relating to the assets carrying amount only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably, rentals accommodation i.e. replacement of walls, is charged to the asset carrying amount while the remaining carrying amount of the replaced components is recognised. All other parts and maintenance costs in which they are incurred in the income statement during the financial period are recognised as an expense of the period as owned/occupied. It is recognised as a property gain and an expense unless the fair value is insignificant, and its fair value at the date of reclassification becomes its cost for accounting purposes.

NOTE 3 Risk Management Objectives and Policies
The company's activities expose it to a variety of financial risks. The operational risks include exposure related to the quality of building construction, the erection of buildings, operations of the buildings, as well as the operations of access roads and outdoor facilities on the company's premises. Financial risks include exposures related to the cost of financing, stability and predictability of rental income and the company's liquidity and financial stability. Fraud risks includes related to the intention to misappropriate or misappropriation of the company's assets or interests. The fair value of the property, assets and services in the company's operational units and facilities managers. The Board provides within policies covering specific areas, such as insurance, foreign exchange risk and interest rate risk. Fraud risks are controlled by setting ethical standards and codes of conduct guidelines.

2.1.4 Revenue recognition
Revenue includes rental income, service charges and non-operating gains and losses. The fair value of the consideration received for the services is recognised as revenue if the group's activities relate to a short term and have added value and discounts and after eliminating sales within the group.

Rental income

Rental income is recognised over the life of the rental period.

Other income

Other income is recognised as it is earned.

2.1.5 Dividend distribution

Dividend distribution to the company's shareholders is conducted as a liability in the group's financial statements in the period in which the dividends are approved by the company's shareholders.

2.1.6 Interest expense

Interest expenses for borrowings are recognised within financial costs within the income statement using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and predicting the cash income or other expense that the entity will receive or incur over the period of time that it expects the financial asset or financial liability to be held, or until it is settled, whichever is the earlier.

When calculating the effective interest rate, the group estimates cash flows considering all contractual terms of the financial instrument (for example, repayment periods) but does not consider future credit losses. The calculation includes all fees and costs paid or received before the contract date that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

2.1.7 Pensions

The group operates a defined contribution plan for all employees. A defined contribution pension scheme is an arrangement whereby the group pays fixed (defined) amounts to a privately held administered scheme. The group has no legal or other obligations to pay further amounts in the event that the pension scheme itself has insufficient assets to pay contributions due to employees relating to rights earned in the current or previous periods. Contributions are recognised as employee benefits expense when they fall due. Prepaid contributions are recognised as an asset to the extent that the cash refunds or reductions

in future payments are available. The CEO has in addition a defined benefit pension plan, for specification see Note 17.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the group and it is probable that the temporary difference will not reverse in the foreseeable future.

2.1.4 Revenue recognition

Revenue includes rental income, service charges and non-operating gains and losses. The fair value of the consideration received for the services is recognised as revenue if the group's activities relate to a short term and have added value and discounts and after eliminating sales within the group.

Rental income

Rental income is recognised over the life of the rental period.

3.3 Fraud Risks
Overall guidelines as to ethical standards for leadership and business conduct in the company are set out in "Instructions to the Board" and "Instructions to the CEO" overall guidelines are communicated to set the ethical standard for the leadership and business conduct in the company.

Norwegian Property has experienced no incidents of identified fraud or fraudulent behaviour during the period.

NOTE 4 Critical accounting estimates and assumptions

4.1 Critical accounting estimates and assumptions
Estimates and judgements are continually evaluated and are based on historical experience, as adjusted for current market conditions and other factors.

4.1.1 Inflation
The majority of rental contracts in the portfolio have a 100 per cent CPI adjustment clause allowing the company to adjust rental rates with the CPI development. The company seeks to secure such regulation clauses in all new contracts.

4.1.2 Foreign exchange risk

Currently, less than 5 per cent (NOK 47 million/ea) of the group's rental income is in foreign currency (EUR) and principally all operational expenses are denominated in NOK. This exposes the group to limited foreign exchange risk.

4.1.3 Investment properties

Investment property is valued at its fair value based on a quarterly valuation update.

A separate valuation will be carried out by independent experts where all properties are assessed using updated macro assumptions (interest rate level, inflation expectations, economic growth etc) and adjusted to significant changes in tenant portfolio. In addition, all properties are periodically subject to technical reviews.

4.1.4 Leases

Based on external valuations and supplemental internal analysis of the market for the rental portfolio, management make an overall fair value assessment to conclude as to whether a fair value adjustment is to be recommended.

4.1.5 Liquidity and financial flexibility

The company uses different approaches in order to obtain satisfactory and appropriate property valuations. The approach is (i) the net asset value (NAV), (ii) cash flow analysis and (iii) multiple analyses.

4.1.6 Cost of capital

(i) NAV of a property company can be calculated by adjusting the company's cash flows as best as possible to their estimated fair values of the properties. A common valuation approach is to discount the property's net annual income by a given required rate of return.

(ii) A valuation of a property company can be made by using the discounted cash flow method (DCF). This approach has its foundation in the "present value" rule where the value of any's

the present value of expected future cash flows arising from it.

4.1.7 Liquidity risk and financial flexibility

The company aims to ensure liquidity is sufficient to meet its foreseeable obligations as well as securing reasonable capacity to meet unforeseen obligations. The funding strategy aims to maintain flexibility to seize market opportunities and withstand fluctuations in rental incomes.

As of year end the company had a satisfactory liquidity reserve and funding flexibility.

3.2 Financial risks
Financial risks include exposures related to the cost of financing, stability and predictability of rental income and the company's liquidity and financial flexibility.

The board established a Finance policy in June 2006 which outlines instructions and guidelines for the management of the company's financial risks.

Cost of financing - interest rate risks

The group is subject to market risk relating to changes in interest rates, given that it has a significant floating rate borrowings. At the end of December the average credit margin on floating rate borrowings was 76 basis points.

In order to mitigate interest risk, the group has acquired funds selling and entered into new interest rate swap agreements totalling NOK 9 billion at 31.12. The average fixed rate of the swaps portfolio is 5.24 per cent (including margin) and has an average remaining maturity of 6.2 years.

The company has a policy to hedge a minimum of 70 per

Notes to the accounts

(iii) Valuation multiples are methods that are commonly used to value property companies. The final determination of which particular pricing multiple(s) to use must be based on an understanding of how the subject compares to the benchmark companies, in term of important factors such as growth, size, longevity, profitability etc.

Fair value of derivatives and other financial instruments

The fair values of financial instruments, which are not traded in an active market (for example, over-the-counter derivatives) are determined by using valuation techniques. The group uses judgement to select a variety of methods and makes assumptions that are mainly based upon market conditions existing at each balance sheet date. The group uses discounted cash flow analysis for various assets available for sale financial assets that are not traded in active markets.

NOTE 5 Segment information

Norwegian Property's main activity is ownership and rental of prime office buildings in prime locations within Norway's largest cities. There are no material differences in risks and returns in the economic environments in which the company is operating. Consequently, the company is only present in one business segment and one geographic market.

NOTE 9 Financial derivative instruments

(All amounts in NOK 1 000 or EUR 1 000 where specified)

Nonwegian Property has the majority of its floating rate borrowing exposure through interest rate swaps, as described within the tables below. The company's policy regarding interest rate exposure is to ensure that a minimum of 70 per cent of its floating rate interest exposure is fixed at any time.			
Despite its current hedging position, this company's financial positions and cash flows remain exposed to the effects of fluctuations in underlying market interest rates. Interest costs may therefore increase or decrease as a result of such fluctuations.

* This borrowing (in total NOK 158.4 million) relates to an outstanding loan to the seller of the Aker Hus property. The amount is expected to be repaid in full during Q4 2007. The loan will be financed by a drawing of NOK 115.0 million on the Aker Hus facility (see below), with the balance of NOK 43.4 million financed from reserves.

The company entered into a NOK 12 billion 6 year term loan facility on 6 June 2006 (see below) and issued on 23 October 2006 to include a repayment facility. The term loan facility to the Aker Hus property acquisition and development will be refinanced by the amount of the refinancing of the Aker Hus facility, including DNB NOR ASA, Nordea Bank NMS ASA, Scandinavian Life Finsud Banken AS and Danske Bank AS ("MLA Banks").

The facility has a NOK 963.8 million drawdown limit. Through the issuance of a NOK 765.0 million 5 year bond loan arranged and issued through Nykeredit Realkredit ASA, together with a NOK 195.6 million 7 year bank loan with Nykeredit Bank A/S. The term loan facility was accordingly reduced by the amount of the refinancing to NOK 11.0 billion. As at 31 December 2006, NOK 9.1 billion had been drawn under the total facility with undrawn amounts totalling NOK 1.9 billion including NOK 0.5 billion in relation to the Aker Hus facility.

The main terms of the facility, based upon the prevailing loan agreements as at 31 December 2006 are:

- Interest: NIBOR + an interest margin of 80 bps (90bps for borrowings under the Aker Hus facility). The interest margin being subject to further increases in the event that pledged security falls below agreed thresholds.
- Interest rate hedging: The company shall operate an appropriate interest rate hedging policy and shall ensure that hedging arrangements are in place with respect to a minimum of 70 per cent of the company's interest rate exposure under the facility.
- Financial covenants: The company must comply with agreed senior interest cover and loan-to-value thresholds. Agreed senior interest cover of at least 1.4 and loan-to-value (LTV) ratio of 85 per cent.

Other covenants: The facility contains undertakings which are customary to a credit facility of this nature, including negative pledge, restrictions on granting of loans, restrictions on acquisitions and a change of control clause.

Amortisation/Repayment: The facility shall be repaid by quarterly instalments of 0.45 per cent (1.8 per cent per annum) commencing 5 October 2007. No part of the facility which is repaid may be re-borrowed. The repayment rate is subject to increase in the event that LTV financial covenants are breached.

Final maturity: The facility matures on 6 June 2012.

In line with what is customary for a facility of this nature, the facility is secured by way of, inter alia, first priority mortgages, pledges over the subsidiaries' shares, properties, trade receivables, inter company loans and the company's bank accounts.

Subsidiaries are guarantees for the facility. No bank guarantees of significant size have been issued on the company's behalf. In addition to the above mentioned facility and the Nykeredit refinancing, as at 31 December 2006 the company had additional long term debt of NOK 895.2 million. Of this, NOK 772.7 million related to bank borrowings taken on under property outstanding loans and securitised debts in relation to the acquisition of Aker Hus and Diammenseven 144 properties.

Property under construction	1 150 801
Accounts receivable	263 320
Cash and cash equivalents	1 253 462
Total	16 383 163

Liabilities secured:

Assets owned by limited liability partnerships are only pledged as security for own borrowings.	10 883 190
In connection with the acquisition of the Nydalen properties, the company subsequently entered into an amended facility agreement with the same syndicate of banks on 23 January 2007, which included an increase in the total facility amount to NOK 16 billion. The main terms of the amended facility remained substantially unchanged, except for a reduction in interest margins to 63bp (75bp on the Aker Hus facility). Following the acquisition of the Nydalen properties on 25 January 2007, NOK 10.8 billion has been drawn under the total facility (undrawn amounts being NOK 5.2 billion including NOK 0.4 billion in relation to the Aker Hus facility).	
The company intends to refinance a significant portion of the NOK 16 billion term facility within 2007. In this regard, the company shall issue a further bond (an approximately NOK 1.5 billion in March 2007) and has entered into a mandate agreement with the same bank syndicate in connection with a potential securitization issue planned for mid-2007. The term facility will be reduced by amounts equal to any refinancing achieved.

NOTE 23 Related-party disclosures

The objective of IAS 24 is to ensure that an entity's financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances with such parties. The Norwegian Property group is not directly controlled and dominated by any significant shareholders. However, the Anders Whittemyer group controlled total of 16.5 per cent of the shares through Aker Solutions ASA (12.3 per cent) and INECO AS (4.2 per cent), and his family controlled a total of 8.1 per cent per 31 December 2006 through Fram Holding AS and Fram Realinvest AS.

NOTE 18 Non-recurring costs

The company has charged the income statement with non-recurring costs of approximately NOK 21 million, in connection with start-up and stock-exchange introduction of the company

Notes to the accounts

There are four main categories of transactional relationships with related parties to Norwegian Property ASA:

- Property transactions with share considerations to sellers
- Facility management agreements
- Rental agreements with shareholders
- Interest charges from parent to subsidiaries

Property transactions

Companies that have sold properties to Norwegian Property and accepted to be paid in part by issuing new shares in the company as consideration to the seller are considered as related parties in this note.

Norwegian Property ASA acquired Skøyen Bygg AS (including its property portfolio) from Fram Holding AS, which is controlled by close associates of Board Member Torefinn Tverne. The agreement was signed on 12 May and completed 9 June 2006. The purchase price was partially paid by issuing new shares in the company as consideration to the seller. The company acquired the property Middelthunsgate 17 (M17) and the Aker Brygge properties from companies controlled by the Anders Whilhjem Group. The purchase price was partly paid by issuing new shares in the company as consideration to the sellers. The Anders Whilhjem Group is represented on the Board of the company by Board Member Jostein Devold.

Interest charges to subsidiaries

Events after the balance sheet date

All subsidiaries of Norwegian Property ASA are charged interest in relation to the stockholders' share of a group financial cost, including the hedging costs. The interest rate is determined by the bank within the Group have direct borrowing with the same banks and pay the same interest as the group as a whole.

NOTE 26 Events after the balance sheet date

Norwegian Property ASA acquired 13 properties in Nydalen and Økern (referred to as the IFN portfolio) on 29 January 2007 and from the Rasmussen Group described in more detail within Note 24. After completion of the IFN portfolio transaction, the group's property portfolio consisted of 55 properties totalling 723 000 square meters. Gross annual rental income to 2007 is estimated to be NOK 1.06 billion. Unoccupied space is equivalent to approximately 17 per cent gross annual rental income. Average remaining duration of rental contracts is 7.3 years and rental terms consist principally of larger, well-established companies and public sector organisations. The largest 25 properties currently account to 64.1 per cent of total gross annual rental income.

In connection with the acquisition of the IFN portfolio, the company entered into an amended facility agreement on 23 January 2007, Amendment No. 2, with the MIA Bank. On 23 January 2007, the company issued the first facility amount of NOK 1.6 billion. In addition, the company entered into a new facility agreement with the same bank on 23 January 2007, Amendment No. 3, with a facility amount of NOK 1.6 billion. The new facility agreement will be available until 2010. The facility amounts will be drawn under the long term syndicate bank loan facility. Undrawn amounts, currently total NOK 2.2 billion, of which NOK 0.8 billion is available to fund future property acquisitions up to 30 June 2007, on the assumption that the bank syndicate approves the issue of the bond loan described below.

The company, together with the MIA bank syndicate, plans to refinance a significant portion of the syndicated loan facility in the course of 2007. As an element of this refinancing, the company plans to issue a domestic bond loan in the Norwegian bond market for approximately NOK 1.5 billion. The company entered into a mandate agreement with the syndicate banks on 23 January 2007. In this regard Norwegian Property ASA also entered into a mandate agreement with the same bank syndicate on 15 February 2007, in relation to the planning process for a significant further refinancing of the syndicated loan facility through a securitisation of many of the company's owned properties. The syndicated loan facility shall be reduced by like amounts of refinancing achieved under the planned bond loan and securitisation transactions.

Interest to related parties

Events before the balance sheet date

Norwegian Property ASA entered into an agreement on 20 December 2006 to acquire 11 office properties in Nydalen and 2 office properties in Økern from the Rasmussen Group. A total acquisition price after adjustment for tax of NOK 2.2 billion was agreed and the transaction was completed on 25 January 2007 (with effect from 1 January 2007). The acquired property portfolio consists of 116 200 square meters of principally office space with an estimated gross annual rental income for 2007 of NOK 135.5 million. The acquisition was financed by a drawing of NOK 1.65 billion under the company's bank facilities with the balance funded from cash reserves.

Auditor's report

Deloitte

Clear principles for corporate governance will contribute to strengthening external confidence in Norwegian Property, and to the largest possible value creation over time. Their purpose is to supplement legal requirements in clarifying the division of roles between shareholders, the board of directors and the chief executive.

Corporate governance

Companies listed on the Oslo Stock Exchange are required to provide an annual statement of their principles for corporate governance. Norwegian Property was listed on 15 November 2006 and aims to comply almost entirely with the Norwegian code of practice for corporate governance of 28 November 2006. A presentation of the way the company has organised or plans to organise itself in accordance with its code is provided below.

Norwegian Property launched its business in the second quarter of 2006.

During the start-up phase, PricewaterhouseCoopers (PwC) has been hired under contract as the interim administration. Under the terms of the agreement, PwC has been responsible for carrying out administrative tasks and for establishing systems and routines for reporting, accounting and information technology. The company's executive management was recruited during the second half, and this team was in full operation together with certain key administrative roles at 1 January 2007. During the first half of 2007, the company's administration will be fully staffed with 15-20 people.

Object
The company's object is the management, acquisition, sale and development of commercial property, including participation in other companies as well as businesses which are related to such. The company's full articles of association are available at www.norwegianproperty.no. Within the framework of its articles, the company has established clear goals and strategies for its business. These are presented in the annual report and on the company's website.

as settlement for property acquisitions or in connection with mergers. The number of shares remaining under this mandate was NOK 602 434. The board has undertaken to consult shareholders if shares are to be issued for overall compensation which exceeds NOK 500 million. This mandate is valid until 30 June 2007. The board is also mandated to buy 3 500 000 of the company's own shares at a price between NOK 10 and NOK 100. This mandate has not been utilised so far, and expires on 30 June 2007.

Equal treatment of shareholders and transactions with close associates

Norwegian Property has one share class with equal rights, and its articles contain no voting restrictions.

The board and the executive management are concerned to ensure that transactions with close associates take place on an arm's-length basis. In connection with the creation of Norwegian Property, the company acquired properties with a total value of NOK 2 984 million from the Anders Wihlansen group. It also acquired properties with a total value of NOK 1 295 from companies controlled by Torein Venge and his family. Through these transactions, the Anders Wihlansen group and companies controlled by Torein Venge became shareholders in the company. The Anders Wihlansen group and Torein Venge are now represented on the board of Norwegian Property. These properties were valued by independent

Equity and dividend

Group equity at 31 December 2006 totalled NOK 5 373 million, corresponding to an equity ratio of 31.8 per cent. The board regards this as satisfactory. To optimise the long-term return, the board has a "loan to value" target of borrowing up to 75 per cent of the value of the company's properties. At times when major purchases are made, this debt ratio could be higher. The capital structure is kept under continuous review in light of the company's goals, strategy and development.

Norwegian Property's goal is to pay an annual dividend which is competitive, predictable and higher than average for the property sector. The dividend policy is described in more detail in the chapter on shareholder information on page 46 in this annual report. At 31 December 2006, the board was mandated to increase the share capital through private placements,

	<p>Board of directors, composition and independence</p> <p>Pursuant to the articles of association, the board of Norwegian Property will comprise three to nine directors. The board currently has six shareholder-elected directors, of whom two are women.</p> <p>Directors and the chair of the board are elected by the general meeting for two-year terms.</p> <p>The board's composition is intended to ensure a broad business and management background, while its members collectively have an in-depth understanding of the property market, merger and acquisition activities, financing and capital markets. The background and experience of directors is presented in a separate section of this annual report and on the company's website.</p> <p>The board has been composed in such a way that it can act independently of specific interests. The company's executive management is not represented on the board. More than half the directors are independent of the company's executive management or significant commercial partners. Dividend policy

Norwegian Property's ambition is to give its shareholders a high and stable return on their investment in the company through a combination of rising value and dividend.

The company wants its annual dividend to be competitive, predictable and higher than average for the property sector. The goal is that dividend will represent four-six per cent of paid-in equity and at least 50 per cent

of the annual net profit (when account has been taken of profit and loss items without cash flow effect). For 2006, the board will propose to the company's AGM that a dividend of NOK 2.50 per share be paid. The AGM will take place on 4 May 2007, and dividend emphasis on making all price-relevant

information available to the market at the right time, and the management works consciously to ensure an open and active dialogue with investors and other parts of the financial market.

Results are reported quarterly and in accordance with the company's financial calendar. In connection with the publication of its annual and interim reports, Norwegian Property normally holds presentations for shareholders, holders, analysts, and the press. The company also maintains a continuous dialogue with investors and analysts.

Its website provides an overview of analyses who monitor the company's shares.

Investor relations

Norwegian Property has a goal of

ensuring a broad shareholder base

and high liquidity for the share. The

company accordingly places great

emphasis on making all price-relevant

Remuneration of senior executives

Remuneration of the company's senior executives comprises ordinary salary and fringe benefits such as car provision, pension and insurance. The pay and other remuneration of senior executives in 2006 are reported in note 17 to the group annual accounts. Pay and other remuneration of the chief executive are determined by the board.

All senior executives have individual bonus schemes related to value drivers which influence the company's value development, and which are thereby expected to yield progress for the company's share. The bonus scheme has a maximum ceiling set individually for each senior executive, and pays 30-50 per cent of ordinary salary. The company's senior executives are not covered by option programmes. Guidelines on remuneration of senior executives will be presented to the general meeting.

Information and communication. All reporting of financial and other information will be timely and accurate, and simultaneously based on openness and equal treatment of players in the securities market. Information will take the form of annual and interim reports, press releases, stock market announcements and investor presentations. All information of significance for valuing the company will be distributed via the Oslo Stock Exchange's reporting system. Immediately after publication in this way, the information will also be made available on the company's website – where it is also possible to subscribe to announcements. The main purpose of information will be to clarify the company's long-term goals and potential

such assignments unless this has been resolved by the board and approved by the general meeting in each case.

Takeovers

The company's articles of association place no restrictions on buying shares in the company. The company is in the process of establishing principles for the way it intends to respond to possible takeover bids.

The use of the auditor for assignments other than ordinary auditing services must be considered and approved by the board.

Financial strategy	Norwegian Property operates in a capital-intensive sector, where the choice of financial strategy is very important. A key element in the group's financial strategy is to maximise the long-term return on equity. At the same time, it is important for the group to have a capital adequacy which provides the basis for long-term stability and a financial foundation for operational freedom of action in the purchase and sale of properties.	the liquidity risk associated with refinancing the company's debt.
Interest rate risk	The group's interest rate regulation profile is altered continuously through the use of financial derivatives, to prevailing interest rate expectations and the company's fixed interest rates. Group policy is to hedge at least 70 per cent of its interest rate exposure.	by changes in the short-term money market interest rates. A rise of one per cent in three-month Nibor would boost financial expenses by NOK 24 million, corresponding to an 0.19 per cent increase in the group's average interest rate to 5.24 per cent.
Financial sources	Norwegian Property is a recently-created company. Its financing was initially based on a syndicated credit facility provided by the company's four principal banks – DnB Nor, Nordea, SEB and Danske Bank. This syndi-	Group debt with short-term fixed interest rates normally has a fixed interest period of three months, so that interest rate changes would not have immediate effect.
Financial risk	Norwegian Property's financial risks relate primarily to changes in equity caused by alterations in the value of the property portfolio, the effect of interest rate changes on profits, and

cated facility still represents a large proportion of the company's total borrowing. The value of the properties is adjusted for expected current costs, maintenance requirements and the need to upgrade after the expiry of a lease. Assessments are also made of sufficient to cover ongoing operational requirements, but a liquidity position which provides the financial freedom of action to exploit interesting investment opportunities is also a company ambition.

The portfolio (including the IFN portfolio and assuming that Aker House is completed) is valued at NOK 1 805 million in total. This corresponds to a gross yield of 1.9 per cent based on a current gross rental income of NOK 1 064 million. The most important parameter for assessing the value of the properties is existing lease-based rental income, market rents and yield requirements. The yield requirement is influenced in turn by long-term market interest rates and investor requirements for a rate of return over and above market interest rates.

Value of the property portfolio

The company's properties, with the exception of the Aker House development property, are valued continuously at fair value as investment properties. Fair value of the investment properties is determined by discounting cash flows related to existing leases and expected market rents at the expiry of these leases. Risk-adjusted required rates of return are used as the

equity ratio at 31 December was 31.8 per cent.

Group liquidity totalled NOK 1 252.5 million at 31 December. The company's available liquidity should be sufficient to cover ongoing operational requirements, but a liquidity position which provides the financial freedom of action to exploit interesting investment opportunities is also a company ambition.

The portfolio (including the European bond market).

Liquidity and capital adequacy
The company's ambition is to have a debt structure which ensures an optimum combination of flexibility and price. It has initially set a debt ratio of 75 per cent of the fair value of the properties, but this proportion is kept under continuous assessment. The

Notes to the accounts for 2006

Note 1- Accounting principles

The annual accounts have been prepared in accordance with the Accounting Act. It has been prepared after Norwegian accounting standards and good accounting practice.

Fixed assets comprise assets intended for long-term ownership and use. Other assets are classified as current assets. Receivables that fall due for payment within one year are classified as current assets. Liabilities that fall due within a year are classified as short term liabilities.

Fixed assets are valued at acquisition cost and written down to actual value in the event of a fall in value that is expected not to be temporary. Current assets are valued at the lower of acquisition cost and estimated actual value.

Customer receivables and other receivables are entered at par value after a deduction for a provision for expected losses. The provision for losses is made on the basis of an individual assessment of the relevant receivables. In addition, an unspecified provision is made to cover the general risks of losses.

To the Annual Shareholders' Meeting of
TEKAFLINVEST 83 AS

AUDITOR'S REPORT FOR 2005

We have audited the annual financial statements of the Tekafel Invest 83 AS as of 31 December 2005, showing a loss of NOK 110 for the company. We also have audited the information in the Board of Directors' report concerning the financial statements and the going concern assumption. The company's financial statements comprise the balance sheet and the accompanying notes. The rules of the Norwegian accounting act and good accounting practice in Norway have been applied to produce the financial statements. These financial statements are the responsibility of the Company's Board of Directors and Managing Director. Our responsibility is to the requirements of the Norwegian Act on Auditing and Auditors.

We conducted our audit in accordance with the Norwegian Act on Auditing and Auditors and good auditing practice in Norway, including standards on auditing adopted by Den Norske Revirforening. These auditing standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. To the extent required by law and good auditing practice an audit also comprises a review of the management of the Company's financial affairs and its accounting and internal control systems. We believe that our audit provides a reasonable basis for our opinion.

- In our opinion,
- The financial statements are prepared in accordance with the law and regulations and give a true and fair view of the financial position of the Company as of December 31, 2005, and the results of its operations in accordance with good accounting practice in Norway
 - The Company's management has fulfilled its duty to produce a proper and clearly set out registration and documentation of accounting information in accordance with the law and good bookkeeping practice in Norway
 - The information in the Board of Directors report concerning the financial statements, and the going concern assumption are consistent with the financial statements and comply with the law and regulations.

Successful start-up – promising future

Norgani is well positioned in the Nordic property market. With its strong portfolio, a competent management team and financial flexibility Norgani provides its owners with a low risk property investment with a considerable upside potential.

Since the establishment and launch of the company in June, Norganc has become the largest Nordic hotel property company with 64 hotels. A highly competent organisation with long experience within investments, property and hotel operation is also in place.

I am therefore proud to say that Norganc start-up year has been successfully completed.

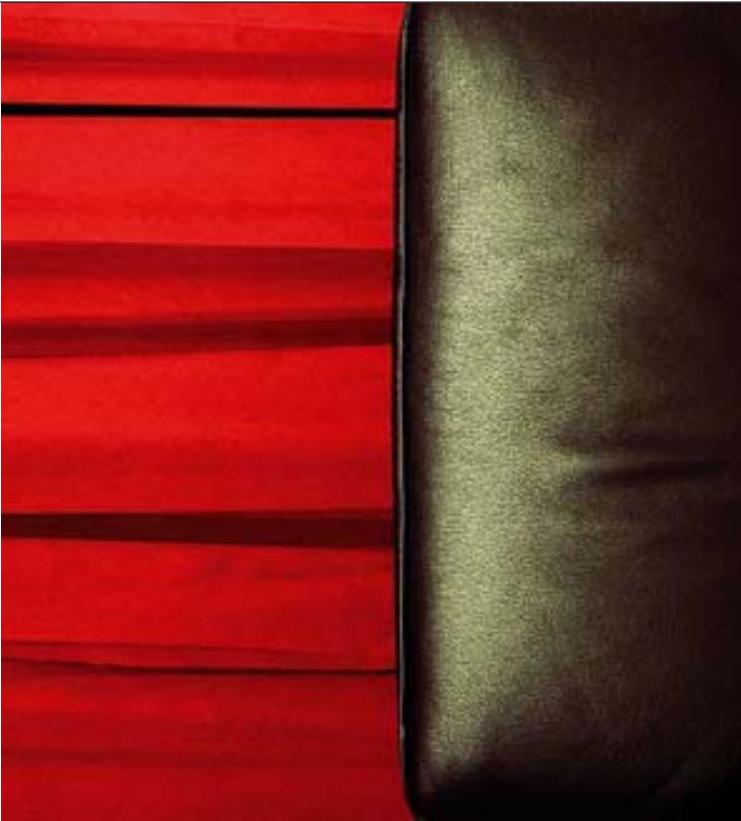

We believed that the timing of the establishment of Norganc in June 2006, has been a key factor in the success of the company.

On the one hand most hotels are today operated by international hotel chains Sandic, Hilton and Rezidor SAS. This has turned hotel operation in the Nordic region into an effective service industry characterised by professional marketing and high quality products.

On the other hand you have the property owners like Norgent, with lease contracts with the operators. The lease contracts are often based on turnover rent with a minimum duration and well specified cost structure.

ANNUAL REPORT 2005

Scandic Bergen Airport – near Bergen and the fjords

The Scandic Bergen Airport is located approximately 2 km from Bergen Airport and 15 km from downtown Bergen. The hotel was built in 1982, and it is currently being renovated. The hotel offers 197 rooms, and conference facilities for 280 persons. Other facilities include swimming pool, and a pleasant restaurant that has recently been redecorated. The conference facilities also offer so-called "Think Tank"-rooms. These rooms are constructed to give inspiration.

In case of emergencies in the North Sea or in the Bergen Community, the staff at the Scandic Bergen Airport are classified and trained to do the necessary service.

The hotel is operated by Scandic Hotels Norway.

l within our existing portfolio, will enable us to meet our long-term growth objectives in favour of our owners.

Consequently, with little operational risk, long duration, low vacancy risk, well predictable cost, and good growth prospects, investing in hotel properties should be regarded as a good alternative to office or retail.

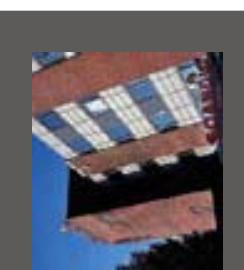

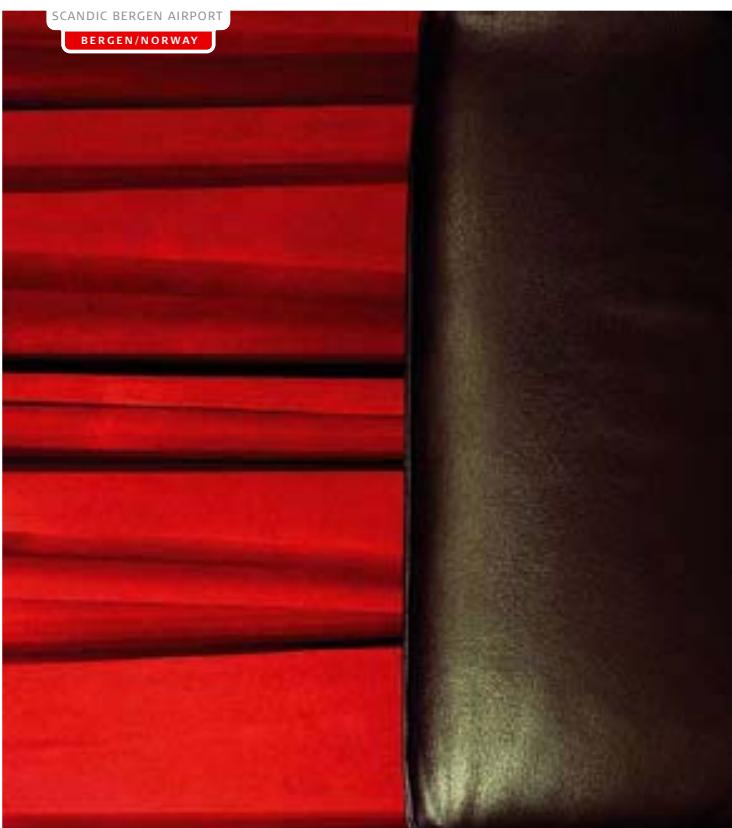

One might argue that rent is directly related to turnover and therefore more volatile than the income from investments in the office segment. This is not necessarily true because one has to take into account the shorter lease duration and higher volatility of vacancy in the office market. In addition turnover volatility varies between hotel market segments. The portfolio strategy of Norgani is to invest in larger 3 and 4 star hotels mainly in cities. These are hotels that historically have been in the lower end of the turnover volatility.

Taking into account that Norgani also has secured a major part of the interest rate it feels fair to say that Norgani is a low risk property investment.

Through 2005 we established a strong foundation for a

leading Nordic hotel property company. Entering 2006

ANNUAL REPORT 2005 5

Bergen is Norway's second largest city situated at the west coast and often referred to as the capital of the fjords. The city is the regional business centre with a high oil and gas activity and has a population of 230 000 inhabitants.

Goals and Strategies

Norgani has defined two overall goals:

- Minimum 15% pre-tax return on paid in equity
- Attractive dividend – 50% of annual net profit excluding non-cash items

Norgani's business concept is to offer long-term investments in a liquid company listed on the stock exchange, exclusively focused on investment, management and development of hotel properties. The company shall have resources and competence to initiate and carry through investment, work with operators and properties to secure income, minimize costs and add value.

INVESTMENT STRATEGY

Nordic hotel market focus

The Company will invest in the Nordic region, including Iceland and the Baltic States.

4 and 3 star hotels

The Company is focusing on mid-market hotel properties with a good balance between quality and price.

Average size per hotel exceeding 150 rooms

Larger hotels represent in general the most efficient and profitable part of the hotel-market.

Central location

Minimum 75% of Norgani's rent revenues shall come from hotels located in cities with 50,000 or more inhabitants.

Solid tenants

The Company's tenants shall mainly be the leading hotel operators such as Scandic/Hilton, Choice Hotels, Rezidor SAS, Rica Hotels and Accor.

Medium - to long-term average contract duration

The Company's properties shall have a contract structure with an average remaining duration of 5 years or more.

Revenue based lease contracts

The Company's properties shall mainly have revenue based lease contracts where the gross rent is calculated as a percentage of the operator's net revenue and in most cases with a minimum rent.

Limited development project activity

The Company shall only in limited scale be involved in development projects, except those that have limited risk.

Market Review – Nordic Region

All statistics for the Nordic hotel markets show a positive trend. Norgani believes that these trends will continue and to some extent even strengthen during 2006.

In 2005 the Nordic hotel market had an average capacity of approximately 246 000 rooms divided between 3 920 hotels. Overall capacity increase in the Nordic region was approximately 4.5% in 2005 (y-o-y). Sweden represents 37% of the room capacity, Norway 25% and Finland and Denmark 19% each. The average hotel size in the Nordic region is 63 rooms.

(Source: Statistik Sentralbyrå (Statistics Norway), Statistisk sentralbyrå (Statistics Sweden), Danmarks Statistik (Statistics Denmark) and Tästökeskus (Statistics Finland))

The occupancy has increased with an average of 4.6% in the Nordic region in 2005 (y-o-y). The RevPAR (Revenue Per Available Room) has increased by approximately 7% in the region. Each country's capital city has an increase in RevPAR of approximately 10%. Norgani believes in a continued positive development of key figures in all Nordic markets in 2006.

Demand can be categorized as conference/business and holiday/leisure, and foreign and domestic. In Sweden and Norway the majority is conference/business, while in Denmark and Finland the majority is holiday/leisure. When it comes to the distribution between domestic and foreign guests, Denmark has a distinct higher share of foreign guests than the other three countries.

PARTICIPANTS AND TRENDS IN THE NORDIC HOTEL MARKET

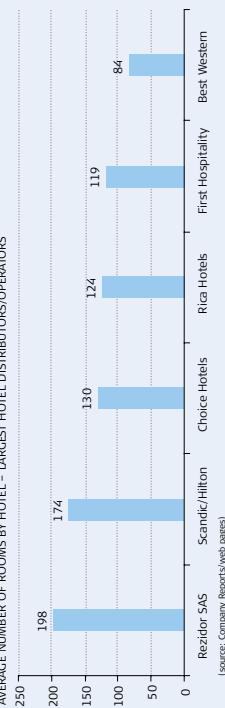

The main participants in all hotel markets are property owners, operators and distributors. Some cover all of these functions, whilst in most cases these roles have different participants. The hotel property owners have lease agreements with the operators, who perform the day-to-day operation of the hotels, whereas hotel distributors market the hotels under a brand name and perform the bookings for hotels.

LARGEST HOTEL DISTRIBUTORS/OPERATORS

50

There is, as mentioned, not an absolute distinction between distributors and operators. Both types are organised in chains. The chart above shows the largest Nordic hotel chains measured in number of hotels. Choice Hotels and Scandic/Hilton are the largest, with respectively 145 and 123 hotels under operation.

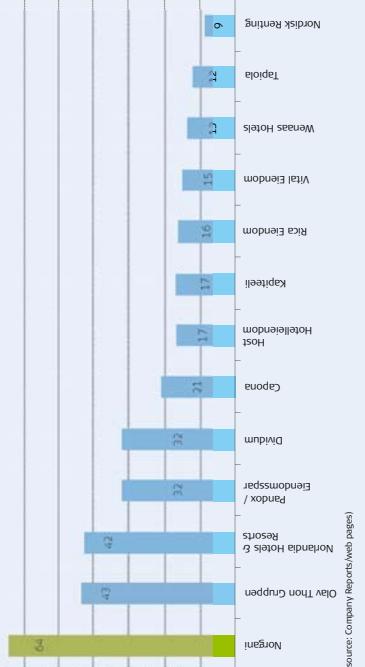

ANNUAL REPORT 2005 13

NORGANI

61 hotel distributors/operators the trend has been towards larger entities with a higher number of hotels, driven by economies of scale in marketing and distribution. The hotel owners in this trend have not been so strong. There are still a lot of owners with only a limited number of hotels. Norwani is the largest hotel property company in the Nordic region with 641 hotels.

LARGEST HOTEL PROPERTY OWNER COMPANIES

Norgani has 43% fall hotel rooms in the Nordic countries. The highest market share is in Sweden with 74% and the lowest in Finland with 0.7%

MODERNISATION

The The Re-Par of Sweden improved by 62% in 2005 according to Statistiska centralbyrån [Statistics Sweden]. The largest growth in Sweden can be seen in the capital Stockholm with 106% year increase. The Swedish market is expected to constitute 57% of the European market.

Market characteristics
The Swedish hotel market is the largest in the Nordic region and is dominated by the large chains.

THE NORWEGIAN MARKET

The Norwegian RevPAR increased by 6.3% in 2005. According to Statistisk Sentralbyrå (Statistics Norway), the growth in RevPAR for Oslo was 11.9% - substantially stronger than the rest of the country. The forecast for the Norwegian hotel market is positive. Limited capacity growth in the next few years, stronger underlying economic growth and an increase in air traffic contribute to increased demand, both from the business and leisure segments. Norwegian hotels are expected to represent 27% of Norgans's annual revenues in 2006.

Market characteristics

The Norwegian hotel market consists of a large number of distributors/operators. There are several smaller operators running small hotels scattered around Norway. However, the market is dominated by the large hotel chains. The Norwegian market of hotels consisted of close to 127 000 beds in approximately 57 500 rooms. Oslo is the largest sub-market, totalling close to 14% of the rooms in Norway. (Statistics Norway).

OCCUPANCY RATE AND ROOM PRICE GROWTH IN NORWAY
(source: Statistisk Sentralbyrå (Statistics Norway))

Growth in average nominal room prices peaked in 2001 and occupancy in 2000. The trend has then been negative through 2004. Room prices have gradually improved during 2005 while the occupancy rates have improved substantially. RevPAR peaked in 2002 at SEK 378, and have since then continuously fallen until 2004 when the bottom was reached. There has been a strong recovery in 2005 (increase of 6.2%) which is expected to continue in 2006.

Health, Environment and Safety

Norgani Hotels ASA initiated in December 2005 the development of internal routines and policies in order to comply with laws and regulations with respect to upgrades and construction work in the hotel properties. As part of this work, a system for quality assurance, documentation and reporting of Health, Environment and Safety matters will be implemented.

The Nordic hotel business has dealt with environmental matters for a number of years. All the leading hotel operators have developed environmental programs, setting ambitious goals for their environmental engagement and responsibility. As and owner of hotel properties throughout the Nordic region, Norgani Hotels ASA is an active partner and contributes to a continuous improvement of the environment. This is achieved through:

- focusing on operation and maintenance,
- continuous education of technical personnel

- technical solutions that contribute to lower energy usage,
- choosing construction materials with respect to sustainability and possibility for recycling
- removal of materials contributing to greenhouse gas emissions (cooling media R22)
- protection against emission of radon
- removal of materials and equipment containing poisonous material such as asbestos and PCB
- reduction of waste disposal and water usage

The office premises of Norgani Hotels ASA are located in modern buildings with low energy consumption.

The business operation of Norgani Hotels ASA and its subsidiaries does not have any significant negative impact on the environment.

Norgani Management

Norgani's core business is to invest in and manage hotel properties. The company will have a small, highly competent and flexible organization within investments, property management, finance, accounting and administration.

Articles of association of Norgani Hotels ASA

(last amended 14 November 2005)

AUDIT

Under Norwegian law, the auditor is elected by the shareholders in a general meeting. The board shall make recommendations to the general meeting on the auditor's appointment, removal and remuneration. The board shall also monitor the auditor's independence and inform in the general meeting of any performances by the auditor of non-audit services and payments related thereto.

The board of Norgani will endeavour that the auditor annually (i) presents to the board the framework of the company's audit, (ii) participates in the board meeting which discusses the annual accounts, etc., (iii) examine the Company's internal control routines, (iv) holds a meeting with the board without the participation of the management, (v) presents an overview of services provided to the Company besides audit and (vi) in written confirms that the requirements in respect of the auditor's independence are met. In respect of the 2005 financial years, the board has had meetings with the auditor, and to certain events also received written statements from the auditor, with regard to the annual accounts (both together with and without the management present), internal control routines, scope of services, besides audit and his independence. The board will even more closely work with the auditor to plan his audit reviews for the 2006 financial year.

Pursuant to the Company Policy, the management's use of information on the remuneration to the senior management is set out in note 20 to the consolidated accounts in the annual report. There are no option programs for the employees of Norgani.

DISCLOSURE AND TRANSPARENCY

General

Pursuant to the Company Policy, Norgani shall at all times provide its shareholders, Oslo Børs and the financial markets generally through Oslo Børs, information systems with timely, accurate and equal information. Such information will take the form of annual reports, quarterly interim reports, press releases, stock exchange notifications and investor presentations, as applicable. It shall seek to clarify its long-term potential, including its strategy, value drivers and risk factors. Furthermore, Norgani shall maintain an open and pro-active investor relations policy, a best-practice website and shall give presentations regularly in connection with annual and interim results.

Norgani has published an annual overview of important dates on its web-site, including but not limited to general meetings, financial reports and presentations.

Communication with Shareholders

Pursuant to the Company Policy and instructions to the board, the CEO and the chairman of the board shall make themselves available for discussions with the major shareholders to develop a balanced understanding of the issues and concerns of such shareholders, however, subject always to the provisions of the NCA, the STA and the SER. The CEO and the chairman shall ensure that the views of the shareholders are communicated to the board as a whole.

Information from the Company to its shareholders shall be disclosed at the Company's website at the same time the information is sent to the shareholders or otherwise communicated to the market.

REMUNERATION OF SENIOR MANAGEMENT

As the management of Norgani was employed in 2005, there has been no adjustment of salaries in 2005. The compensation to the senior management is made up of a fixed salary-element and a bonus element. The bonus element is based on the development of Norgani's share price and 50% of the bonus after tax shall be invested in the company shares with a 24 months lock-up period. No employee is entitled to severance pay or extraordinary long notice periods. In order to succeed in employing Sægstad as CEO, Sægstad is entitled to 18 months pay if his employment is terminated by the company (24 months pay if termination is made during the first two years). The board is in the process of reviewing the guidelines for senior management remuneration which will be presented at the ordinary general meeting. Determination of the compensation to the CEO, is resolved by the board in board meetings.

Information on the remuneration to the senior management is set out in note 20 to the consolidated accounts in the annual report. There are no option programs for the employees of Norgani.

AUDIT

This provision does not in any way restrict the obligations under Norwegian law applicable from time to time regarding the duty to make a mandatory offer for listed shares.

§ 6 – BOARD OF DIRECTORS

The board of directors of the company shall consist of at least 3 but no more than 7 directors, according to the decision of the general meeting.

§ 7 – SIGNATURE RIGHTS

The chairman of the company individually or two board members jointly may sign for and on behalf of the company. The board of directors of the company is in Oslo.

§ 2 – REGISTERED OFFICE

The registered office of the company is in Oslo.
The company's business shall consist of operation and ownership, directly or indirectly, of commercial real estate, including hotels, and activities related thereto.

§ 3 - COMPANY'S BUSINESS

The company's business shall consist of operation and ownership, directly or indirectly, of commercial real estate, including hotels, and activities related thereto.

§ 4 – SHARE CAPITAL

The share capital is NOK 764 359 900,- divided into 30 574 396 shares, each with a nominal value of NOK 25,-.

§ 5 – VOTING RESTRICTION

If someone has acquired shares representing more than 30% of the votes in the company, he cannot exercise voting rights for such shares exceeding 30% of the votes without first having made an offer to acquire the remaining shares in the company. In determining whether the 30% limit has been exceeded, the provisions regarding consolidation of ownership interest and the exceptions from the duty to make a mandatory bid which apply under Norwegian applicable law from time to time regarding mandatory offers for listed Norwegian shares shall apply.

The applicable Norwegian law from time to time regarding mandatory offers for listed shares in Norwegian companies shall, to the extent appropriate, apply to any such offer to acquire the remaining shares in the company.

The board of directors shall determine whether the voting rights restriction applies, including whether an offer made by the shareholder complies with the provisions in the second paragraph above.

§ 9 – NOMINATION COMMITTEE

The company shall have a nomination committee consisting of at least two but no more than three members, according to the decision of the general meeting, elected by the general meeting for periods of two years. The nomination committee itself elects the chairman among its members.

The nomination committee shall submit its recommendation to the general meeting regarding nomination of members to the board of directors of the company. The nomination committee shall also make proposals on the remuneration to the members of the board of directors.

"The Fox and Anchor" is also famous for its wide selection of malt whiskies.

The hotel is operated by First Hotels.

NORGANI 32

Halmstad is a city with 87 000 inhabitants on the southwest coast of Sweden, between Gothenburg and Malmö. The city is a popular summer location with a multitude of attractive activities available. Halmstad will host the 2007 Solheim Cup. The hotel is well located in the very city centre of Halmstad and has 103 rooms, conference facilities, a pub and nightclub.

The hotel was founded almost 150 years ago, in 1858, and has since been a meeting spot in Halmstad for lodging and entertainment.

The hotel has been renovated, re-constructed and extended during the years and therefore has a lot of different kind of rooms all equipped to meet the standards of 2006.

Directors' Report

Norgani Hotels ASA has got off to a successful start, and completed its first year of operation. Both market developments during 2005 and processes related to the build-up of the company were in line with the expectations when the business was established. Given the company's portfolio of properties and positive trends in the hotel market, we expect continued progress and an attractive return for the owners in 2006.

Norgani Hotels ASA was founded in March 2005 on the initiative of SEB Enskilda and converted to a public limited company in June, when its first investments were made. Norgani acquired 64 hotel properties during 2005, and had taken possession of 61 of these by 31 December. The company has increased its equity through several share issues and has a book equity of NOK 1,802 million at 31 December. It has also established a competent organisation. Norgani Hotels ASA was listed on the stock exchange in November. Today Norgani is the leading hotel property company in the Nordic region, with a solid organisation and balance sheet and the financial ability to continue expanding.

IMPORTANT EVENTS IN 2005

In June 2005 Norgani raised NOK 1.1 billion of new equity in the capital market and secured at the same time external financing of up to NOK 3 billion from Sandanavika Erskilda Banken AB.

The first property investments were made in June through the acquisition of 37 properties from the Wenas group, Capona and Pardox/Eldemosspar respectively for a total of NOK 1.7 billion.

In October, the company reached agreement on acquiring a further three hotels from the Wenas group as well as two more from Home Invest and Choice Hotels respectively. Six hotels were acquired from Capona in November/December. Norgani was listed at the Oslo Stock Exchange on 16 November 2005, following an Initial Public Offering that

raised additional NOK 440 million of new equity. Norgani reached agreement in December on acquiring all the shares in Hotelleidende AS which owns 16 Swedish hotels operated by Scandic/Hilton. Altogether, these transactions give Norgani a portfolio of 64 hotels with a combined purchase price of NOK 6.6 billion, of which 61 hotels have been taken over by 31.12.2005.

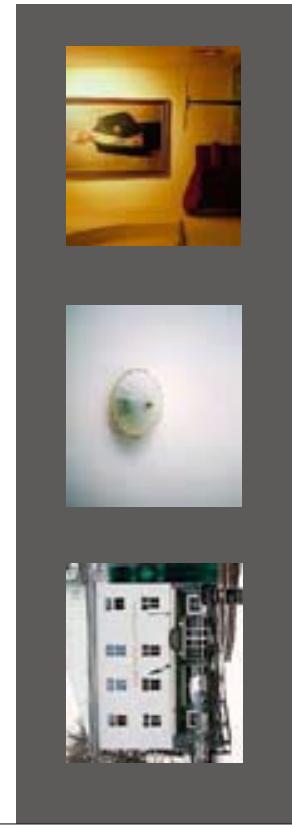

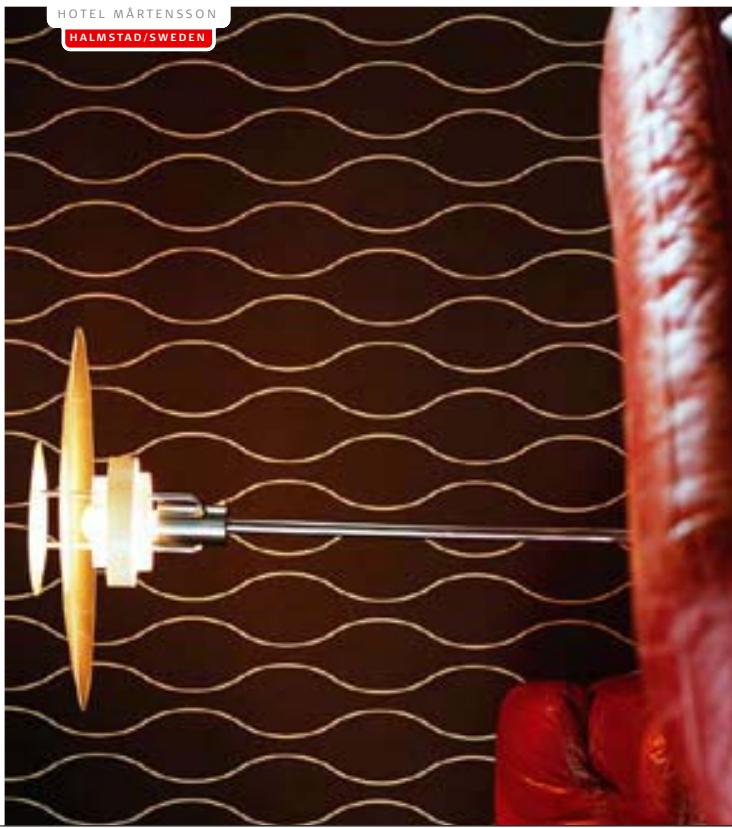

Attention has also been paid on building up the organisation. The company had a chief executive and chief financial officer in place during August, and the staff has subsequently been expanded by employment of a total of six people. The board is satisfied with the organisation created and the solid results it has already achieved.

THE BUSINESS

Norgani Hotels ASA is a Nordic hotel property company with its head office in Oslo. Norgani's creation and activity is based on the goal of offering investors a long-term investment in a company focused on the market for hotel properties. Norgani is also intended to provide investors with an attractive return by securing and developing a position as the leading Nordic hotel property company. The board firmly believes that the property investments made by Norgani have been based on competitive terms, and that the company established a strong position during 2005 which makes it likely that the specified operational and financial goals will be achieved.

ANNUAL REPORT 2005

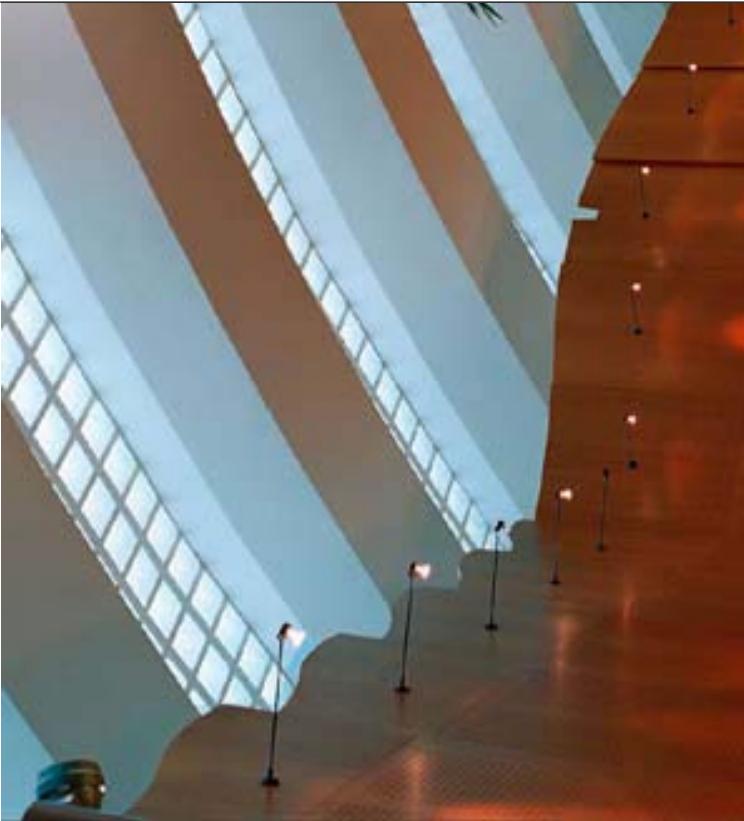

STRATEGY	Investment strategy	<p>Overall operating and administrative expenses in 2005 were NOK 52.2 million, of which NOK 28.6 million can be attributed to non-recurring start-up costs. The overall operating profit for the year was NOK 293.1 million.</p> <p>Net financial expenses amounted to NOK 58.2 million, yielding a profit before taxes of NOK 234.9 million and a net profit of NOK 221.1 million.</p>
FINANCIAL STATEMENT	Cash flow	<p>Total assets came to NOK 6 339 million at 31 December, while equity at the same date was NOK 1 802 million. After taking account of the company's business and risk profile, the board considers the equity ratio to be satisfactory.</p> <p>Two share issues were carried out in 2005, collectively raising a paid in equity of NOK 1 576 million. Of the capital increases, NOK 240 million were part settlements of property purchases.</p> <p>Norgani's net interest-bearing debt totalled NOK 4 732 million at 31 December. This borrowing was partly drawn down within an extended NOK 4 billion loan facility provided by Skandinaviska Enskilda Banken AB in October 2005. A full overview of the interest bearing debt can be found in note 14 to the consolidated accounts.</p>
MARKET CONDITIONS	Cash flow	<p>The hotel property market developed positively in 2005. This is in line with the expectations which underlay the creation of the company, and the trend looks set to persist into 2006. Market data have shown a escalating growth in demand for hotel rooms throughout the year, and prices are rising across the Nordic region.</p> <p>The 2005 occupancy rates in the Nordic region experienced an overall 3.2 per cent rise to 50.6 per cent, while revenue per available room (RevPAR) increased by 5.6 per cent in Finland to €39.31 to 63.3 per cent in Norway (to NOK 38.1) with only small variations between the various countries.</p>
ACCOUNTS AND CAPITAL	Profit and loss account	<p>The majority of Norgani's hotels are located in the Oslo, Stockholm and Copenhagen triangle. Market trends for these three capitals have been particularly positive in 2005 and into 2006. Given the location of Norgani's hotels, this is expected to create the basis for continued progress in 2006.</p> <p>54 per cent of the company's overall forecast revenue for 2006 is expected to derive from its Swedish hotels, 30 per cent from those in Norway, 14 per cent from Denmark and two per cent from Finland.</p> <p>The board takes the view that market trends during 2005 confirmed the rationale behind the creation of Norgani in the spring of 2005. Competitive conditions did not change significantly during the year, except for the formation of Norgani.</p>

ORGANISATION	Health, safety and the environment	<p>Liquidity risk</p> <p>The board regards liquidity in the company as satisfactory, and no measures have been adopted which change the company's liquidity risk.</p> <p>Financial risks described in more detail in note 3 to the consolidated group accounts.</p>
SHAREHOLDERS	Equal opportunities	<p>SHAREHOLDERS</p> <p>Guidelines for corporate governance are important for the company's efforts to build trust in the financial market. Norgani also works to secure an appropriate division of roles between the company's supervisory bodies, the board and the management.</p> <p>These guidelines are described in more detail in the company's report on corporate governance on page 26 in the annual report.</p> <p>The company has primarily applied the unified Norwegian code of practice on corporate governance for listed companies when drawing up its own principles. The most important exception from this code is the restriction in the company's articles of association which prevents any shareholder from voting for more than 30 per cent of the shares. This provision was adopted to ensure the greatest possible liquidity for the share when the company was listed on the Oslo Stock Exchange.</p>
PROSPECTS	Market risk	<p>PROSPECTS</p> <p>The board of Norgani expects continued progress in the Nordic hotel market, and thereby for the company's turnover-based rents. Norgani's revenues are largely secured by guarantees from the sellers of the properties it has acquired, and its costs are largely covered through the conclusion of fixed interest contracts. Guaranteed revenues for the company's portfolio of 64 hotels total an estimated NOK 510 million for 2006. Taken together, this means that the board expects Norgani to reach its financial targets in 2006. The company will continue to assess opportunities for expanding the portfolio in addition to the possible sale of some hotels. Given the solid foundation established and the growth expected, the board takes the view that the positive development enjoyed by Norgani since its creation will continue in 2006.</p>
CURRENT RISK	Credit risk	<p>CURRENT RISK</p> <p>The company is exposed to changes in exchange rates. A substantial proportion of its revenues and expenses are in foreign currencies, primarily Swedish kronor, Danish kroner and euros. Significant changes in the pricing of these currencies could have a corresponding effect on the company's earnings and cash flow.</p>
ALLOCATION OF NET PROFIT	Events after the balance sheet date	<p>ALLOCATION OF NET PROFIT</p> <p>The profit and loss account for Norgani Hotels ASA in 2005 shows an ordinary net loss of NOK 28 000. The company has no dispensable equity which can be used as dividend at 31 December 2005. The board proposes that no dividend will be paid for 2005.</p> <p>The board is maintaining its goal of paying an annual dividend from 2006 which corresponds to 50 per cent of the company's net profit available for payment as dividend.</p>

Liquidity risk	<p>The board regards liquidity in the company as satisfactory, and no measures have been adopted which change the company's liquidity risk.</p> <p>Financial risks described in more detail in note 3 to the consolidated group accounts.</p>

NOTES TO THE CONSOLIDATED STATEMENTS

1. GENERAL INFORMATION

Norgan Hotels ASA and its subsidiaries (together called Norgan) is a hotel investment property group with a major portfolio in the Nordic countries. It is principally involved in leasing out investment property under operating leases and only to a small degree involved in development of investment property. Norgan Hotels ASA was established on 7 March 2005 and acquired its first subsidiaries early July 2005.

Norgan Hotels ASA is a limited liability company incorporated and domiciled in Norway. The address of its registered office is Haukøn Vfl's gt. 5A in Oslo. Norgan Hotels ASA is listed on the Oslo Stock Exchange with the ticker NORCAN.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below.

2.1 Basis of preparation

The consolidated financial statements of Norgan have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. For Norgan Hotels ASA there are no differences between IFRS as adopted by the EU and IFRS for the year ended 31 December 2005; the consolidated financial statements have been prepared under the historical cost convention except that investment property and financial derivative instruments are carried at fair value.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated interim financial statements, are disclosed in note 4.

The following amendments and interpretations to standards are effective in 2005:

- IFRIC 2, Members' Shares in Co-operative Entities and Similar Instruments (effective from 1 January 2005);
- SIC 12 (Amendment) Consolidation - Special Purpose Entities (effective from 1 January 2005); and
- IAS 39 (Amendment) Consistency and Initial Recognition of Financial Assets and Financial Liabilities (effective from 1 January 2005).

Management assessed the relevance of these amendments and interpretations with respect to Norgan's operations and concluded that they are not relevant to Norgan.

2.2 Consolidation

Subsidiaries are all entities including special purpose entities (over which Norgan has the power to govern the financial and operating policies generally) accompanying a holding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether Norgan controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to Norgan.

The purchase method of accounting is used to account for the acquisition of subsidiaries by Norgan. The cost of an acquisition is measured attributable to the acquisition, identifiable assets acquired and liabilities assumed or incurred at the date of exchange, plus costs directly attributable to the fair values of the identifiable net assets required to record as goodwill. If the cost of acquisition is less than the fair value of the fair value of the assets given, equity instruments issued and liabilities incurred or assumed on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by Norgan.

2.3 Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments. Norgan has only one business segment but divide it's business into geographical markets.

2.4 Foreign currency translation

(a) Functional and presentation currency
Items included in the financial statements of each of Norgan's entities are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The consolidated financial statements are presented in Norwegian Kroner, which is Norgan's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

(c) Group companies

The results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation).

46

ANNUAL REPORT 2005

NORGAN

nation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions; and

(iii) all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowing and other currency instruments designated as hedges of such investments, are taken in shareholders' equity. When a foreign operation is sold, such exchange differences are recognised in the income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

2.5 Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the companies in Norgan, is classified as investment property. Freehold and freehold buildings, land held under operating lease and buildings held under finance lease.

Investment property comprises freehold and freehold buildings, land held under operating lease is classified and accounted for as investment property if it is held under operating lease accounted for as if it were a finance lease.

Investment property is measured initially at its cost, including related transaction costs. In subsequent periods investment property is measured at fair value calculated using the yield method (ref. note 4.1). Changes in fair values are recorded in the income statement within gain or loss on fair value adjustment on investment property.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to Norgan and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred.

If an investment property becomes owner occupied, it is reclassified as property, plant and equipment, and its fair value at the date of reclassification becomes its cost for accounting purposes. Property that is being constructed or developed for future use as investment property is reclassified from its cost as investment property to construction in progress at the date it is reclassified and subsequently accounted for as investment property.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of property, plant and equipment under IAS 16. However, if a fair value gain arises as a previous impairment loss, the gain is recognised in the income statement.

Hotel buildings held by Norgan are not owner occupied. Norgan rents the buildings to third party operators who run the hotels.

2.6 Leases

(a) In the case a group company is the lessor
Leases in which a significant portion of the risks and rewards of ownership are retained by another party, the lessor, are classified as operating leases. Payments, including prepayments, made under operating leases (net of any incentives received from the lessee) are charged to the income statement on a straight-line basis over the period of the lease.

(i) Finance lease
Leases of assets where Norgan assumes all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lessor's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in current and non-current borrowings. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The investment properties acquired under finance leases are carried at their fair value.

(ii) Operating leases
Leases in which a significant portion of the risks and rewards of ownership are retained by another party, the lessor, are included in investment property in the balance sheet (Note 6).

(b) In the case a group company is the lessor
When assets are leased out under a finance lease, the present value of the lease payments is recognised as a receivable. The difference between properties leased out under operating leases are included in investment property in the balance sheet.

(i) Finance lease
Lease income is recognised over the term of the lease using the net investment method before tax, which reflects a constant periodic rate of return.

(ii) Operating leases
Lease income is recognised initially at fair value. A provision for impairment of trade receivables is established when there is objective evidence that Norgan will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators.

2.8 Trade receivables

Trade receivables are recognised initially at fair value. A provision for impairment of trade receivables is established when there is objective evidence that Norgan will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators.

that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement within 'Selling and marketing costs'. Norgani has not recorded any such provisions in 2005.

2.9 Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

2.10 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.11 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowing using the effective interest method.

Borrowings are classified as current liabilities unless Norgani has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by Norgani and it is probable that the temporary difference will not reverse in the foreseeable future.

2.12 Deferred income tax

Norgani plans to establish a contribution plan for its employees during the fourth quarter 2005 with effect from 2006. Norgani will contribute to public or privately administered pension arrangements on a mandatory, contractual or voluntary basis. Norgani will have no further payment obligations once the contributions have been paid. Contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

2.13 Pensions

Provisions for environmental restoration, restructuring costs and legal claims are recognised when: Norgani has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation and the persons are not recorded for future operating losses.

Where Norgani, as lessor, is contractually required to restore a leased in property to an agreed condition, prior to release by a lessor, provision is made for such costs as they are identified. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.14 Provisions

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedge instrument, and if so, the nature of the item being hedged. Norgani designates certain derivatives as hedges of highly probable forecast transactions cash flow hedge(s) or hedges of net investments in foreign operations.

Norgani documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. Norgani also documents its risk management objective and strategy for undertaking various hedge transactions. Norgani also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. The fair values of various derivative instruments used for hedging purposes are disclosed in Note 15. Movements on the hedging reserve in shareholders' equity are shown in Note 12. The full fair value of a hedging derivative is classified as a non-current asset or liability if the remain-

ing hedge item is more than 12 months, and as a current asset or liability, if the remaining maturity of the hedged item is less than 12 months.

(a) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity. The amounts accumulated in equity are recycled in the income statement in the periods when the hedged item will affect profit or loss. The gains or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in the income statement within finance costs.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and when the forecast transaction is ultimately recognised in the income statement transferred to the income statement.

(b) Net investment hedge

Hedges of net investments in foreign operations are accounted for similarly to cash hedges.

Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in equity; the gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Gains and losses accumulated in equity are included in the income statement when the foreign operation is disposed of.

2.16 Revenue recognition

Revenue includes rental income, service charges and management charges from properties, and income from property trading. Rental income from operating leases is recognised in income on a straight-line basis over the lease term. When Norgani provides incentives to its customers, the cost of incentives are recognised over the lease term, on a straight-line basis, as a reduction of rental income.

Service and management charges are recognised in the accounting period in which the services are rendered. When Norgani is acting as an agent, the commission rather than gross income is recorded as revenue.

2.17 Dividend distribution

Future dividend distribution to Norgani Hotels ASA's shareholders will be recognised as a liability in Norgani's financial statements in the period in which the dividends are approved.

3. FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

Norgani's activities expose it to a variety of financial risks: market risk (including currency risk and price risk), credit risk, liquidity risk and cash flow interest rate risk.

Risk management is carried out by a central treasury function (Group Treasury) under policies approved by the Board of Directors. Group treasury identifies and evaluates financial risks in close co-operation with Norgani's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas such as foreign exchange risk, interest-rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investing excess liquidity.

(3.1.1) Market risk

(3.1.1.1) Foreign exchange risk
Norgani operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Swedish and Danish Krona and the Euro. Foreign exchange risk arises from future commercial transactions, recognise monetary assets and liabilities and net investments in foreign operations.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowing denominated in the relevant foreign currencies.

(3.1.1.2) Price risk

Norgani is exposed to property price and property rentals risk. Norgani has, however, when acquiring hotel properties, received minimum rent guarantees from sellers of the properties with an average remaining duration of 5.3 years.

(3.1.2) Credit risk

Norgani has no significant concentrations of credit risk. It has policies in place to ensure that rental contracts are made with customers with an appropriate credit history. Even though the credit concentration may appear significant against certain larger hotel operator chains, this risk is substantially reduced by the way these operators are organised - in several smaller operator companies and separate legal entities. Norgani has policies that limit the amount of credit exposure to any customer or financial institution.

(3.1.3) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, Group Treasury aims to maintain flexibility in funding by keeping committed credit lines available.

(3.1.4) Cash flow and fair value interest rate risk

Norgani has no significant interest-bearing assets.

Norgani's interest rate risk arises from long-term borrowings. Note 14.1. Borrowings issued at variable rates expose Norgani to cash flow

<p>3.1 Interest rate risk Norgani takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest costs may increase as a result of such changes. They may reduce or create losses in the event that unexpected movements arise. Norgani manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Such interest rate swaps have the economic effect of converting borrowings from floating rates to fixed rates.</p> <p>3.2 Fair value estimation The fair value of financial derivatives are based on quoted market prices at the balance sheet date from external financial institutions.</p> <p>4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS</p> <p>Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.</p> <p>4.1 Critical accounting estimates and assumptions Norgani makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.</p> <p>(4.1.1) Estimate of fair value of investment properties The valuation of the Norgani investment property portfolio is based on the yield method. Valuation is done on an individual property basis under the following assumptions:</p> <ul style="list-style-type: none"> a) The guaranteed rent level is assumed to be equal to the long term market rent - it amounts to NOK 491 million for the entire portfolio of 61 hotels b) Operating costs are estimated individually – the average cost level is 1.1% c) The yield varies from 5.8% to 8.3% depending on expected growth potential, local market conditions, hotel property and the structure of the lease contracts - the average yield for the portfolio is 6.8% <p>A substantial portion of the property portfolio was acquired during the fourth quarter and the valuation of these properties has been supported by an external agency, DTZ Realcapital. Norgani has in addition used Akerhus Eiendom / Jones Lang LaSalle to value six properties in the portfolio.</p> <p>In addition to the property values, deferred tax assets and deferred tax liabilities directly related to the single purpose property companies have been discounted to net present value (NPV) and added to the property values.</p> <p>Seller guarantees are calculated as an integral part of the property values, but reported as a separate line item in the balance sheet. Norgani targets to have its investment property portfolio valued externally every second year. All newly acquired investment properties will be valued externally before entered into the accounts. Hence, all investment properties in this financial report have been externally valued during the last 12 months.</p> <p>The best evidence of fair value is current prices in an active market for similar lease and other contracts. In the absence of such information, Norgani determines the amount within a range of reasonable fair value estimates. In making its judgement, Norgani considers information from a variety of sources including:</p> <ul style="list-style-type: none"> 4.1.1.1 current prices in an active market for properties of different nature, condition or location or subject to different lease or other contracts, adjusted to reflect those differences 4.1.1.2 recent prices of similar properties in less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices 4.1.1.3 discounted cash flow projections based on reliable estimates of future cash flows derived from the terms of any existing lease and other contracts and (where possible) from external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows. <p>The reported future market rents are determined on the basis of current market rents for similar properties in the same location and condition. Norgani has minimum rent guarantees from sellers for 5-3 years in connection to the acquisitions executed in this reporting period.</p> <p>In addition to the property values, deferred tax assets and deferred tax liabilities directly related to the single purpose property companies have been discounted to net present value (NPV) and added to the property values. The total NPV of the tax effects is separately listed in note 6.</p> <p>Investment property.</p>	<p>5. In relation to the acquisition of Hotelbeendum AS late December 2005, Norgani took over three separate loans:

- a) Svenske Handelsbanken AS of NOK 1 150 million - a split tranches of SEK 230 million - the first two b) a bond noted in the Norwegian market of NOK 250 million

- c) a seller credit SEK 46 million

The borrowings are secured on investment, property and other assets. The fair value of these floating rate borrowings approximated their carrying values at the balance sheet date.

The borrowing facility in SEK of NOK 4 billion is planned to be replaced by a syndicated long-term credit facility of the same amount before 30 June 2006. The floating interest rates are LIBOR, SWIBOR, CIBOR and EURIBOR and the bank margin is 0.7%. The limit of the borrowing facility has been increased by NOK 1 billion since 30 September 2005.

If syndication is not successful before 30 June 2006, the facility will be subject to a 0.25% increase in annual interest rates and minimum 3% annual amortization - equal for all currencies. The facility has been fully committed until 14 October 2008 on these terms.

15. DERIVATIVE FINANCIAL INSTRUMENTS

Norgani has fixed the majority of its borrowing interest rate exposure through interest rate swaps as described in the below table. Norgani's strategy regarding interest rate exposure is to fix a minimum of 70% of its exposure at any time for a period of minimum three years.

In respect of a high level of secured rates, Norgani takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest costs may increase or decrease as a result of such changes.

The main floating rates are LIBOR, STIBOR, CIBOR and EURIBOR.

Gains and losses recognised in hedging reserve in equity as of 31 December 2005 will be continuously realised to the income statement until the repayment of the borrowings. (note 14).

16. DEFERRED INCOME TAX

Deferrals of net investment in foreign entity

The Group's SEK-, DKK- and EUR-nominated borrowings are designated as a hedge of the net investment in the Group's subsidiaries in Sweden, Denmark and Finland. The fair value of the borrowing at 31 December 2005 was NOK million 2 659.

The foreign exchange gain of NOK 42 million on translation of the borrowing to NOK at the balance sheet date was recognized in other reserves in shareholders' equity.

NOTES TO MORGANI HOTELS ASA STATEMENTS

GENERAL INFORMATION

Morgani Hotels ASA is a parent company in a hotel investment property group. Morgani Hotels ASA, a Norwegian limited liability company, was established on 7 March 2005. The company acquired its first subsidiaries early July 2005.

NOTE 1: ACCOUNTING PRINCIPLES

The annual report is prepared according to the Norwegian Accounting Act 1998 and generally accepted accounting principles.

Subsidiaries and investment in associate

Subsidiaries and associate are valued by the cost method in the company accounts. The investment is valued as cost of acquiring shares in the subsidiary providing that write-down is not required. Write down to fair value will be carried out if the reduction in value is caused by circumstances which may not be regarded as incidental and deemed necessary, by generally accepted accounting principles. Write downs are reversed when the cause of the initial write down are no longer present.

Dividends and other distributions are recognised in the same year as appropriated in the subsidiary accounts if dividends accrued without profit after acquisition (the exceeding amount represents reimbursement of invested capital), and the distribution will be subtracted from the value of the acquisition in the balance sheet.

Balance sheet classification

Net current assets comprise creditors due within one year, and entries related to goods circulation. Other entries are classified as fixed assets and/or long term creditors.

Current assets are valued at the lower of acquisition cost and fair value. Short term creditors are recognized at nominal value.

Fixed assets are valued by the cost of acquisition, in the case of non incidental reduction in value the asset will be written down to the fair value amount. Long term creditors are recognized at nominal value.

Trade and other receivables

Trade receivables and other current receivables are recorded in the balance sheet at nominal value less provisions for doubtful debts. Provisions for doubtful debts are calculated on the basis of individual assessments. In addition, for the remainder of accounts receivables outstanding balances a general provision is carried out based on expected loss.

Foreign currency translation

Monetary items, that are not part of net investment in foreign subsidiaries or are not recognised as hedge, account are translated using the year end exchange rates. Non-monetary items, that are part of net investment in foreign subsidiaries or are recognised as hedge accounting, are translated to the exchange rate at the date of acquisition.

Long term assets are translated to the exchange rate at the date of acquisition.

Fixed assets
Property, plant and equipment is capitalised and depreciated over the estimated useful economic life. If carrying value of a non current asset exceeds the estimated recoverable amount, the asset is written down to the recoverable amount.

Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at the fair value. The method of recognising the resulting gain or loss depends on whether the derivatives is designated as a hedging instrument, and if so, the nature of the items being hedged.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Amounts accumulated in equity are needed in the income statement in other periods when the hedged items will affect profit or loss. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset (for example inventory) or a liability, the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset or liability.

When a hedge instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement.

When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

Income tax

Tax expenses in the profit and loss account comprise both tax payable for the accounting period and changes in deferred tax. Deferred tax is calculated at 28 percent on the basis of existing temporary differences between accounting profit and taxable profit together with tax deductible debits at the year end. Temporary differences both positive and negative, are balance out within the same period. Deferred tax assets are recorded in the balance sheet to the extent it is more likely than not that the assets will be utilized.

To the extent group contribution not is registered in the profit and loss, the tax effect of group contribution is posted directly against the investment in the balance.

Cash flow statement

The cash flow statement is presented using the indirect method. Cash and cash equivalents includes cash, bank deposits and other short term highly liquid placement with original maturities of three months or less.

Between 2 and 5 years	31.12.2005
	3 622 167

Investment property and other assets are given as security for the borrowings. The fair value of these floating-rate borrowings approximates their carrying values at the balance sheet date. If syndication is not successful before 30 June 2006, the facility will be subject to a 0.25% increase in annual interest rates and minimum 3% annual amortisation - equal for all currencies. The facility has been fully committed until 14 October 2008 on these terms.

NOTE 7: FINANCIAL MARKET RISK

The company does not use derivative instruments to manage financial market risk.

Norgani's interest rate risk arises from long term borrowing. Borrowings issued at variable rates expose Norgani to cash flow interest rate risk.

Norgani has fixed the majority of its borrowing interest rate exposure through interest rate swaps as described in the below table. Norgani's strategy regarding interest rate exposure is to fix a minimum of 70% of its exposure at any time for a period of minimum three years.

Irrespective a high level of secured rates, Norgani risks on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest costs may increase or decrease as a result of such changes.

	EUR mill	10	Floating	Fixed	4.5 years

Fair value per 31.12.2005

Interest rate swaps (NOK 1 000)

Norgani ASA has obtained fair value calculations from third party professionals in the finance market.

All interest rate swaps are designed as cash flow hedge and changes in the fair value are recognised in equity. Net interest expenses at the interest rate swap are recognised to income as an adjustment to the variable interest rate of the interest-bearing debt.

Norgani operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Swedish and Danish Krona and the Euro. Foreign exchange risk arises from future commercial transactions, recognised monetary assets and liabilities and net investments in foreign operations.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies.

Turnover in the hotel business is rapidly growing, boosted by increased travelling correlated to strong economic growth, a population getting older and changes in lifestyle patterns. The travel and tourism industry is now one of the most dominant in the world economy with a high growth estimated to have been between 6 and 13 percent the last years and expected to be around 5 percent for the years to come.

Revenue per available room (RevPAR), calculated as average price of a hotel room (ARV) multiplied by room occupancy, increased rapidly in the Nordic area last year. In Finland and Norway RevPAR increased by around nine percent, and in Sweden more than seven percent. Denmark does not publish RevPAR, but the occupancy has risen to almost 60 percent, the highest in the Nordic area, with good prospects for further economic growth and hotel business being part of the travel and tourism industry, the outlook for 2007 is strong.

The volume of hotel property transactions in Europe has been rapidly growing in recent years, logging a rise of around 100 percent from 2003 to 2006. The increase is fuelled by hotel chains financing growth by selling off hotel properties. These structural changes have brought private equity into the hotel business as large property owners. The changes also make the hotel property market more liquid and transparent and thus add

Business concept, strategy and goals

BUSINESS CONCEPT

Nongani is active in the travel and tourism industry as an owner creating value through investing in, managing and developing hotel properties pursuing successful cooperation with the hotel operators.

FINANCIAL GOALS

- ◆ 15 percent return on equity over time.

DIVIDEND POLICY

- ◆ Dividend should be 50 percent or more of cash flow from operations.

STRATEGY

- ◆ Maintaining a well diversified portfolio
Nongani aims to work with several operators and their brands, have a good geographic distribution of properties and have a mix of contracts.
- ◆ Hotel properties with manageable risk
The portfolio's emphasis is on mid- and up-scale hotel properties with at least 150 rooms and attractive locations, as these hotels are more effective and have lower volatility. A major part of revenue should come from hotels in cities with more than 50,000 inhabitants.
- ◆ Limited development project activity
Only in limited scale should Nongani be involved in development projects, except those that are naturally connected to professional operators or existing properties.
- ◆ Growth to achieve economies of scale and to become a more attractive partner
For hotel operators With a larger portfolio, Nongani becomes an increasingly attractive partner for hotel operators while achieving organizational, financial and diversification benefits.
- ◆ Balanced financial risk level
With manageable property risk due to the above strategies, the target debt ratio is set to 75 to 80 percent of total assets. Interest fixing is set based on current market conditions and the property portfolio profile.

to the belief that hotel properties will be a prosperous property class in the years to come.

The largest hotel chain in The Nordic area, Scandic Hotels AB, is in the process of being sold to one of the leading private equity companies in Europe, the Swedish based EQT. Scandic Hotels is Nongani's largest tenant, accounting for about 50 percent of our revenue. We welcome a Nordic based owner with focus on the environment and further growth.

As a specialized hotel property owner, Nongani offers operators several strategic advantages like:

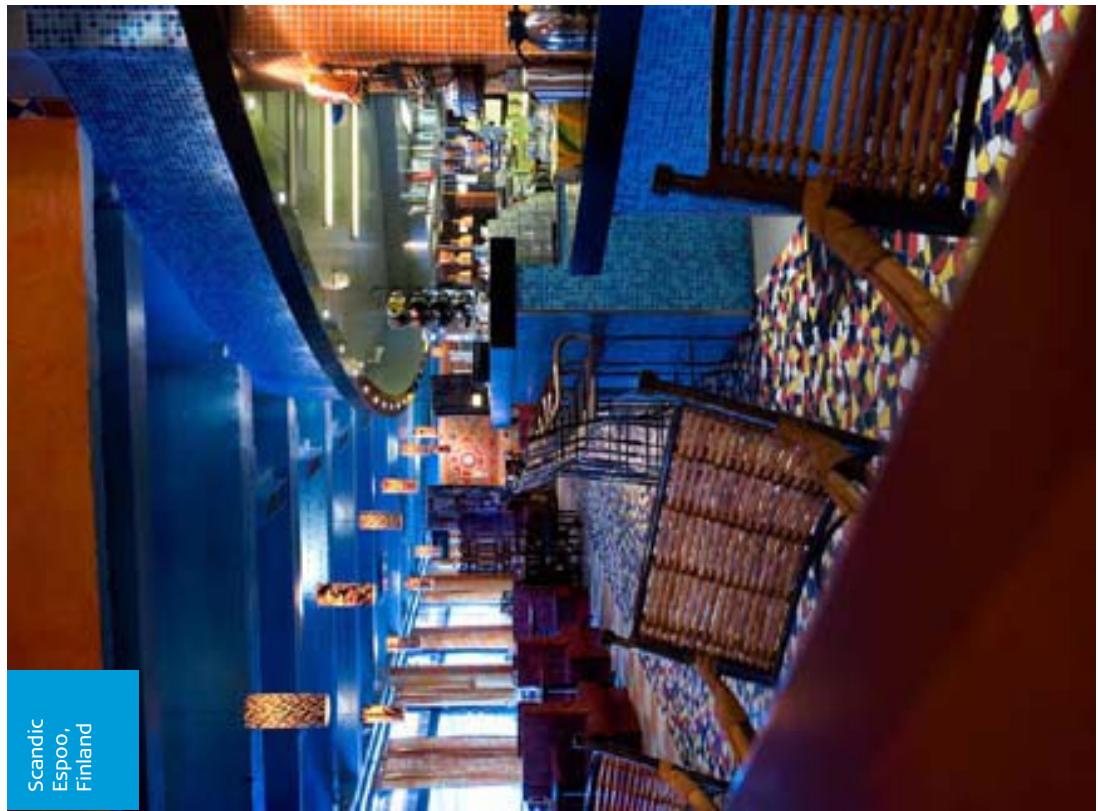

- ◆ A partner with good knowledge of and insight in the hotel industry
- ◆ The possibility to cooperate on groups of hotels
- ◆ Financial capacity and flexibility

Nongani has established an organisation in Norway, Sweden and Finland, together with our financial capacity, this gives us a platform to further develop our cooperation with the tenants by actively working together to develop the hotels and thereby increasing hotel turnover further.

THE TRAVEL AND TOURISM INDUSTRY

THE TRAVEL AND TOURISM INDUSTRY

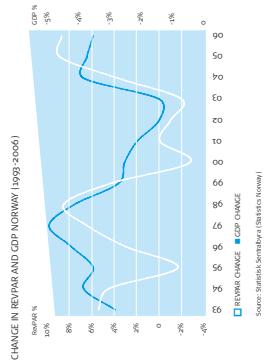

The travel and tourism industry is one of the largest industries in the world. The World Travel and Tourism Council (WTTC) estimated that it accounted for 10.3 percent of GDP in 2006 and more than 34 million jobs. WTTC expects the industry to continue to grow across the world, averaging around 5 percent per year annually over the next ten years.

Travel increases with economic activity. A dramatic increase in travel is currently seen in emerging economies such as China and India, but it is also rising with the strong business cycle in Europe and the U.S. Business travel is further boosted by an expansion of contacts as regions are linked closer together such as in the EU. Low-cost carriers also add to demand, as does the

The demand for hotel accommodation fluctuates with the demand for travel. There is underlying growth in the market, since people to a greater extent opt for hotels rather than staying with friends and family, ageing, but still healthy and active population.

Strong RevPAR development in the Nordic sector

The difference between office yields and hotel yields has decreased substantially over the last two years. The yield compression is also fuelled by inflow of investor capital. Hotel property remains on the upper part of the yield scale though.

תוניגר) ערכו.

The trends are more or less the same all over Europe, scarcity of products, strong investor focus on the sector and the sector itself restructuring by diversifying assets. Larger expansions into the segment have so far been made by private equity investors, REITs, and some specialized investors, among them Norgani and Lendlease.

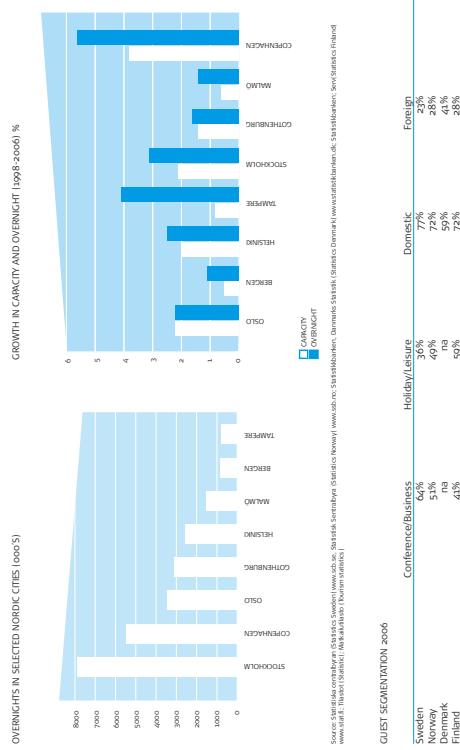

The French hotel chain Accor was one of the companies entering the restructuring process and selling off its assets. So far, the group has sold 204 hotels for approx. euro 1.5 billion and the group expects to continue its disposal strategy. The free-up capital is reinvested into economy hotels in fast growing markets in Eastern Europe, China and India. Internationally an interesting hotel chain following the same course US hotel investors have been focusing on the hotel property oriented investment can play a major role in restructuring the sector. Global investors are now focusing on the opportunities arising as the industry undergoes transformation. Investors are also attracted by the recent tourism growth of the countries in Eastern Europe, that have strong tourism and business potential. In addition to investments by hotel operators, there is an increased focus on management contracts.

THE NORDIC REGION

In 2006, there were 3,855 hotels in the Nordic region with an average of 63 rooms. Sweden represented 38 percent of the room capacity. Norway 25 percent, Denmark 19 percent and Finland 17 percent of room capacity.

Demand can be categorized as conference/business and holiday/leisure. When it comes to the distribution between domestic and foreign guests, Denmark has a distinctly higher share of foreign guests than the other three countries.

Domestic demand represents over 70 percent of guest nights in Sweden, Finland and Norway. Another characteristic for the Nordic region is that in a European comparison large proportion of hotels operated under brands.

The Nordic Market

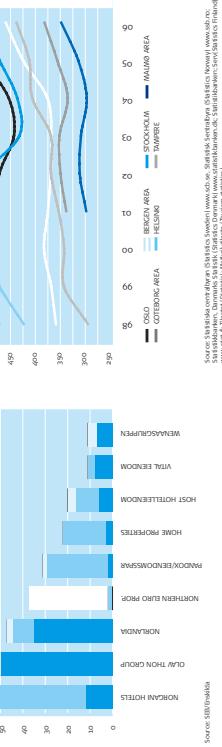

Several significant events took place in the Nordic hotel market in 2006. Rezidor listed on the Stockholm Stock Exchange and Hilton announced that Scandic was for sale. In 2007 it was sold to the private equity company EQT. Scandic accounts for approximately 50 percent of Norgan's rental income and Norgan owns 38 hotel properties that are operated by Scandic.

Statistics for the Nordic hotel market show a positive trend. RevPAR increased in all Nordic countries. Norgan owns 5.1 percent of the room capacity in the Nordic countries. The highest market share is in Sweden with 7.2 percent and the lowest in Denmark with 1.0 percent.

THE SWEDISH MARKET

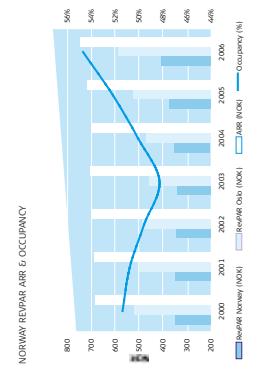

The Swedish market remained very strong in 2006, with an increase in RevPAR (revenue per available room) of 6.7 percent to SEK 422. The largest growth was in Gothenburg, which hosted the European Athletics Championship and Volvo Ocean Race, and saw a RevPAR increase of 11.1 percent. After an increase of 2.2 percent, nominal room prices reached an all-time high at SEK 888, surpassing the SEK 864 level reached in 2002. At 49.7 percent, occupancy reached the highest level in a decade. The capacity increased by 1.2 percent.

The Swedish market constituted 48 percent of Norgan's operating net in 2006 and 43 percent of total investment properties at year-end.

THE NORWEGIAN MARKET
The market was even stronger in Norway than in Sweden. Here, RevPAR increased for the third consecutive year, this time with 8.8 percent to NOK 747. The average room price posted an increase of 4.0 percent, reaching NOK 746. Occupancy improved by 2.5 percentage points to 54.6 percent. The capacity increased by 0.5 percent to 51,811 rooms.

The Norwegian market constituted 26 percent of total investment properties at year-end.

The Swedish market constituted 48 percent of Norgan's operating net in 2006 and 22 percent of total investment properties at year-end.

10

THE FINNISH MARKET

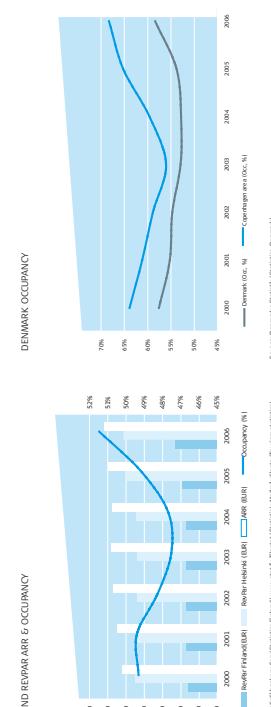

The Finnish market have grown continuously since 2003 and reached its highest level since 1980 in 2006. RevPAR increased 7.7 percent to EUR 42.05, and the average room rate rose 2.8 percent to 83.77. Occupancy was for the first time since 1980 above 50 percent, reaching 51.4 percent. In Helsinki the occupancy rate was 69 percent, and in the second largest city Tampere was 67.9 percent. Capacity increased by 1.4 percent to 47,526 rooms.

The Finnish market constituted 11 percent of Norgani's operating net in 2006 and 30 percent of total investment properties at year-end.

THE DUTCH MARKET

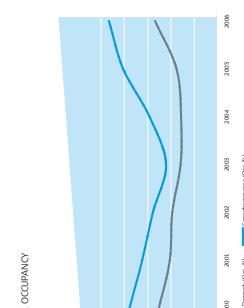

In Denmark occupancy increased by 7.7 percentage points to 58.3 percent. The occupancy level in Copenhagen reached a historically high level of 68.1 percent. There was no significant change in capacity.

The Danish market constituted 12 percent of Norgani's operating net in 2006 and 5 percent of total investment properties at year-end.

The property portfolio

Property portfolio

Norgan's portfolio comprises 72 hotels and 1 congress center with a total of 12,493 rooms and 658,417 sqm representing a market share of 5 percent in the Nordic region.

GEOGRAPHIC DISTRIBUTION BY ROOM

Scandic 50%
Choice 24%
Best Western 16%
Rezidor 9%
Others 12%

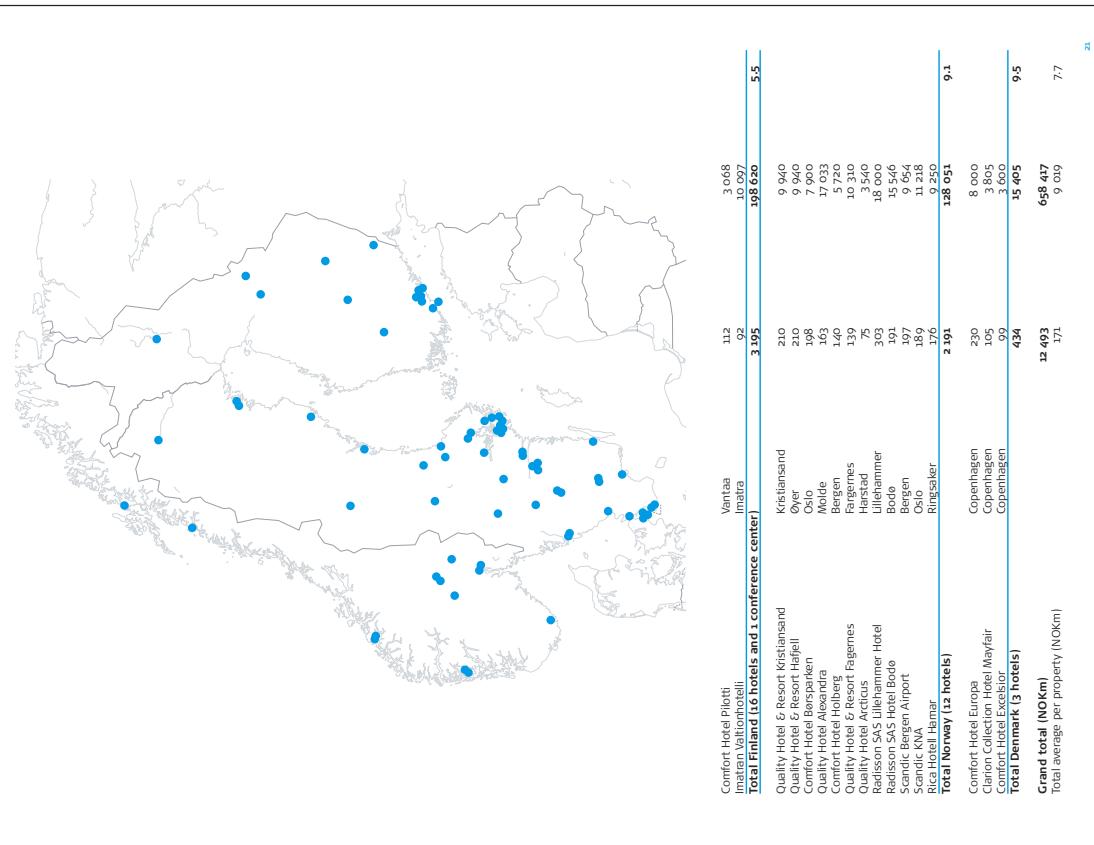

Over half of the room capacity, 53 percent, is located in Sweden and accounts for 43 percent of revenue. Finland and Norway represent 3% and 2% of revenue and a bit less in room capacity. In Finland, Norgan's hotels are mainly situated in the Helsinki metropolitan area, along with the larger brands. The Norwegian hotels are located throughout the country. After the sale of four Danish hotels in 2006, only 1 percent of the room capacity is located in Denmark.

More than 75 percent of revenue comes from hotels located in cities with more than 50,000 inhabitants. Most hotels are mid- and up scale, which have the most stable revenues over time. The average hotel size in the portfolio is 172 rooms, almost three times the average size in the Nordic region of 63 rooms. Norgan aims to maintain an average hotel size exceeding 150 rooms, since larger hotels generally are more profitable.

Tenants are leading international and regional chains such as Scandic Hotels, Choice Hotels Scandina and Rezidor Hotels operated by Scandic Hotels generate 50 percent of Norgan's revenues and represent 55 percent of room capacity. The second largest operator in the portfolio is Choice, which account for 24 percent of revenues and 22 percent of rooms.

At year-end 2006, all hotels were operated under performing contracts with only immaterial variations. The majority of contracts were turnover based leases, which is the most common contract type in the Nordic region.

Lease agreements and guarantees

Lease agreements with hotel operators are either based on the hotel's turnover or fixed CPI-adjusted rents, both for a fixed period of time.

TURNOVER BASED LEASES

A turnover-based rent is generally calculated as a percentage of room sales and food & Beverage (F&B) sales. Normally, this is 25-40 percent of room revenues and 7-12 percent of F&B revenues. Many turnover-based lease agreements also contain a basic minimum rent, which is payable regardless of actual sales and is adjusted annually by changes in the CPI.

In turnover-based leases, the landlord is responsible for external maintenance and the tenant is responsible for operating costs. In several leases, the landlord is also obliged to pay for replacement costs related to technical installations and make certain investments in the premises. Maintenance of technical installations is normally the tenant's responsibility.

Terms for renewal or extensions of leases upon expiry of the fixed-term have been agreed only to a limited extent. However, some lease agreements contain provisions that give the tenant the right to extend the lease on certain defined terms. Tenants of properties in Sweden have, according to Swedish law, an indirect right to lease extension on fair market conditions, upon expiry of the lease term.

FIXED LEASES

For some lease agreements, the rent is charged at a fixed rate for the lease period, and is 85-200 percent CPI adjusted.

OTHER LEASES

For some properties Norgani have other lease agreements with smaller tenants, for example, restaurants, bars, shops etc. Several of these contracts are not fixed term and will remain in force until they are terminated by either the tenant or the landlord.

VENDOR RENTAL GUARANTEES

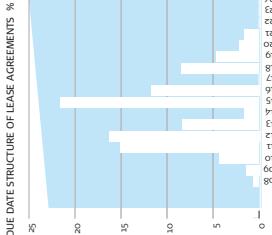

When acquiring its initial three property portfolios, Norgani entered into rental guarantee agreements with each of the sellers. According to these guarantees, each of them guarantee a certain annual gross rent from July 1, 2005 to June 30, 2009 and will reimburse the company for the difference between actual rent and the guaranteed rent. The guaranteed rent is set per property portfolio and is 100 percent CPI adjusted.

Acquisition agreements entered into between October and December 2005 have similar rental guarantees for a period of 4-7 years.

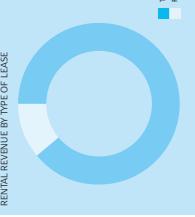

For the fourth quarter 2006, the rental guarantees amounted to NOK 21 million, which corresponds to 1.7 percent of the total rental income. Guarantees to 2006 totaled NOK 203 million, corresponding to 3.0 percent of total rental income. As per December 31, 2006, the weighted average duration of the vendor rental guarantee was approximately 4.3 years.

HOTELLEIENDOMMAS

In December 2005, the company acquired a property portfolio from Home Properties AB comprising 16 hotel properties in Sweden. Home Properties manages the properties and guarantees a minimum net rent subject to 100 percent CPI adjustments until June 2015. Norgani has the option to terminate the agreement, in connection with the lease renewal in December 31, 2008.

Kalastajatorppa is Finnish for fisherman's cottage and from the beginning Hilton Helsinki Kalastajatorppa was a small fisherman's cottage.

It later developed into Finland's most internationally known hotel and its history is today closely intertwined with Finland's political history.
The hotel is located 5 km from Helsinki city centre and 20 km from the international airport. Helsinki City Art Museum is within a fifteen minute walk from the hotel. Kalastajatorppa is currently undergoing the most far-reaching renovation in its history. All the 238 hotel rooms, the restaurants and conference facilities are being renovated to reflect the spirit of the hotel's long history. The hotel has ten conference rooms which can be easily adapted to suit a range of events.

Health, Environment and Safety

Environmental work essential to company value

Operating in a business with environmental impact, all leading hotel operators have developed environmental programs, setting goals for their environmental commitment and responsibility. As an owner of hotel properties, Norgan is an active partner to operators contributing to a continuous improvement in environmental issues.

By acting explicitly and consistently with its environmental issues – within the company as well as in contacts with partners and suppliers – Norgan actively ensures that laws and regulations are followed. Profound knowledge about factors affecting the environment also contributes to property valuations and investment decisions. A structured environmental effort creates value for all of Norgan's stakeholders, including hotel operators and shareholders.

INTERNAL ROUTINES AND POLICIES

In order to comply with laws and regulations, Norgan is implementing internal routines and policies for quality assurance, documentation and reporting of Health, Environment and Safety (HES) matters. In addition to complying with laws and regulations, Norgan actively develops its environmental work in order to contribute to an improved and cleaner environment.

PROPERTIES

Norgan is directly exposed to environmental issues, mainly connected to maintenance and renovation of properties. Important factors to consider include use of recyclable materials and measures to reduce electricity and water consumption. However, Norgan's suppliers, contractors and hotel operators indirectly affect Norgan's overall HES efforts. Therefore, it is essential that Norgan has adequate internal competence and experience within the area.

One person in Norgan's management team has the responsibility to make an inventory of and plan for basic and contin-

ued education of the employees. This way, all employees are involved in and contribute to Norgan's short and long term environmental strategy and work.

SUPPLIERS / CONTRACTORS

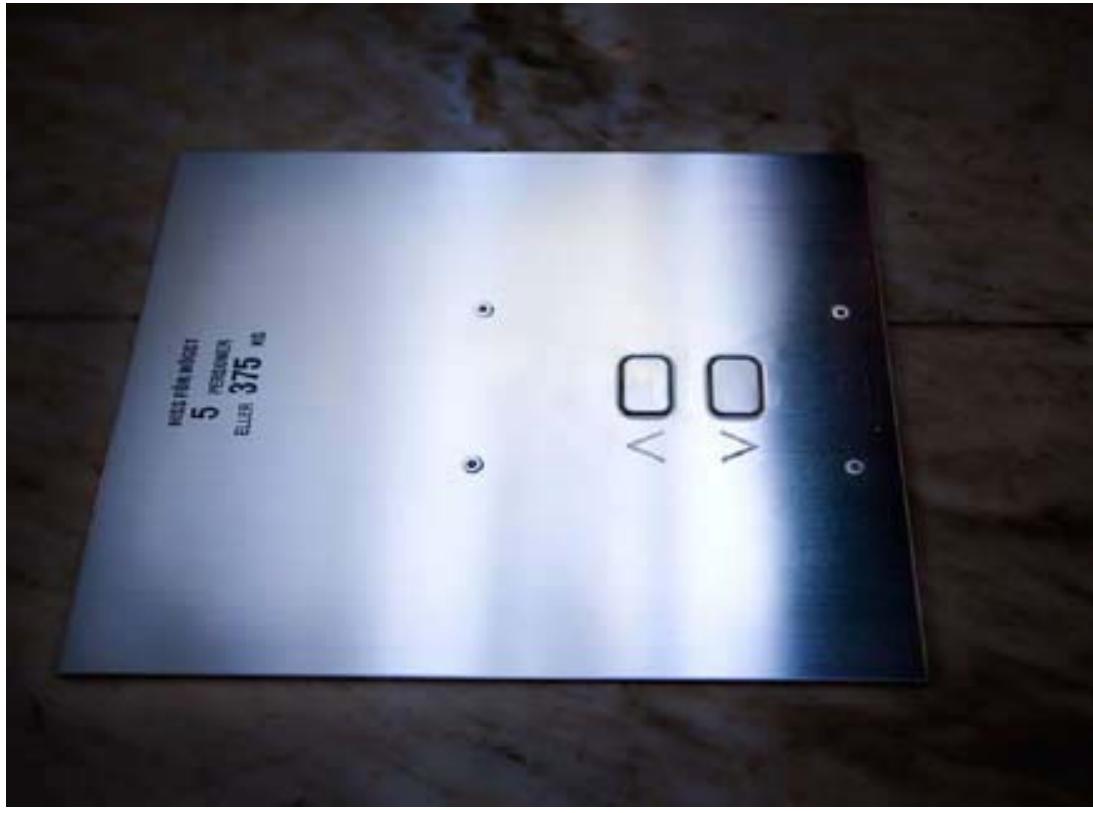

Norgan has direct environmental impact on maintenance and renovation works to be performed in the properties. When contracting suppliers and engaging contractors, environmental demands are set at least in accordance with Norgan's Ecopolicy. Moreover, extensive research is conducted in order to secure that chosen solutions and materials are durable and recyclable, and that it directly and indirectly contributes to low energy consumption.

HOTEL OPERATORS

All new contracts with hotel operators contain routines and regulations for how to pursue health, environment and safety work, including articles of consumption, waste disposal, laundry as well as recommendations for suppliers and contractors, etc. These contracts are followed up annually in environmental audits in which both Norgan and the hotel operator participate. The information from the environmental audits is used as means of control, but also for developing environmental programs or for investment decisions to reduce energy consumption, for example.

SUMMARY

Although Norgan, as an owner of hotel properties, has limited direct environmental impact, Norgan recognizes that it is part of a large and growing business that has considerable environmental impact. Through the position as property owner, Norgan thus aims to reduce the negative environmental impact of its business.

Share and owners

In 2006, Norgani's share price rose 34 percent to NOK 73.50, in the same period, the OSEBX and the OSE40 increased 32 and 37 percent respectively.

MARKET CAPITALISATION AND TURNOVER

Norgani's share has been quoted on the Oslo Stock Exchange since 16 November 2005, when trading closed at NOK 54.90. The closing price on the last day of trading 2006 was NOK 73.50, equivalent to a market capitalization of NOK 2 910 million. A total of 94.4 million shares were turned over in 2006, equal to 2.2 times the total number of shares at year-end. The year low and high were NOK 52.90 and NOK 74.00 respectively.

DIVIDEND POLICY

Norgani's ambition is to distribute as dividend, 50 percent or more of cash flow from operations. All shares rank equally and will be entitled to their share of any dividend that may be declared and paid.

The Board of Directors proposes a dividend of NOK 4.00 per share, amounting to a total of NOK 158 million. The pro-

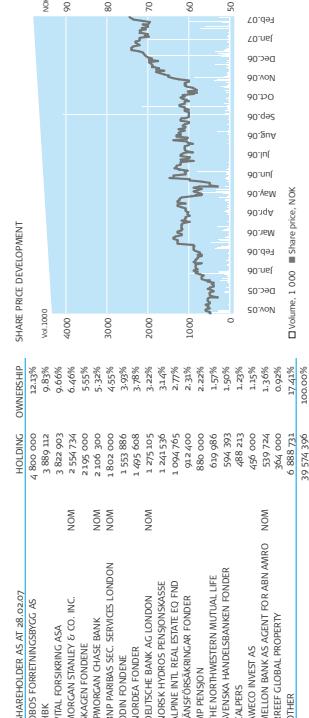

posed dividend corresponds to 59 percent of cash flow from operations. The basis for dividend, cash flow from operations is found in the cash flow statement.

SHARE CAPITAL

After an issue of new shares in July 2006, Norgani had at year-end a share capital of NOK 980 359 000 divided between 30 274 326 shares, each with a nominal amount of NOK 35-. Each share has one vote and confers equal rights to participation in Norgani's assets and profits.

Through the rights issue, which was 65 percent oversubscribed, Norgani raised a total of NOK 490 million by issuance of 9 million new shares at NOK 58 per share.

2006 resulted in a bonus expenditure of NOK 13.5 million, which is reflected in the administrative expenses for 2006. Norgan is an equal opportunity employer; 26 percent of the employees at year end were women, with one woman on the executive management team. The company endeavours to achieve equal representation between the genders and has a good representation of women on both its Board of Directors (40%) and its management team (33%).

FINANCIAL RISK

Norgan is exposed to a variety of financial risks: market risk which includes currency risk and price risk, credit risk, liquidity risk and cash flow and fair value interest rate risk.

Risk management is carried out by a central treasury function under policies approved by the Board. Group treasury identifies and evaluates financial risks in close co-operation with Norgan's operating units.

The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of financial instruments, and investing excess liquidity.

Financial risks are described in more detail in note 25 on page 59.

SHAREHOLDERS

Guidelines for corporate governance are important for Norgan's book value and the cash flow from the sale amounted to SEK 3 million.

Norgan's former CEO Kjell Sagsaard announced his resignation on the 23 March, 2007. Eva Eriksson, formerly CFO has been appointed acting CEO from the 26 March, 2007.

Norgan has primarily applied the unified Norwegian code of practice on corporate governance for listed companies when

drawing up its own principles. The most important exception from this code is the restrictions in the articles of association which prevent any shareholder from voting for more than 30 percent of the shares. This provision was adopted in order to ensure the greatest possible liquidity for the share.

OUTLOOK 2007

The Board believes that the strong growth in the hotel market is set to continue in 2007. Occupancy levels are expected to remain high while average room rate (ARR) may increase. Increase in market supply is not expected to adversely impact the overall market. Norgan will seek to continue to expand, diversify and develop its property portfolio.

SIGNIFICANT EVENTS AFTER YEAR END

On February 12, Norgan entered into an agreement to sell Malmö Grunghotellen 1, a Swedish property in Malmö. Grunghotellen is a mixed-use property, where the hotel part with 84 rooms accounts for 60 percent of the area. The sales price, SEK 8.8 million, was in accordance with the book value and cash flow from the sale amounted to SEK 0 million.

Furthermore, on February 27, Norgan sold the mixed-use property Sporthotel 6 in Norrköping, Sweden for SEK 46 million. The sale, comprising 149 hotel rooms, was in line with Norgan's strategy to actively develop its portfolio and diversify non-core business properties. The sales price was in accordance with book value and the cash flow from the sale amounted to SEK 3 million.

Norgan's former CEO Kjell Sagsaard announced his resignation on the 23 March, 2007. Eva Eriksson, formerly CFO has been appointed acting CEO from the 26 March, 2007.

Corporate governance

Norgani Hotels ASA ("Norgani") is the parent company in the Norgani group which owns hotel properties in Sweden, Finland, Norway and Denmark. Norgani is incorporated and registered in Norway and must therefore comply with applicable Norwegian law. Norgani intends to comply with all relevant laws and regulations, including the Norwegian Guidelines on Corporate Governance which hereinafter is referred to as the "Norwegian Guidelines". The Norwegian Guidelines is applicable for companies listed in Norway on a "comply or explain"-basis.

EQUITY CAPITAL AND DISTRIBUTION

Equity capital

The consolidated equity was NOK 3,056 million as per 31 December 2005 which was decided on a corporate governance policy (the "Company Policy"). The Company Policy includes the measures implemented for the efficient management of and control over Norgani's operations. The objective is to have systems for communication, monitoring and incentives that enhance and maximise corporate profit and shareholders' return through the efficient use of resources. Improvements in Norgani's corporate governance are a continuous process and a field that will have increased focus from the board and the management.

REGULATIONS

In accordance with the Norwegian Guidelines and the Company Policy Norgani is also subject to the corporate governance requirements set out in the Norwegian Public Companies Act 1997 (the "PCA"), the Norwegian Securities Trading Act (the "STA") and the various Norwegian stock exchange regulations (the "SGR"). The discussion below concerns the structure and the order of the Norwegian Guidelines.

MANAGEMENT OF NORGANI

Management and control of Norgani are divided between the shareholders, represented in the general meeting, the board and the chief executive officer ("CEO"). In accordance with applicable company law, Norgani has an external independent audit. In relation with the acquisitions of the major part of the property portfolio, Norgani entered into property management agreements with three different operators being sellers of "insured" most of these services. Norgani has during 2006

PARTIES

Equal treatment

The Company has only one class of shares. Since its IPO, it will be proposed that the board authorisation is limited in time to the AGM in 2008. It will also be proposed that the AGM resolves to grant the board authorisation to acquire own shares. Also this authorisation is proposed to be limited in time to the next AGM. Both the proposed authorisations will substitute existing authorisations.

EQUAL TREATMENT AND TRANSACTION WITH RELATED PARTIES

Parties

At the 2002 annual general meeting (AGM), it will be proposed that the board is granted authorisation to issue new shares. It will be proposed that the authorisation is limited in time to the AGM in 2008. It will also be proposed that the AGM resolves to grant the board authorisation to acquire own shares. Also this authorisation is proposed to be limited in time to the next AGM. Both the proposed authorisations will substitute existing authorisations.

NORGANI'S BUSINESS

Norgani's business is ownership and management of hotel properties. Hotels may be owned through shareholdings in other companies. The business of Norgani as set out above, is in accordance with Norgani's articles section 3. Norgani's business concept and strategies are set out on page 16.

Corporate governance

Transactions with related parties
Norgain has not made any significant transactions during 2006 with related parties.

Transactions with board members and members of management. In addition to the Company Policy, Norgain has adopted instructions to the board members and institutions to the CEO. Pursuant to these internal governing documents, a board member or member of corporate management shall notify the board of interests they may have in transactions or agreements entered into by Norgain. In order to reduce the risk that the management enters into contracts with companies in which board member have a material interest, the board regularly distributes to the management an overview which sets out the roles and positions each board member have in other companies.

VOTING RIGHTS
One element of Norgain's strategy is to work towards liquidity in its shares by having a high freefloat. In order to contribute to achieve this, Norgain's articles contain a voting restriction whereby a shareholder who has acquired shares representing more than 30 percent of the votes cannot exercise voting rights to such shares exceeding 30 percent of the votes without first having made an offer to acquire the remaining shares. Apart from the above, the articles do not contain any limitations with regard to the transferability of the shares.

GENERAL MEETINGS

The shareholders exercise the highest authority in Norgain through the general meeting. The board may convene an extraordinary general meeting whenever it deems necessary or when otherwise legally required. Norgain's auditor and any shareholder or group of shareholders, representing more than 5 percent of the share capital, may require that the board convene a general meeting. The AGM of Norgain will be held each year prior to the end of June. In 2007, the AGM is scheduled to 27 April. The AGM shall approve the annual accounts, including distribution of dividend, and otherwise adopt such resolutions as required under applicable law.

The board will send notices of general meetings no later than

two weeks prior to the meeting and will observe that the notice and any supporting material are sufficiently detailed and comprehensive. The shareholders are, in accordance with the articles and in order to facilitate the meeting, asked to notify Norgain of their attendance three working days prior to the meeting. Shareholders who are unable to attend, may vote by proxy. A notice form and a proxy form will be attached to the notification and proxy cleaned given to the chairman of the board unless any other individual is proposed by the shareholder. Norgain will publish the minutes from general meetings on its website as well as keeping them available for inspection in the offices.

The board, the auditor and members of the nomination committee will all be represented at the general meetings. The board has earlier facilitated, and will continue to facilitate, dialogue with the shareholders at the general meetings. The chairman of the board will open the general meetings, and propose that the shareholders vote for a person, other than a member of the board or the management, to chair the general meeting.

NOMINATION COMMITTEE

Pursuant to its articles, Norgain is to have a nomination committee consisting of two to three members to be elected by the general meeting. The members of the committee are elected for periods of two years and the following committee of three members was elected in 2005:

- Pal Hvammen, Investment Director, Canica AS
- Knut Lunde, CFO, Ventor AS
- Ervin Areun, partner, lawfirm Thommessen

The nomination committee will assess need for changes in the board's composition, and shall pursuant to the articles submit its recommendation to the general meeting regarding nomination of the members to the board and propose their renumeration. Information on the composition of the Norgain's nomination committee along with specific time-limits for proposals to the committee will be provided on Norgain's website.

committees. Primarily due to the fact that members of the management do not form part of the board and that the board considers itself independent, the board has not yet established such committees, but it will continue to evaluate whether such committees should be established.

INSTRUCTIONS AND INTERNAL CONTROL

Norgain's board has adopted internal instructions for the board, which addresses the tasks of the board, the responsibility of the chairman of the board, the procedure, legal incompetence, and division of responsibility between the board and the CEO. The board has further resolved instructions to its CEO, which among other things cover division of responsibility towards the board, authorisations and financial and operational reporting. Pursuant to internal instructions, the board shall receive monthly reports on i.a. financial, operational and HES-related matters.

The board has initiated a process, together with the management and Norgain's external auditor, to review the existing roles and responsibilities of the board and to consider a more documented basis for internal control and to consider a more documented basis for the board's assessment of the internal control.

RENUMERATION OF THE BOARD

None of the board members have during 2006 received remuneration other than board remuneration resolved upon at the AGM in 2006. Norgain has not issued options to the board members.

RENUMERATION OF GROUP MANAGEMENT

The existing compensation to the senior management is made up of a fixed salary element and a bonus element. The bonus element is based on the development of Norgain's share price and 50 percent of the bonus after tax shall be invested in the company shares with a 24 months lock-up period. Determination of the compensation to the CEO is resolved by the board in board meetings. Information on the remuneration to the senior management is set out in note 7 to the consolidated accounts in the annual report.

DISCLOSURE AND TRANSPARENCY

General

Pursuant to the Company Policy, Norgani shall at all times provide its shareholders, Oslo Børs and the financial markets generally (through Oslo Børs' information system) with timely, accurate and equal information, quarterly interim reports, press releases, stock exchange notifications and investor presentations, as applicable. It shall seek to clarify its long term potential, including its strategy, value drivers and risk factors. Furthermore, Norgani shall maintain an open and pro-active investor relations policy, in connection with annual and interim results, Norgani has published an annual overview of important dates on its website, including but not limited to general meetings, financial reports and presentations.

(iv) holds a meeting with the board without the participation of the management, (v) presents an overview of services provided to Norgani besides audit and (vi) in writing, confirms that the requirements in respect of the auditor's independence are met. In respect of the co-financial year, the board has had meetings with the auditor, both together with and without the management present, and to certain extent also received written statements from the auditor, with regard to the annual accounts, internal control routines, scope of services besides audit and the auditors independence. The board will continue to work closely with the auditor to plan his audit reviews for the 2020 financial year. Pursuant to the Company Policy, the management's use of non-audit services from the auditor shall be discussed with the board prior to such engagement.

CHANGE IN CONTROL, TAKEOVERS

Norgani has not established any mechanisms that may hinder a takeover and the articles do not include provisions which limit the purchase of shares in Norgani. Reference is made, however, to the discussion above related to voting restrictions on share capital representing more than 30 percent of the votes.

Norgani's CEO is entitled to a certain severance pay in the case of a change in control situation leading to termination of the position as CEO, unless otherwise is agreed with the board. The compensation is described in note 7 to the consolidated accounts in the annual report.

Communication with Shareholders

Pursuant to the Company Policy and instructions to the board, the CEO and the chairman of the board shall make themselves available for discussions with the major shareholders to develop a balanced understanding of the issues and concerns of such shareholders, however, subject always to the provisions of the NCA, the STA and the SER. The CEO and the chairman shall ensure that the views of the shareholders are communicated to the board as a whole. Information from Norgani to its shareholders shall be disclosed at the website at the same time the information is sent to the shareholders or otherwise communicated to the market.

AUDIT

Under Norwegian law the auditor is elected by the shareholders in a general meeting. The board shall make recommendations to the general meeting on the auditor's appointment, removal and remuneration. The board shall also monitor the auditor's independence and inform the general meeting of any performances by the auditor of non-audit services and payments related thereto. The board will endeavour that the auditor annually (i) presents to the board the framework of the annual accounts etc., (ii) participates in the board meeting which discusses the annual accounts etc., (iii) examine the internal control routines,

General accounting principles

The Norgani consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as well as statements from FRC (the International Financial Reporting Interpretations Committee) endorsed by the EU Commission for adoption by the EU.

For the parent company, accounting has been prepared pursuant to the Norwegian Accounting Act 1996 and generally accepted accounting principles.

Conditions for preparing financial reports

The parent company's functional currency is the Norwegian krone, which is also the reporting currency for all parts of the company and the Group. Unless otherwise stated amounts in the notes refer to NOK, unless otherwise indicated, to the nearest thousand and Norwegian krone (NOK 1000), and otherwise, to NOK million. Assets and liabilities are accounted at historical acquisition values, except investment properties and financial instruments, which are valued at fair value. Changes to estimated fair values are processed through the income statement. Preparing financial reports pursuant to IFRS necessitates the corporate management making evaluations, estimations and assumptions that influence the application of accounting principles and the book value of the assets, liabilities, revenues and costs. These estimates and assumptions are based on historical experience and a number of other factors that appear reasonable in the prevailing circumstances. The result of these estimates and assumptions are then utilized to evaluate book values of assets and liabilities, that otherwise, are not clearly stated from other sources. Actual figures may vary from these estimates and evaluations. Norgani reserves its estimate and assumptions regularly. Revisions to estimates are stated in the period the amendments are made if such amendment only influences that period, the period the revision is effected and future periods. The management's evaluations coincide with the adoption of IFRS if the revision affects the current period and future periods. The management's evaluations in more detail in note 26 and on page 57.

The accounting principles below in the group have been applied consistently for all periods presented in the consolidated financial statements, unless otherwise stated below. The group's accounting principles have been applied consistently in reporting and consolidating subsidiaries and associated companies. If not stated otherwise, accounting principles are the same for the parent company as well as for the group. In that case the parent company principles are stated below the principles of the group. The Annual Report and consolidated financial statement were adopted for publication by the board of Directors on 28 March 2007. The consolidated Income Statement and Balance Sheet and the parent company Income Statement and Balance Sheet will be subject to adoption at the Annual General Meeting on 27 April 2007.

Segments

Norgani applies IAS 14 Segment Reporting. A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other segments. A geographical segment is engaged in providing products or services within a particular country or region that are subject to risks and returns that are different from those of other geographical segments. When a foreign subsidiary only operates in one foreign country, the foreign investments, net assets and liabilities are accounted in the geographical segment, while the only segment presented is the business divided into geographical markets.

Consolidated financial statements

The consolidated financial statements encompass the parent company and subsidiaries within the Norgani group. Subsidiaries are companies over which the parent company has the power to govern the financial and operating policies generally accompanying a share holding of more than 50 percent of the voting right. When assessing whether Norgani controls another entity, the existence

of a controlling influence is determined on the basis of the following criteria:

- the right to exercise significant influence over the financial and operating policies of the subsidiary;
- the right to receive variable returns from the subsidiary's activities;
- the ability to use the subsidiary's assets to settle debts arising from the parent company's obligations to third parties.

If these criteria are met, the subsidiary is included in the consolidation process, where such differences are calculated in agreement with the Group principles. As far as it is possible in the different jurisdictions, the local principles are changed to agree with the Group.

Conversions of foreign operations

The accounts of each of the foreign subsidiaries are prepared in the local currency where the operations are conducted. The consolidated financial statements are presented in Norwegian kroner.

The income statements and balance sheets of foreign operations are converted to NOK using the current method, implying that balance sheet are converted at the exchange rate at the balance sheet date, apart from shareholders' equity which is converted at historical exchange rates. Income statements are converted at average exchange rates of the period. The exchange rate differences arising are accounted directly against shareholders' equity as a translation difference.

The following exchange rates have been used in the conversion of the Income Statement and Balance Sheet respectively:

Balance Sheet	Income Statement
NOK/SEK 0,68698	NOK/SEK 0,68698
NOK/BUR 8,2403	NOK/BUR 8,2403
NOK/DKK 1,0787	NOK/DKK 1,0787

Transactions with related parties

Business terms and market prices apply when supplying services between group companies. The parent company has invited subsidiaries within the group management fees and interest on outstanding loans. Otherwise, no transactions were conducted with board members or senior executives.

Foreign currency transactions

Foreign currency transactions are converted at the exchange rate at the time of the transaction. Foreign currency-denominated assets and liabilities are converted at the exchange rate on the balance sheet date. Where transaction exchange rate differences are accounted in the Income Statement, the exchange rate differences on trading receivables and payables are recognized in operating profit, while exchange rate differences attributable to financial assets and liabilities are accounted in the net financial position.

Acquisitions and disposals

Acquisitions and disposal are accounted for the day it is considered likely that the essential financial rights and risks associated with the transaction change hands. Receivables and

NOTE 8 PROVISIONS FOR PENSIONS		NORGAN ANNUAL REPORT	
Receivable/provisions for pension obligations were recorded in the balance sheet as follows:			
Periodic pension cost			
Interest cost	- 561.16	Interest income	2006
return on plan assets	- 3.80	Group	2006
administrative expenses	9.548	Others	2005
Net periodic pension cost	-580.94	Exchange rate profits	Parent
Reconciliation of funded status		Cash from currency hedge	
Accumulated benefit obligation		Cash from interest swap	
Effects of future wage increases		Other net financial income	
Projected benefit obligation	652.721	Total financial income	21 539
Net obligation of funds	295.984		
Actual calculation assumptions			
The actual calculation of pension obligations and pension expenses is based on the following principal assumptions, each presented as a weighted average for the different pension plans.			
Percentages, expected remaining working life			
2006			
Discount rate	4.35	Expected return on plan assets	5.5
Increase in income base amount	4.5	Base amount	4.25
Annual adjustments to pensions	1.6	Average expected remaining working years	17.8
In the same way as the ordinary bonus agreement, is done			
In case of termination of the CEO's employment contract by Norgan, the CEO is entitled to a severance pay of 18 months salary (24 month salary) if termination takes place during the first two years of employment which is reduced accordingly by other income in the post-termination period.			
In the case of "Change of Control" (CoC), from the point of time a single shareholder or a group of shareholders control more than 50 percent of the shares in Norgan, the company will pay the highest of all the purchase price the shareholders passes 50 percent ownership or six months before the shareholders passes 50 percent ownership with six months before the shareholders passes 50 percent ownership with Norwegian regulations. The calculation of the CoC amount is done			
In the same way as the ordinary bonus agreement, except that the demand of 9 percent minimum return and the agreement is principle is not taken into consideration when the CoC amount is calculated. If no ordinary bonus payment is made then the CoC amount is replaced by the ordinary bonus payment. The reason for this is that the CoC agreement requires the CEO to terminate the CoC agreement. For the three other CoC arrangements the periods vary between three and six month although for termination initiated by the company three month notice applies for one group management and a 12 month notice for the two other group management. No redundancy pay is due up on termination initiated by these senior executives.			
Remuneration to the group management			
Norgan's policy regarding remuneration to executives is based on the assumption that remunerations should be competitive when salary, bonus, pension and other benefits are put together. What is considered as being competitive is decided relative to the international environment that Norgan is active in.			
The policy states that:			
- It should be possible to offer executives bonus as a considerable part of the remuneration. The board should decide the terms of Norgan's bonus plan and the CEO bonus.			
- It should be possible to offer executives options for the purchase of Norgan's shares. It should also be possible to offer executives convertible or other instruments that is common in incentive programs.			
- Executives should as a norm have pension plans that gives them a pension that is related to their salary.			
- Executives could have other benefits such as free cars, news papers and free telephones.

NOTE 22 ASSETS PLEDGED**Market risk****Foreign exchange rate**

A substantial part of Norgani's revenues and expenditures are paid in foreign currency (SEK, DKK and EUR). As a result Norgani is exposed to market risks resulting from fluctuations in foreign currency exchanges. A material loss to the value of such foreign currency as compared to NOK could result in material adverse effect on Norgani's cash flow and revenues. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies.

Credit risk

Norgani is exposed to property price and property rental risks. Norgani has, however, when acquiring hotel properties, received minimum rental fees for sales of most of the properties with an average remaining duration of 4-5 years.

Credit risk

Norgani has no significant concentrations of credit risk. It has policies in place to ensure that rental contracts are made with customers with an appropriate credit history. Even though the credit concentration may appear significant against certain larger hotel operators, this risk is substantially reduced by the way these operators are organized – in several smaller operator companies and separate legal entities. Norgani has policies that limit the amount of credit exposure to any customer or financial institution.

Cash flow and fair value interest rate risk

Norgani is subject to a large extent financed by debt and will be exposed to interest rate fluctuations. Any period of unexpected or rapid increase in interest rates may hence negatively affect cash flow and profitability. Norgani limit the interest rate risk through entering into fixed interest rate contracts swaps. This means that Norgani will experience an adverse value effect in the interest rate contracts compared to the debt when interest rates are fluctuating.

NOTE 23 CONTINGENT LIABILITIES**Demand/Supply**

The demand for accommodation is influenced by several factors, on both a micro and macro level. Negative changes in the general economic situation, including business and private spending, will adversely affect travel and hence the demand for lodging. Historically, positive developments in the hotel markets have been followed by increased construction of hotels. This may lead to oversupply and hence lower revenues for the tenants. In turn this will negatively affect the financial strength of the tenants as well as reduce revenue based components of rents.

NOTE 24 ADDITIONAL INFORMATION**CASH FLOW STATEMENT**

Approved credit facilities amounted to NOK 7 290 million, divided between secured loans of NOK 7 140 million and a revolving facility of NOK 150 million.

The unutilised portion of credit facilities amounted to NOK 75 million. Interest paid for the financial year amounted to NOK 283 million (50). Investments in properties amounted to NOK 35 million (6) and acquisitions amounted to NOK 2 429 million (6 221).

At the end of 2006, the Norgani group has an non restricted equity position from a solid ground for further expansion.

NOTE 25 RISKS, POLICIES AND SPECIAL CONSIDERATIONS**Risk**

Norgani's activities expose it to a variety of financial risks: market risk including currency risk and price risk; credit risk; liquidity risk and cash flow and fair value interest rate risk. Risk management is carried out by a central treasury function under policies approved by the Board of Directors. Group Treasury identifies and evaluates financial risks in close co-operation with Norgani's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investing excess liquidity.

Directors' report

Norgan Hotels AS is the Nordic region's largest hotel property owner, with hotels in Norway, Sweden, Finland and Denmark. The company's objective is to create value through investing in, developing and managing hotel properties by working actively with hotel operators. Norgan focuses primarily on three and four star hotels in towns and cities with more than 50,000 inhabitants across the Nordic region. The lessees are mainly the major hotel chains that operate in the Nordic region; Scandic/Hilton account for around 63 per cent of turnover, Choice Hotels around 21 per cent and SAS Radisson around 5 per cent.

The company's turnover-based leases have benefited in 2007 from the strong growth in the hotel market, at the same time as the value of the hotel properties has increased as a result of, among other things, a renegotiation of lease contracts with Norgan's largest customer the Scandic chain.

The return on equity after tax was 32.4 per cent.

IMPORTANT EVENTS IN 2007

In September Norgan was acquired by Oslo Properties AS, Norwegian Property ASA, which is the Nordic region's largest listed property company, secured control over the company through ownership and shareholder agreements in Oslo Properties AS.

In September a strategic agreement was signed between Norgan and Scandic Hotels AB with the following main elements:

- The rent level on the portfolio was to be increased by EUR 10.5 million from 1 January 2008
- A new indexed minimum rent level of 70% was set
- The average duration of the leases was increased from 6 to 13 years
- Norgan committed to invest EUR 10.5 million in 2008. Investments in subsequent years are to be agreed separately by reference to agreed budgets.

In 2007 Norgan bought five hotels for a total of NOK 900 million - the biggest purchase was the two Scandic hotels Fræsetbakken and Alvik in Stockholm for a total of SEK 727 million. In addition agreement was reached on the purchase of a hotel under construction, Park Inn in Oslo, for completion in 2009. The purchase price of the hotel is NOK 174 million, it will have 118 rooms, plus conference and restaurant facilities, and will be run by the Rezidor Hotel Group.

Four hotels were sold for a total of NOK 148 million in 2007.

Following this Norgan's portfolio consists of 73 hotels and a congress centre, totalling 12,804 rooms and 671,080 m². The book value of the portfolio was NOK 10,731 million as at 31 December.

Rental revenue increased to NOK 699 million (574). Rental guarantees for 2007 include a payment of NOK 30 million to cancel a "bare-boat" contract. Net operating income increased to NOK 634 million (515). The increase reflects a combination of growth in the portfolio as well as the positive growth in the market. Administrative expenses increased to NOK 126 million (-55), due mainly to extraordinary costs in connection with the bidding process for the company and the change in ownership. The change in fair value assessment of the properties contributed NOK 820 million (613) to profits. The profit after tax rose to NOK 1 105 million (710). Taxes amounted to NOK 33 million (222).

Tax

See note 12 to the financial statements for details.

Performance against financial goals

The return on equity after tax was 52.4 per cent for 2007 (29.5), significantly above the target of 15 per cent.

Investments

The book value of Norgan's properties increased by 13.5 per cent to NOK 10 371 million (9 452). The book value includes unrealised fair value adjustments of NOK 820 million. Norgan obtained external independent valuations of its hotel properties as at 31 December 2007 (from DIZ Realkapital for Norway, Sweden and Denmark, and from Makama for Finland). Both companies base their valuations on cash flow models related to rental income on established contracts and market rentals after the expiry of the contract period, ongoing expenses and future upgrading costs. The result from the external valuations corresponds with the company's own valuations on which the book values are based.

Financing

Interest-bearing debt at year end was NOK 6 915 million (7 231) and the debt ratio 63.5 per cent (68.9). Interest cover was 1.60 (2.12) and the average period for which interest was fixed was 3.9 years (4.2 years).

GOING CONCERN

In accordance with the requirements of the Norwegian Accounting Act it is confirmed that the going concern assumption has been met, and that the financial statements for 2007 have been prepared on this basis.

ALLOCATION OF NET PROFIT

The result for the parent company Norgani Hotels AS was a profit of NOK 21.3 million. The company has free equity of NOK 1,685 million (1,815). The Board proposes that the profit is added to retained earnings.

ORGANISATION

At 31 December 2007 Norgani had 19 employees (19), of whom 37 per cent (26) were women. Norgani endeavours to provide equal opportunities for both sexes, and the Board's ambition is that future appointments maintain this balance. 40 per cent of the Board members are women.

No work-related injuries or accidents were recorded involving Norgani's employees in 2007. The Board seeks to maintain a good working environment in the company and to create the conditions, through challenging work, attractive premises and a mix of staff with the right personal qualities, for the development of an efficient and dynamic working environment.

In December the company's Chief Executive Eva Ericsson resigned. Migne Ramlo, the company's Technical Director, was appointed acting Chief Executive from 10 December 2007.

EXTERNAL ENVIRONMENT

Norgani's business – investment in, development, and management of hotel properties, pollutes the external environment only to a minor extent. The company's ambition in its development and refurbishment work is to burden the environment as little as possible through, among other things, the use of the most environmentally-friendly materials.

FINANCIAL RISK

Norgani is exposed to different types of financial risk: market risk, which covers currency and price risks, credit risk, liquidity risk and cash flow and interest rate risk. See further the description in note 26. Risk management is carried out in accordance with guidelines approved by the Board. The Board decides the principles for overall risk management in addition to policies that cover specific areas such as currency risk, interest rate risk, credit risk, the use of financial instruments and the investment of surplus liquidity.

The hotel portfolio consists mainly of good three and four star hotels leased on long-term turnover based contracts, with most contracts having index-based minimum rents. The minimum guaranteed rental revenue for 2008 is NOK 519 million. The average outstanding term of the contracts is 11.0 years.

OUTLOOK FOR 2008

Over time the hotel market grows largely in line with the increase in gross national product. In recent years there has been a high level of demand in the market at the same time as the supply of new hotel capacity to the market has been limited. This has meant that the financial development of hotels, measured as the operators' Revenue Per Available Room (RevPAR), has been considerably stronger in recent years than the rate of economic growth.

So far this year there has been a positive development in the hotel market, even though the turbulent situation in international financial markets has also affected the Nordic region. The Board expects continued growth in the hotel market in 2008. Based on the continuing limited supply of new capacity in the market occupancy levels are expected to remain high, at the same time as a rise in the Average Room Rate (ARR) is still expected.

Norgani's turnover based leases will mean that growth in the hotel market will have an immediate impact on the company's rental income.

IMPORTANT EVENTS SINCE THE YEAR END

In January Rør Ingdal was appointed the new Chief Executive of Norgani Hotels AS. Ingdal took up the post on 15 April.

In January the company offered 20 hotels in Norway, Sweden and Finland for sale. The process is continuing with several interested purchasers, and is expected to be concluded during the second quarter of 2008.

NOTE 1 ACCOUNTING PRINCIPLES

General accounting principles

The Norgani consolidated financial statements have been prepared in accordance with the regulations of 21 January 2008 regarding International Financial Reporting Standards (IFRSs) as well as statements from IFRIC (the International Financial Reporting Interpretations Committee) endorsed by the EU Commission for adoption in the EU.

For the parent company, account has been prepared pursuant to the Norwegian Accounting Act 1998 and generally accepted accounting principles.

Conditions for Preparing Financial Reports

The parent company's functional currency is the Norwegian "krone", which is also the reporting currency for the parent company and the group. Unless otherwise stated, all amounts in the notes disclosures are rounded to the nearest thousand Norwegian kroner (NOK 000), and otherwise in NOK million. Assets and liabilities are accounted at historical acquisition values, except investment properties and intangibles in intangible, will be valued at fair value. Changes to estimated fair values are processed through the income statement.

Preparing financial reports pursuant to IFRS necessitates the corporate management making evaluations, estimates and assumptions that influence the application of accounting principles and the book value of the assets, liabilities, revenues and costs. These estimates and assumptions are based on historical experience and a number of other factors that appear reasonable in the prevailing circumstances. The result of these estimates and assumptions are reflected in the financial statements. The Group's accounting policies are applied consistently from year to year. The Group's accounting policies are based on the principles of the International Accounting Standard (IAS) and the International Financial Reporting Interpretations Committee (IFRIC). Revisions to estimates are evaluated in the period the adjustments are made if such amendment only influences that period, or the period the revision is effected and future periods if the revision affects the current period and future periods. The management report and conducted estimates are reviewed in more detail in Note 21. The Group's accounting principles have been applied consistently from year to year. The Group's accounting principles have been applied consistently in otherwise stated below. The Group's accounting principles have been applied consistently in reporting and consolidating subsidiaries and associated companies. If not stated otherwise below, accounting principles are the same for the parent company as well as for the group. In that case the parent company principles are stated below the principles of the group. The Annual Report were adopted by the board of Directors on 24 April 2007.

Segments

Norgani applies IAS 14 Segment Reporting. A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and return that are different from those of segments operating in other economic environments. Norgani only operates in one business segment, hotel properties, why the only segment presented is the business divided into geographical markets.

Consolidated financial statements

The consolidated financial statements encompass the parent company and subsidiaries within the Norgani Group. Subsidiaries are companies over which the parent company has the power to govern the financial and operating policies generally accompanying a share holding of more than 50 percent of the voting right. When assessing whether Norgani controls another entity, the existence and effect of potential voting rights that are currently exercisable or convertible are considered.

The consolidated financial statements have been prepared pursuant to acquisition accounting, implying that assets and liabilities are valued at fair value at the time of acquisition, pursuant to the acquisition analysis prepared. Acquired companies' revenues and costs are consolidated from the time of acquisition onwards, implying that the company starts contributing to the consolidated assets after its acquisition. Divested companies' income statements are incorporated until the date when the controlling influence ceases. Intra group revenues and liabilities, revenues of costs and unrealized profits or losses arising from group transactions are eliminated entirely when the consolidated financial statements are prepared.

Any differences in accounting principles between the Group accounting principles and the local GAAP has been taken into consideration in the consolidation process, where such differences are recalculated to agree with the Group principles. As far as it is possible in the different jurisdictions, the local principles are changed to agree with the Group.

Conversion of foreign currency

The accounts of the foreign subsidiaries are prepared in the local currency where the operations are conducted. The consolidated financial statements are presented in Norwegian kroner. The income statements and balance sheets of foreign operations are converted to NOK using the current method, implying that balance sheets are converted at the exchange rate at the balance sheet date, apart from shareholders' equity which is converted at historical exchange rates. Income statements are converted at average exchange rates of the period. The

exchange rate differences arising are accounted directly against shareholders' equity as a translation difference. The following exchange rates have been used in the conversion of the Income Statement and Balance Sheet respectively:

	Income Statement	Balance Sheet
NOK/SEK	0.8663	0.84566
NOK/EUR	8.0139	7.96594
NOK/DKK	1.0756	1.06818

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as such in the Income Statement, are recognized as part of the gain or loss on sale. Exchange differences are recognized in the Income Statement as part of the gain or loss on sale.

Transactions with related parties

Business terms, and market prices apply when supplying services between group companies. The parent company has provided subsidiaries within the group management fees and interest on outstanding loans. Otherwise, no transactions were conducted with board members or senior executives.

Foreign currency transactions

Foreign currency-denominated monetary assets and liabilities are converted at the exchange rate at the time of the transaction. The exchange rate differences are accounted in the Income Statement. The exchange rate differences on trading receivables and liabilities are accounted in operating profit, while exchange rate differences attributable to financial assets and liabilities are accounted in the net financial position.

Acquisitions and disposals

Acquisitions and disposals are accounted for the day it is considered likely that the essential financial rights and risks associated with the transaction change hands. Receivables and liabilities vis à vis counter parties between the transaction date and settlement date are accounted in gross terms under other receivables and other liabilities respectively.

Acquisitions of assets

In recent years indirect property transactions using companies incorporating the properties have become more common, unlike previously. When transactions were direct, asset acquisitions using corporate transactions are accounted as if the relevant property/properties had been acquired directly. This type of acquiring enterprise normally has no employees or organizational resources, or other operations than those directly attributable to the property holding. The acquisition value corresponds to the fair value of assets and potentially related borrowings. Deferred tax is not recognized on potential surplus attributable to the costs from the initial acquisition made in 2001 as these purchases from the transaction costs from the initial acquisition are included in the degradation value of the property.

The Income Statement

The Income Statement has been structured with the ambition of revenues and costs, and thus providing an accurate impression of cash flows from operating activities as possible.

The Income Statement indicates the division of operations, which are clarified through separate accounting of operating net, administrative costs and amortization costs and unrealized value changes. The internal order is determined by the structure of the operations and unrealized value changes.

Unrealized value changes comprise value changes on investment properties and financial instruments held by the group during the year. Norgent considers that value changes correlated negatively with, and are primarily explained by, changes in interest rates. Property market pricing is normally dependent on interest rates, and with the selected interest fixing strategy, the market value of the lease bearing liability is accounted for. Accounting within the property market value of the lease bearing liability is based on the fair value of the property. The unrealized value changes are recognized through gains/losses on the fair value of the property. The unrealized value changes, termed realized value changes, income relating to rental guarantees from sellers is accounted for as a part of the acquisition of the relating subsidiary in the group. In the consolidation process, the part of the acquisition value relating to rental guarantees is eliminated and presented as rental guarantees in the Income Statement. Rental guarantees in the Income Statement includes rental guarantees relating to the current year as well as any terminated guarantees agreed on at year-end.

Revenue

Rental contracts are classified as operational leasing agreements. Proceeding from the assumption that the related property remains in Norgent's ownership even if the contract runs for up to 29 years. Rental revenues are divided over time pursuant to the content of contracts, with consequences including rental discounts accounted in the period to which they apply. Property trading, as for property and corporate investments,

divestments imply the transactions being accounted, and the revenue recognized, when it is likely that the group will receive the related financial benefits. Rental revenue and rent subsidies are recognized in the period to which it relates.

Net financial position

Financial expenditure coincident with property construction are capitalized in the construction period while that associated with extension and conversion is written off on an ongoing basis because generally, the construction period is shorter. Derivative instruments are utilized to achieve the desired interest fixing. Revenues and costs associated with such instruments are accounted on an ongoing basis, with the revenue and costs for redemption on renegotiating of derivatives, as well as prepayment penalty interest, accounted as they arise. Cost associated with funding facilities are allocated during the terms of the facility and is included in other financial items.

Income tax

The Income Statement accounts current and deferred income tax on all entities in the group apart from when the underlying transaction is accounted directly against shareholders' equity. Group companies are liable for tax pursuant to current legislation in each country. Over the last years, the tax rate in Norway, Sweden and Denmark has been 28 percent and 36 percent in Finland, calculated on ordinary income plus non-deductible items, and reducing non-deductible tax allowances on income from foreign branches and foreign bonds. Deferred tax assets and liabilities identified on the balance sheet date. Temporary differences arise in previous years' balance sheet date are valued at nominal tax rates, and the changes from the previous years' balance sheet date are accounted as deferred tax in the Income Statement. Deferred tax assets on deductible temporary differences and loss carry forwards are only accounted to the extent that it is highly possible that they will be utilized. The value of deferred tax assets is reduced when it is no longer considered likely that they can be utilized.

Employee benefits

Employee Benefits such as salary and social security costs, holiday- and paid sick absence etc. are accounted as staff conduct employment. Norgent has adopted IAS 19 Employee Benefits as well as other disclosures stipulated by the Norwegian Annual Account Act. All of the employees in Sweden and Finland are covered by defined contribution pension plan. When contributions are made to the pension fund, the employer is entitled to a tax deduction. Employees in Sweden are eligible for retirement pension and family pension. In Finland the employees are entitled to statutory pension benefits pursuant to the Finnish Employees' Pension Act. In Norway the employees are covered by defined benefit pension plans, which mean that the individual is guaranteed a pension equal to a certain percentage of his or her salary. The present value of pension obligations and pension costs are calculated annually, using the projected unit credit method. Actuarial assumptions are determined close to the balance sheet date. Changes in the present value of pension obligations due to changes in the actuarial assumptions are recognized as gains or losses. Expected and actual return on plan assets are treated as actuarial gains or losses.

Leasing

Norgent is party to a few number of smaller-scale leasing contracts on office machines and company cars. The aggregate total of these contracts is not significant. Proceeding from the financial risk remaining with the lessor, all final, ground rent and leasing contracts have been accounted as operating lease contracts. Leases are accounted for as they arise. Around 20 of the properties are held under leasehold rights. For more information on lease contracts, see note 4.

Classification of the balance sheet

Norgent's operations comprise a high number of rental properties, rented to external tenants for varied rental periods, which can run for up to 30 years. Tenants repossessions are conducted before the end of the contract term, proceeding from the rental level and other terms of the contract, unless the contract has been terminated. However, as Norgent always have a contract, unless the contract has been terminated, it is difficult to define how long a property is expected to be held with these considerations. Assets and liabilities in the balance sheet are presented in declining order of liquidity, because this offers information that is reliable and relevant to operations. In the parent company net current assets comprise creditors due within one year. Other entries are classified as fixed assets and/or long term creditors. This is not in accordance with the group classification noted above.

Properties

Properties are accounted in subsidiaries at acquisition value, with the capitalization of expenditures effected when the released actions result in future financial benefits. These market valuations are accounted as a cost in the period in which they arise. Other additional expenses are accounted to the methods stated below. Other additional expenses are accounted as a cost in the period in which they arise.

Investment property

Buildings and land owned with the intention of generating revenues and/or value growth, and that is not occupied by the companies in Norgent, are classified as investment properties in the group. IAS 40 is applied, with these holdings valued at fair value, barring the year,

Real estate used in business operations

If an investment property becomes owner occupied, it is reclassified as real estate used in business operations, and its fair value at the date of reclassification becomes its cost for accounting purposes. No properties held by Norgani are owner occupied. Norgani rents all properties to third-party tenants.

Construction in progress

Buildings under construction for future use as investment properties or real estate used in business combinations are accounted for until the relevant work concludes. If IAS 16 is observed until the property is completed, then transfers to investment property or real estate used in business operations. Norgani has no construction in progress at year end.

If an investment property becomes owner-occupied, it is no longer a business operation.

Equipment, Fixtures and Fittings Equipment, fixtures and fittings have been accounted at acquisition value less accumulated depreciation according to plan and any potential write downs. IAS 16 is applied. Equipment is depreciated at a straight line method, allocating the cost over the estimated useful lives, which can be up to ten years.

Dynamical mechanisms

- Lease renewal cost - based on experience of lease renewal of similar properties and findings

from the technical due

- Owner's cost, opex - estimates are based on individual assessments of each property and the properties in the respective lease contract.
- Capital expenditures, capex - for the first year in the calculations, the spending plan 2008 for each property have been taken into account. For the rest of the period a template is used until there is a lease renewal during the period.
- Discount rate - projected net cash-flow have been discounted at interest rates that represent discount rates of return on total capital. The discount rate is based on market transactions and judgmental based on experience of market expectations on the yield-level for similar properties. In general the yield risk of an investment varies primarily with location but also with tenant creditworthiness, property type and quality. The range in the yield is 5-9 percent. The average yield is 6.6 percent.
- Residual value - the residual value is the market value of the property at the end of the period. The estimated market value is based on the projected cash-flow in the last year of the period and a direct capitalisation with the yield requirement, adjusted to market expectations.
- No tender, rental increases - for each property, have been taken into account in the calculations. Earmarked valuations are conducted on new properties and properties with special considerations. The external valuation is regarded as a quality control of the internal valuations.

Financial instruments

Financial instruments are valued and accounted in the group pursuant to the stipulations of TAs 39, implying that they are initially accounted at acquisition value, corresponding to the fair value of instruments, plus transaction costs for all financial instruments apart from those accounted as fair value in the Income Statement.

The fair value of listed financial assets is offset by the asset's quoted bid price at the balance sheet date. The fair value of unlisted assets is determined by comparisons with similar instruments or discounted cash flows.

Long-term receivables, which exclusively comprise promissory notes, have been valued at accrued acquisition value. Current receivables are accounted at the amount at which they are expected to arise, subsequent to a case-by-case assessment.

Accounts receivables are accounted as the amount expected to arise less doubtful debt, which is evaluated on a case-by-case basis. Significant financial difficulties of the debtor, or probability that the debtor will enter bankruptcy or financial reorganization and default, or the insolvency of the debtor, are taken into account when determining whether the accounts receivables are impaired. The impairment loss is measured as the difference between the carrying amount and the present value of cash flows discounted at the effective interest rate.

Liquid assets encompass cash and immediately accessible postalgiro and bank balances.

Liabilities are initially accounted at fair value less deductions for transactions cost. After the time of acquisition, loans are valued at acquisition value pursuant to the effective interest method. Accounts payable is valued at nominal amount without discounting. The debt portfolio constitutes a considerable portion of the passive side of the balance sheet. The group has given the selected interest fixing strategy, value changes on interest bearing liability are assumed to correlate with value changes on the property portfolio. No provision is made for impairment losses on financial assets and liabilities arising from the financing of the business.

As the parent company has a different classification of the Balance Sheet - noted below are clarifications on any differences to the Group principles; which override the terms above regarding any balance sheet items in the parent company only:

Current assets are valued at the lower of acquisition cost and fair value. Short term creditors are recognised at nominal value. Fixed assets are valued by the cost of acquisition of the asset and a reduction in value if the asset will be written down to the fair value amount.

Derivative financial instruments and hedging activities

Derivatives are initially recognised at fair value as measured at fair value. The method of recognising the derivative gain or loss depends on whether the derivative is designated as a hedging instrument, transaction or the nature of the item being hedged. Norgani documents as at the inception of the relationship between hedging instruments and hedged items, as well as its risk management strategy for undertaking various hedge transactions. Norgani also documents its risk assessment, both hedge inception on an ongoing basis, of whether the derivatives are effective and strategy for undertaking various hedge transactions.

The fair values of various derivative instruments used for hedging purposes are disclosed in page 42. The movements of the hedging reserves in shareholders' equity are shown on page 42. The fair value of the derivatives associated with interest bearing debt is classified as net investments in foreign operations in the Income Statement. Gains and losses accumulated in equity are recognised in the Income Statement.

Equity Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Write down The book value of the group's and parent company's assets is subjected to impairment tests at each balance sheet date. Receipts apply to assets for sale, investment properties and deferred tax assets. If an indication of need for write downs arises, the asset's recoverable value is calculated. Impairment tests are conducted on the aforementioned assets pursuant to the relevant standards issued by the FASB and IASB. Any impairment losses arising after reversal of impairment losses will be recognised in profit or loss. Impairment losses after reversal do not exceed the original impairment loss.

Contingent liability A contingent liability is accounted for when there is a possible commitment attributable to events that have occurred and there is a probability over-weight that the size of the obligation can be estimated with a sufficient level of security.

Performance related pay

For all employees in Norgani the bonus in 2007 reflects the performance of the Norgani share price. The reasonable age of the group management in Sweden is 65 and in Norway 67 years. In Sweden all group management have defined contribution pensions schemes, with no commitments for the company apart from the obligation to pay annual premiums.

For the group management in Sweden the premiums are 20 percent of pensionable salary. The group management in Norway is part of the Norgani's pension scheme on normal terms. The CEO is a member of the Norgani's pension scheme on normal terms. The retirement pension equivalent to 70 percent of pensionable salary becomes payable on retirement, the Company's pension scheme offers 60 percent of pensionable salary becomes payable on retirement or public service pensions. Paid in premium to deposit based schemes was NOK 4 639 million.

Redundancy payments

In case of termination of the CEO's employment contract by Norgani, the CEO is entitled to a severance pay of 18 month salary (24 month salary if termination takes place during the first two years of employment) which is reduced accordingly by other income in the post-termination period.

The case of "change of control" (CoC) applied in 2007 - from the point of time a single shareholder or a group of shareholders controls more than 50 percent of the shares in Norgani, the company will pay the highest of all the purchase price the shareholders have bid in the period of six month before shareholders passes 50 percent ownership and b) the price offer according to the obliged bid in accordance with Norwegian regulations. The calculation of the CoC amount is done in the same way as the ordinary bonus agreement, except that the demand of 9 percent minimum return and the reinvestment principle will not be taken into consideration. The CoC agreement replacing the ordinary bonus payment for the year the CEO retires is disbursed, finally remuneration based on the CoC agreement requires the CEO retirement after the CoC occurred.

For the three other group management, notice periods vary between three and six month.

Remuneration to the group management

Norgani's policy regarding remuneration to executives is based on the assumption that remunerations should be competitive when salary, bonus, pension and other benefits are put together. What is considered as being competitive is decided relative to the international environment that Norgani is active in.

The Policy states that:

- It should be possible to offer executives bonus as a considerable part of the remuneration.

The board should decide the terms of Norgani's bonus plan and the CEO bonus.

- Executives should as a norm have pension plans that gives them a pension that is related to there salary
- Executives could have other benefits such as free cars, news papers and free telephones.

Norgani has fixed the majority of its borrowing interest rate exposure through interest rate swaps as described in the table below. Norgani's strategy regarding interest rate exposure is to fix a minimum of 70 percent of its exposure at any time for a period of minimum three years. Fixing interest rates at a high level of Norgani's debt on foreign currency derivatives has the effect of fixing the interest rate on a portion of Norgani's debts on foreign currency derivatives. Interest costs may increase or decrease as a result of such changes.

Derivatives are booked with gross value in the parent company accounts while net value is booked against debt in the group.

Norgani ASA has obtained fair value calculations from third party professionals in the finance industry for market value, adjusting different cash flows with zero discount yields based on officially quoted prices. All values represent a contracted rate and will not necessarily be realized.

The loan agreements contains financial covenants such as interest rate coverage requirements, equity requirements and "loan-to-value" requirements (LTV).

The un-utilised portion of credit facilities amounted to NOK 75 million. Interest paid for the financial year amounted to NOK 335 million (231). Investments in properties amounted to NOK 6,740 million, group loans till Norwegian property ASK of NOK 435 million (207).					
Norgani has an non restricted equity of NOK 2,582 million (1,635), which together with a mortgage ratio of 64 percent (76) form a solid ground for further expansion.					

NOTE 25 Risks, policies and special considerations					
Market risk					
A substantial part of Norgani's revenues and expenditures are paid in foreign currency (SEK, DKK and EUR). As a result Norgani is exposed to market risks resulting from fluctuations in foreign currency exchange rates. A material drop in the value of any such foreign currency as compared to NOK could result in a material adverse effect on Norgani's cash flow and revenues. The Group has certain investments in foreign operations, whose net assets are exposed to risk management as well as market risk. The Group provides written principles for overall risk management covering specific areas, such as foreign currency exposure, derivative financial instruments as well as trading of financial instruments and investing excess liquidity.					
Price risk					
Norgani is exposed to property price and property rental risks. Norgani has, however, when acquiring properties, received minimum rent guarantees from sellers of most of the properties with an average remaining duration of 3-0 years.					
Credit risk					
Norgani has no significant concentrations of credit risk. It has policies in place to ensure that rental contracts are made with customers with an appropriate credit history. Even though the credit concentration may appear significant against certain larger hotel operator chains, this risk is substantially reduced by the way these operators are organized - in several smaller operator companies and separate legal entities. Norgani has policies that limit the amount of credit exposure to any customer or financial institution.

To the Annual Shareholders' Meeting of Norgani Hotels AS

AUDITORS REPORT FOR 2007

We have audited the annual financial statements of Norgani Hotels AS as of 31 December 2007, showing a profit of MNOK 2,13 for the parent company and a profit of MNOK 1,105,- for the group. We have also audited the information in the Board of Directors' report concerning the financial statements, the going concern assumption and the proposal for the allocation of the profit. The annual financial statements comprise the parent company's financial statements and the group accounts. The parent company's financial statements comprise the balance sheet, the statements of income and cash flows, the statement of changes in equity and the accompanying notes. The rules of the Norwegian Accounting Act and generally accepted accounting practice in Norway have been applied to prepare the parent company's financial statements. The group accounts comprise the balance sheet, the statements of income and cash flows, the statement of changes in equity and the accompanying notes. Simplified application in accordance with the Norwegian Accounting Act § 9 of International Financial Reporting Standards as adopted by the EU has been applied to prepare the group accounts. These financial statements are the responsibility of the Company's Board of Directors and Managing Director. Our responsibility is to express an opinion on these financial statements and on other information according to the requirements of the Norwegian Act on Auditing and Auditors.

We have conducted our audit in accordance with the Norwegian Act on Auditing and Auditors and generally accepted auditing practice in Norway, including standards on auditing adopted by Den norske revisorforening. These auditing standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. To the extent required by law and generally accepted auditing practice, an audit also comprises a review of the management of the Company's financial affairs and its accounting and internal control systems. We believe that our audit provides a reasonable basis for our opinion.

In our opinion,

- the parent company's financial statements are prepared in accordance with law and regulations and give a true and fair view of the financial position of the Company as of 31 December 2007, and the results of its operations and its cash flows and the changes in equity for the year then ended, in accordance with generally accepted accounting practice in Norway.
- the group accounts are prepared in accordance with law and regulations and give a true and fair view of the financial position of the Group as of December 31, 2007, and the results of its operations and its cash flows and the changes in equity for the year then ended, in accordance with simplified application in accordance with the Norwegian Accounting Act § 9 of International Financial Reporting Standards as adopted by the EU
- the Company's management has fulfilled its duty to see to proper and well arranged recording and documentation of accounting information in accordance with law and generally accepted bookkeeping practice in Norway
- the information in the Board of Directors' report concerning the financial statements, the going concern assumption and the proposal for the allocation of the profit, is consistent with the financial statements and complies with law and regulations.

Cash flow and fair value interest rate risk
Norgani is to a large extent financed by debt and will be exposed to interest rate fluctuations. Any period of unexpected or rapid increase in interest rates may hence negatively affect cash flow and profitability. Norgani limit the interest rate risk through entering into fixed interest rate contracts/swaps. This means that Norgani will experience less effect in the interest rate contracts compared to the debt when interest rates are fluctuating.

Demand/Supply
The demand for accommodation is influenced by several factors, on both a micro and macro level. Negative changes in the general economic situation, including business and private spending, will adversely affect travel and hence the demand for lodging. Historically, positive developments in the tourism markets have been followed by increased construction of hotel. This in turn will affect the financial strength of the markets as well as reduce revenues based components of rents.

Independent Assurance Report on the Pro Forma Financial Information

To the Board of Directors of Norwegian Property ASA

In accordance with the EU Regulation No 809/2004 as included in the Norwegian Securities Trading Act section 7 – 13, we report on the compilation of the unaudited pro forma financial information of Norwegian Property ASA and subsidiaries (“the Company”) consisting of the unaudited profit and loss accounts of the Company for the periods ended 31 December, 2007 and the accompanying notes and descriptions to the unaudited pro forma financial information, which is set out in section 9 of the Company’s prospectus dated 25 June, 2007 (“the Prospectus”).

The pro forma financial information has been compiled on the basis described in section 9 of the Prospectus, for illustrative purposes only, to provide information about how the acquisition of Norgani Hotels might have affected the unaudited consolidated profit and loss account of the Company for the year ended 31 December, 2007. Because of its nature, the pro forma financial information addresses a hypothetical situation and, therefore, does not represent the Company’s actual financial position or results.

The Board of Directors’ responsibility

It is the Board of Directors’ responsibility to compile the pro forma financial information in accordance with the requirements of EU Regulation No 809/2004 as included in Norwegian Securities Trading Act.

Reporting responsibility

It is our responsibility to provide the opinion required by Annex II item 7 of EU Regulation No 809/2004 as to the proper compilation of the pro forma financial information. We are not responsible for updating any reports or opinions previously made by us for any events that occurred subsequent to the dates of our reports on the historical financial information used in the compilation of the pro forma financial information, nor does the aforementioned opinion require an audit of historical unadjusted financial information, the adjustments to conform the accounting policies of Norgani Hotels to the accounting policies of the Company, or the assumptions summarized in section 9 of the Prospectus. The financial information used in the compilation of the pro forma information is unaudited and/or audited as described in section 9 of the Prospectus. We do not accept any responsibility for financial information which we have not audited.

About DTZ

DTZ is one of the world's leading real estate advisers, providing innovative real estate and business solutions. DTZ is a leading name in all the world's major business centres, with 9,000 people operating from 192 offices in 40 countries. In Europe, DTZ has one of the strongest market presences of any real estate adviser. Within Asia Pacific, DTZ is a leader in all the main markets of Australia, New Zealand, China, Hong Kong, Taiwan, India, Japan, Singapore, and South East Asia.

DTZ also delivers real estate services and solutions to multi-national corporates in North America. DTZ Rockwood offers investor clients a comprehensive capital markets capability, while an alliance with The Straubach Company provides occupier representation services.

Around the world, DTZ professionals advise multi-national companies, major financial institutions, property companies, banks, governments and other public sector organisations.

DTZ's transactional business advises on the purchase, sale, leasing and acquisition of all types of commercial and residential real estate. Professional advisory services include the management of real estate portfolios, building consultancy, and valuation, as well as capital advice to maximise the value of real estate as an asset class.

DTZ's research teams track and interpret the market forces and trends that affect our business to provide the best-informed solutions for our clients. This includes strategic forecasting and social, economic, market and business intelligence to public and private sector clients, enabling a full assessment of impact and risk on their operations.

Valuation experience and capacity

DTZ employs around 340 full time valuers in the EMEA region (Europe, Middle East, and Africa). Capacity in Scandinavia includes 12 valuers in Sweden, 3 in Norway, 2 in Denmark, and 1 in Finland.

DTZ is the leading independent valuer of commercial property in Sweden, a leading provider of transaction motivated valuation of commercial property in Norway, and the preferred valuer for several of the largest investors in the Danish and Finnish markets.

DTZ was voted best valuation company, Nordic region, by Euromoney in all of their three most recent polls.

Independency
We confirm that neither DTZ nor any of its subsidiaries or affiliates have any vested interest in any of the properties subject to valuation.

Disclaimer

DTZ has valued the properties from a market point of view. We have not undertaken any technical inspection of the properties, but base our assumptions on the information we have received from Norwegian Property ASA. We assume that there is no further information regarding the properties' conditions, possible restrictions, covenants or otherwise that would have had an impact on our assessments and valuations, other than what we have already received.

Valuation Report Norwegian Property ASA per 30 March 2008

30 March 2008

Introduction

DTZ has undertaken the assessment based upon material we believe to be reliable in our possession or supplied to us. Whilst every effort has been made to ensure its accuracy and completeness, we cannot offer any warranty that factual errors may not have occurred. DTZ takes no responsibility for any damages or loss suffered by reason of the inaccuracy or incorrectness of our valuation.

We are aware and accept that our valuation may be attached to the Company's reports to Oslo Stock Exchange.

Commission

Client

The Client for our valuation is Norwegian Property ASA.

Objective

The objective was to assess the market value of properties held by the Client as of 30 March 2008. The valuation was carried out during March 2008. Neither market events nor property-specific events after this date have been taken into account in our valuation.

Methodology, definitions and assumptions

General

Scope of work

The basis for valuation is discounted net cash flows from the properties, and discounted residual values at the end of the forecast period

All assessments have been based on DTZ's expertise, which has been supported by market research reports, visits to the properties, macro-economic and general sector information, and other inputs. Whilst every effort has been made to avoid errors, ensure consistency, and apply the most realistic assumptions possible, we cannot assume any liability for opinions formed or decisions made on the basis of this valuation.

Investment market framework

There is now a consensus among most market actors that yields are trending upwards. The first yield increases were seen in secondary properties and in secondary markets. As per March 2008, yields have increased for all property categories.

This trend is not seen only in Norway but in other countries as well. DTZ tracks yield expectations in 44 European markets. The most recent survey indicated that yields will increase within twelve months in 21 of these markets, and remain stable in 20 markets. Yield compression is now expected in only 3 main European markets (Moscow, Istanbul and Turin). London, which often precedes developments in other European markets, has seen yields widen from around 4.25% at the start of 2007 to around 5.00% - 5.25% at the end of the year – a full 75 to 100 basis points during the course of a year.

In Scandinavia, Copenhagen was the first major city to report an increase in prime yields. In Oslo, DTZ estimates that prime yield per March 2008 is around or above 5.5%. This reflects a definitive yield shift since only a quarter or two ago. We expect that yields will continue to widen in most Scandinavian markets.

Because of the recent volatility in the rent market, actual initial yields often differ very much from the normalized 'prime yield' level, which assumes that a property is let at near market terms. This is particularly true in Oslo CBD and inner city, where most properties are under-rented in today's market. Lease duration is therefore crucial for actual initial yield.

Tenancies and Rental Revenue

The office properties derive their income from lease agreements where the agreed rent is adjusted with a defined annual uplift, expressed as a percentage of the Consumer Price Index (CPI). Individual differences in the level of indexation has been taken into account in our cash flow forecast.

Some retail properties and hotel properties have turnover based rent contracts, where rents are computed from agreed percentages of gross turnover. Most of these tenants have agreed to pay minimum rents that are applicable regardless of turnover.

As and when existing tenancy contracts expire, we have made the assumption that the area in question will be relet on market terms. Depending on the marketability of the individual property, we have included in our cash flow forecast a certain void period and/or re-leasing costs such as fittings for the new tenant, letting agent's fees, and loss of recovery of common costs. In general terms, market

Methodology, definitions and assumptions

Methodology, definitions and assumptions

rent as been defined a per-m² basis for office space, and on the basis of expected future turnover for hotel and retail space.

Guarantee Rent

In some cases, the Vendor has guaranteed a certain level of rental revenue for certain periods of time. In these cases, we have added the guarantee rent to the regular rent revenue.

Discount rate

Projected net cash flows have been discounted at interest rates that represent nominal rates of return on total capital. The discount rates take into account the cost of risk-free capital, along with risk premiums that have been determined individually based on assessment of each property's risk profile and other factors. Average discount rates applied are:

Office properties	7.82%
Hotel properties, Norway	7.84%
Hotel properties, Denmark	7.90%
Hotel properties, Sweden	8.23%
Weighted average	7.90%

Inspections

The properties were inspected by DTZ in 2005, 2006, 2007 and 2008.

Operational expenses (OPEX)

For the purpose of this report, the term "Operational expenses" (OPEX) refers only to costs which are the responsibility of the property owner.

OPEX has been calculated initially from benchmarks of cost per m² and other factors. From the base year, OPEX has been adjusted with inflation.

OPEX levels have been defined individually, based on review of the lease contract terms and other relevant data. Average OPEX levels, expressed as a percentage of gross rent, are:

Office properties	5.6%
Hotel properties, Norway	8.2%
Hotel properties, Denmark	16.2%
Hotel properties, Sweden	18.7%
Total	9.0%

Technical condition

We have not carried out any technical assessment of the properties. Estimates of required investments in upgrades and rehabilitation have been obtained from the Client and from independent reports as and when available.

Documentation

The following documentation has been available for valuation purposes:

- Copy of lease agreements with annual rent exceeding NOK 4 million;
- Findings from site visits and other reviews from the technical due diligence processes, where applicable;
- Fact sheets provided by the Client;

30 March 2008

Market information from various sources;

Macro-economic information from various sources;

Technical Due Diligence reports for some of the properties.

Development values

Properties that have a potential for further development have been valued individually, taking into account factors such as development cost, letability, and the plausibility of implementation.

Norgani Finland Holding Oy

Valuation summary of 16 properties

The Appraiser

Maakanta Oy is a responsible and independent real estate valuation and consulting company, which operates all over Finland. The company has got over 20 years experience in real estate appraisals and consists of 5 valuation surveyors of which M.Sc Hannu Rädel is an authorized real estate appraiser. This ensures a high quality on the valuations.

Description and Basis for the Valuation

The purpose of the valuation was to determine the market value of the fifteen hotel properties and one congress property in Finland. Subjects have been valued as individual units without considering portfolio perspective. The valuation was commissioned by the Asset Manager Seppo Lehto from Norgani Finland Holding Oy. The assignment was made for the internal purposes of Norgani Finland Holding Oy. Maakanta Oy has valued properties previously in date of value 31.12.2007. Property inspections were made for some properties in 2005, for some in August 2007 and for some in January 2008. According to the client's opinion the deeper inspections were not necessary.

The valuation was carried by using discounted cash flow method. In the Scandic Espoo, Scandic Luosto and Comfort Hotel Pilotti using sales comparison method valued unused building permit. Direct Capitalization was used as a secondary valuation method. The date of value is 31.3. 2008.

The appraisal was based mainly on client's information. In hotels operated by Scandic calculation is based on an assumption that new lease agreements has come into force in January 2008. Lease agreements are received from the client. Investments that are used in the valuation consist in client's information, budget forecasts for different revenues are based on client's figures and also on Maakanta Oy's estimates.

The valuation didn't include soil tests.

Market analysis

Macroeconomics and short overview of Finnish property markets

Growth of the global economy has started to slow down and the uncertainty of the future state of world economy is high. Also in Finland the peak of the economic cycle is expected to be reached in 2008. GDP growth, according to Ministry of Finance, is forecasted to slow down from 4,4 % in 2007 to 2,7% in 2008, which is about 0,5 percentage unit less than what was expected in autumn 2007. In the Euro Area, according to forecasts, GDP growth will be around 1,7 % in 2008.

Inflation rate has been rising in Finland. In 2007 annual inflation rate was 2,5 % and in January 2008 it reached 3,8 %. In February it was 3,7 %. According to the latest forecasts, inflation in Finland is estimated to be approx. 2,2 % in 2008. The forecast for 2009 and 2010 is that inflation will gradually ease and be approx. 1,8%. In the Euro Area inflation rate is estimated to be 2,8 % in 2008.

Unemployment rate in Finland has been decreasing since 2005. In February 2007 unemployment rate was 7,1 %. In December 2007 it was 6,6 % and in February it reached 6,2 %. According to latest forecasts unemployment rate is estimated to be between 6,2 %

and 6,3 % in 2008 and between 5,9 % and 6,0 % in 2009. Consumer's confidence in future has been diminishing. Consumer confidence indicator has dropped from 14,7 in December 2007 to 10,8 in February 2008.

After the previous valuation in January 2008, long-term interest rates (10 years) have decreased approximately 0,3 percentage units and 31,3 2008 it was 4,2 %. In January 2008 short-term (12 and 3 months) interest rates dropped to near 4,3 %. However in March interest rates again reached the same level, approx 4,7 %, they were at the end of 2007.

U.S. subprime crisis has become a more widespread and deeper problem than anticipated. To this point financial results of European banks have been in a good level. However problems may emerge along with decelerating economical growth. The fragility of global financial markets have also affected Finnish property markets. Obtaining of a loan has become more difficult and banks use higher margins. Some property transactions have been canceled because of that. On the other hand, the demand of prime properties has been good and the yields have still been at the low level. But time for decreasing yields is in the past and with higher-risk properties yields are increasing and values are decreasing. Yields are now more dependent on quality of properties and lease agreements. Also investors using high leverage have been replaced with more conservative ones.

The investment volume of the property market has been in a good level. In this year two big property transactions have been made. Portfolio of 39 hotels were sold in January to Capman Investments with EUR 835 million and Kamppi Center in Helsinki was sold with EUR 452,5 million in March. Kamppi Center was sold previously with EUR 345 million in June 2006. In addition in February Caycon Oy sold 40 % share of Shopping Center Iso Omena in Espoo at the same price than it bought it in September 2007.

Hotel Markets

In Finland tourist industry has enjoyed growth of accommodation demand. Between January 2007 and January 2008 demand of accommodation services was rose 7,2 %. Foreign tourists spent 11,5 % more nights in Finland and especially Russians were active with 17 % rise. At the same time domestic tourism raised 4,1 %. Russian tourism plays a significant role particularly in the Imatran Valtionhotelli where closeness of the Russian border attracts visitors from east.

According to Statistics Finland, average room price in Finland has increased 3,1 % from January 2007 to January 2008 while it increased 5,6 % from Jan 2006 to Jan 2007. Occupancy rate has increased approximately 4,9 % from Jan 2007 to Jan 2008 and between Jan 2006 and 2007 the rise was 3,0 %.

Growth of hotel demand is estimated to decrease in 2008 but in January and February 2008 the demand is still staying at the same level as it was in 2007. In Helsinki hotel room count will increase due to numbers of new hotel projects. That may affect to occupancy rate. In office and retail market there has already been signs for increasing vacancy rate because of new space. If growth of demand decreases under the coming supply, occupancy rate will decrease.

As far as nothing dramatic happens, domestic demand and increasing foreign accommodation demand will guarantee positive future for hotels. If financial crisis expands from USA to Europe it is predictable that accommodation business will suffer somehow. If

consumers' confidence in future will continue to decrease, it might also have some effect on domestic demand for hotel accommodation.

Room prices and occupancy rate are estimated to be at the same level in first quarter in 2008 as they were in the end of 2007. Risk factor in hotel market is most likely to increase during spring and summer 2008.
