NEW TECHNICAL MANAGER TO SPEARHEAD GLEN DIMPLEX BOILER GROWTH

Glen Dimplex Boilers has appointed **Gordon Glover** to the position of Technical Manager. This latest development serves to underline the company's determination to become a key player in the domestic gas boiler market and its commitment to new product development and technical excellence.

As well as being responsible for the technical development of new and existing products, Gordon's role at Glen Dimplex Boilers will include providing technical help and support for the company's award-winning Customer Care Centre and factory.

Managing Director at Glen Dimplex Boilers, Colin Gardner, comments: "Gordon's appointment is illustrative of our ambitious new product development strategy. Whilst the Dimplex gas boiler brand may be relatively new, the company is wasting no time investing significantly in developing products that will provide the installer with added choice and real brand-differential."

Colin adds: "Gordon brings a high level of experience and personal enthusiasm to his role and will be an invaluable asset to the company's future growth."

With over 15 years experience in the heating industry working with a variety of heating products as diverse as electric, solid fuel, oil, LPG and natural gas, Gordon has held varied roles from quality, reliability and R&D, to Service Manager and Inspector. Additionally, Gordon has worked in technical roles with a number of major manufacturers in the cooking, vending and heating industries. Since obtaining his BSce, Gordon has also spent time in an Appliance Test House.

Installers have warmly welcomed the arrival of the Dimplex range of high efficiency condensing boilers. Not only does the range boast premium products at fiercely competitive prices, it offers a genuine five year parts and labour warranty across the entire range of combi, system and open vent models. The company also offers Edensol - a solar thermal hot water package - and Aquastore, a range of unvented cylinders for powerful, mains-pressure hot water with capacities up to 305 litres and a 25 year warranty.
