

ElektronikGruppen

Pressrelease 2001 08 31

ElektronikGruppen's business area EG Communication has received an order from the consortium "Norrskén" for delivery of fiber optic transmission equipment to their fiber optic network, which covers middle/north part of Sweden.

Installation of this equipment means that Norrskén will be able to offer its customers a redundant net.

Delivery and installation are estimated to end of September.

The amount of the order is appr 5 MSEK.

For further information please contact Ulf Sjunnesson President EG ComTech, +46 18 56 33 00 or Björn Jonsson President Norrskén, +46 278 62 40 11.
