

## PRESS RELEASE

Dubai November 6<sup>th</sup>, 2001

## Emirates order In-Service evaluation of Zonal Drying <sup>TM</sup> System in A330 aircraft.

CTT Systems announced today at the 7<sup>th</sup> International Aerospace Exhibition in Dubai that Emirates has ordered an In-Service evaluation (ISE) of CTT´s Zonal Drying <sup>TM</sup> System in one (1) A330 aircraft. Emirates will have the option, after successfully completed evaluation, to equip an additional seventeen (17) A330 aircraft with the Zonal Drying <sup>TM</sup> System.

Delivery and start of evaluation is planned for the second quarter of 2002.

- "We are pleased to announce today's agreement with Emirates, comments CTT Systems President,
  Mr Torbjörn Johansson. This marks our entry into the Middle East market and we are looking forward working with Emirates in their evaluation of our
- Zonal Drying TM System ", ends Mr. Johansson

The CTT Zonal Drying <sup>TM</sup> System is designed to combat water condensation in the thermal and acoustic insulation of modern passenger aircraft. Airlines can use the Zonal Drying <sup>TM</sup> System to reduce maintenance costs by increasing the service life of the insulation and realize significant fuel savings by eliminating the non-revenue weight of the accumulated water condensate. By keeping dry the area between the interior trim panels and the aircraft skin, the Zonal Drying <sup>TM</sup> System also reduces corrosion and the risk of failure of electronic systems and wiring.

With the Zonal Comfort <sup>TM</sup> System, which is based upon the evaporative cooling technique, CTT System is now able to provide the industry with a complete moisture management system. The system provides increased humidity for passengers and crew, in particular on long-haul flights, while at the same time condensation is prevented with the Zonal Drying <sup>TM</sup> System.

To date, CTT has the following additional customers for the Zonal Drying <sup>TM</sup> system:

- **Martinair** for B767-300 and MD11
- **Jet Aviation** for Executive aircraft's B767-200, B757-200 and Boeing Business Jet
- **KLM Royal Dutch Airlines** for MD11 and B767
- **Austrian Airlines** for MD80
- **LTU** for Airbus A330
- **Raytheon Systems Company** regarding NASA/DLR SOFIA-project (Stratospheric Observatory For Infrared Astronomy)
- **Swissair** for MD11
- **Sterling European Airlines** for Boeing B737-800
- **Hapag-Lloyd** for Boeing B737-800
- **Icelandair** for Boeing B757
- **Lufthansa CityLine** for CRJ 100/200
- **Airbus** as option for A330 and A340
- **FMV** (**Swedish Airforce**) for C130 (Tp84) Hercules
- **Adria Airways** for CRJ200

and for the Zonal Comfort TM System:

- **SAS** for Boeing B767
- **Lufthansa Technik** for Boeing Business Jet
- Jet Aviation for Boeing B747 SP VIP aircraft

CTT Systems AB is located in Nyköping, Sweden and listed on the Stockholm Exchange O-list in Stockholm.
