

**The Swedish Agency for Public Management signs general agreement with TietoEnator**

TietoEnator and the Swedish Agency for Public Management have signed a general agreement concerning the supply of IT consultant services. The agreement strengthens TietoEnator's position as supplier of IT services to the state authorities in Sweden.

Statskontoret's agreement is valid for two years for a number of large authorities, among others, the National Labour Market Board (AMS), the National Swedish Police Board (RPS) and the Swedish National Tax Board (RSV). The agreement comprises consultant services within IT operational development, strategy, project management, system development, system administration, customer service and computer operation technique.

The agreement is expected to turn over SEK 250 million per year, and TietoEnator is one of the eight companies that were chosen as suppliers of the nation-wide services.

- The agreement that has now been signed considerably strengthens our position in the state market. We already have general agreements with eight state authorities and now gain a further six agreements. We have made efforts to produce the best consultants and we are convinced that the co-operation with the authorities will be beneficial to all parties. We will now start discussions with the authorities as to how we proceed in the work of contributing to the renewal of the public sector in Sweden, says Lars Gahnström, MD of TietoEnator Public Sector AB.

TietoEnator's general agreement with Statskontoret supports the company's strategy to increase the consultancy contributions within the Swedish state sector.
