

PRESS RELEASE

Nyköping November 28th, 2001

Jet Aviation order Zonal ComfortTM System for installation in a Boeing Business Jet, BBJ.

Jet Aviation AG, based in Basel Switzerland, has ordered CTT Systems Moisture Management System – Zonal ComfortTM System – to be installed in one (1) Boeing Business Jet, BBJ aircraft. The system will provide a comfortable humidity level throughout the entire cabin, at the same time as condensation will be prevented by distributing dry air from the Zonal DryingTM System between the cabin and the aircraft skin.

Delivery of the system is planned for first quarter of 2002.

The Zonal ComfortTM System is based upon evaporative cooling technique, same principle that moistens the surrounding air through evaporation from lakes and rivers, and developed by the Swedish company Munters. Until today Munters have delivered more than 150.000 humidification systems for various industrial applications using this technology. Except for low power consumption and efficiency the method does not allow for any transfer of bacteria. Included in the system is CTT Systems well known Zonal DryingTM System to prevent condensation in the intermediate space between the interior trim panels and the aircraft skin

With the Zonal ComfortTM System CTT System is now able to provide the industry with a complete moisture management system. The system provides increased humidity for passengers and crew, in particular on long-haul flights, while at the same time condensation is prevented with the Zonal DryingTM System.

To date, CTT has the following additional customers for the Zonal DryingTM system:

- **Martinair** for B767-300 and MD11
- **Jet Aviation** for Executive aircraft's B767-200, B757-200 and Boeing Business Jet
- **KLM Royal Dutch Airlines** for MD11 and B767
- **Austrian Airlines** for MD80
- **LTU** for Airbus A330
- **Raytheon Systems Company** regarding NASA/DLR SOFIA-project (Stratospheric Observatory For Infrared Astronomy)
- **Swissair** for MD11
- **Sterling European Airlines** for Boeing B737-800
- **Hapag-Lloyd** for Boeing B737-800

- **Icelandair** for Boeing B757
- **Lufthansa CityLine** for CRJ 100/200
- **Airbus** as option for A330 and A340
- **FMV (Swedish Airforce)** for C130 (Tp84) Hercules
- **Adria Airways** for CRJ200
- **Emirates** for A330

and for the Zonal ComfortTM System:

- **SAS** for Boeing B767
- **Lufthansa Technik** for Boeing Business Jet
- **Jet Aviation** for Boeing B747 SP VIP aircraft

CTT Systems AB is located in Nyköping, Sweden and listed on the Stockholm Exchange O-list in Stockholm.
