## Comintell releases Knowledge XChanger 2.2 Server with a special focus on competitive intelligence

Comintell, the leading Nordic Knowledge Management company, today announced the availability of Comintell Knowledge XChanger™ 2.2 Server, a web based software for managing knowledge and information.

"In today's uncertain business environment, competitive intelligence is more important than ever in order to be better prepared for any business situation," Pia Hylander, President of Comintell, explains. "Knowledge XChanger 2.2 has been designed with a special focus on competitive intelligence applications to help our customers in this process."

"With this new version of Knowledge XChanger, we have made the product even more modular and flexible, allowing our customers to pick and choose exactly the functionality they need and then build from there," said Jesper Ejdling Martell, Marketing Director of Comintell. "This means that it is possible to match the needs of large multinationals as well as smaller, medium sized enterprises."

### Features

Comintell Knowledge XChanger 2.2 Server is an entirely web-based and user-friendly tool that allows you to manage, classify, publish, search, monitor, share, measure, report and visualize both internal and external content.

Comintell Knowledge XChanger Server runs on Windows NT and Microsoft SQL Server databases. It requires only standard web browsers for users.

Comintell Knowledge XChanger 2.2 is available for delivery in March 2002 for enterprises starting at 10 users and scaling up to thousands of users. Pricing starts at US\$ 5,000. A product fact sheet can be found at <http://www.comintell.com/software/software.htm>

### Competitive Intelligence

The Society of Competitive Intelligence Professionals ([www.scip.org](http://www.scip.org)) defines Competitive Intelligence (CI) as: "A systematic and ethical program for gathering, analyzing, and managing information that can affect your company's plans, decisions, and operations". Put another way, CI is the process of enhancing marketplace competitiveness through a greater understanding of a firm's competitors and the competitive environment.

### About Comintell

Comintell is the leading provider of software and solutions for Knowledge Management in the Nordic countries with major reference clients such as Birka Energi, Observer, Sonera, Telia, Tetra Pak and Volvo. The company was founded in 1999 and is privately held with Novestra, one of the leading Nordic venture capital firms, as one of the main owners.
