

INTERIM REPORT JANUARY 1 – MARCH 31 2002

- OPERATING INCOME SEK 103 (141) MILLION
- OPERATING PROFIT SEK 6 (1) MILLION
- CONTINUED GROWTH IN PRIVATE BANKING
- INCREASED CONCENTRATION ON CORE AREAS

Performance and financial position

Group

Hagströmer & Qviberg (H&Q) reports for the first quarter of 2002 earnings before tax and minority items of SEK 6 (1) million. Market activity was low during the period. Turnover on the Stockholm Exchange declined.

Total operating income amounted to SEK 103 (141) million, a decline of 27 percent compared to the same period last year. Net income from commissions and fees declined by 22 percent to SEK 69 (88) million. Of the income from commissions and fees SEK 23 (20) million was attributable to financial advisory services and underwriting, an increase of 15 percent. Net earnings from financial transactions including dividends and net interest declined by 35 percent to SEK 34 (52) million.

Operating expenses amounted to SEK 97 (140) million, a decline of 31 percent. Personnel expenses declined by 32 percent to SEK 65 (95) million, and other expenses by 29 percent to SEK 32 (45) million. The cost-reduction programmes implemented during 2001 had full impact during the first quarter of this year.

After the end of the period a decision was taken to further concentrate the business to prioritised areas:

- Financial planning and asset management
- Corporate advisory services and capital acquisition
- Trade in stocks and derivatives

These measures include a merger of the company's research activities within the framework of a joint unit, and a reallocation of resources to prioritised areas.

During the first quarter the office in San Francisco was closed. The business in New York is being evaluated.

The group's liquid funds amounted to SEK 339 (1,474 per December 31, 2001) million. Shareholders' equity amounted to SEK 392 (389 per December 31, 2001) million, corresponding to SEK 78 (78 per December 31, 2001) per share. Capital adequacy for the group amounted to 32 (26 per December 31, 2001) percent.

The number of employees in the group on March 31 was 246 (329 per March 31, 2001; 247 per December 31, 2001). The average number of employees during the period was 247 (332).

H&Q Investment Banking

Operating income for H&Q Investment Banking amounted to SEK 45 million, a decline of 26 percent compared to the same period last year and a decline of 34 percent compared to the fourth quarter of 2001. A lower level of market activity, reduced brokerage fees due to considerably lower demand for secondary market analysis, and fewer completed capital acquisition assignments explain the decline in operating income compared with the previous year. Earnings were positive for this business unit.

The number of employees on March 31 was 70 (86 per March 31, 2001; 73 per December 31, 2001).

H&Q Private Banking

Operating income for H&Q Private Banking amounted to SEK 58 million, which is unchanged in relation to the fourth quarter of 2001 but represents a decline of 22 percent compared to the first quarter of last year. A generally lower level of market activity and lower market values have been partly countered by increased sales of structured products and a continued net inflow to asset management. Earnings were positive for this business unit.

Total managed capital was unchanged compared to the end of 2001 and amounted to SEK 18 billion.

The number of employees on March 31 was 100 (146 per March 31, 2001; 102 per December 31, 2001).

Miscellaneous

The annual general meeting on April 9 approved a dividend for financial year 2001 of SEK 5 per share (common and preferred stock). The record date for payment of dividends was established as Friday, April 12, 2002. Payment is expected to take place through VPC on April 17, 2002.

In addition the annual general meeting voted to approve a new issue of a maximum of 150,000 preferred shares to leading executives and key personnel. If this offering is fully subscribed share capital will increase by a maximum of SEK 6 million.

Outlook

The level of market activity so far this year has been low. Meanwhile, measures taken earlier to reduce the company's costs and the measures now being taken to strengthen income mean that Hagströmer & Qviberg is well equipped to improve its earnings and profitability when the economic environment for the financial industry improves.
