# TIME TO DANCE!

**HONEY KALARIA TO RELEASE DEBUT ALBUM AUGUST 22<sup>ND</sup> 2002**

The glamorous and beautiful star Honey Kalaria is to officially launch her debut album 'Time To Dance' on Thursday August 22nd 2002. The album features ideal summer music, particularly with tracks such as 'Feel the Heat', and 'L.O.V.E'!

The music has a strong East-meets-West theme and dance songs in Hindi and English:

*"The album is upbeat and guaranteed to get listeners up and dancing, at home and in the clubs. Dance has always been a major part of my life. It is essential to me that my music has the ability to inspire people to get on the dance floor and express themselves".* Honey Kalaria

Kamaal Khan, the writer and singer of the Bollywood hit song "Oh oh Jane Jana" (from the film 'Pyaar Kiya To Darna Kya'), overheard Honey recording her album in the Camelot studios. He was so impressed that he requested permission to remix the L.O.V.E. track with his vocals and this has also been released as part of his album.

Bappi Lahiri, who has worked alongside artists such as Samantha Fox and Boy George, and produced music for over 250 Bollywood Blockbusters, also added his vocals for the album and produced two of the tracks.

The album has already come to the attention of some high profile media players; with Jamie Oliver paying to use extracts on cookery programs and Momentum laying the tracks on a 'Keep Fit With Bollywood' video that will be presented by Honey and distributed Internationally September 2002.

Music sees a new departure for Honey. As well as being the country's modern Indian dance expert, Honey is well known as a presenter, model, actress and choreographer. Honey is considered a foremost voice in the Bollywood Entertainments Industry and is fast crossing mainstream. She is currently in negotiations with major record labels and distributors in the UK and it is expected that by this time next year Honey will also be recognized as a chart topping singer.

**Notes to editors:** Honey started dancing at the age of 4, mastering classical dance, rock & roll, latin american, disco & belly dance. By her early teenage years she gained the title of professional international performing artist and has performed throughout the world, including dancing in the UK for Her Majesty The Queen, Tony Blair and the late Princess Diana. Honey wanted to share her joy in dance with others and founded Diva Entertainments and Honey's Dance Academy in 1997. It was the first British-Asian Dance Academy to open featuring courses in modern Indian dance & Bhangra, as well as acting and dance classes. The Academy is frequently approached by Bollywood film directors offering Honey's students the opportunity to star in their movies.
