No 53/02

NCC to construct waste incineration plant in Linköping for SEK 200 million

NCC Construction Sweden has been commissioned by Tekniska Verken in Linköping to conduct construction and civil-engineering work for a new waste-incineration plant in Gärstad, Linköping. The order is worth about SEK 200 million.

The assignment includes construction of a fourth refuse furnace at the Gärstad Plant. The new building, which will feature refuse-reception, furnace and flue-gas cleaning capabilities, will be slightly more than 100 meters long, 50 meters high and 50 meters wide.

Work will begin in the autumn. At most, about 40 employees will be engaged in NCC's assignment at the Gärstad Plant.

"We're extremely pleased to have received this contract to build the Future Gärstad. We have favorable experience of similar projects," says Per Höglund, Business Manager, NCC Construction Sweden.
