

Pressrelease 24 October 2002

Trio signs order with Telenor Mobil for further expansion of mobile office service

Trio has signed an order worth around 5.7 Msek for a further expansion of "ProffNett", Telenor Mobil's mobile office solution for the Norwegian corporate market. The order is based on Trio Mobile Office, a concept for mobile operators that enables their customers to switch from fixed to mobile telephony, either fully or in part.

ProffNet is pivotal to Telenor Mobil's portfolio of value-added services aimed at corporate customers. The order will enable Telenor Mobil to expand its network capacity to meet the growing influx of new customers.

"Telenor Mobile has great success with the service ProffNett on the Norwegian corporate market. This shows that mobile phones are an increasingly important business communication tool. Trio Mobile Office has been developed with a view to enhance the offerings made by mobile operators to their corporate customers," says Sverker Hannervall, President and CEO at Trio.

Trio Mobile Office enables either a direct or a gradual transition from fixed to mobile telephony and is available as a subscription service from mobile operators that is installed by Trio in the operators' networks as a turnkey solution.
