

RaySearch Scientific Advisory Board established.

September 25, 2002

The purpose in having a Scientific Advisory Board is to maintain close contact with the academic society and to be aware of global trends in research being conducted in the area of radiation oncology.

The board consists of five members, all highly respected scientists in the field of medical physics, optimization theory and radiobiology. The board members are:

- **Prof. Anders Brahme**, head of Medical Radiation Physics department at Karolinska Institute in Stockholm.
- **Prof. Radhe Mohan**, Chairman of Radiation Physics Department at M. D. Anderson Cancer Center, Houston, Texas
- **Prof. Peter Williams**, Director of North Western Medical Physics, Christie Hospital, Manchester, UK
- **Assistant Prof. Anders Forsgren** at the Division of Optimization and Systems Theory, Department of Mathematics, Royal Institute of Technology (KTH), Stockholm.
- **Assistant Prof. Bengt Lindh** at Department of Medical Radiation Physics, Karolinska Institute Stockholm.

For information about the members of the RaySearch Scientific Advisory board please look at our [organizational chart](#).
