

TietoEnator take over the operations of svt.se

TietoEnator and the Swedish public service television company, Sveriges Television (SVT), have signed a three-year agreement which means that TietoEnator will take over the operations of the svt.se website. The choice of TietoEnator as a partner is part of SVT's work to cost-effectively meet with the ambitions they have for svt.se.

- The number of visitors to our website is steadily increasing and we need a partner that can deliver high technological capacity and accessibility, says Lena Glaser, Manager for SVT Webb.

- The agreement is a confirmation of our competencies and capacity within operations. svt.se is a very public site with more than one million visitors every month. We are happy about the confidence SVT has in us and we look forward to the coming co-operation, says Marika Skärvik, Vice President of Customer Solutions Sweden, TietoEnator Processing & Network.

TietoEnator Processing & Network has approximately 2 500 employees, and is one of the largest players in the Nordic region within outsourcing of IT operations. Among the customers are for example Stora Enso, Fortum and Partek.
