Standrad & Poor's meddelar ratingen för TeliaSonera AB

Kreditvärderingsinstitutet Standard & Poor's meddelade idag ratingen för TeliaSonera efter sammanslagningen mellan Telia och Sonera. Den nya långfristiga ratingen av TeliaSonera AB är "A". Telias förra rating var "A+" och Soneras var "BBB".

Framöver kommer koncernens refinansiering och nya lånefinansiering att ske i TeliaSonera ABs namn.

- På det hela taget förväntar vi oss inte att Standard och Poor's åtgärd medför någon större påverkan på TeliaSoneras upplåningskostnad, säger Kim Ignatius, CFO TeliaSonera.

TeliaSonera AB Long-Term Ratings Lowered to 'A' After Merger With Sonera; Still on Watch Neg

S&P Lwrs TeliaSonera AB Rtgs to 'A'; Still Watch Neg

LONDON (Standard & Poor's) Feb. 5, 2003--Standard & Poor's Ratings Services said today it lowered its long-term corporate credit and senior unsecured debt ratings on Nordic telecommunications services provider TeliaSonera AB, formerly Telia AB, to 'A' from 'A+' following the closure of the merger between Telia AB and Finnish telecoms services provider Sonera Corp. (Sonera).

The 'A' long-term and 'A-1' short-term corporate credit and debt ratings on TeliaSonera remain on CreditWatch with negative implications.

In addition, the 'BBB' long-term and 'A-2' short-term ratings on Sonera remain on CreditWatch with positive implications.

The lowering of the ratings on TeliaSonera is consistent with the rating indication that Standard & Poor's gave on March 27, 2002, when it placed the ratings of Telia and Sonera on CreditWatch following the announcement of the planned merger.

"The rating action reflects the diluting effect on Telia's credit strength of its merger with Sonera, which has a 'BBB' long-term corporate credit rating, four notches below the previous 'A+' rating on the former Telia," said Standard & Poor's credit analyst Leandro de Torres Zabala.

TeliaSonera, som skapats genom en fusion mellan Telia och Sonera, är det ledande telekommunikationsföretaget i Norden och Baltikum. TeliaSoneras huvudinriktning är att bättre tillmötesgå sina kunder inom kärnverksamheten och att skapa värde för sina aktieägare genom starkare resultat och kassaflöden. TeliaSonera är noterat på Stockholmsbörsen, Helsingforsbörsen och NASDAQ. Pro formaomsättning per 31 dec 2001 var 80,9 miljarder SEK (EUR 8.9 miljarder) och antalet anställda 30 juni 2002 var 30 045.

All ratings remain on CreditWatch pending a meeting between TeliaSonera and Standard & Poor's to review--inter alia--TeliaSonera's financial forecasts, financial policy, emerging market risk tolerance, and business strategy. Based on current information, the corporate credit rating on TeliaSonera is expected to remain in the mid to low 'A' rating category. Standard & Poor's will also evaluate the likely level of implicit credit enhancement that TeliaSonera will provide for Sonera bondholders in the absence of explicit credit enhancement. This evaluation will determine whether the senior unsecured debt ratings on TeliaSonera and Sonera are to be equalized.

The ratings on TeliaSonera reflect the group's leading market positions in its domestic markets (Sweden and Finland), its strong positions in the Baltic region, and good free cash flow generation. Key risk factors include:

- Competitive and regulatory pressures in the Swedish and Finnish markets;
- TeliaSonera's exposure to higher risk markets such as in Russia, Eurasia, and Turkey;
- Exposure to loss-making international carrier and service businesses operations; and
- The integration risk relating to the ongoing merger process.
