Trio signs order with Telenor Mobil of SEK 1.9 million for enhanced functionality of Trio Mobile Office

Trio has signed an order worth approximately SEK 1.9 million to enhance the functionality of "ProffNett", Telenor Mobil's mobile office solution for the Norwegian corporate market. The order is based on Trio Mobile Office, a concept for mobile operators that enables customers to switch, either partly or completely, from fixed to mobile telephony.

ProffNett is pivotal to Telenor Mobil's portfolio of value-added services aimed at corporate customers. The order will enable Telenor Mobil to provide even more advanced services to its customers to satisfy their requirements.

"Trio has today received an additional order for enhanced functionality. This is a result of Telenor Mobil's initiatives in the field of mobile office solutions", says Sverker Hannervall, CEO of Trio.

Trio Mobile Office enables either a direct or a gradual transition from fixed to mobile telephony and is available as a service from mobile operators. It is installed as a turnkey solution by Trio in the operators' networks.
