

Stockholm, 21 August 2003

NeoNet's Interim Report 1 January – 30 June 2003

The Quarter in Summary

- Net sales amounted to SEK 34.0 m (SEK 48.8 m), of which transaction revenues accounted for SEK 32.7 m (SEK 46.9 m). The 30% reduction is entirely the result of the decreased trading value.
- The operating earnings before depreciation and net financial items were negative at SEK -6.5 m (SEK -2.2 m). The pre-tax losses amounted to SEK -13.4 m (SEK -8.4 m). The loss after tax amounted to SEK -13.6 m (SEK -8.2 m).
- The earnings per share for the quarter were negative at SEK -0.31 (SEK -0.19).
- The transaction margin amounted to 62%, an improvement compared to the last three quarters.
- Personnel and other operating expenses were reduced by SEK 7.0 m or 20% compared to second quarter last year.

The First Half in Summary

- Personnel and other operating expenses have so far been cut to approximately SEK 110 m annually, which is a reduction of over SEK 25 m compared to the levels at the end of the second quarter last year. In addition, transaction costs have been reduced, thereby improving the margin.
- Investment for the first half reduced to SEK 14.8 m (SEK 23.5 m).
- The consolidated shareholders' equity at the end of the period amounted to SEK 200.3 m (SEK 228.1 m as of 31 Dec. 2002) and the equity/assets ratio was 56% (59%). The Group's cash in hand, adjusted for items relating to the settlement of clients' equity transactions, amounted to SEK 129.5 m (SEK 164.5 m at the beginning of the year).
- In April NeoNet entered into an agreement with the New York Stock Exchange under which NeoNet will provide the exchange with access to international trading on other exchanges.
- In June NeoNet opened a sales office in Frankfurt.
- Trading on the New York Stock Exchange has been offered via the broker desk since June.
- An agreement has been concluded with the intention to acquire Lexit Financial Group, Inc., USA. Lexit will provide NeoNet with electronic access for trading on the U.S. exchanges and will also substantially increase the company's client base. The acquisition is expected to be completed in the latter part of September.

Events after the end of the period

In July an extraordinary general meeting approved the issue of up to 10,000,000 new shares as part of the implementation of the acquisition of stock and warrants in Lexit Financial Group, Inc.

CEO's statement

"With the acquisition of Lexit, which is expected to be completed in the latter part of September, we will pass an important milestone. When the companies are then merged we will achieve our ambitious aim of offering electronic trading equivalent to at least 80% of the market capitalization of the world's exchanges. On all fronts the merger with Lexit will take NeoNet a further important step towards establishing itself as a world-leading independent player in electronic stock trading for the institutional market.

Lexit and NeoNet complement each other well. NeoNet will gain a further strong client base and direct access for clients' trading on the U.S. stock exchanges. Lexit's existing clients will gain access to NeoNet's strong trading platform with direct access to the European exchanges. Initially, the deal is expected to provide an annual increase in earnings of SEK 7-10 m after cost synergies, goodwill amortization and interest costs. In the longer term, however, the Lexit acquisition is of even greater significance. It further equips us to stand strong in the face of the structural change in stock trading that is already well under way. Here NeoNet will become an increasingly important player and we intend to continue to consolidate this position.

In recent times we have seen brighter prospects on the world's stock exchanges – and this is certainly needed, since trading levels have fallen by around 70% over the past three years. It is still too early to say whether these positive signs represent a genuine turnaround in the trend, but we ourselves have been able to report a certain increase in revenues month by month since February this year, partly as a result of continued growth in the client base.

NeoNet has adapted its organization and costs so as to compensate as far as possible for the downturn in the market. Our program of measures has been implemented according to plan and during the quarter we reinforced this further with a view to achieving a positive result as soon as possible. Our personnel and other operating expenses have been substantially reduced. During the quarter these costs were down

Since inception in 1996 NeoNet has focused on efficient and neutral agency brokerage. NeoNet provides the institutional investor industry with execution services offering a single point of access to leading equity marketplaces worldwide. Clients can execute orders using electronic direct market access or through NeoNet's international trading desk. NeoNet has offices in New York, London, Frankfurt and Stockholm, is listed on the Stockholm Stock Exchange (ticker NEO), and has clients in 14 countries globally.

SEK 7 m or 20% compared to the same period last year, despite the fact that we have expanded our offering to include more exchanges. Measures aimed at improving the transaction margin on trading further, beyond the 5 percentage points achieved in the year to date, continue to be implemented as planned. Although things are now looking up in the market, we may need to take further measures if the trend in the market calls for this.

Trading on exchanges other than the Nordic ones is increasing in scale and significance for NeoNet. Our revenue growth on the most recently connected exchanges – Euronext (Paris, Amsterdam and Brussels), Milan, Nasdaq and the NYSE – has been good. It is well in line with continued growth that we are able to report in our client base. Following the merger with Lexit the client base will be further strengthened to encompass over 180 institutional clients in 16 countries.

We expect to launch a new system platform and a new version of NeoNet's trading system at the beginning of next year. At the same time, it is planned that the two remaining large European exchanges – Madrid and the Swiss Virt-x – will be connected to NeoNet's exchange network.

During the period we have further strengthened our position as a recognized and established challenger in the international equities trading arena. Our offering is cost-effective, of high quality and provides our clients with a powerful tool with which to execute transactions on the world's exchanges. Cross-border direct electronic trading on the world's exchanges is increasing in significance. We are convinced that a player such as NeoNet has a bright future ahead of it in international equities trading."

THE GROUP

Operations

The high inflow of new clients has continued both in Europe and the U.S. NeoNet currently has clients in 14 countries.

In April an agreement was signed with the New York Stock Exchange, that will give brokers direct access from the exchange to trade on other exchanges through NeoNet's system.

In June a new sales office was opened in Frankfurt, Germany, with the result that NeoNet now has offices in Stockholm, New York, London and Frankfurt.

NeoNet has recently signed an agreement with the intention to acquire Lexit Financial Group, Inc., USA. Lexit operates an electronic equities trading business primarily for European clients on the U.S. exchanges involving significant volumes. In 2002 Lexit reported revenue of USD 8.6 m. Lexit will provide NeoNet with extensive and qualitative direct access to trading on the U.S. exchanges faster than NeoNet could achieve through its own growth, and the acquisition will substantially increase NeoNet's client base in Europe. NeoNet's ambition to offer trading equivalent to 80% of the market capitalization of the world's exchanges will thereby be achieved.

NeoNet and Lexit complement each other well and the acquisition is an important step towards establishing NeoNet as a world-leading independent player in electronic equities trading for the institutional market. Initially Lexit is expected to provide an annual increase in earnings of SEK 7 – 10 m after cost synergies, goodwill amortization and interest costs. The combined operations will have over 180 institutional clients in 16 countries as well as considerable growth potential.

At the beginning of next year a newly-developed system platform is expected to be launched and the two remaining large European exchanges, the Swiss Virt-x and the Madrid exchange, will be connected.

Agreements were signed with the software provider Sunguard Transaction Network and the data communications provider Radianz, in order to further increase the number of ways that clients can connect to NeoNet.

Trading value, revenues and earnings

The average daily trading value for the second quarter was SEK 1,422 m per day, a reduction of 29% compared to SEK 2,003 m for the same period last year, while the exchanges reported an average fall in turnover of over 22%.

On the exchanges that are the most important for NeoNet, namely Stockholm and Helsinki, the daily trading value fell by 28% and 75% respectively compared to the second quarter last year. At the same time, both of these exchanges reported a fall in trading of 19% and 35% respectively. The fact that the percentage decrease of NeoNet's trading values and earnings on the Helsinki Exchange was more than the decrease in overall trading, can largely be explained by a decrease in trading among U.S. clients.

Trading on the Euronext exchanges, which were connected at the end of 2001 / beginning of 2002, and on the Milan Exchange and Nasdaq, which were connected in the second half of 2002, progressed well and accounted for 20% of the overall trading value in first half of 2003.

The transaction revenues during the period amounted to SEK 67.9 m compared to SEK 107.2 m for the same period last year, which is a reduction of 37%. The reduction is directly related to the lower trading value which is why the average price level is unchanged.

Distribution of Transaction Revenues by Exchange, SEK m

	Jan.-June 2003		Jan.-June 2002		July-Dec. 2002	
Stockholm	31.2	47%	46.4	43%	35.9	46%
Helsinki	11.4	17%	32.5	30%	19.3	25%
Copenhagen & Oslo	5.0	8%	5.3	5%	6.0	7%
Frankfurt	4.2	6%	9.9	9%	4.0	5%
London	1.5	2%	7.2	7%	1.8	2%
Euronext & Milan	12.0	17%	5.9	6%	10.6	15%
Nasdaq & NYSE	2.6	3%	-	-	-	-
Total	67.9	100%	107.2	100%	77.6	100%

**Transaction Revenues, Quarterly and
Rolling Four Quarters, SEK m**

The operating earnings before depreciation and net financial items were negative at SEK -6.5 m compared to SEK -5.5 m for the previous quarter and SEK -2.2 m for the second quarter of last year.

The fall in earnings is exclusively the result of lower revenues, mainly due to unfavorable market trends. The transaction margin for the second quarter improved in comparison with the past three quarters. This is the result of measures that were implemented to achieve a more cost-effective settlement process. A further reduction in these costs is expected when the current change of system solutions is implemented early next year.

Personnel and other operating expenses have been cut according to plan by over SEK 25 m annually compared to the levels at the end of the second quarter last year, at which time a program of cost-cutting measures was initiated. Moreover, ten employees within the Swedish operation were given notice of termination during the quarter.

**Earnings before Depreciation, Net Financial Items
and Tax, Quarterly, SEK m**

Income Statement in Summary

SEK m	April- June 2003	Jan.- Mar. 2003	Oct.- Dec. 2002	July- Sept. 2002	April- June 2002
Transaction revenues	32.7	35.2	42.0	35.6	46.9
Other operating earnings	1.3	1.4	1.7	1.6	1.9
Transaction costs	-12.3	-14.4	-17.5	-14.6	-15.8
<i>Transaction margin¹</i>	62%	58%	56%	57%	65%
Personnel expenses	-13.4	-13.4	-13.2	-12.3	-13.8
Other operating expenses: ²	-14.8	-14.3	-13.9	-17.3	-21.4
Operating earnings/ losses before depreciation (EBITDA)	-6.5	-5.5	-0.9	-7.0	-2.2
<i>Operating margin</i>	-20%	-16%	-2%	-20%	-5%
Depreciation	-6.5	-7.0	-8.7	-7.9	-6.7
Net financial items	-0.4	-0.5	0.7	0.2	0.5
Pre-tax earnings/losses	-13.4	-13.0	-8.9	-14.7	-8.4

The Group reported a pre-tax loss for the quarter of SEK -13.4 m compared to SEK -13.0 m for the previous quarter and SEK -8.4 m for the second quarter last year.

The earnings per share for the quarter were negative at SEK -0.31 (SEK -0.19).

The number of personnel at the end of the period was 72 (78 at the beginning of the year).

Clients

The number of clients increased during the period, primarily in the U.S. and the Nordic countries.

20% of the clients accounted for 81% of the transaction revenues. No single client accounted for more than 8% (15%) of the revenues.

¹ See Definitions, key financial ratios

² Other operating costs and expenses, less settlement costs and sales commission.

Distribution of Transaction Revenues by Client Location, SEK m

	Jan.-June 2003		Jan.-June 2002	
Sweden	41,3	61%	52,4	49%
Rest of Europe	10,3	15%	20,1	19%
U.S.	16,3	24%	34,7	32%
Total	67,9	100%	107,2	100%

Investments

Investments decreased to SEK 14.8 m (SEK 23.5 m). Of this amount SEK 13.9 m (SEK 17.6 m) was used to enhance NeoNet's electronic trading system. The investments correspond to 22% (22%) of the transaction revenues. Fixed assets include development projects in progress, primarily in respect of the new system platform, at SEK 29.8 m. Under the accounting principles applied by the Group, depreciation according to plan will commence when the system is taken into use, which for the new system platform is expected to be at the beginning of next year.

Liquidity and financial position

The Group had current liquid assets as of 30 June of SEK 129.5 m (SEK 164.5 at the beginning of the year). Of this amount, SEK 13.5 m consisted of a net claim (compared to a net debt of SEK 37.0 m at the beginning of the year) in settlement positions, temporary settlement loans and deposits with clearing houses. The liquid assets reported in the balance sheet thus amounted to SEK 116.0 m as of 30 June, compared to SEK 201.5 m at the beginning of the year. Fluctuations in liquid assets reported in the balance sheet are normal for this kind of business.

The Group has no interest-bearing liabilities other than intra-day settlement loans which are raised from day to day to cover delays in clients' payments or deliveries of securities. The duration of such loans is from the settlement date until settlement of the underlying transaction has taken place, normally less than three days.

The consolidated shareholders' equity amounted to SEK 200.3 m at the end of the period (SEK 228.1 m at the beginning of the year). The capital adequacy ratio amounted to 72% (92%). The consolidated equity/assets ratio was 56% (59%) and the equity per share amounted to SEK 4.59 (SEK 5.22).

In June 2002 the subsidiary, NeoNet Securities AB, joined other exchange members in taking legal action against the Stockholm Stock Exchange in a dispute over repayment of value added tax. NeoNet's share of the total claim amounts to a nominal amount of SEK 4.3 m. This amount has not been entered as an asset in the balance sheet.

The Group has a disputed claim of a nominal amount of SEK 10.2 m (EUR 1.1 m). At present no provisions are deemed necessary.

Financial objectives

The long-term financial goals are to be able to report annual revenue growth of at least 50% and in the long term, earnings before depreciation and net financial items of at least 25% of transaction revenues.

Outlook

The market volumes for stock trading have fallen sharply over a three-year period and despite signs of a brighter outlook in the market there is uncertainty about future trends, even in the short term.

Based on NeoNet's earlier development, NeoNet believes that the long-term financial objectives are entirely realistic and can be achieved in a market that is demonstrating a positive trend. The acquisition of Lexit will also help NeoNet reach its financial goals.

PARENT COMPANY

The parent company, which is not an operating company, carries out group-wide functions such as Group management, financial management, business development, investor relations and communication.

The parent company reported earnings before appropriations and tax for the period of SEK 0.3 m (0.0 m).

Equity in the parent company amounted to SEK 240.2 m (SEK 238.5 m) at the end of the period. The liquid assets as of 30 June amounted to SEK 3.3 m compared to SEK 2.9 m at the beginning of the year.

An extraordinary general meeting in July mandated the board to resolve to increase the company's capital stock during the period leading up to the next AGM by a maximum of SEK 500,000 through the issue of up to 10,000,000 new shares with a nominal value of SEK 0.05. The issue will be implemented with a provision concerning subscription in kind as part of the implementation of the company's acquisition of stock and warrants in Lexit Financial Group, Inc.

The purchase price for Lexit will comprise a combination of a cash payment and newly issued shares and is expected to amount to around USD 1.6 m in cash and around 8.2 million new shares. The sum will be adjusted somewhat depending on Lexit's results reported for the period 1 April 2003 up to and including 31 August 2003, but the adjustment is not expected to be substantial.

Definitions, key financial ratios
Transaction margin

Transaction revenues excluding billed-through services, less transaction costs (i.e. variable costs for settlement, variable exchange and clearing costs and sales commission), as a percentage of transaction revenues excluding billed-through services.

Operating margin

Operating earnings before net financial items (*) and depreciation as a percentage of transaction revenues.

Net margin

Operating earnings before net financial items (*) and tax as a percentage of transaction revenues.

Profit margin

Earnings after tax as a percentage of transaction revenues.

Average capital employed

Average total assets less average interest-free liabilities including deferred tax liability.

Return on equity

Net earnings for the period as a percentage of the average shareholders' equity for the period.

Return on capital employed

Earnings for the year after net financial items plus interest costs in relation to the average capital employed.

Equity/assets ratio

Closing shareholders' equity as a percentage of the closing balance of total assets.

Interest cover

Operating earnings for the period plus interest costs, divided by interest costs.

Debt/equity ratio

Closing balance of interest-bearing provisions and liabilities in relation to the closing balance of shareholders' equity.

Capital adequacy ratio

Total capital base divided by the total risk-weighted amount of capital requirements for credit and market risk (Swedish Financial Supervisory Authority stipulation FFFS 2000:6).

Earnings per share

Earnings after tax in relation to the average number of shares for the period.

Equity per share

The closing balance of shareholders' equity in relation to the number of shares at the end of the period.

Equity per share after full dilution

Closing shareholders' equity plus the upcoming issue of shares in relation to the number of shares after the issue of shares.

* Net financial items include realized and unrealized exchange rate differences on funds tied up in foreign currencies.

Accounting principles

The consolidated accounts have been prepared in accordance with Swedish legislation governing the annual reports of credit institutions and securities corporations (ÅRKL) and the Swedish Financial Supervisory Authority's stipulation FFFS 2002:22, applicable because the parent company is a financial holding company.

This interim report has been prepared in accordance with the Swedish Financial Accounting Standards Council's recommendation RR20 on interim reports. The new recommendations issued by the Financial Accounting Standards Council that went into effect on 1 January 2003 have not had any impact on NeoNet's income statement and balance sheet.

All other accounting principles are the same as those applied in the preparation of the most recent annual report.

Auditors' review report

(translation of the Swedish original)

We have reviewed this interim report in accordance with the recommendation issued by the Swedish Institute of Authorized Public Accountants.

A review is significantly limited in scope compared to an audit.

We have not discovered anything that would indicate that this interim report does not meet the requirements of Swedish legislation governing stock exchanges and annual reports.
